in the establishment. ***Content:*** Apprenticeship data are collected by trade or craft, by race/ethnic and sex category, and by year of apprenticeship. Data are also collected by graduates, dropouts, and applicants by race/ethnic category and sex. Information is also obtained on the operation of the apprenticeship programs. Data are reported annually on a nationwide basis, for any calendar week in August or September. ***Output:*** The output is hardcopy forms and statistical tapes. The output reflects total and minority group apprentices by sex, by year of apprenticeship, and total minority group applicants, graduates, and dropouts. Data depicted cover the period 1970-76, excluding 1975. Output is arrayed and aggregated geographically as well as by trade or craft. ***Availability:*** Individual employer reports are subject to confidentiality restrictions and are used only internally, by other Federal agencies and by State and local FEP agencies.

Agency Contact: Research Division; 2401 E St. NW, Washington, DC 20506; (202) 634-6474.

S02400-009

Local Union Report EEO-3.

OMB Funding Title/Code: Salaries and Expenses / 45-0100-0-1-751.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Discrimination in Employment; Employment; Equal Employment Opportunity; Labor Unions; Minority Employment; Unions.

Purpose: The system is to determine whether unlawful employment practices have been or are being committed by respondents. The requirement for the system is section 709(c) of Title VII of the Civil Rights Act of 1964 (as amended by the Equal Employment Opportunity Act of 1972). ***Input:*** Data are provided by all local unions with 100 or more members. Referral unions (unions which operate hiring halls or in a similar manner refer persons for employment) file a detailed report. ***Content:*** Data are collected on membership in referral unions by race/ethnic and sex categories. Data are also reported for referrals and applicants for membership by race/ethnic and sex categories. Referrals are reported for a 2-month period between August and November. Applicants for referral are reported for a 2-month period, and applicants for union membership are reported for the past year. ***Output:*** Output is primarily statistical tapes and hardcopies. Output principally displays the total and minority group membership, referrals, applicants for membership and referral, and sex. In addition, geographic and trade identification are reflected. ***Availability:*** Aggregated data are available to the public. Individual EEO-3 reports are subject to the Commission's confidentiality requirements, and are open only to other Federal agencies and State and local FEP agencies.

Agency Contact: Research Division; 2401 E St. NW, Washington, DC 20506; (202) 634-6474.

S02400-010

State and Local Government Information EEO-4.

OMB Funding Title/Code: Salaries and Expenses / 45-0100-0-1-751.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Discrimination in Employment; Employment; Equal Employment Opportunity; Government Employees; Local Governments; Minority Employment; State Governments.

Purpose: The system is to ascertain whether unlawful employment practices have been or are being committed by State or local governments. The requirements for the system is section 709(c) of Title VII of the Civil Rights Act of 1964 (as amended by the Equal Employment Act of 1972). ***Input:*** Data are provided by all State and local governments with 100 or more full-time employees annually. In addition, data are provided by a statistical sample of local governments with 15-99 full-time employees. ***Content:*** Employment data are collected by race/ethnic and sex categories by eight job categories and eight salary intervals for full-time employment. In addition, data are collected by race/ethnic and sex categories by the eight job categories for other than full-time employment as of the June 30 payroll period and new hires between July 1 and June 30. All data are reported by function. Data are reported for the payroll period which includes June 30 of each year. Geographic coverage is nationwide. The survey is conducted on an annual basis. ***Output:*** Output is in the form of computer listings and an annual publication. Computer generated output is arrayed: 1) Nationwide by function, by job category, by salary, showing race/ethnic group by sex, and 2) by State, by function, by job category, by salary showing race/ethnic group by sex, and special aggregations for research purposes. The annual publication depicts the minorities and women in State and local governments (both national and regional volumes are prepared from summary statistical tapes). ***Availability:*** Individual EEO-4 reports are subject to the Commission's confidentiality requirements and are used only internally, by other Federal agencies and some State and local FEP agencies. Aggregate listings and publications are publicly available.

Agency Contact: Research Division; 2401 E St. NW, Washington, DC 20506; (202) 634-6474.

S02400-011

Elementary and Secondary Staff Information EEO-5.

OMB Funding Title/Code: Salaries and Expenses / 45-0100-0-1-751.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Discrimination in Employment; Education; Elementary Education; Employment; Equal Employment Opportunity; Minority Employment; School Personnel; Secondary Education.

Purpose: The system is to determine whether unlawful employment practices have been or are being committed by respondents. The requirement for the system is section 709(c) of Title VII of the Civil Rights Act of 1964 (as amended by the Equal Employment Opportunity Act of 1972). ***Input:*** Data are provided by all elementary and secondary school districts with 100 or more employees (enrollment equivalents are used) and a sample of the smaller school districts. Reports are filed for each school within the covered districts. ***Content:*** Employment data are collected for 18 job categories by race/ethnic category and sex. Data are also collected on a limited number of job categories by race/ethnic groups and sex for part-time employees and new hires. Data are reported annually by all school districts with 100 or more employees (enrollment equivalent); school districts with fewer employees are required to submit the report on a less than annual frequency on a rotating basis, in such a manner that the smaller the district the less the frequency with which it is required to report. Data are provided for the payroll period closest to October 1 of the survey year on a nationwide basis. ***Output:*** Output is a photocopy of an EEO-5 report produced on 16mm film, which is usable with reader/printer machines. It provides computer output hardcopy: EEO-5 aggregate or nonconfidential data are arranged by geographic area with four pages of data for each area: 1) total employment by sex, by race/ethnic group, by job category, 2) total employment by sex within race/ethnic group by job category, 3) participation rates of full-time staff by sex within race/ethnic group by job category and 4) occupational distribution for full-time staff as in 3. Special summarizations show sex/ethnic identity of school principal and enrollment size. ***Availability:*** Microfilm copy of EEO-5 is disseminated to the Commission, FEP agencies, and Federal agencies. EEO-5 aggregate or nonconfidential data are available to anyone upon request.

Agency Contact: Research Division; 2401 E St. NW, Washington, DC 20506; (202) 634-6474.

S02400-012

Higher Education Staff Information EEO-6.

OMB Funding Title/Code: Salaries and Expenses / 45-0100-0-1-751.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Colleges, Discrimination in Employment; Education; Employment; Equal Employment Opportunity; Higher Education; Minority Employment; Universities.

Purpose: The system is to ascertain whether unlawful employment practices have been or are being committed by institutions of higher education. The requirement for the system is section 709(c) of Title VII of the Civil Rights Act of 1964 (as amended by the Equal Employment Opportunity Act of 1972). ***Input:*** Data are provided biennially by all institutions of higher education with 15 or more employees. ***Content:*** Employment data are collected by race/ethnic and sex categories by seven job categories and by salary intervals for 9-10 month contract, 11-12 month contract, less than 9-month full-time contract, and part-time and new hire employees. Employment data are as of the payroll period closest to October 1 for full-time and part-time data; between July 1 and September 30 for new hire data. In addition data are collected on faculty members with rank or tenure. ***Output:*** The output includes photographed copy of EEO-6 on 16mm film for use with reader/printer machines, computerized output-hardcopy, and special summarizations. ***Availability:*** Microfilm copy is available to the Commission, FEP agencies, and Federal agencies. Aggregate data will be available to anyone upon request.

Agency Contact: Research Division; 2401 E St. NW, Washington, DC 20506; (202) 634-6474.

S02400-013

EEOC Accounting System.

OMB Funding Title/Code: Salaries and Expenses / 45-0100-0-1-751.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Accounting, Budget Information Systems, Financial Management.

Purpose: This automated system compiles all fiscal information pertaining to appropriations passed by Congress for the operation of the Equal Employment Opportunity Commission. This system is supplemented by manually maintained records of receipts and budget plan accounts. ***Input:*** The compilation is of all obligations, delivered and undelivered orders, accounts payable, and disbursements. ***Content:*** This system is designed to report all obligations and receipts on a comparative budget vs expenditures by object class by all cost centers and activities. ***Output:*** Principal reports of the system are 1) Expenditure and Allotment Ledger Update Report (hardcopy, on request); 2) Status of Allotment Report, including Obligations by Object Class by Cost Center (hardcopy, monthly) and Obligations by Object Class by Activity (hardcopy, monthly); 3) Open Obligation Listing (hardcopy, monthly); and 4) Transactions by Cost Center Listing (hardcopy, monthly). ***Availability:*** Output is available to properly constituted auditors and Financial Service Division employees.

Agency Contact: Office of Financial Management; 2401 E St. NW, Room 3228, Washington, DC 20506; (202) 634-7046.

S02400-014

Work Measurement System (WMS).

OMB Funding Title/Code: Salaries and Expenses / 45-0100-0-1-7

Congressional Relevance: *House* Committee on Appropriatio State, Justice, Commerce and Judiciary Subcommittee; *House* Co mittee on Education and Labor; *Senate* Committee on Approp tions: State, Justice, Commerce, The Judiciary Subcommitt *Senate* Committee on Human Resources.

Subject Terms: Management Information Systems, Manpower Utilization, l source Allocation.

Purpose: The WMS provides management with information the efficiency of district office operations. Time spent by functio reported by district office personnel through the Work Measurem System. ***Input:*** System input consists of weekly reports of distr office staff time by function and monthly reports of charge proce ing activity (gross numbers only--no charge identification data) fr district offices, including processing activity of State and local F Employment Practices agencies. ***Content:*** Data on hours spent work function and output, where applicable, are produced quarte for each district office. Printouts show time spent in various admi trative categories and by work function and strategy. Average ti spent per charge in investigations and conciliations is calculated track productivity. ***Output:*** Printouts are produced quarterly on erage cost per work unit, distribution of worktime and output function and strategy, and productivity by function (investigati conciliation) and strategy. Reports are in table form. Query capa ity is limited to distribution of worktime by function and strate ***Availability:*** Printouts are restricted to internal management us

Agency Contact: Information Systems Division; 2401 E St. N Room 3043, Washington, DC 20506; (202) 634-6353.

S02400-015

Performance Management System (PMS).

OMB Funding Title/Code: Salaries and Expenses / 45-0100-0-1-7

Congressional Relevance: *House* Committee on Appropriatio State, Justice, Commerce and Judiciary Subcommittee; *House* Co mittee on Education and Labor; *Senate* Committee on Approp tions: State, Justice, Commerce, The Judiciary Subcommitt *Senate* Committee on Human Resources.

Subject Terms: Discrimination; Discrimination in Employment; Employm Government Litigation; Litigation; Management Information Systems.

Purpose: The System is a closed-loop management system for Developing program objectives, strategies, activities, and perf mance measures for all EEOC programs; 2) developing operatio plans and budgets; 3) developing future-year plans for budget form latio purposes; 4) reporting progress against plan; 5) reviewing p formance on a periodic basis; and 6) adjusting resource allocatic The scope of coverage is agencywide and is intended to prov program managers with information required for effective mana ment. ***Input:*** Information and data are provided by EEOC offi including the Commission's 32 district offices and 5 litigation c ters. Major categories of data include workload volume, syst throughput, output, and final results of program strategy. Data transmitted through an automated data system, the Work Measu ment System described elsewhere, and through manual reports. (***tent:*** The system includes the following for the 32 district offices a monthly basis: Charges received, charges investigated, charge pre-determination settlements, charges in no-cause findings, char in conciliations, charges in successful conciliations, charges clo administratively, persons benefitted, and dollar benefits. In addit monthly information by district office is prepared on results of State and local program, through which charges are deferred to l Employment Practice agencies. This includes the number of char received for EEOC review, the number resolved through State local action, and person and dollar benefits. Information on litigat centers is prepared quarterly by strategy. For other programs, in mation is prepared twice yearly as part of the review process. M year and year-end assessments are prepared on actual as compa with planned targets, along with an analysis of results and rec

mendations for future action. *Output:* Reports on district office activity are prepared monthly, primarily in table form. Reports on other activities are prepared quarterly or semiannually. All reports are hardcopy only. Query capability is limited to actual vs planned performance by program strategy and workload factors. *Availability:* PMS reports are restricted to internal management use.

Agency Contact: Program Planning and Evaluation Director; 2401 E St. NW, Room 4002, Washington, DC 20506; (202) 634-7056.

S02400-016

Five-Year Forecasting Model.

OMB Funding Title/Code: Salaries and Expenses / 45-0100-0-1-751.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Human Resources.

Subject Terms: Budget Information Systems; Costs; Forecasting; Manpower Utilization; Mathematical Models; Planning; Resource Allocation; Simulation.

Purpose: The model was developed in 1974 in response to the Congressional Budget and Impoundment Control Act of 1974, which requires 5-year budget estimates. The model is agencywide in scope and is used in developing policy options for the Commission and projections submitted to OMB on 5-year resource requirements. *Input:* Historical data maintained in the Complaint Statistical Reporting System (CSRS) and Work Measurement System (WMS), described elsewhere, are used in the model. Major categories of input data are charge receipts, program output, and productivity. These data are derived from field offices. *Content:* The model utilizes national aggregates for each year for charges received, charges in determination, charges in no-cause findings, charges in predetermination settlements or conciliations, charges in successful settlements, number of compliance reviews, and charges closed administratively. In addition, national averages for productivity in investigations and conciliations for each year are used in the model. Based on historical trends for these data and various policy assumptions, forecasts are developed for resource requirements for the next five years for the Compliance program. For other programs, estimates for workload factors and productivity are used for forecasting resource requirements. *Output:* Output is in the form of hardcopy tables and narrative. Policy alternatives and their implications for the next five years are provided to the Commission annually. Based on the policy direction selected by the Commission, operational and charge jurisdictional location). Through application of other for OMB use. Query capability is limited to manual manipulation of workload, output, and productivity factors in the model. *Availability:* Output is restricted to internal management use.

Agency Contact: Planning and Evaluation Division; 2401 E St. NW, Room 4002, Washington, DC 20506; (202) 634-7060.

S02400-017

Complaint Statistical Reporting System (CSRS).

OMB Funding Title/Code: Salaries and Expenses / 45-0100-0-1-751.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Discrimination in Employment; Employment; Equal Employment Opportunity; Government Employees; Management Information Systems; Manpower Utilization.

Purpose: The CSRS is an agencywide system to provide program managers with information on the charge workload by district office, including the volume of charges, the status of charges in the compliance process, and the disposition of charges resolved. *Input:* Records emanate from EEOC district offices when a complaint is filed and at each step in the compliance process. Information is maintained on the nature of the charge, on the charging party and respondent, and actions taken by EEOC. *Content:* The data identify the person(s) filing the complaint (charge), the person(s) against whom the complaint is made, receipt and filing dates for the charge, basis(es) and issues of the charge, geographic locations, and various significant stages in the complaint processing. The system can produce geographical data on selected keys utilizing Standard Metropolitan Statistical Area (SMSA), Standard Industrial Classification (SIC), State and county codes. Other selected data on charging party and respondent identity embedded in the data file are available for selective analysis. *Output:* Reports consist of various arrays and/or totals crossfooted by major data elements such as basis(es) of charge, issues, type respondent, respondent name, date charge received, filing date, charging party name and charge number (selected by charge jurisdictional location). Through application of other programs, the system can produce such information as average elapsed time between major EEOC actions as well as average time required for 706 deferral agency action. *Availability:* Selected tabular segments of output are available in recurring issues of EEOC Annual Report, published by the Office of Public Affairs. Information on respondents and charging parties is confidential.

Agency Contact: Information Systems Division, 2401 E St. NW, Washington, DC 20506; (202) 634-6354.

S02400-018

Litigation Case Information System (LCIS).

OMB Funding Title/Code: Salaries and Expenses / 45-0100-0-1-751.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Caseloads; Discrimination in Employment; Employment; Equal Employment Opportunity; Government Litigation; Litigation; Management Information Systems.

Purpose: The system is to provide the management personnel of the Office of General Counsel (GC) with meaningful information relative to its case processing workload. The system is designed to uniformly and routinely record, classify, and summarize data relative to the CG's caseload while establishing and maintaining accountability of cases, recording changes in case status, and compiling case abstracts. The scope of coverage is agencywide. The system is designed to be of primary use to the management personnel of the Office of General Counsel. *Input:* Initial case input data and subsequent case status changes are extracted from EEOC charge case file folders by regional and headquarters docket technicians. The technicians record prescribed information upon receipt of each case folder and enter update information reflecting status changes as they occur. *Content:* The content begins with the number and identity of cases received in the Office of General Counsel for review. Information includes summaries of case status progress (at predetermined intervals) and summaries of case dispositions. Input is continuous; summaries are conducted monthly. Each case is coded to denote which of the five CG regional offices received the case, the fiscal year, and the sequence. LCIS is presently a manual system designed to satisfy the unique information needs of the Office of General Counsel and is tailored to work within the existing framework established by the OGC manual as revised. LCIS also provides for an interface with the EEOC Complaint Statistical Reporting System. *Output:* The principal output is the monthly case inventory balance report provided by the regional office and the major CG headquarters functions. These are manually prepared reports summarizing the CG's present case workload. However, controls within the system are such that detailed listing of cases in predefined status can be generated with a minimum of clerical effort. Additionally, retrieval of individual case status and location is facilitated through the use of the procedure. *Availability:* Output is restricted to internal use only.

Agency Contact: Office of General Counsel; 2401 E St. NW, Room 2261, Washington, DC 20506; (202) 634-6132.

EXPORT-IMPORT BANK OF THE UNITED STATES

S02500-001

Loan/Guarantee Master File.

OMB Funding Title/Code: Export-Import Bank of the United States/ 83-4027-0-3-155.

Congressional Relevance: *House* Committee on Appropriations: Foreign Operations Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Appropriations: Foreign Operations Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Accounting; Banks; Exports; Government Lending; Imports; International Banking; Loans.

Purpose: The Bank was organized in 1934. Its programs are authorized under the Export-Import Act of 1945, as amended. The purpose of the Bank is to aid in financing and to facilitate U.S. exports and imports. The major functions of this system are to provide accounting control of the Bank's operations, provide a data base from which statistical reports can be generated, and produce fiscal accounting and program activity reports. *Input:* The data are derived from actions taken by the Bank's Board of Directors on loan, guarantee, and insurance applications and from data such as disbursements and repayments produced in the process of servicing the approved loans, guarantees, and insurance. *Content:* The master file consists of a master record of all loans and guarantees authorized by the Board of Directors. The major basic data are the credit or guarantee number, country and name of borrower, guarantor, product, and Eximbank interest rate and terms. The file reflects such accounting data as contract value, cash payment, and exporter and commercial bank participation in each transaction. It also includes financial data on the Exim loan or guarantee, i.e., cancellations, disbursements, repayments, accrued and paid fees, and interest. Some statistical data are updated daily; the accounting data are updated at the end of each month. *Output:* Some of the reports are monthly, others are on different time schedules such as quarterly. The principal output is the loan and guarantee statements, balance sheet and income statements, and various internal accounting and control reports. *Availability:* Some of the systems' output, such as the loan and guarantee statement, are publicly available.

Agency Contact: 811 Vermont Ave. NW, Washington, DC 20571; (202) 382-2152.

FARM CREDIT ADMINISTRATION

S02600-001

Securities Accounting Subsystem.

OMB Funding Title/Code: Revolving Fund for Administrative Expenses / 78-4131-0-3-351.

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Appropriations: Agriculture and Related Agencies Subcommittee; *Senate* Committee on Agriculture, Nutrition, and Forestry; *Senate* Committee on Appropriations: Agriculture and Related Agencies Subcommittee.

Subject Terms: Accounting; Agricultural Credit; Banks; Bonds; Farm Credit Banks; Securities.

Purpose: The general objective is to provide an automated means of accounting for funds transfers associated with cash and securities transactions and related activities. The major functions of this system are to generate general ledger transactions that correspond to cash and security transaction settlements or security ledger entries and to enter security transactions and maintain security holdings corresponding to the debt participations of individual Farm Credit Banks. *Input:* The data are internally generated data on maturities, issues, retirements, interest, and principal, and wire advices from the Federal Reserve Bank of New York and Fiscal Agency. *Content:* The system contains detailed information on the bonds issued and outstanding for the banks of the Farm System. These include such items as: CUSIP number, issue date, coupon rate, maturity date, series, price, transaction number, accounting file, issuer, settlement date, and par value. *Output:* System output is produced monthly and includes ledger account activity reporting, transaction activity summary report, detail bond monthly activity report, and summarized bonds outstanding reports. *Availability:* The detailed reports are not publicly available as they are primarily used to meet internal information requirements; however, summarized monthly bond facts reports are available to the public.

Agency Contact: Administrative Division; 490 L'Enfant Plaza East SW, Washington, DC 20578; (202) 755-4394.

S02600-002

FCA Financial and Statistical Reports.

OMB Funding Title/Code: Revolving Fund for Administrative Expenses / 78-4131-0-3-351.

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Appropriations: Agriculture and Related Agencies Subcommittee; *Senate* Committee on Agriculture, Nutrition, and Forestry; *Senate* Committee on Appropriations: Agriculture and Related Agencies Subcommittee.

Subject Terms: Agricultural Credit; Banks; Financial Statements; Government Lending; Loans.

Purpose: The Farm Credit Act of 1971 prescribes that the FCA will report annually to Congress on the activities of the Farm Credit System. FCA also uses financial and statistical data in performance of its supervisory activities. The system reports the financial condition of the Federal Land Banks and Federal Land Bank Associations, the Federal Intermediate Credit Banks and Production Credit Associations, and the Banks for Cooperatives. *Input:* The Farm Credit Institutions are the source of all system input. *Content:* Standard financial information is provided by the banks of the Farm Credit System to the Farm Credit Administration. *Output:* Loans are reported monthly; all other standard financial information such as statements of condition, earnings statements, operating expenses, and various supporting schedules are submitted semiannually. *Availability:* All consolidated reports are available to the public.

Agency Contact: Administrative Division; 490 L'Enfant Plaza East SW, Washington, DC 20578; (202) 755-4394.

FEDERAL COMMUNICATIONS COMMISSION

S02700-001

Interconnection Registration Program System (CIC).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Equipment; Inventories; Telecommunications Equipment.

Purpose: The program is a shared system between the Laurel Labs, Office of the Chief Engineer, and the Common Carrier Bureau. The automated system will capture application data via a key-to-disk entry system. The data will be used to produce public notices when an application is filed and when action is taken and to produce an up-to-date list of registered equipment for reference use and public inspection. The system will be capable of searching for and retrieving all the trade name and model numbers under which a given piece of equipment is marketed so that if, after registration, the equipment is

found to be defective, all units can be readily identified and disconnected from the network. Additionally, the system will generate a current inventory of pending applications for use in providing timely and accurate responses to public inquiries as well as providing statistical and internal management control information. ***Input:*** The data are derived from Application for Equipment Authorization, FCC Form 730, submitted by all Interconnection Equipment Owners or Manufacturers seeking authorization of equipment. ***Content:*** These data cover ownership, type of equipment, type of applicant, trade name, and model number of equipment. ***Output:*** Principal system output is public notices and the Registered Equipment List. ***Availability:*** Public Notices and the Registered Equipment List are available to the public via the FCC Reference Room and NTIS.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-002

Common Carrier Microwave Applications Processing System (CMW).
OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Common Carriers, Licenses, Microwave Radio, Telecommunications

Purpose: The system is being implemented for the Domestic Transmission Systems Branch of the Common Carrier Bureau. A remote data entry system (Entrex-based) will automate most clerical functions in applications processing for Microwave Radio Service from common carriers. The system generates public notices, construction permits, licenses, and other processing documents. It will create and maintain an accurate data base which will provide a capability for evaluating application data and providing a variety of management information reports. ***Input:*** The data will be derived from Application for Common Carrier Microwave Radio Station Construction Permit, FCC Form 435, and Application for Common Carrier Microwave Radio Station License, FCC Form 436, submitted by all common carrier radio station licensee permittees. The data base is updated weekly. ***Content:*** Data contained in this file cover administrative and technical engineering information. Specifically, there is frequency path information, receive station information, transmitter information, antenna information, and transmit station information concerning the station covered by the application. ***Output:*** System output includes construction permits, licenses, and public notices. ***Availability:*** All output products are available to the public via the FCC Public Reference Room and NTIS.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-003

Common Carrier Interconnection Glossary (CIG).
OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Common Carriers, Glossaries

Purpose: This is an alphabetical list of interconnection terms and definitions. Produced by the Data Automation Division from unedited source material, it involved purging an existing Mitre Glossary and reprogramming update capabilities. The final version has been edited down to approximately 600 entries and is printed on standard 8 1/2 x 11 inch sheets. The revised glossary was the first document produced on the Xerox 1200. The glossary will be included in the PBX Advisory Committee's final report to the Commission with a recommendation that it be published as an FCC document. The published glossary will satisfy the need for a current and concise reference for both Commission and industry use. ***Input:*** The data were developed by the Common Carrier Bureau-PBX Advisory Committee in an effort to satisfy the need for a current and concise reference for both Commission and industry use. ***Content:*** The data consist of an alphabetical listing of interconnection terms and definitions. The data base is updated on a requested basis. ***Output:*** The principal reports are an Interconnection Glossary Transaction Listing and an Interconnection Glossary. ***Availability:*** The transaction listing is for internal use only. The Interconnection Glossary is available to the public via the FCC Reference Room and NTIS.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-004

Land Mobile Individual Processing System (CIL).
OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Licenses, Radio

Purpose: This license processing system is an automated system for processing individual subscriber applications for Land Mobile Radio Services. The system maintains current data on all individual air and ground mobile authorizations, produces the license document, and provides a monthly listing of all valid license holders by call sign and by name. ***Input:*** Data are derived from the Application for License, FCC Form 401, submitted by owners of transceivers to be used for private use in automobiles and aircraft. ***Content:*** The coverage includes the data that appear on individual subscriber licenses. Owner, address, carrier, frequency, power, model of transmitter, and area of operation. The data base is updated semiweekly. ***Output:*** Principal output includes licenses, master listing of data base, and a deletion report. ***Availability:*** All output products are available to the public via the FCC Reference Room and NTIS.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-005

Land Mobile Base Station Processing System (CLM).
OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Common Carriers, Licenses, Radio, Telecommunications

Purpose: This system processes applications for Domestic Land Mobile Radio Service from Wire and Radio Common Carriers. The system will generate required public notices, construction permits, licenses, modifications, and station file jackets. It also will provide positive control over the entire processing procedure and maintain a record of all transactions. With a complete data base, which will provide access to information on any current authorization, the system will be capable of providing a comparison and evaluation of engineering data, management reports, information reports, workload statistics for the Division, and McFarland Reports. ***Input:*** The data are derived from the Application for Construction, FCC Form 401, and Application for Modification of Construction Permit or License, FCC Form 403, submitted by users of "Common Carrier

Land Mobile Spectrum.". ***Content:*** These data describe Land Mobile Communication Service provided by common carriers. Data are categorized by three processing stations: pending phase, under construction, and licensing. Each communication system is described according to ownership, location data, antenna data, common transmitter data, and their interrelationship. The data base is updated semiweekly. ***Output:*** Output includes construction permits, licenses, public notices, and an interference analysis report. ***Availability:*** All reports are available to the public via FCC Public Reference Room and NTIS.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-006

Non-Government Frequency Data Base (EFS).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Licenses, Radio Frequency Allocation.

Purpose: This batch/mode system creates and maintains, on a continuing basis, a comprehensive data base containing the FCC's non-Government frequency assignments. The National Frequency data base provides the FCC with the information needed to perform spectrum analysis and allocation. Additionally, the file is used in support of all U.S. treaty-reporting requirements. ***Input:*** The data are derived from granted licenses and construction permits from all FCC bureaus with the exception of citizens band licenses. ***Content:*** The data cover all frequencies of non-Government granted licenses with the exception of citizens and Marine band licenses. Data are accumulated from all license application forms. The data base is updated monthly. ***Output:*** This system generates the following output: Master frequency report by frequency; master frequency report by service; cross reference indexes by call sign, frequency, and State; and magnetic tape of all data required to meet the coverage of A-Line treaty with Canada. Output media include hardcopy, microfiche, and tape. ***Availability:*** All output products are available to the public via the FCC Public Reference Room and NTIS.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-007

Monitoring Observations–EMT.

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Radio; Telecommunications; Telecommunications Monitoring

Purpose: The system is the means by which the FCC collects statistics from surveillance of the air waves by its field office monitoring stations and by stations of domestic based international communications systems, such as RCA and ITT. ***Input:*** The stations record information including the frequency band, date, and time when a call sign is heard, and the observations are mailed to the FCC on FCC Form 955. ***Content:*** The data are gathered by monitoring stations' surveillance of the air waves. They are mailed to the FCC from all FCC monitoring stations, compiled, and added to the master file. The data are then listed and mailed to Geneva for publication by IFRB (International Frequency Registration Board). The data base is updated monthly. ***Output:*** The principal output of this system is the monthly validation report, the quarterly data base listing, and the monthly Geneva (monitoring observations) listing. ***Availability:*** The Geneva listing is published for ITU (International Telegraph Union). The monthly validation report and quarterly data base listing are for internal use only.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-008

Radio Equipment List (ERE): Equipment Acceptable for Licensing.

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Equipment; Licenses; Radio; Telecommunications Equipment

Purpose: The list, containing entries for transmitting equipment considered acceptable for licensing, is published semiannually by the Commission. The determination of additions to or deletions from the list is a function of the Equipment Authorization Branch, Laboratory Division, in the Office of the Chief Engineer. ***Input:*** The data are derived from the Application for Type Acceptance, FCC Form 731, submitted by all radio equipment manufacturers seeking authorization for transmitting equipment acceptable for licensing. ***Content:*** The data cover the elements by manufacturer, equipment type, frequency range, and transmitting power to transmitting equipment. The manufacturers apply to the FCC to have their equipment listed as acceptable for licensing. Radio stations may use equipment that the FCC has listed. The list is updated annually, on-line, and published semiannually. ***Output:*** The principal reports are the semiannual Public Notices, semiannual Gray Book (equipment acceptable for licensing) Report, and the monthly supplement to the Gray Book Report. ***Availability:*** The semiannual Public Notices and Gray Book Report are available to the public via the FCC Reference Room and NTIS. The monthly supplement to the Gray Book Report is for internal use only.

Agency Contact: Data Automation Division, 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-009

FCC Docket 18261 (SBA).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Licenses; Radio Frequency Allocation; Radio Stations; UHF Television

Purpose: Docket 18261 defines the action to manage seven lower UHF TV frequencies allocated to Land Mobile Radio Services on a shared basis and relieve frequency congestion in the top 13 urban areas of the United States. Phases I and II provide design and modification assistance to automate and maintain an applicant licensee data file. Phase III requirements for project modification address the need for a series of technical engineering checks to validate license applications and use certain radio frequencies made available under Docket 18261. ***Input:*** The data are derived from the Application for Radio Station Authorization, FCC Form 425, submitted by all businesses or individuals requesting a license. Certain supplemental technical engineering data are completed and returned on an information sheet. ***Content:*** The data base contains name of applicant, address of applicant, address or location of principal station, type of applicant, class of station, number of mobile radios, location of control

points, number of systems, output power, antenna characteristics, site elevation, and the engineering data. Data are submitted by applicants throughout the continental United States on a daily basis. A normal update cycle occurs three times a week. *Output:* Output includes application status, license status, statistical data, license identification, notices, and systems inventory. *Availability:* Licenses and reports are available to the public for inspection via the FCC Reference Room.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-010

Restricted and Commercial Operators Permits (FRC).
OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Licenses; Operator Permits; Permits; Radio.

Purpose: This file contains all Commercial and Restricted Operator permit holders approved by the Federal Communications Commission. Individual name, birth date, grant date, process date, and serial number of equipment (Commercial only) are the only elements resident in the file. *Input:* Input is derived from FCC Forms 756-B and 753, Part II, submitted by individuals desiring permits. *Content:* The data file is updated weekly. Annually, the aged permits are stripped and merged with a historical file. *Output:* Statistical reports are produced quarterly. A microfiche master file is listed semiannually with supplements produced monthly. In addition, a microfiche master of the historical data is produced annually. *Availability:* The master file is available through NTIS on demand. Output reports are for internal use and are unclassified.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-011

Activity Report System (DAR).
OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Manpower Utilization; Productivity; Resource Allocation.

Purpose: The system provides a method whereby the manpower costs of FCC programs, services, and activities can be accurately determined. The reports provide data for a continuous analysis of the distribution of man-hours among organization units, communications services, and programs for productivity measurement and analysis and for related budget and management purposes. *Input:* Employees of designated bureaus and Offices prepare individual forms semimonthly depicting what specific programs and activities their time is used for. FCC Form A-315, Individual Activity Report, is the primary input. The past 12 months' cumulative data are also input each cycle. *Content:* The data reflect a summary of all time expended by organizational entity program and activity code. These data are accumulated for 12 months semimonthly. The file is updated semimonthly; reports are produced monthly. *Output:* Output is produced monthly in hardcopy. Primary reports are the Bureau Summary of Activities by Organization, Monthly Activity Report Summary, Division Detail by Activity/Subactivity, Bureau Summary of Programs by Organization, Monthly Program Report Summary, and Division Detail by Program. *Availability:* All reports are available to the public.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7133.

S02700-012

Resources Management System (DRM).
OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Accounting; Budget Information Systems; Financial Monitoring; Management Information Systems

Purpose: The system is an integrated budgeting, accounting, reporting, and financial management system. The primary purpose is to monitor actual expenditures by budget line item against the planned/established spending pattern of the Federal Communications Commission. Major categories of data processed by the system include, but are not limited to, budget allocation by program, by function, expenses, expense targets, obligations, accrued expenditures, and disbursements. *Input:* All data are provided by the Finance Branch via use of coded transaction by obligation account number and expense element. Additionally, an automated interface with the payroll system permits input of compensation and benefits expenditures. *Content:* The system copies all facets of the Commission including all field offices expenditures. Updates are accomplished three times weekly and the month-end processing begins when all current month transactions are encoded. *Output:* Reports produced are the RMS Monthly Management Report, which depicts for each operating budget account number by expense element, the actual expenditures versus planned expenditures for a given quarter and to-date; Expense Element Totals Report, which lists the status of each expense element by operating budget account number; RMS Detail Report, which lists all transactions that have occurred to date against each operating budget account number; and RMS Document Total Report which lists for each operating budget account number, by expense element, those transactions which are incomplete or not finalized. In addition, the obligations, expenditures, commitments, encumbrances, balances, and targets for each expense element are totaled and reported. *Availability:* Reports are available to the public. They are currently used internally only.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-013

Antenna Survey System (FAS).
OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Antennas; Licenses; Towers (Telecommunications).

Purpose: This system is used to maintain data relative to FAA clearance notices, FAA pending applications, and tower structures. The primary purpose is to assist the Antenna Survey Branch of the Field Operations Bureau in the analysis of applications requiring antennas. The system has on-line update/retrieval and batch update capability. On-line retrieval capability is planned for other users within the Federal Communications Commission. *Input:* Data are derived from applications for new tower structures. *Content:* The file contains data on all tower locations by latitude, longitude, height above ground level, height above sea level, and address. FCC file number and date, FAA docket number and date, and painting and lighting specifications are also included. The file is updated daily. *Output:* Reports and listings are produced in hardcopy, Xerox 1200,

and microfiche. Query capability also exists. Listings are produced on towers, clearances and pending data files. Statistical reports are also produced. *Availability:* Reports are produced for internal use only.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-015

Legal Index System (GLI).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce. The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Decisions, Indexes, Litigation.

Purpose: This file is maintained to provide five indices pertinent to all legal matters that are handled by the Federal Communications Commission staff: Subject digest, main parties and case name, status and rules, call sign, and location. These indices are computer processed and forwarded to the Government Printing Office for processing by the Electronic Photo-Composition Division where they are used with pamphlets (signatures) prepared by The Office of the Secretary, OED, to make up bound volumes for the FCC and the public. *Input:* Input is coded data for the digest, main parties, case name, and descriptors. All data are internally generated; the digest is limited to 420 characters. *Content:* The data files are updated periodically as FCC pamphlets are prepared. Coverage is restricted to FCC decisions. *Output:* Primary output is magnetic tape for GPO processing. Hardcopy listings are provided for correction of data, proofs, and descriptor lists. *Availability:* Output is available for public use; however, most of the products are used internally. Hardcopy data are available to public in bound volume and pamphlets.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-016

Microwave Applications Processing System (SMAPS).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Licenses, Microwave Radio, Radio Stations, Telecommunications.

Purpose: The system was established to provide an automated system to maintain records and create an integrated data base of management information pertaining to the application, engineering studies, and granting of an authorization to operate a microwave radio station or stations. By law, all applicants who file under this radio service are required to conduct an interference study before constructing a microwave station. Therefore, this data base will be provided to the public. *Input:* The data are derived from FCC Form 402, Application for License in the Private Operational Fixed Microwave Radio Service, submitted by a private organization that desires to construct a microwave station. Private citizens or organizations throughout the United States desiring operational fixed radio stations submit applications daily. *Content:* The system contains information concerning actual or proposed geographic location of the radio station as well as technical operating parameters highlighting power of emissions, direction of emissions, and specific data concerning the equipment used/to be used. Such data are reviewed to determine the adequacy of the station for its purpose and its potential to interfere with air navigation and/or other radio station emissions. The result of the review determines whether an application is granted, denied, or returned to the applicant for adjustments. *Output:* The principal output is the pending application summary report and the management time in process report. Output is hardcopy and microfiche. *Availability:* A magnetic tape file of the entire data base will be provided to NTIS upon request.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-017

Citizens Radio Service System (SZZ).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-4

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce. The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Citizens Band Radio, Licenses, Radio Stations, Telecommunications.

Purpose: The system was established to maintain records, issue licenses, and produce reports pertaining to stations authorized in the Citizens Radio Service under Part 95, FCC Rules and Regulations. The major functions of the system are to validate all input data, add new stations to a master file, modify existing stations on master file, issue licenses authorizing use in this service and produce management information reports. *Input:* The primary source of input is FCC Form 505, Application for Class C or D Station License in the Citizens Radio Service, submitted by the public. *Content:* The information contains name of applicant, date of birth, address of applicant, names of partners, address or location of principal station, type of applicant, class of station and number of transmitters. As applications are received, they are key-entered. The master file is updated and licenses produced semiweekly. Management reports are produced semiweekly, monthly, and semiannually. *Output:* Reports generated include Citizens Radio Service License (semiweekly, hardcopy), Citizens Radio Service Cumulative Report (semiweekly, monthly, semiannually, microfiche) Citizens Radio Service Transaction Listing (semiweekly, microfiche), and Citizens Radio Service Statistical Report (monthly, hardcopy). *Availability:* The following are available to the public, either directly or through NTIS: Citizens Radio Service License, Citizens Radio Application input transactions (magnetic tape), and citizens radio service master file (magnetic tape and microfiche).

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-018

Amateur Radio Service (SHZ).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-4

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce. The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Amateur Radio Stations, Licenses, Radio, Telecommunications.

Purpose: The system is for accurately maintaining an automated data base through validating input data, creating new records, reviewing call signs, applying changes to current records, and producing statistical reports. By efficiently executing the above functions, the system is capable of processing applications and issuing licenses. *Input:* The data are derived from the Application for Individual Amateur Radio Station and/or Operator License, Form 610, and Application for Alien Amateur Radio Licensee for Permit to Operate in the United States, Form 610-A. *Content:* This system's wee

cycle produces licenses as well as transaction error listings and an update transaction tracking list. Work is continuing on improving the efficiency of this system in order to expedite processing. *Output:* Selected reports are generated semiweekly, weekly, monthly, and annually both in hardcopy and microfiche. Generally, the reports reflect amateur licenses and associated call signs and depict both statistical and cumulative data. *Availability:* All output is publicly available through the FCC Public Reference Room or NTIS.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

SG2700-019

Aviation License Processing System (SAZ).
OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Aircraft Radio; Licenses, Radio; Telecommunications.

Purpose: This system processes applications and issues licenses for aircraft radio. Its weekly cycle produces licenses, shorthand renewals, expiration notices, and supersede notices as well as transaction error listings and an update transaction tracking list. *Input:* Data are obtained from the public on FCC Form 404, Application for Aircraft Radio Station License. *Content:* Data records are updated weekly and include station and license identification, mailing address, radio frequency, issue and expiration dates, and various codes. *Output:* Output is generated weekly and monthly. Generally, the output includes, but is not limited to, history readout, supersede notice, cross index station printout, expiration notices, land mobile/fleet listing, and statistical summary report. *Availability:* The data base is available through magnetic tape or microfiche from NTIS.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

SG2700-020

Marine License Processing System (SMZ).
OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Licenses, Marine Radio, Radio; Telecommunications.

Purpose: This system processes applications and issues licenses for marine radio. Its weekly cycle produces licenses, shorthand renewals, expiration notices, and supersede notices as well as transaction error listings and an update transaction tracking list. *Input:* Data are obtained from the public on FCC Form 501, Application for Ship Radio Station License, and FCC Form 502, Application for Ship Radiotelephone and/or Radionavigation Station License. *Content:* Data records are updated weekly and include station and license identification, mailing address (all items do not contain ZIP code), radio frequency, issue and expiration dates, and various codes. *Output:* This system routinely generates weekly, monthly, and quarterly reports in hardcopy and microfiche. Output includes the following lists/reports: Transaction tracking, ship station license, supersede notice, expiration notice, statistical summary, marine master cumulative ship, and marine master purge. *Availability:* The reports are for internal use only. The data base is available through magnetic tape or microfiche from NTIS.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

SG2700-021

TV Annual Programming Data File (BPG).
OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Broadcasting, Commercial Television; Television Programs.

Purpose: The system was established to provide an electronic data processing facility to maintain records and create a data base of management information pertaining to the allocation of available TV broadcasting time to specific program categories. The major functions of this system are to validate all input data, add new stations to the master file, apply changes to previously established master records, create exceptions whenever invalid data are discovered, and produce various statistical reports. *Input:* The data are derived from the Annual Programming Report FCC Form 303A, submitted by all commercial television licensee's permittees. *Content:* The data cover a typical broadcasting week and are broken out in general categories, i.e., news, public affairs, all others. It is further categorized by the time brackets within which the programming occurred, and a differentiation is made as to the times allocated to all programs versus local programs only. The data are accumulated by year and the most recent two years are shown side-by-side for each station on the Annual Composite reports by Market and or State. *Output:* Output is produced annually and includes the Annual Composite Report by Market and the Annual Composite Report by State. *Availability:* Reports are reduced and printed for general distribution to the public.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

SG2700-022

Master Log-in System (BLG).
OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Broadcasting, Commercial Radio; Commercial Television; Public Radio; Public Television; Radio Broadcasting; Television Broadcasting.

Purpose: The system was established to provide a master station file containing descriptive information for each commercial and noncommercial radio and TV broadcast station. The major function of the system is to facilitate handling of the numerous FCC forms received each year by the varied survey report systems, i.e., EEO, financial, TV annual programming. A number of subsidiary functions have been included which simplify the logistics to control the systems. The data, though separately maintained, are shared by each of the survey systems. In addition to providing the common descriptive data to these systems for report purposes, the log-in system provides mailing labels for initial mail-outs, logs in receipt of the survey forms as they are processed by the host systems and can, one demand, identify and/or produce mailing labels or listings of nonreporting (delinquent) stations. *Input:* The data are derived from the following survey reports: Form 324, Annual Financial Report of Commercial Stations; Form 395, Annual Employment Report of All Stations, and Form 303A, Annual TV Programming Report. *Content:* The file contains current information for each broadcast station concerning call letters, mailing address, market metropolitan area and code, community served, community State and code, county, population code, and status code. Since the set of stations required to submit the annual survey reports varies with respect to the type of survey and

the required filing date, temporary system log-in files, applicable to the survey in progress, are created for each of the reporting systems. The format of the system log-in files is identical to that of the master station file. When a particular log-in system is updated, the same transactions are used to update the master station file to insure that the files and systems using the files remain compatible. The system log-in files are then used as input to each survey report system, with a code inserted as each record is processed to indicate that the station has filed the required report. Data from the system log-in file are also used to update the EEO and Broadcast Financial Master files. ***Output:*** This system generates the following: Temporary System Log-in files (EEO, Financial and TV Programming), output as tape files with records sorted to the sequence matching the particular report system; hardcopy listing of the master station file containing all elements of the file; and hardcopy delinquent report listing file number, call sign, class of station, and mailing address of all nonreporting stations from a particular survey system log-in file. ***Availability:*** The master station file is publicly available through NTIS.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-023

Equal Employment Opportunity (BEE).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Applications, Discrimination in Employment, Employment Practices, Equal Employment Opportunity, Minorities, Radio, Televi-

Purpose: The system was established to create and maintain an EEO data base which contains statistical data reflecting the distribution of employees by sex and selected minority groups in commercial and noncommercial broadcasting stations. The major function of the system is to generate various statistical reports which are indicative of overall minority employment trends over a 5-year period. The reports, which are published annually, are used to review the fair employment practices in the broadcast industry and are available to the public. ***Input:*** The data are derived from the Annual Employment Report, FCC Form 395, which is submitted by licensees and permittees of commercial and noncommercial broadcasting stations. ***Content:*** The data cover actual employment statistics for total employees, total male and female employees, minority group employees, male and female in designated job categories (i.e., officials and managers, professionals, technicians, sales workers, office and clerical, craftsmen, operatives, laborers, and service workers). These data are submitted separately for full-time paid and part-time paid employees. The data are accumulated by year and the most recent five years are included in annual reports which provide employee statistics in total numbers and of percentages by other market and by State. ***Output:*** Hardcopy reports are produced annually. These reports, which are categorized by market, State, community unit, and by class of station, depict current and [illegible] years statistics for minority employment. The [illegible] summarized by either [illegible] and lower [illegible] ces, in either total [illegible] percentages. ***Availability:*** Reports [illegible] bution and NTIS.

Agency Contact: [illegible] 1919 M St. NW, [illegible]

S02700-024

[illegible] Code: [illegible]

Relevance: [illegible] Appropriations [illegible] Subcommittee; *House* Committee on [illegible]; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Commercial Radio; Commercial Television; Financial Monitoring; Telecommunications.

Purpose: The system was established to provide an automated facility to maintain records and create a data base of information pertaining to the financial status of commercial broadcasting stations including networks. A number of financial reports are produced to support the regulatory functions of the FCC staff. In addition, a public notice pertaining to the state of the broadcast industry, accompanied by a wide variety of tabularized pertinent statistical data is published annually. ***Input:*** The information is derived from the Annual Financial Report of Networks and Licensees of Broadcast Stations, FCC form 324, which is submitted by all commercial radio and TV broadcasting stations and networks. ***Content:*** The data range from revenues generated by sale of station time and other sources to all categories of expenses and income. In addition, full- and part-time employment data are submitted. Cost and depreciation data pertaining to all tangible properties owned and devoted exclusively to broadcasting service are included in the report. Data are displayed in various reports in categories by class of broadcasting service, i.e., AM, FM, TV, UHF, as well as by market and metropolitan area. ***Output:*** Hardcopy reports are produced annually and are categorized by class, i.e., radio and TV. Within these categories, the data are separately displayed in detailed and summarized format to depict revenues, expenses, income, employment, investments, profit/loss markets, and metropolitan areas. ***Availability:*** Those reports not classified "Confidential - FCC" are reduced and printed for public reference. In addition, selected data are incorporated in a public notice pertaining to the state of the broadcast

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-025

AM Data Base Update (BAM).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: AM Radio Stations, Radio Stations.

Purpose: The system is designed to maintain and update the AM engineering data base which is used to support the AM Channel Studies. The system is presently confined to nighttime notified AM radio stations. ***Input:*** The data are derived from FCC Form 301 and notification change lists supplied under NARBA and MEXICAN agreements. ***Content:*** The data cover the operating parameters of AM stations and are used as input to interference channel studies performed by the AM Channel Study System. Data are maintained for all nighttime notified stations by frequency, location, latitude, and longitude. ***Output:*** Updates are performed on demand by FCC engineers; hardcopy reports are working papers showing results of update. ***Availability:*** Reports showing essential file maintenance activity are for internal use by the FCC engineering staff who updated the file. The data base is available from NTIS on demand.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-026

AM Channel Studies (BDC).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: AM Radio Stations; Radio Stations.

Purpose: This is a batchmode system to provide a full technical engineering capability for the proponent to perform a wide range of channel interference studies between proposed new or changed AM stations and already existing stations. Included is the capability to initiate the North American Radio Broadcasting Agreement (NARBA) and Mexican Radio Broadcasting Agreement (MEXICAN) Foreign Channel Studies. The system is presently confined to nighttime notified AM radio stations. ***Input:*** The data are derived from FCC Form 301, Application for Authority to Construct a New Broadcast Station or Make Changes in an Existing Broadcast Station, submitted by all AM licensees, permittees and notification lists submitted under NARBA and MEXICAN agreements. ***Content.*** The data cover the operating parameters of the AM stations, e.g., frequency, transmitter location, power. The engineering data of the stations are compared against the data of all stations of the same operating frequency for possible interference with each other. ***Output:*** The system report is generated on demand. The report lists the operating engineering data of all stations of the selected operating frequency. ***Availability:*** Reports are produced on a high speed printer and are distributed to the requesting engineer only.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-027

Broadcast Applications Processing System (BAPS, B-AP).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Broadcast Applications; Licenses; Radio Stations; Television Stations.

Purpose: The purpose is to aid Broadcast Bureau personnel in processing applications by establishing data bases to allow the generation of reports detailing the identity and status of facilities and of pending applications. In addition to providing reports to management, the public will see output in the form of computer printed notices of receipt and notices of Bureau actions. ***Input:*** The primary input will be data elements selected from applications submitted by the public, in particular from FCC Forms 301-303, 309-311, 313-316, 318, 321, 330, 340-342, 345-349, 701, and will include the applicant's name and address, the purpose of the application, and the initial status of the application. Secondary sources of input will be certain internally-generated transcription sheets. ***Content:*** The data maintained will consist of the location (street, city, State, zip code) and operating parameters of facilities, data summarizing pending applications associated with each facility, status information for both facilities and applications, and data summarizing the purpose of amendments to applications. New and relevant application data received each day, as well as status entry data, will be used to update the data base nightly. ***Output:*** The reports will be batch generated as needed after each night's data base update activity and will include notices of receipt (printed in a form suitable for mailing to applicants), public notices announcing the types of applications received, broadcast actions (summarizing certain actions taken by the FCC in its processing of applications), renewal reminders (printed in a form suitable for mailing to licensees), and application status report (a summary for management). All reports will be hardcopy. ***Availability:*** The notices of receipt, public notices, broadcast actions, and renewal reminders are for public distribution although the reports generated to summarize this output and the application status report are intended to be used internally.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-028

TV Data Base Update System (BTM).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Broadcasting; Television Broadcasting.

Purpose: The system is designed to maintain and validate the TV Engineering Data Base. This data base contains technical data for existing stations, proposed stations, TV allocations, rulemaking petitions/proposals, foreign stations (Canada and Mexico), and TV translators. Its primary function is to serve as input to TV Channel Study programs. ***Input:*** All update data are derived from FCC public notices. ***Content:*** The TV Data Base reflects the current status of all television broadcast technical matters and is updated on a weekly basis. The data base is sorted by channel number to provide for efficient data transfer to the channel study programs. Each record contains geographic location, antenna specifications, power, call sign, status, and several administrative data elements. No historical data are maintained. ***Output:*** System reports are produced with each weekly update and include: data base listing, a call sign list, and a city names list. ***Availability:*** Reports are limited to internal use. The data base is available from NTIS on request.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-029

FM Data Base Update System (BFM).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: FM Radio Stations; Radio Stations.

Purpose: The system is designed to maintain and validate the FM Engineering Data Base. This data base contains FM radio technical data for existing stations, proposed stations, FM allocations, rulemaking stations' proposals, foreign stations and allocations (Canada and Mexico), and FM translators. Its primary function is to serve as input to FM Channel Study programs. ***Input:*** All input data are derived from FCC Public Notices. ***Content:*** The FM Data Base reflects the current status of all FM radio technical matters and is updated on a weekly basis. The data base is organized according to the following categories: Domestic proposed stations, translators, boosters, allocations, and existing stations; Canadian allocations and existing stations; Mexican allocations and existing stations; and Domestic rulemaking petitions' proposals. Within each category, records are sorted by geographic location and channel. ***Output:*** System reports are produced with each weekly update: Data Base Listing (BFM); [illegible] List (BFM); Error List (BFM); [illegible]. ***Availability:*** Reports are available [illegible].

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-030

Broadcast Ownership (BOR).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Commercial Radio; Commercial Television; Public Radio; Public Television; Radio Stations; Television Stations.

Purpose: The system was established to provide a corporate profile of all commercial and noncommercial broadcasting stations. The major function of the system is to maintain and update, on a continuing basis, individual and station master files and to generate broadcast station and individual listings for public reference and regulatory purposes. ***Input:*** The data are derived from Ownership Report, FCC Form 323, submitted by licensees/permittees of broadcasting stations. ***Content:*** Filing of FCC Form 323 is required when applying for renewal of Station license; within 30 days after the consummation of a transfer of control, assignment of license or grant of a construction permit, and within 30 days after any changes in the information required on the form. The data includes capitalization by type and number of shares, individual stock ownership, other broadcast interests, family relationships, stock and ownership transfers, corporate officer identification and the identity and stock interests of any parent or holding company. Selected station and individual ownership data are updated and published twice a month. ***Output:*** Monthly reports include: Broadcast Station Listing–lists status of each licensed station as reported on FCC Form 323; Broadcast Station Supplement–lists status of changes and new filings reported and computer processed since the last printing of the Broadcast Station Listing; and Broadcast Ownership Listing–lists data extracted from the master station file reflecting the current holdings for individuals and companies in specific broadcast stations. ***Availability:*** Hardcopy reports are distributed for internal use and are available for inspection in the Broadcast Bureau Public Reference Room. The Data Base is available from NTIS on demand.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

S02700-031

Cable Bureau Data Management System (ADM).

OMB Funding Title/Code: Salaries and Expenses / 27-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Cable Television; Management Information Systems.

Purpose: The system was established to provide an electronic data processing facility to maintain records and create a Data Base of Management Information pertaining to the capture, storage, and retrieval of data from cable television applications, annual reporting forms, and other related sources relating to Cable Bureau functions. This system provides descriptive, technical, and processing reports to the Cable Bureau processing staff, Cable user community, and other authorized requestors. ***Input:*** The primary data source are the applications for Certificates of Appliance and the annual forms filed by cable television operators. The specific forms are: FCC Form 325, Annual Report of Cable Television Systems Schedules, and FCC Form 326, Cable Television Annual Financial Report. Call sign data from the notices of authorization issued by the call sign section of Chief E[illegible] ***Content:*** The system contains data describing all reported communities carrying cable television services, the specific signals and services provided to these communities, and historical data reflecting all legal filings received by the Commission from the cable television operators. The community data reflect geographic location; addressing information for mailing purposes; and statistical, franchising, and authorized television signal information. The signal carriage data consist of all signals and other technical services distributed to the communities. The historical data contain information reflecting all applications, pleadings, and other forms filed with the Commission by cable operators and other concerned parties. These data describe the filing and the date and action taken by the Commission on its behalf. Specific geocoding utilized in the system includes the two character State codes, county, and community names, ZIP code, and latitude and longitude figures. ***Output:*** Reports generated by the system are: Historical report describing in detail all cable television related filings; Cable Television Authorization Certificate of Compliance–Cable television authorization issued to cable operators by community indicating compliance to cable television rules and regulations. The authorization also lists the authorized TV broadcast call signs. This hardcopy authorization is issued as applications are granted; Cable Community Full record report describes the complete cable community produced on microfiche semiannually and updated on hardcopy every time the community data change; TV Station Authorization Report indicates all cable communities carrying a given TV call sign. This report is produced on hardcopy semiannually; Trunk Distribution System–Report describes all signals carried and services provided to the associated cable communities. This report is produced in hardcopy annually; and Public Notice Print Report produces the list of applications for certificates of compliance currently received by the Commission. ***Availability:*** All output is available to the public upon request; tape copies of the system files are available from NTIS upon request.

Agency Contact: Data Automation Division; 1919 M St. NW, Washington, DC 20554; (202) 632-7132.

FEDERAL DEPOSIT INSURANCE CORPORATION

S02800-001

Bank Structure Information System.

OMB Funding Title/Code: Federal Deposit Insurance Corporation / 51-8419-0-8-401.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Banks; Management Information Systems.

Purpose: The system processes and provides for the entry, edit, index, and tabulation of information regarding the structure of the banking industry. The system also provides for the retention of historical information on each bank in the nation so that the history of the progression of any bank can be obtained on demand. ***Input:*** Input is derived from member banks. ***Content:*** Data include both current and historical data for each banking office. Specific data include bank name and address; establishment date; physical location codes including State, county, and standard metropolitan area; characteristics of the bank, such as, insurance status, type of charter, trust powers, and holding company affiliation. ***Output:*** Products of the system include tables for a series of annual publications. Annual publications generated are changes among operating banks and branches, operating banking offices, and FDIC Annual Report. ***Availability:*** Reports are available on demand from FDIC.

Agency Contact: Systems Maintenance and Data Requests, 550 17th St. NW, Washington, DC 20429; (202) 389-4506.

S02800-002

Report of Condition and Income System.

OMB Funding Title/Code: Federal Deposit Insurance Corporation / 51-8419-0-8-401.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Banks; Commercial Banks; Financial Monitoring; Savings Banks.

Purpose: The system provides for the entry, edit, and tabulation of bank financial condition, income generated, and other supporting schedules of information. ***Input:*** Input is derived from member banks. ***Content:*** The system contains detailed breakdowns of a bank's assets, liabilities, and capital accounts. The breakdowns include categories of security investments, types of loans, kinds of deposits, and nature of capital. The system also contains information on the sources of an insured bank's income and expenses, taxes, net profit, and changes in capital accounts. ***Output:*** Two major publications are produced. A semiannual report, Assets and Liabilities-Commercial and Mutual Savings Banks, summarizes in various formats financial data for commercial and mutual savings banks as of June 30 and December 31 of each year. The December 31 publication also includes bank income and expense data. An annual report, Bank Operating Statistics, contains various statistics based on reports of income and reports of condition of banks by national totals, by individual States and other areas, and by market areas. Also, semiannually, each insured bank receives a series of tables which relate the bank's performance to the performance of banks in the same State and, where appropriate, to banks in the immediate market area. ***Availability:*** Reports are available on demand from FDIC.

Agency Contact: Systems Maintenance and Data Requests; 500 17th St. NW, Washington, DC 20429; (202) 389-4506.

S02800-003

Summary of Accounts and Deposits System.

OMB Funding Title/Code: Federal Deposit Insurance Corporation / 51-8419-0-8-401.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Accounting; Bank Deposits; Banks; Financial Management; Savings Accounts.

Purpose: The system provides for the entry, edit, and analysis/tabulation of detailed information on the deposit volumes, number, and size of accounts each banking office controls. ***Input:*** Input is derived from member banks. ***Content:*** For each banking office, data include detailed breakdowns of deposit volumes by categories, such as savings, time, demand, and public funds. For selected years the data also include breakdowns of deposit volumes by size of account in each category and number of accounts in each size group within each category. ***Output:*** A series of books are produced. In addition, individual reports are generated which are tailored for specific market areas. ***Availability:*** Reports are available on demand from FDIC.

Agency Contact: Systems Maintenance and Data Requests; 500 17th St. NW, Washington, DC 20429; (202) 389-4506.

S02800-004

Trust Assets Survey Tape File.

OMB Funding Title/Code: Federal Deposit Insurance Corporation / 51-8419-0-8-401.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Banks; Financial Monitoring; Trusts.

Purpose: The file provides for the entry, edit, and analysis/tabulation of detailed information on market value of trust assets. ***Input:*** This tape file is updated via an annual survey. ***Content:*** This tape file contains data on market value of trust assets by type of account (estate, employee benefit, etc.), and by type of investment (U.S. Government and agency securities, stocks, deposits, etc.). ***Output:*** The tape file is used to generate an annual publication entitled Trust Assets of Insured Commercial Banks which summarizes the data by type of account, size of account, and size of trust department. ***Availability:*** Reports are available on demand from FDIC.

Agency Contact: Systems Maintenance and Data Requests; 500 17 St. NW, Washington, DC 20429; (202) 389-4506.

FEDERAL ENERGY ADMINISTRATION

S02900-001

Financial Management (Accounting) System, 6030.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Accounting; Appropriations; Financial Management; Management Information Systems; Resource Allocation.

Purpose: This accounting system maintains the status of funds for all FEA appropriations. Financial data from the system provide FEA managers with information for controlling expenditures. ***Input:*** The Financial Operations and System Division, Office of Resource Management, encodes fund-obligating transactions for subsequent keypunching and input to the system. A "Labor distribution tape" is received biweekly from the Departmental Integrated Personnel Services (DIPS) system at the Department of the Interior where payroll processing is performed. This tape provides input to the FEA accounting system on fund distributions related to payroll. ***Content:*** Files maintained in the system include a master file, a payroll master file, a general ledger file, and a history file. Only cumulative records are maintained beyond the current month, and these include appropriation number, account number, obligation amount, disbursement amount, and available balance of allotment. Individual transactions are maintained for the current month, and data include transaction type, document control number, obligating document number, account number, dollar amount, and treasury schedule number. ***Output:*** The following reports are produced: Monthly Accounting Reports--transactions by account number, by object class, by allotment holder, or by obligation document (hardcopy and microfiche); Monthly Detail of Obligations-disbursements and obligations [illegible] count by obligating document and [illegible] unt number (hardcopy); [illegible]nthly Cash Reconciliation and [illegible] Treasury schedule number (hardcopy and microfiche); M[illegible]eneral Ledger (hardcopy [illegible] microfiche); Biweekly O[illegible]t overtime costs by [illegible]al by account number (hard[illegible]e Edit Report transinput status up to [illegible]onth (hardcopy). [illegible]ive: Reports are for [illegible]ficity releasable [illegible]ailable through [illegible]ergy Information

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-002

Purchase Order Information System. 6289

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Government Procurement; Procurement

Purpose: The system's purpose is the retention of purchase order information and the subsequent search and retrieval of the data. ***Input:*** Information is coded on Form FEA-F-228 by the staff of the Purchasing Division and subsequently keyed to tape for loading to the data base. ***Content:*** Information is retained on all FEA purchase orders in fiscal years 1976 and 1977. Through a weekly update cycle, data on purchase orders are added as they are processed by the Purchasing Division. Records are maintained by each purchase order. Fields maintained are purchase order number, date submitted, type purchase, vendor name, type business, type services, amount of purchase, account number, document control number, date merchandise due, and date merchandise received. ***Output:*** Data queries are run as needed by the Purchasing Division. A listing of records added to the data base is generated during each update cycle. Queries generating a file log and weekly or monthly reports are run on request. ***Availability:*** Reports are for internal use only. Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-003

Contracts Status Reports. MO1

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Contract Administration; Contractors; Contracts; Government Procurement; Procurement

Purpose: The system tracks the status of procurement actions, in amounts over $10,000 not on the GSA schedule, from receipt in the Office of Procurement until the contract is closed out. ***Input:*** FEA contracting specialists provide data on the status of actions from beginning to end. ***Content:*** The Weekly Report includes procurements in progress (preaward), amount of proposal, description, stage of progress for the week and date, contract number, government technical report, contract negotiator, and the date procurement request was received. The Monthly Report (awarded contracts) includes contract number, contractor, contractor address, description of contract, period of performance dates, awarded amount plus amendments, and program manager. ***Output:*** The Weekly Report contains information on the status of procurement actions before award. The Monthly Report contains information on the status of contracts in progress from award until close-out. ***Availability:*** The reports are for internal use only. They contain proprietary information on contractors which is protected by the Privacy Act and Federal Procurement Regulations. However, publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-004

Federal Energy Conservation Performance System. 6069

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy Consumption; Executive Agencies

Purpose: This system is intended to collect information on the performance by the Federal Government in achieving improved energy efficiency in its own facilities and operations. The authority for the collection of data is the Presidential Order of June 29, 1973. ***Input:*** Input is provided by 27 of the more energy consuming Federal agencies, such as the Department of Defense, Postal Service, GSA and the Department of Transportation. ***Content:*** The content is energy consumption by type of fuel by Federal agency. The percent change is compared to the previous year's consumption. Information is collected quarterly on a national basis. ***Output:*** Annual reports provide information on energy usage by various fuel types by Federal agency. ***Availability:*** Output is publicly available in the Federal Energy Management Program's publication "Energy Conservation."

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-005

Project Conserve. 6141

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Community Participation; Energy Conservation; House Characteristics; Insulation; Retrofitting

Purpose: The purpose is to enable homeowners to furnish certain characteristics of their dwellings and in return receive advice on what types and quantities of insulation materials to add and an estimate of yearly energy savings. ***Input:*** Information is collected voluntarily from homeowners who wish to participate. FEA has conducted a program for Massachusetts and New Mexico, receiving voluntary responses from approximately 142,000 and 26,000 homeowners respectively. FEA is now offering the computer programs and documentation to States interested in running their own programs. ***Content:*** The system content contains housing unit characteristics such as square footage, number of windows, number of doors, age of dwelling, and existing insulation characteristics. ***Output:*** Output is printouts to homeowners suggesting types and amounts of insulation materials needed and potential energy savings to be realized. ***Availability:*** Individual homeowner information is subject to the Privacy Act. A report covering the results of a pilot survey relating to Project Conserve [illegible] in October 1974.

A[illegible] Energy Information Center; 120[illegible] Penns[illegible] m 1411, Washington, [illegible] 566-902[illegible]

S02900-006

Automobile Classification Data Base. 6290.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Automobiles; Classification Systems; Energy Conservation; Fuel Conservation; Gasoline.

Purpose: The system is to enable FEA to assist EPA to group autos with similar characteristics (e.g., all autos weighing 2,500 pounds or more, or all autos over 16 feet long). Within each group, autos are to be ranked according to their fuel economy. ***Input:*** The input is the manufacturer's automobile specifications. ***Content:*** Specifications are weight, wheelbase, price, exterior size, passenger space, and cargo volume. ***Output:*** Automobiles with like characteristics will be grouped in various categories and will be ranked within each according to fuel economy. ***Availability:*** Output of this system is publicly available in the 1977 Gas Mileage Guide published jointly by the Environmental Protection Agency and the Federal Energy Administration.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-007

Electric Rate Demonstration Data System. 6318.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Electric Utilities; Electric Utility Rates; Energy Consumption; Energy Prices; Prices; Utilities.

Purpose: The system is for learning more about the effect that rate changes and load management techniques may have on electric utilities, utility customers, and energy strategies. This will assist State regulatory institutions in their decisions regarding electric utility rates. ***Input:*** Input is based on data collected under cooperative approach with State and local government agencies. ***Content:*** The information in the file includes current energy usage data, stored data for related sources, and selected data for statistical analysis and modeling. ***Output:*** Reports will show how demand for electrical energy is affected by price. ***Availability:*** Once the system becomes operational, publicly releasable information will be available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-008

Middle Distillate Price Monitoring System. 6006/6104.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy Prices; Fuels; Heating Oil; No. 2 Heating Oil; Price Regulation; Prices.

Purpose: On July 1, 1976, Middle Distillates (No. 2 heating oil and No. 2 diesel fuel) were exempted from mandatory petroleum price and allocation regulations. The Middle Distillate Price Monitoring System was developed to track price trends of middle distillates at the refinery, retail, and wholesale levels. Monitoring of these price trends is necessary to assure that no abnormal price increases occur and to ensure adequate supplies to marketers during the transition period following decontrol. The system compares actual reported prices to national and regional index representative price levels, which FEA believes would have prevailed had middle distillates remained under price controls. ***Input:*** The data are derived from monthly reports submitted by a scientifically selected sample of firms which sell No. 2 heating oil. From September 1976 through March 1977 the system is updated on a weekly basis with critical data obtained by telephone from the respondent companies. ***Content:*** The system consists of sales volume, percentage sales, average selling price, and inventory data. Submissions are made monthly and are broken down by type of customer and by State. Residential sales and volume data are collected weekly from September through March. ***Output:*** Major reports are produced on a monthly/weekly basis and consist primarily of sales volume data and weighted average selling prices of No. 2 heating oil on a regional and national basis. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-009

Refinery Cost Passthrough. 6008/6105
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy Prices; Fuels; Gasoline; Heating Oil; Jet Fuel; No. 2 Heating Oil; Petroleum; Price Regulation; Prices; Propane; Refineries.

Purpose: The system serves as the means by which refiners subject to the FEA Petroleum Pricing Regulations compute and adjust May 15, 1973, selling prices for covered products (No. 2 oils, jet fuel, gasoline, and propane). This allows FEA to monitor certain price movements within the industry. ***Input:*** The information is from refiners and natural gas processing plants. ***Content:*** The content includes the costs and quantities of imported and domestic crude petroleum and the products listed above. Data are collected monthly on a national basis. ***Output:*** Hardcopy summaries of cost elements for various covered products are produced monthly. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-010

Propane/Butane Allocation System. 6025.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Butane; Fuels; Inventories; Natural Gas; Oil; Propane; Resource Allocation.

Purpose: The system was developed to enable the FEA to monitor existing and projected inventories of propane, butane, and other related fuels produced from natural gas liquids. The primary reasons for this monitoring effort are to ensure the proper allocation of these fuels based on past usage and to identify the location and amounts of these fuels as possible substitutes for natural gas should natural gas be curtailed. ***Input:*** The information is supplied by producers, suppliers, certain wholesale purchaser-resellers, and operators of storage facilities for the covered products. ***Content:*** Actual and projected volumes and sources of supply, supply obligation, and ownership of stored products are reported monthly on a national basis. ***Output:*** Production and inventory level reports are produced monthly. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-011

Crude Oil Buy/Sell Program. 6031.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Crude Oil; Petroleum; Refineries; Resource Allocation.

Purpose: This is a system to allocate crude oil to ensure that small and independent refiners are able to purchase sufficient crude oil to operate at economically feasible production levels. The information is used to compile a buy/sell list which specifies the amount some refiners are required to offer for sale and the amount which other refiners are eligible to buy. ***Input:*** All U.S. refiners report to this system. ***Content:*** The content includes refinery capacity, crude oil runs to stills, processing agreements, and sales and purchases under the mandatory allocation program. ***Output:*** A quarterly buy/sell list is produced. ***Availability:*** This is publicly available on a quarterly basis in the Federal Register.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-012

Transfer Pricing System. 6047.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Crude Oil Imports; Imports; Petroleum; Prices.

Purpose: The objective of the Program is to monitor and regulate the prices at which oil companies transfer equity crude oil from their foreign to domestic affiliates. Such regulation is needed because of the cost passthrough provisions of the Emergency Petroleum Allocation Act of 1973. The FEA attempts to control these transfer prices by comparing them with prices from transactions involving the same or similar crude types that were conducted on an arm's-length basis. When a company's transfer prices for a given crude exceed the arm's-length standard established by the FEA, a disallowance of cost is proposed. ***Input:*** The data are derived from reports submitted monthly by each refiner which imports 500,000 barrels of crude oil during the month and/or each refiner which imports crude oil from an affiliated entity during the month. ***Content:*** The system consists of information concerning imported crude petroleum obtained by purchase and through exchanges, cost data for imported equity and buy-back oil, crude petroleum sales and purchases, foreign crude trading activity by country of origin, and crude characteristics data. ***Output:*** Output reports are generated monthly in hardcopy. Reports provide data on the high, low, and average transaction prices. Companies whose transaction prices exceed the computed average transaction price are subject to the issuance of a notice of disallowance. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-013

Regionalized Assignment Tracking System (RATS). 6058.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Management Information Systems.

Purpose: This system incorporates all assignments handled by FEA Compliance including all nationally directed programs, regionally directed programs, the Refinery Audit Review Program, and all special programs. This system provides the most correct status of assignments possible and benefits the compliance effort by providing periodic reports to management on the status of assignments in process, a history of closed assignments, and various statistical information. ***Input:*** Input is provided internally by regional and national office personnel. ***Content:*** The system contains information pertaining to assignment set-ups, status changes, overtime, and settlement data. ***Output:*** Weekly, monthly, and ad hoc reports are produced on computer printouts. The format is variable, with query capability. ***Availability:*** The reports are for the internal use of FEA.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-014

Crude Oil Entitlements (Equalization). 6072.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Crude Oil; Energy Prices; Inventories; Petroleum; Prices; Refineries; Resource Allocation.

Purpose: The system is to collect and process data on crude oil purchases which will be utilized to establish the monthly entitlements buy/sell position of each domestic refiner. This system supports the crude oil allocation program for the purpose of ensuring the maintenance of competitive domestic marketplace for all refiners regardless of size. ***Input:*** External input is provided by refiners of domestic and imported crude oil [140) and importers of residual oil (53). The forms are filed monthly by the fifth day of the second month following the month of operation. The reporting requirement

is mandatory. *Content:* The system provides a listing of current volumes and weighted average costs of various categories of domestic and imported crude oil which is booked into refinery inventory by each domestic refiner for processing. Other data elements are: adjustments to estimated volumes for crude oil from prior months; total crude runs to stills; required sale/purchase of entitlements; bias and exception relief, where applicable; and domestic crude oil supply ratio. *Output:* The principal output is historical cost comparison report, a calculations report, a Federal Register report, and a processing agreement crosscheck. These are issued monthly and are hardcopy. *Availability:* Individual company reports contain proprietary information and are not publicly available. Monthly entitlement notices, with values and buy/sell requirements, are published in Federal Energy Guidelines and in the Federal Register.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-015

Mandatory Oil Imports Project (MOIP). 6127, 6313.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Imports; Petroleum Imports; Resource Allocation.

Purpose: The system is an accounts receivable system. It stores, retrieves, and processes data on imported petroleum and petroleum products for the purpose of administering the Mandatory Oil Import Allocation and Licensing Program in accordance with Presidential Proclamation 3279. *Input:* The data are obtained from other Government agencies and firms, including parent, subsidiary, or affiliated firms, which have incurred fees for the importation of crude oil, unfinished oils, and finished petroleum products during a particular month. *Content:* The MOIP system contains data taken from allocations, licenses, consumption entry forms, refund documents, and remittance advices. These documents reflect the transactions of approximately 700 companies which import petroleum and petroleum products. The consumption entry forms are received daily from the Customs Offices in each district. They provide data on the number of barrels, type of product, duties paid, and license(s) to be charged for each importation. *Output:* Output is produced as required and includes: Fees incurred, transaction lists, importer transaction lists, importer master list, current bonds list, importer allocation summary, allocation report, current licenses issued, current licenses listed, checks payments accepted, new bonds rider, unaccompanied payments, additions to license table, authorized refunds to be issued, shipment discrepancy, potential refund qualification, overdue accounts, closed licenses, shipments in excess of license amount, shipments made against expired licenses, crude and unfinished oil imports, finished and other petroleum, and residual fuel. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center, 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-016

Compliance Time Activity Reporting System. 6246.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Compliance; Manpower Utilization.

Purpose: This system records all time expended by all individuals permanently assigned to Compliance or assigned to noncompliance offices, working in a compliance capacity. This system accounts for time (direct case time), case resolution time, (indirect case time), and non-case time. *Input:* Input is provided internally by national office personnel. *Content:* The input contains information pertaining to direct, indirect, and non-case time as reported by FEA field compliance personnel. *Output:* Weekly, monthly, and ad hoc reports are produced on computer printouts. The format is variable, with query capability. *Availability:* The reports are for internal use by FEA compliance only.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-017

FEA Oil Import System. 6253.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Crude Oil Imports; Imports; Oil; Petroleum Imports.

Purpose: The system provides the means by which firms report data on the importation of crude oil, unfinished oils, and finished petroleum products into the United States and Puerto Rico, as well as shipments of residual fuel oil into the East Coast Refining District pursuant to Public Laws 93-275 and 93-159, as amended, and Presidential Proclamation 3279. *Input:* Information is filed on a monthly basis by approximately 700 firms which import crude petroleum and specified petroleum products. *Content:* The system is updated on a monthly basis and contains information by respondent company relative to port of entry, country of origin, quantity of imports, import license numbers, and product imported. *Output:* Reports are produced monthly. In addition, plans call for the availability of data for on-line queries. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center, 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-018

Crude Oil First Purchaser. 6272.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Crude Oil; Domestic Crude Oil; Energy Policy; Petroleum Prices; Price Regulation.

Purpose: This system, which was implemented by authority of the Energy Policy and Conservation Act of 1975, calculates the composite monthly price of domestic crude oil based upon its first exchange for value. This composite price is compared with maximum prices permitted to determine whether additional regulatory actions are warranted. *Input:* Reports are from any firms that obtain ownership

of domestic crude oil though purchase or other exchange. *Content:* Geographic coverage includes the 50 States and Puerto Rico. Data are reported monthly. Three hundred firms provide data showing the volume and book value of crude oil purchased by type (upper tier, lower tier, stripper), by location (State), and by individual producer/operators. *Output:* The principal reports are: Domestic Crude Oil Volume and Price Analysis Summary; Domestic Crude Oil Volume and Price Analysis-Company Summary; and subsidiary reports, including Purchasers/Sellers Report and Volume/Costs Variance Exception Report. These are produced monthly and are hardcopy. *Availability:* Price and volumetric reports are for limited official use. Individual company reports contain proprietary information and are not publicly available. Summary data are available monthly in the Monthly Energy Review.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave., NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-019

Major Fuel Burning Installations (MFBI). 6217.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Coal; Energy Consumption; Energy Policy; Fuels; Major Fuel Burning Installations; Natural Gas; Oil.

Purpose: This system collected information from major fuel burning installations (excluding utility companies) for the ultimate purpose of decreasing the use of scarce oil and natural gas as fuels and increasing the use of abundantly available coal supplies. FEA analyzed this information and identified firms which could be considered candidates to be issued a Federal order requiring that coal be used to fire the combustor. The analysis was made on the basis of such things as coal availability, environmental considerations, and the financial ability of the firm to absorb costs involved in converting the combustor for coal use. *Input:* Reports were completed by all major fuel burning installation (excluding utility companies) which had combustors with a designed firing rate of at least 100 million BTU/hr. *Content:* Information was collected on a one-time basis and includes fuel use data, combustor characteristics, and air quality data. *Output:* Listings of summary characteristics of individual combustors are produced. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-020

Natural Gas Curtailments. 6219.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy Policy; Energy Shortages; Fuels; Natural Gas.

Purpose: The system was developed and implemented to collect data pertaining to natural gas shortages and to assess the resulting impact on alternate energy sources. *Input:* The data contained in the file for this system are derived from submission of reports from intrastate distributors of natural gas to end-use customers (this system is operated jointly with FPC and includes data collected by FPC for interstate distribution of natural gas). Twelve-month historical data are gathered each summer along with a 12-month projection. Projected data are updated on a sample basis during the winter heating season. *Content:* All reporting firms furnish basic delivery data for end-use customers by month for the past and projected heating years. Data pertaining to large end-use customers include individual accounts of deliveries, curtailments, and alternate fuel usage for the 2-year period. Each large customer is identified as to State and county in which deliveries are received, category of customer, type of service, SIC code, and FPC priority. *Output:* Output is produced semiannually and includes: State Aggregated Delivery and Curtailment Data; Demand on Alternate Fuel By Type, Supply and Demand Alternatives; and Degree Day Data. *Availability:* Results of the Gas Curtailments Survey are tabulated in the publication Projected Natural Gas Curtailments and Potential Needs for Additional Alternate Fuels, which is publicly available through NTIS.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-021

Major Fuel Burning Installation–Early Planning Process Identification (EPPE). 6310.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Coal; Energy Consumption; Energy Policy; Fuels; Major Fuel Burning Installations.

Purpose: This system will collect information from major fuel burning installations (excluding utility companies) for the ultimate purpose of discouraging the use of scarce oil and natural gas supplies and encouraging the use of abundantly available coal supplies. Firms that are planning to construct combustors having a firing rate of 10 million BTU/hr. or greater will report to FEA as to whether or not the combustors will be constructed with the capacity to burn coal as their primary energy source. If a firm responds "no," FEA will consider issuing an order that would require such a capacity. FEA will base a final decision on this matter on such factors as the availability of coal supplies, environmental considerations, and financial ability of the firm to absorb the additional costs involved in constructing the combustor for coal use. *Input:* This system will collect information from all major fuel burning installations (except utility companies). *Content:* The system's content includes company financial information and individual combustor characteristics. This study is planned to be conducted on a one-time basis. Companies will submit updates as necessary. *Output:* The output is the expected operational data for combustors and the expected candidates to be issued construction orders. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-022

Drilling Equipment Production Survey. ERD-01.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Drilling Equipment; Equipment; Forecasting; Inventories; Oil Well Drilling.

Purpose: The purpose is to determine drilling equipment availability in certain years in order to forecast requirements in preparing National Energy Outlook (NEO) and other future drilling forecasts. ***Input:*** The survey consists of collecting data through secondary sources in order to perform an analysis of the manufacturing companies that are supplying the principal elements of oil field drilling equipment. ***Content:*** The drilling equipment involved is rotary drilling rigs; oil country tubular goods, including drill pipe, mobile and fixed drilling platforms; and surface equipment, such as, pumping units, sucker rods, electric motors, and steel tanks. The survey analyzes actual or indicated manufacturing constraints. It also analyzes proposals recommending possible solutions. ***Output:*** The survey results will be prepared in a loose-leaf type report. This will be one report only, followed in two years with a comparable survey. ***Availability:*** Reports are for internal use only. Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center, 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-023

Trends in Refinery Capacity and Utilization of Petroleum Refineries in the United States and Foreign Refinery Exporting Centers. ERD-02.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Foreign Countries, Imports, Petroleum Imports, Petroleum Refineries, Refineries.

Purpose: This system monitors the growth of U.S. petroleum refining capacity and that of certain world refining exporting centers together with a 5-year forecast of such growth. It helps determine whether adequate domestic refining is being attained or if foreign refining capacity is being constructed to export products to the United States. ***Input:*** System input is from trade journals, newspapers, and miscellaneous literature sources, Bureau of Mines historical data, Office of Regulatory Programs records, CIA reports, and personal contact with companies planning new capacity. ***Content:*** The areas covered are the United States, Caribbean Bahamas, Middle East, Eastern Canada, Italy, Singapore, Netherlands, as well as others. The system is updated annually with respect to refinery capacities by country for each company for each year covered, internal consumption for foreign exporting centers, exports to the United States from foreign centers, and analysis of trends in the United States and foreign centers. ***Output:*** An annual bound report is produced. ***Availability:*** Output is publicly available in the publication, Trends in Refinery Capacity and Utilization, Petroleum Refineries in the United States Foreign Refinery Exporting Centers. It is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-024

Project Operations System (POS). ERD-03.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Demonstration Projects, Energy Research; Research and Development.

Purpose. The system is to monitor the implementation status of key FEA energy resource development projects and report the related information to FEA management. ***Input:*** Within the Office of Energy Resource Development specific organizations collect the related information from the private sector, State, and local agencies, as well as other Federal agencies. ***Content:*** The information collected pertains to specific energy resource development projects which have been identified as key projects, such as the major fuel burning installations coal firing capability project and the powerplant coal conversion project. These projects may be located anywhere in the United States. The information is updated monthly. ***Output:*** Project status reports are prepared monthly. The reports are typed hardcopy. Query capability requires a request for specific information and manual preparation of the response. ***Availability:*** Reports are for internal use only.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-025

Plume Model. 6276.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Forecasting; Industrial Wastes; Mathematical Models; Saline Waters; Simulation; Water Pollution.

Purpose: The Plume Model is a three-dimensional model predicting the dispersion of effluent into large bodies of water. It is used to predict how fast the effluent discharged will decline to the normal salt concentration in these bodies of water. ***Input:*** The information concerns specific bodies of water and specific site locations and the nature of the site effluence. Input is from the National Oceanographic and Atmospheric Administration and other generally published sources, e.g., university studies. ***Content:*** The data include a basic data deck concerning a body of water. Included is information such as the concentration of salt, the water temperature, the currents, the bottom contours, and the geographic boundaries. Data are also input concerning the specific site to be considered. This includes the type of structure involved, the angle and velocity of effluence, and the temperature of the effluence. ***Output:*** Computer printouts of the numerical results of the model on various site configurations are produced on an as requested basis. Contours (graphic representations of the effluent movement) can be drawn from these data. ***Availability:*** The numerical output is for internal use by FEA analysts. The contours are published in the Strategic Petroleum Sites Environmental Impact Statements. Those data are not proprietary.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-026

Strategic Petroleum Reserves Program-Wide System (SPR). 6291.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy Supplies; Manpower Utilization; Petroleum Reserves.

Purpose: This PERT system was created to enable Strategic Petroleum Reserve Office (SPRO) management to monitor progress toward the achievement of program goals as delineated in the SPRO operating plan and to facilitate the effective coordination of projects that involve more than one Associate Assistant Administrator office. ***Input:*** Each Associate Assistant Administrator for Strategic Petroleum Reserve Office enters the proposed activities and schedule for his office and any updates to previous schedules on internal data entry forms which are then keyed into the system. ***Content:*** This system monitors major activities, such as construction, fill status, and oil acquisition, for the entire Strategic Petroleum Reserve Program. The system is updated as needed. ***Output:*** The major reports are all PERT-type reports on hardcopy computer printouts which are produced as needed. The major reports are activity reports showing each activity and its early and late start dates, early and late finish dates, slack, duration and description, and Milestone Event Reports condensing all the activities to major milestone events to give a better overall view of the project. ***Availability:*** These reports are intended for internal use only. They are designed to aid SPRO in the management of all phases of the Strategic Reserve Program.

Agency Contact: National Energy Information Center, 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461, (202) 566-9025.

S02900-027

Site Distribution Model 6293

OMB Funding Title/Code: Salaries and Expenses 92-1500-0-1-305

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy Storage; Mathematical Models; Petroleum Distribution; Petroleum Storage; Simulation.

Purpose: This model is designed to provide least cost solutions among alternative petroleum storage sites and distribution systems. ***Input:*** Discrete performance parameters are provided by analysts. ***Content:*** The performance parameters include costs, capacity, flow rates, geographic location of potential sites, miles of pipeline, and quantity of salt water to be displaced. ***Output:*** This model generates hardcopy computer printouts of model findings to be used by the analysts. ***Availability:*** The output from this model is designed for internal FEA use by cognizant analysts.

Agency Contact: National Energy Information Center, 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461, (202) 566-9025.

S02900-028

Comprehensive Human Resources Data System (CHRDS) 62.2

OMB Funding Title/Code: Salaries and Expenses 92-1500-0-1-305

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Economic Impact; Energy Consumption; Energy Policy; Population Statistics.

Purpose: The system is to provide a flexible tool for the evaluatic and analysis of the potential economic and social impact of propose energy-related regulations, policies, and practices on low and midd income families, special impact groups such as the elderly, the han icapped, and the poor, as well as on the general population at th State level. ***Input:*** The Phase I CHRD System is being designed a a file of microdata containing records on individual households an component persons. The primary data source for this purpose is th 1970 Public Use Sample (PUS) from the decennial census. The ve sion of the PUS chosen for Phase I implementation is the State Publ Assistance Cost Estimator (SPACE) file. This file is a State stratifie subsample containing approximately 150,000 households draw from the full State PUS. ***Content:*** The analytical framework used fo Phase I development is an adaptation of HEW's microsimulatio Transfer Income Model. The Phase I system is expected to be on-lin in March 1977 and will provide estimates of household energy cor sumption and expenditures for selected years 1974-1985 at the Stat level. Also, the system will serve as a key mechanism for the anticipa tion of consumer reaction to proposed energy programs and policie ***Output:*** The major reports will be essentially descriptive and will b produced as needed. Descriptive uses would include the preparatio of table of income distribution, nationally, regionally, and f State It would also include tabulations of energy consumpti tabulated with the desired combination of geographic, demographi and socioeconomic characteristics. Comparisons of such tabulatior for projected periods with similar tabulations for a recent base perio would show how energy programs, in conjunction with other eco nomic and demographic factors, will operate to change such distribu tions. These reports will be produced in machine-readable an hardcopy form. ***Availability:*** Publicly releasable information available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center, 120 Pennsylvania Ave. Room 1411, Washington, DC 20461, (202 566-9025.

S02900-029

Federal Energy Information Locator System (FEILS) 6003

OMB Funding Title/Code: Salaries and Expenses 92-1500-0-1-30

Congressional Relevance: *House* Committee on Appropriations: In terior Subcommittee; *House* Committee on Government Opera tions; *House* Committee on Interstate and Foreign Commerce *Senate* Committee on Appropriations: Interior Subcommittee; *Se ate* Committee on Commerce, Science, and Transportation; *Senat* Committee on Energy and Natural Resources; *Senate* Committee o Governmental Affairs.

Subject Terms: Data Bases; Energy Information Services.

Purpose: In December 1973, the Federal Energy Office (FEC was created by Executive Order, and on January 23, 1974, the Pres dent directed that the Office be the focal point for energy informa tion in the Federal Government. In response to the Executive Orde the Administrator of FEO created the Interagency Task Force o Energy Information to survey energy data in the Federal Govern ment. FEILS represents the first step undertaken toward that goa The FEILS data base was assembled and verified between Februar 1974 and July 1975 and updated in 1976. This directory is a compre hensive inventory of energy information available from 44 separat Federal agencies, bureaus, and administrations conducting 279 dif ferent programs relating to energy data. ***Input:*** FEILS was deve oped from a series of questionnaires completed by Federal agencie during 1974 and 1975. The 1976 update consisted of a review of th initial data submitted by each agency, and new or change data adde to the FEILS 1976 data base. Each agency provided energy progra data for 12 energy categories coal, electricity, energy-related, geo thermal, natural gas, nuclear, oil shale, organic waste petroleum petroleum products, solar, and tar sands. Data may be retrieved fror the data base by reference to these energy source categories or to an of the 90 functions related to them, e.g., exploration, extraction processing. ***Content:*** The system is an automated facility that main tains information about the location of energy-related data within th Federal Government. The data base comprises 44 agency progra

descriptions, 279 program summaries, and 88 related file/data descriptions. Each agency description identifies major energy-related programs that provide or use energy data, the energy source codes that are covered by the programs, types of supporting data that are available, the date that the description was last updated, and the agency contact office and the telephone number. Each program description identifies the program name and number, energy sources and functions covered by the program, description of the program and its uses and objectives, status as to a data source or data requirement, survey form used, date of last update, and office contact and telephone number. Files identify file name, energy sources covered, description of data content, number of records if known, size of record if known, date of description last update, and agency contact office and telephone number. ***Output:*** The FEILS directory is printed annually and an on-line base query capability is available through Data Base Management System (ADABAS). ***Availability:*** The directory is available to Government personnel via FEA's National Energy Information Center. On-line query is available to authorized users via NEIC terminals.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-030

National Energy Information Center (NEIC). 6062.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy; Information Centers.

Purpose: Section 20 (4) of Public Law 23-275 requires the FEA Administrator to provide for a central clearinghouse for Federal agencies and State governments seeking energy information and assistance from the Federal Government. Other corollary functions are to develop special programs for the coordination of energy information activities and the exchange of energy information with other Federal agencies, States, counties, and cities; provide staff assistance to the Federal Inter-Agency Council on Energy Information; identify and catalog existing energy data sources, reporting systems, and data; develop and promulgate standards in energy terminology; provide assistance to the States in their data collection activities; manage the FEA forms clearance process; retain, store, and catalog all FEA staff and contractor technical publications and reports; provide technical support services for the preparation and publication of newsletters, reports, and special studies; provide for the dissemination of energy information by such means as bibliographies, directories, and development and utilization of pertinent automated data bases; and respond to both written and verbal inquiries. In the exercise of these functions, the NEIC provides a complete spectrum of capabilities in technical services, research services, and system services, and maintains a staff office for intergovernmental coordination. ***Input:*** NEIC is concerned with all levels of energy information resources in Government, industry, and the academic and professional world. It taps more than 100 data banks outside of FEA such as International Statistics (statistical), the Engineering Index (technical), the Congressional Information Service Index (congressional), and the Information Bank of the New York Times (general). Data reported by energy-related companies and corporations are maintained in more than 50 data bases by FEA in support of its analytical and regulatory functions. The NEIC maintains a collection of monographs, reports, and periodicals in print, microform, and automated media, and, as a national clearinghouse, accesses many additional energy information sources and facilities. NEIC also establishes and oversees regional energy information services centers. ***Content:*** The National Energy Information Center is a comprehensive source of energy data and information. There are no geographical limitations. Update cycles vary from daily to annually or one-time, depending upon the particular area of the total energy information field being considered. ***Output:*** Three hundred forty-two technical reports are summarized in a December 1975 bibliography and its November 1976 update. Most of these reports are available through NTIS. The bibliography, Technical Reports of the Federal Energy Administration, is NTIS number PB 248 915 and costs $5. Some of the reports, such as the Project Independence reports, are available through GPO. Some of the monthly reports, such as the Monthly Energy Review and the Monthly Petroleum Product Price Report are among the best known and most used reports. These reports are updated each year with an annual National Energy Outlook. NEIC also publishes its own Network Services Bulletin. Many special reports and tabulations are produced on request. Hardcopy printouts of most of the content of automated data files can be produced. ***Availability:*** Most NEIC reports are available to the public through NTIS or GPO. Much additional unpublished information and data are available to the public. If the data are proprietary, they may sometimes be releasable in an aggregated form.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-031

FEA Data Dictionary. 6075.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Dictionaries; Energy; Glossaries.

Purpose: The dictionary was established in 1975 to provide FEA program offices with information about the data being collected and processed in FEA. It contains processing and modeling systems descriptions, input energy forms descriptions, output reports descriptions, files or data base descriptions, and data element descriptions for the Energy Data Forms. There are two additional sections covering the Federal Energy Information Locator System (FEILS) and selected energy forms from other agencies used in the FEA Forms Clearance functions. ***Input:*** The systems, models, files, reports, and forms descriptions were derived from FEA program offices. The FEILS data were collected from each Federal agency having energy-related programs. (See also S029-00-029.). ***Content:*** The dictionary is arranged in several sections, each with an index corresponding to the various items being presented. The interrelationship between the systems, the input forms that provide data, and the data elements being collected establishes a hierarchial arrangement of the data that allows a user to trace the linkages to all parts of a system (on-line). Each record includes the item name, synonymous name, a description of the item and its purpose, source of the description, Office of Primary Interest, FEA project number, security classification of the data, and other related data. FEILS records are similar to the above, but they also include agency program numbers, agency contact office and telephone numbers, and the energy functions related to the energy sources reported. ***Output:*** The Data Dictionary is printed annually and has on-line data base query capability through Data Base Management System (ADABAS). ***Availability:*** The Data Dictionary is printed for internal FEA distribution. The on-line system is available to FEA users via NEIC terminals.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-032

Acquisition Tracking System. NEIC-1.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Library Acquisitions; Management Information Systems; Procurement.

Purpose: This system is designed to monitor all outstanding purchases (i.e., items ordered but not received) and to provide informational access by item title and by subject. In monitoring outstanding orders, the system automatically generates reminder or "order status" notices for all orders older than 45 days. These notices are formatted on 8x10 inch forms and are ready for mailing to the respective publisher. NEIC patrons are notified of current acquisitions through the New Materials Subject Reports, which lists both titles on order and titles received but being processed. The New Materials Title Report is a master report to be used by NEIC staff in meeting reference requests and internal requirements. It lists all titles in the Acquisitions Tracking System and their status. ***Input:*** Input is internal library documents, such as books, journals, newspapers, FEA news releases, and technical reports. ***Content:*** The scope covers the entire library's inventory, primarily articles and statistical data on energy-related topics. ***Output:*** The principal output is New Materials Subject Report (hardcopy), New Materials Title Report (hardcopy), and Overdue Order Notices (letter format). ***Availability:*** Reports are for internal use only.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-033

Journal Control System. NEIC-2.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Coal; Energy Consumption; Energy Demand; Energy Research; Libraries; Minerals; Natural Gas; Periodicals; Petroleum; Power Resources; Procurement.

Purpose: This system is designed to provide bibliographic control over journals retained by the National Energy Information Center (NEIC) headquarters library as well as the regional libraries. This system also provides acquisition control over journals to ensure that all issues for a subscription are received. ***Input:*** System input is Government and trade periodicals on energy-related topics. These contain the publisher's name, title of publication, and subject. ***Content:*** The system contains information on all available or identified government and industry periodicals on energy and energy-related topics (e.g., oil and gas journals, coal and minerals reports, energy consumption and demand). Data include titles, dates, subject, date of acquisition. The system is a relatively large bibliographic file on energy periodical literature. ***Output:*** The output includes Journal Holdings List by Title Program, Monthly Check-In Report by Title Program, Irregular Check-In Report by Title Program, and a Publisher Report by Publisher and and Title Program. The reports are produced in hardcopy. The system has an on-line capability. ***Availability:*** Reports are for internal use only.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-034

Library Circulation System. NEIC-3.
OMB Funding Title/Code: Salaries and Expenses / 93-1500-0-
Congressional Relevance: *House* Committee on Appropriatio terior Subcommittee; *House* Committee on Government (tions; *House* Committee on Interstate and Foreign Comi *Senate* Com...ittee on Appropriations: Interior Subcommittee *ate* Committee on Commerce, Science, and Transportation; S Committee on Energy and Natural Resources; *Senate* Commit Governmental Affairs.

Subject Terms: Libraries; Library Circulation.

Purpose: This system is to provide an inventory control fu for all materials borrowed from or through the National E Information Center (NEIC). It monitors books, technical re periodicals, equipment (microfiche readers), and so on. Ap mately 500 items are out on loan at any one time. The s provides informational access by title of item borrowed, bor lending library, or material type. ***Input:*** Input is internal l documents such as books, journals, newspapers, FEA news rel and technical reports. ***Content:*** The scope covers the library's inventory, primarily articles and statistical data on energy r topics. ***Output:*** Daily reports contain title, borrower, ty material, lending library, materials returned, and overdue nc Reports are available in hardcopy. The system has on-line capa ***Availability:*** The reports are for internal use only.

Agency Contact: National Energy Information Center; Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; 566-9025.

S02900-035

Source Directory System. NEIC-4.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1
Congressional Relevance: *House* Committee on Appropriation terior Subcommittee; *House* Committee on Government O tions; *House* Committee on Interstate and Foreign Comm *Senate* Committee on Appropriations: Interior Subcommittee; *ate* Committee on Commerce, Science, and Transportation; Se Committee on Energy and Natural Resources; *Senate* Committ Government Affairs.

Subject Terms: Directories; Information Services; Libraries.

Purpose: This system is to provide informational access to lishers and producers of energy-related information as well as internal acquisition control requirements. In support of the info tional aspect, two reports are produced to provide access by su emphasis and by publisher name. In support of the acquisitons trol function, the address data captured for each source is used i Acquisitions Tracking System to generate delinquent order no and support address requirements for claiming missing journal is detected by the Journal Control System. ***Input:*** Input is intern brary documents such as books, journals, newspapers, FEA releases, and technical reports. ***Content:*** The scope covers th brary's entire inventory which is primarily articles and statistical on energy related topics. ***Output:*** The output includes Source ter File Listing by name and department name, Subject Index Li by name and department name, Exchange Agreement Listin name and department name, and Source Code Index. Reports produced in hardcopy. The system has on-line capability. ***Availity:*** Reports are for internal use only.

Agency Contact: National Energy Information Center; Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (566-9025.

S02900-036

NEIC Thesaurus System. NEIC-5.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy Terminology; Thesauri.

Purpose: This system is to provide lexicographical support to the NEIC indexers, provide a backup for the establishment of subject authority files, and to establish a standardized vocabulary for energy-related infomation storage and retrieval systems. The eventual output will include a published Thesaurus of Energy-Related Terminology. ***Input:*** The input is standardized energy-related terms. These terms are derived from the keywords that the library catalogers use to index library documents. The documents include FEA technical reports as well as documents from other Government agencies and the public sector. ***Content:*** The system shows a syntactical relationship between energy-related terms. Currently, the thesaurus contains approximately 450 terms that have been used to index some 2,000 technical reports. ***Output:*** The output is a hardcopy of a standardized energy thesaurus. There is on-line display capability for editing and perusing the file. ***Availability:*** These are for internal use only at present. When the thesaurus itself is published, the document will be publicly available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-037

Subpart L. 6032.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Distillates, Energy Supplies; Gasoline; Jet Fuel; Kerosene; Petroleum Products; Propane; Residual Fuel Oil; Resource Allocation.

Purpose: This system is to ensure the distribution of available products on an equitable basis during a shortage situation to all users of allocated products based on 1972 purchaser/supplier relationships and volumes sold. This system is in support of Subpart L of 10 CFR 211.222. ***Input:*** The system collects information from every prime supplier of any product subject to State-set-aside. A prime supplier is the supplier (or producer in the case of propane) which makes the first sale of an allocated product subject to State-set-aside in the State distribution system for consumption within the State. ***Content:*** The content is the total amount of delivered products per State during the preceding month and anticipated supply for individual States for the following month. Products include propane, gasoline, kerosene, distillates, jet fuel, and residual fuel oils. ***Output:*** Summaries of supplies of various petroleum products are available on a State-by-State basis. These listings are produced monthly. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-038

Market Shares System. 6038.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

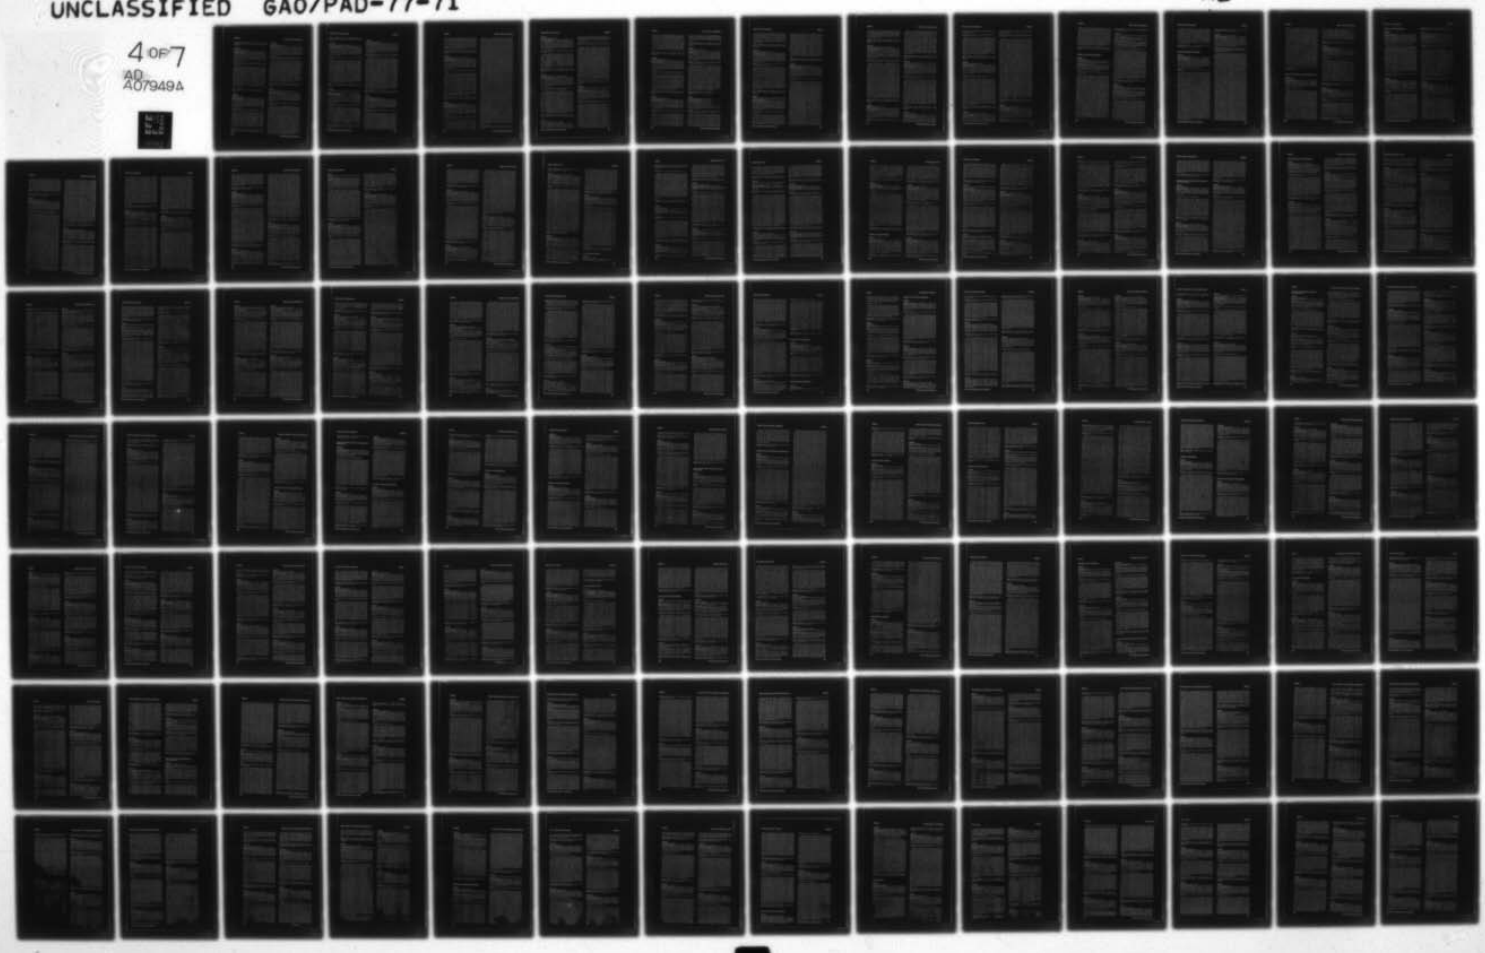
Subject Terms: Distillates, Energy; Marketing; Petroleum Products; Propane; Residual Fuel Oil.

Purpose: The purpose is to report any changes after calendar year 1972 in the aggregate share of nonbranded independent marketers, the aggregate share of branded independent marketers, and the aggregate share of other persons engaged in the marketing or distribution of refined petroleum products of the national market or the regional market in any refined petroleum product. ***Input:*** Input includes data on sales of refined petroleum products by refiners and data on distillate, residual fuel oil, and propane sales to ultimate consumers by branded and unbranded independent marketers. ***Content:*** Information regarding sales volumes of various products is collected monthly from a sample of firms in each of the categories mentioned above. ***Output:*** The principal monthly reports are Report on Sales of Refined Petroleum Products and Report on Gasoline Service Station Market Shares. ***Availability:*** Output reports are published monthly and formally distributed to the Speaker of the House, the President of the Senate and majority and minority chairmen of principal Senate and House subcommittees. The reports are subsequently released in hardcopy form for distribution to the general public through the National Energy Information Center and NTIS.

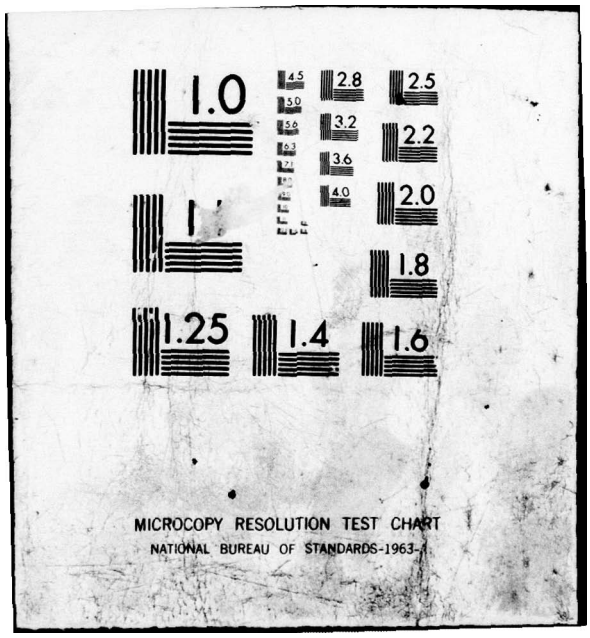
Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-039

Underground Gas Storage System. 6054.



OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.



Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy Supplies; Natural Gas Storage; Storage.

Purpose: This system is to collect information concerning storage capacity, storage levels, injections, and withdrawals, and storage ownerships from intrastate and interstate underground natural gas storage operators. ***Input:*** Data are collected from 45 intrastate underground natural gas storage operators and 39 interstate underground natural gas storage operators. The intrastate respondents report to FEA and the interstate respondents report directly to FPC. Data are collected monthly (April-November) and semimonthly (December-March). ***Content:*** All companies not subject to FPC jurisdiction that operate underground natural gas storage fields in the United States must provide input. The system contains data on the volume of gas stored, gas in operated reservoirs, gas belonging to others in reservoirs operated by respondents; name, location, and capacity of underground storage reservoirs; and reservoirs in development stage. ***Output:*** Output includes listings by company of volumetric inspections, gas reservoir withdrawals, and balances. ***Availability:*** Information collected for this survey is the basis of the publication Underground Storage of Natural Gas in the United States publicly available through FEA's National Energy Information Center.

Oil and Gas Reserves System. 6055.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy Supplies; Gas Production; Gas Reserves; Gas Resources; Petroleum Production; Petroleum Products; Petroleum Reserves; Petroleum Resources.

Purpose: The system was to prepare a complete and independent analysis of actual oil and gas reserves and resources in the United States and its outer continental shelf. Also surveyed was the existing productive capacity and the extent to which such capacity could be increased for crude oil and each major petroleum product each year for the next 10 years through full utilization of available technology and capacity. ***Input:*** This system collected information as of December 1974 from approximately 12,000 operators of oil and gas wells. ***Content:*** The content includes data on the production of oil and gas for 1970-74, estimated production for 1975, and estimated reserves. ***Output:*** The output includes an initial report on Oil and Gas Resources, Reserves, and Productive Capacities, June 30, 1975, and a final report on Oil and Gas Resources, Reserves, and Productive Capacities (Vols. I-III), October 31, 1975. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-041

Coal Data Base. 6057.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Anthracite; Bituminous; Coal Prices; Coal Production; Coal Reserves; Energy Prices; Energy Supplies; Lignite; Subbituminous.

Purpose: The system provides automated data base information relating to coal reserves, production, prices, and other physical and economic data. Data are organized by geographic location and by energy market function. ***Input:*** External data come from the Bureau of Mines, Demonstrated Coal Reserve Data Base of the United States, and the Federal Power Commission. ***Content:*** Continental United States coverage includes production by underground, surface, sulfur content, location, type (anthracite, bituminous, subbituminous, lignite); consumption; costs; and inventories. ***Output:*** Data will be provided upon request. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-042

Cost and Pricing System. 6233.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Distillates; Energy Prices; Gasoline; Jet Fuel; Kerosene; Liquefied Petroleum Gas; Petroleum Products; Prices; Residual Fuel Oil.

Purpose: The system is to monitor petroleum product prices and to facilitate the timely analysis of price and volume of sales data at the refined product level. FEA uses the data collected for this system to assess conformity with established petroleum policies. ***Input:*** The source of information currently is the Petroleum Industry Monthly Report for Product Prices. The report is submitted by all refiners and gas plant operators. Also included are resellers and retailers who derive $50 million or more annually from the sale of covered petroleum products. ***Content:*** The system currently tabulates selling price and sales volume data for each respondent firm for each covered petroleum product it sells. Covered products include gasoline, distillate, residual fuel oil, aviation fuels, kerosene, and liquid petroleum gas. Information is collected monthly on a national basis. ***Output:*** The output is various reports representing monthly price and current product prices. ***Availability:*** A tabulated summary is publicly available in the Monthly Petroleum Product Price Report through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-043

Joint FEA/BOM Petroleum Reporting System. 6230, 6291.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Crude Oil Imports; Petroleum Products; Petroleum Refineries; Pipelines; Refineries.

Purpose: The system combined the petroleum reporting requirements of the Bureau of Mines (BOM), Department of the Interior, and the Federal Energy Administration concerning refinery production, finished petroleum stocks, and imported foreign crude oil. BOM acts as the collection agent for FEA and then provides reports to FEA. ***Input:*** All petroleum bulk terminal operators, operators of pipelines which carry product or crude, and all refineries must file reports on the appropriate forms. The data requested on the forms are transmitted via TWX or mailgram to BOM. BOM then edits the raw data. These data are reported monthly. ***Content:*** Stocks of crude and product by Petroleum Administration for Defense (PAD) districts are listed for refineries, bulk terminals, crude and product pipelines. In addition, for refineries, the receipts, input, and shipments or losses are specified by crude and product. ***Output:*** Monthly hardcopy reports by the Petroleum Administration for Defense (PAD) District include Refinery Operations, Refinery Production of Petroleum Products, Primary Stocks of Crude Oil and Petroleum Products Quarterly Reports, and Quarterly Report of Crude and Thruput per Day by Refinery. ***Availability:*** These data are used as the basis for reports in the Monthly Energy Review and the Monthly Petroleum Statistics Report, which are publicly available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-044

Short Term Coal Demand Forecasting Model. 6118.2.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Coal; Econometric Models; Electric Utilities; Forecasting; Models.

Purpose: The system forecasts the demand for coal by quarter, State, and by end-using sector of the economy. This model applies to electric utilities, industrial and metallurgical users, and exporters. ***Input:*** This is a econometric model that uses historical data on coal demand and economic activity, including the generation of electricity to estimate forecasting equations. Forecasts are based on forecasts of the appropriate exogenous variables. ***Content:*** Subsystems include retail, industrial demand for coal, coke producers demand for coal, electric utility demand for coal, export demand for coal, and Strike Evaluation Model. The Strike Evaluation Model will be used for special studies evaluating the potential impact of a coal strike; the test will forecast quarterly for two years, annually for five years. Each of these subsystems will be State specific. All but the Strike Evaluation Model will be re-estimated at least annually. ***Output:*** Annual reports and quarterly input into other reports, including FEA Quarterly Report to Congress and the Monthly Energy Review, are the output. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-045

Electrical Financial Forecasting Model (BSB Model EUFINANCE). 6118.5.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Electric Utilities; Financial Monitoring; Mathematical Models; Powerplants; Public Utilities; Simulation.

Purpose: The system forecasts the financial condition of individual electric utility companies. ***Input:*** The input includes existing utility plant characteristics, system load characteristics, power generation requirements, and capital costs. ***Content:*** The EUFINANCE model is designed to find economically optional power generation expansion patterns for electrical utility systems within various constraints. It can also generate alternative system configurations for capacity additions; calculate periodic operating costs and reliability factors for each configuration; and determine the optional expansion schedule with respect to the timing, type, and number of units to be added. ***Output:*** No regular reports are produced. The system is used as an analytical system to address policy issues as they occur. ***Availability:*** It is for internal FEA use only.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-046

Oil and Gas Supply Model. 6138.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Crude Oil Production; Crude Oil Reserves; Energy Supplies; Forecasting; Mathematical Models; Natural Gas Production; Natural Gas Reserves; Petroleum; Simulation.

Purpose: The model is designed to produce independent estimates of future crude oil and natural gas production for use in energy policy formulation and planning. This model is derived from the National Petroleum Council Oil and Gas Model. ***Input:*** The data are from the Bureau of Mines, American Petroleum Institute oil reserve estimates, American Gas Association drilling costs and statistics, resource estimates from the Geological Survey, and Lewin enhanced recovery data. ***Content:*** It forecasts the oil and gas production by region for 1980, 1985, 1990, and later. The model is revised annually on a scheduled basis, but modifications and updates to the data base are being implemented on a continuing basis. Future production possibilities are established as functions of anticipated profitability compared to alternative investment opportunities, the amount of exploratory drilling undertaken and its success, and the extent of constraining policies that limit profitability or the availability of land favorable for exploration and production. Runs may be made under two basic sets of assumptions: 1) The Reference Case, assuming a continuation of policies in effect prior to 1977, except price controls; and 2) Accelerated Development, assuming changes to encourage domestic exploration and production. ***Output:*** Output includes oil and gas production and reserves by region by year as machine-readable files and hardcopy and a comprehensive annual study supporting the National Energy Outlook and as issues develop. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-047

National Coal Model (RMAC). 6143.1.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Coal; Energy Policy; Energy Supplies; Forecasting; Mathematical Models; Simulation.

Purpose: The purpose is to forecast the long term supply of coal by region and coal type. ***Input:*** The input is from Federal Power Commission electric utility capacity data, sales by region data, and coal delivery data; Bureau of Mines coal reserve data, utility coal demand and distribution efficiencies; nonutility coal demand, and coal transportation demand. ***Content:*** The model is designed to forecast coal production, consumption, and prices and to analyze coal-related public policy issues. It generates equilibrium solutions through a linear program formulation which balances the supply and demand for coal at minimum cost. The model has 30 supply regions, 35 demand regions, up to 40 possible coal types, and 6 consuming sectors. The model is capable of making both short term and long term annual projections under a variety of policy scenarios. Users

have the capability of changing such factors as region specifications, assumed inflation rates, or assumed growth rates in electricity sales through modifications in the data base. These factors are not a part of the model's structure. The model can also perform sensitive analyses in order to gauge uncertainty surrounding a forecast which it produced. *Output:* No regular reports are produced. The system is used as an analytical system to address policy issues as they occur. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-048

Reserves Allocation and Mine Cost Model (RAMC). 6143.2

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Coal Reserves; Energy Supplies, Mathematical Models; Simulation.

Purpose: The model is designed to allocate coal reserves by BTU and sulfur content to 40 coal type categories. The categories are then aggregated to create regional piles of each coal type. Supply curves are created for each region by mine size and coal type. These are input to the National Coal Model and the Project Independence Evaluation System (PIES). *Input:* Input is reserves data from the Bureau of Mines and the Federal Power Commission Coal Survey. *Content:* The program allocates coal reserves into 40 coal types. There are 30 coal producing regions to which these reserves are allocated and then aggregated by coal type. These piles are then allocated to different mine types based on global, regional, and coal type specific parameters. Mines will be operational if coal is available to be mined and can be sold at a minimal acceptable selling price determined by the program. *Output:* Output consists of regional coal supply files and printed reports, including coal reserve base allocation, coal type and mine size allocation, and coal supply functions. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-049

Project Independence Evaluation System (PIES). 6223.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Coal Production; Crude Oil Production; Econometric Models; Economic Impact; Energy Policy; Energy Prices; Energy Supplies; Forecasting; Gas Production; Simulation.

Purpose: The system is to evaluate various energy policy alternatives by predicting their impact on the energy sector over the next 5-15 years. *Input:* The input includes the Regional Econometric Demand Model (RD4), supply function for each fuel, capacity limits for production of each fuel, transportation networks by mode, commodity, price controls, world energy prices, and macroeconomic forecast. The system requires extensive data input and approximately 10,000 lines of computer code. *Content:* The model consists of supply modules for various sectors of the energy industry: coal production, oil production, gas production, refineries, utilities, energy production via emerging technologies, transportation, and importing. The level of aggregation for each supply module is determined by division, specific to each supply module, of the United States into regions. The modules contain cost and capacity information for each region; for each of the years 1980, 1985, and 1990; and for each of several scenarios which reflect various policy alternatives. The model is updated annually for each new edition of the National Energy Outlook. The model assumes a competitive economic structure with upward sloping supply curves and downward sloping demand curves. Within this framework, the model is made to endogenously forecast the trajectories by which this equilibrium is achieved; and the data are generated assuming a smooth transition to the end state. A fundamental concept underlying the model is that prices will clear the market in all regions; that is, for the equilibrium set of prices, profit-maximizing producers, converters, and transporters will be willing to supply precisely the set of quantities demanded by cost-conscious consumers. The forecasts that the model generates are functions of numerous assumptions about the energy system, many of which can be varied to estimate the impact of policy initiatives or alternative world petroleum prices or to account for supply or demand uncertainties. Many of these policy options or uncertainties have been structured into scenarios, and the results of these scenarios underlie the discussion presented within the body of the annual National Energy Outlook. Additional scenarios can be and are generated continuously to explore policy options and uncertainties. All prices and quantities of energy goods produced, consumed, or converted are estimated on a regional basis. For each sector, a set of regional definitions is established to ease data collection and modeling. The supply side of the PIES equilibrating mechanism includes a set of activities that represents the flow of materials (crude oils, natural gas, electricity, coals, and refined petroleum products) from their source to a final destination. While there are many different materials which flow in the system, there are only eight final products consumed in demand regions: gasoline, distillate, residual, other petroleum, natural gas, steam coal, metallurgical coal, and electricity. The three categories of supply activities are production, energy conversion, and transportation. Each activity is described by possible combinations of output, input, and cost. Cost functions for existing activities include not only variable costs (such as operating and maintenance costs), but new activities also, including amortized capital costs. Capital costs associated with existing activities are viewed as sunk costs and do not influence the allocation solution although they are included in the average cost pricing mechanism when appropriate. The demand side uses a constant elasticity approximation to the demand mode described in summary of Regional Econometric Demand Model (RD4). The PIES Integrating Model operates as follows. A linear program which represents an interim approximation of the energy system is solved. The linear program includes representations of demand functions, supply functions, transportation activities, and energy conversion activities. The interim market clearing prices estimated by the linear program are used to refine the demand function approximation in order to re-solve the linear program. The process is repeated until the solution converges, determining an equilibrium of supply and demand quantities and prices. *Output:* Two reports are available as computer printouts: 1) PIES Model Report (WONDERBREAD) updated annually. There is one for each year (1980, 1985, and 1990) and each scenario. It includes scenario description, raw materials acquisition report, material balance reports, summaries of conversion activities and yields, demand area requirements report, production final demand report, utility fossil fuel consumption report, table of primary products through system, resource requirements report, and executive data summaries. 2) WONDERCOOKIE contains more aggregated and digested information than WONDERBREAD and is much briefer. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-050

Natural Gas Shortage Model. 6238.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy Shortages; Forecasting; Mathematical Models; Natural Gas Shortages; Simulation.

Purpose: The system is to forecast natural gas shortages by State, by quarter. ***Input:*** The input is econometric estimates of State demands from Bureau of Mines data and econometric estimates of marketed production by Federal Power Commission region from American Petroleum Institute/American Gas Association data transmission flows from Federal Power Commission data. ***Content:*** Forecasts are quarterly, for eight quarters into the future for each State. ***Output:*** No regular reports are produced. The system is used as an analytical system to address policy issues as they occur. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-051

Short Term Petroleum Demand Forecasting Model. 6239.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee, *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy Demand, Forecasting, Mathematical Models, Petroleum Demand; Petroleum Products Demand; Simulation.

Purpose: The system is to forecast the demand over the next three years for primary petroleum products. ***Input:*** The input is price assumption per fuel type; GNP estimates, Federal Reserve Board production indices; and supply estimates. ***Content:*** The content includes the demand by monthly, quarterly, and yearly time period for the price and the demand for fuel type. Forecasts of the Short Term Petroleum Demand Forecasting Model are used extensively in comparison with actual trends to give quantitative assessments of potential problems such as a possible shortage of gasoline or some other primary petroleum product. Forecasts are used by FEA as a basis for analysis of major decisions on energy policy such as decontrol of residual fuel oil, distillates, and other products. Another important use of the forecasting methodology is to study past trends in petroleum consumption to ascertain which factors accounted for the recent decline in petroleum demand relative to pre-embargo trends. ***Output:*** Forecasts of petroleum product demand by type by year are produced. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-052

International Energy Evaluation System (IEES).
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Coal; Crude Oil; Econometric Models; Energy Demand, Energy Supplies, Forecasting; Gas, Geothermal Energy, Nuclear Energy, Simulation.

Purpose: The model is to enable market clearing analysis of alternative energy sources on a world level, to evaluate overall OPEC demand, and to determine the availability and price of future U.S. energy imports. ***Input:*** Input consists of econometric demand forecasts from the IEES demand models, energy supply forecasts from the IEES supply models, and energy process data on world refineries, utilities, and transportation resources. ***Content:*** IEES is a world model of all energy resources (e.g., oil, coal, gas, nuclear) which defines energy demands by final product (e.g., gasoline, distillate, jet fuel) by sector of the economy (e.g., commercial, residential, industrial) for each major country of the world. The model specifies supplies of each source of energy in terms of crude oil (by type), gas, coal (by type), nuclear, geothermal and synthetics (by type). The time frame modeled is from the present to 1990 with primary emphasis given to the years 1980, 1985, and 1990. Explicit simulations of electrical utilities, refineries, and the international tanker fleets are included in the integrating model itself. Simulations of the primary supply processes for oil, gas, and coal are included in the IEES supply models, and the results of these simulations are input to the IEES integrating model. The integrating model then seeks the supply/demand equilibrium for the world based upon energy prices and the supply constraints specified in the model. ***Output:*** Output includes regional/country level energy balances; energy supplies/demands prices, electricity generation; refinery operations, world trade in oil, gas, and coal; and tanker bulk carrier fleet utilization. ***Availability:*** The output is for internal use only while still under development.

Agency Contact: National Energy Information Center, 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-053

Regional Econometric Demand Model and Auto Simulation Model (RD4). 6270.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee, *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce, *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources, *Senate* Committee on Governmental Affairs.

Subject Terms: Distillates; Econometric Models; Energy Demand, Forecasting, Gasoline, Jet Fuel; Residual Fuel Oil; Simulation.

Purpose: The model (RD4) is an interface to the PIES system. RD4 provides a demand surface to the Project Independence Evaluation System (PIES) equilibrating framework. In the integration, demand and supply are equilibrated, and fuel forecasts are produced for the years 1980, 1985, and 1990. The Auto Simulation Model is a submodel to the Regional Econometric Demand Model which forecasts a demand point for gasoline consumption. ***Input:*** The model provides 1975-90 demand surfaces (demand point prices, quantities, and elasticities) based upon input forecasts of population, per capita disposable income, natural gas hookups, value added in manufacturing, and exogenous price paths derived from previous PIES equilibria for natural gas, electricity, distillate, residual fuel, liquid gases, gasoline, jet fuel, and coal by economic sector. ***Content:*** The model is a regional model, disaggregated to the level of the FEA Regions to provide demand estimates for energy consumption over the period 1975-90. An Auto Simulation Model exists as a submodel to the Regional Econometric Demand Model which provides a national demand estimate for gasoline consumption (shared out to FEA regions) and transportation usages of distillate, residual fuel, and jet

fuel (all shared out to FEA regions). RD4 is an econometric model based upon 1960-75 historical data in the State/Federal Consumption and Price Data Base. The level of regional disaggregation is to the FEA Region. Econometrically derived coefficients are filed into the Regional Econometric Demand Model forecasting code, and demand surfaces are regionally derived from input of exogenous variables (population, per capita disposable income, etc.). *Output:* Output includes reports of prices and quantities for fuels modeled from 1975-90 and elasticities (available for 1980, 1985, 1990). Reports are in hardcopy form. There is one report available for each of the PIES demand scenarios. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-054

OECD Energy Demand Model. 6273

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Coal; Crude Oil; Econometric Models; Energy Demand; Forecasting; Gasoline; Jet Fuel; Natural Gas; Residual Fuel Oil; Simulation.

Purpose: The Organization for Economic Cooperation and Development Energy Demand Model forecasts energy demand by sector and sector product for 19 OECD countries. *Input:* Macro variables include gross domestic product, steel production, and vehicle registration forecasts. Other input is energy price forecasts by sector and historical energy consumption data. *Content:* The user determines the price assumptions and gross domestic product growth assumptions. Products covered include crude oil, natural gas liquids, motor gasoline, aviation fuel, residual fuel oil, and coal. *Output:* The output includes forecasted energy consumption and growth rates, forecasted price and growth rates, and simulated elasticity matrices. *Availability:* The reports are for internal use only.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-055

International Coal Supply Model. EIA-1.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Coal; Coal Mining; Energy Supplies; Forecasting; Mathematical Models; Simulation.

Purpose: The model uses a linear programming approach to forecast production of various coal types by region, and maximizes discounted revenue. There are financial and technical constraints. *Input:* The data requirements include maximum production capacity by coal type, existing and future total coal reserves, cost information (mine and equipment costs), and regional price and production data. *Content:* The coal supply model allows input of time horizon; production scenario (mine openings, mine capacity, coal liftings); mine development costs; reclamation costs; and equipment constraints. *Output:* The principal output is coal tables, including reserves and production by coal type and cost tables, including operating and investment costs. Reports are computer printouts. All tables exist for each region and each time period. *Availability:* Publicly releasable information in available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-056

International Oil Supply Model. EIA-2.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Drilling; Energy Supplies; Forecasting; Mathematical Models; Oil Production; Petroleum; Simulation.

Purpose: The model uses a linear programming formulation to forecast an oil producing region's drilling and production programs such that discounted revenue is maximized. The formulation is subject to a region's technical and financial constraints. *Input:* The data requirements are productive capacity information for primary, secondary, and tertiary recovery methods; reserve information for existing reserves and undiscovered (found via exploration drilling) reserves; cost information for exploration, reserve development, productive capacity development, and production; and technical and economic constraint information. *Content:* The model allows the user to determine the oil-producing scenario and the time horizon to be forecast. *Output:* The output includes oil tables, including reserves, additions to reserves, production, and additions to productive capacity; cost tables, including investment costs (exploration and development), and operating costs; and drilling tables, including exploration feet drilled and development feet drilled. All tables are produced for each oil-producing region under consideration and for each time period in the forecast horizon. Reports are hardcopy computer printout. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-059

Neoclassical Regional Growth and Energy Price Model. 6144.2

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Economic Development; Economic Impact; Energy Policy; Energy Prices; Forecasting; Mathematical Models; Prices; Simulation.

Purpose: The system is to determine the impact of State energy prices on State economic growth. *Input:* The input is annual growth in unit capital and labor costs, by State and annual costs of energy and nonenergy manufacturing input, by State. *Content:* The growth of manufacturing output in each State is determined by the growth of capital equipment, labor, energy input, and other material input. The growth rates of capital and labor depend on the profit rate and the wage rate, which in turn are affected by regional energy prices. The model has been tested on data for the States for the 1963-72 period. Using parameters based on these tests, energy policies which

change State energy prices can be studied using this model. A hypothetical energy scenario (of eliminating State energy price differentials) has been simulated on the model. This simulation shows that energy prices are importantly related to regional growth. *Output:* No regular reports are produced. The system is used as an analytical system to address policy issues as they occur. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-060

Income Distribution Impact Model. 6144.3.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Economic Impact; Energy Policy; Forecasting; Income Distribution; Mathematical Models; Simulation.

Purpose: The model is to provide estimates of the effects of energy policies on the size distribution of income for the United States. *Input:* The input is forecasts for functional distribution or components of personal income (external) and a 1962 Survey of Financial Characteristics of Consumers (internal). *Content:* The model provides a national estimate of the size distribution of income for the United States. The time period and specific energy policy examined are determined by availability of macroeconomic forecasts of impacts. The model is a constant shares distribution impact model. Each element of the size distribution is allocated constant share of the functional distribution over time. The model computes size distributions for a variety of energy policy forecasts supplied as input to the model. Effects are calculated by comparing forecasts for an energy scenario with an appropriate reference scenario. *Output:* No regular reports are produced. The system is used as an analytical system to address policy issues as they occur. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-061

Dynamic Input-Output Linear Programming Model for Regional Energy Impact Analysis (DIOLP). 6144.4.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Econometric Models; Economic Impact; Energy Policy; Forecasting; Simulation.

Purpose: Public Law 93-275, section 18, requires that the Administrator develop analyses of the economic impact of various energy policies on the economic vitality of regional, State, and local areas. The project attempts to accomplish this purpose with the aid of an economic programming model. *Input:* Direct input coefficients, sectoral output, Government expenditures, unemployment labor forces, and population data can be internally developed. Regional data on exports, imports, investment, external finances, and labor supply by skills will be collected by external agencies on a contractual basis. *Content:* The model is basically a constrained multisectoral optimization model. The model is capable of identifying quantitatively optimal adjustments of the regional economy to changes in energy policies under a given set of resource constraints including energy. Furthermore, the parametric program feature of the model makes it possible to obtain different time profiles of optimum adjustment processes corresponding to alternative energy policy scenarios. Such efficient adjustments to alternative energy policies will be measured in terms of changes in region-industry specific output, income, value added, employment, consumption, saving, and capital accumulation. The model will be developed for each of the nine census regions of the United States. The model will be first empirically implemented and tested for the New England region. *Output:* A working paper and development of an in-house computer capability to monitor regional impacts of energy policies on a continual basis are the output. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-062

Regional Industrial Multiplier System (RIMS). 6144.5.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Econometric Models; Economic Impact; Energy Policy; Forecasting; Simulation.

Purpose: Public Law 93-275, section 18(a), requires the Administrator to evaluate impacts of actions on critical industrial sectors of the economy; employment...on a national, regional, State, and local basis; the economic vitality of regional, State, and local areas. Requirements for regional economic impact analysis are also implied in sections 5 and 15 of Public Law 93-275 and in Public Law 94-163, Title V, Part C-State Energy Conservation Programs. The Regional Industrial Multiplier System (RIMS) was developed to help meet these requirements and will provide one means for identifying the regional dimensions of proposed national policy. In addition to serving as a basic modeling structure for regional impact analysis, the data base will serve as input into other modeling systems being developed within FEA. *Input:* RIMS was initially developed for FEA by the Regional Economic Analysis Division, Bureau of Economic Analysis, Department of Commerce and consists of region- and industry-specific final demand multipliers and ratios for transforming gross output impacts into impacts on earnings and employment. The RIMS allows the analyst to consider the multiplier effects of one or more industries impacting on the economy. Required input is the initial changes in final demand (changes in output) by industry of interest. These changes must be estimated or obtained from business or other Government agencies. *Content:* RIMS can be used to derive input-output type direct and indirect production, earnings, and employment multipliers for every State and for the nine census regions. The State model disaggregates multiplier effects into 103 industrial categories. The census region model considers the 103 industries as well as 16 aggregated industries. The primary use of RIMS will be in analyzing site-specific impacts resulting from energy-related activities. It is best suited as a tool for quick-response analysis, providing timely estimates of the economic effects of energy policies on particular regions and critical industries within the regions. Solutions represent a static equilibrium for a given point in time. Model parameters can be updated as new information or new assumptions are made available. *Output:* The output consists of changes in gross output due to changes in final demand (total multip-

liers); changes in output by industry (direct effects and indirect-induced effects); changes in earnings (income from production) by industry; and changes in employment by industry. Output generation is not yet automated. Reports are provided on request. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-063

FEA Household Energy Expenditure Model (HEEM). 6242.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Consumers; Econometric Models; Economic Impact; Energy Prices; Forecasting; Households; Income Distribution; Prices; Simulation.

Purpose: The HEEM model is a computerized data file containing 1973 energy information on approximately 50,000 U.S. households. The data file can be extrapolated into the future to forecast average household energy expenditures. The HEEM model helps in the evaluation of the impacts of energy events on the household sector of the U.S. economy and forecasts the impacts of higher energy prices on consumers and on the distribution of income. ***Input:*** In addition to the basic data file, the HEEM model contains software programs to screen the data file to give output for various subgroups of households. Input to invoke the data file and the screening programs can be made with either batch or interactive access to the computer system. Input for extrapolation of the data file includes demand elasticities and prices for coal, fuel oil, natural gas, bottled gas, electricity, and gasoline. ***Content:*** The data file was developed from the Public Use Sample of the 1970 Census and from the 1969 National Personal Transportation Survey. The data file was statistically aged to 1973 and can be extrapolated to future years. The HEEM model contains data on housing, housing characteristics, geographic locations, income levels, demographic characteristics, and energy expenditures. ***Output:*** Output is available on computer printouts on an as needed basis. Average Annual Household Energy Expenditures are tabulated by income and by geographic region for the year of interest. Screens can be made to yield tabulations for various subgroups of the households. Total energy expenditures can be tabulated, or the tabulations can be separated by fuel. Estimates are made to indicate the total number of U.S. households for each cell of the tables. ***Availability:*** The output is for internal FEA use only.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-064

FEA Household Energy Survey. 6248.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Consumers; Energy Consumption; Households; Insulation; Surveys.

Purpose: The survey provides information used in the analysis of households' consumption of energy by income groups, age, race, sex, and other socioeconomic and demographic characteristics. ***Input:*** This data source is the product of two nationwide surveys taken in 1973 and 1975. The 1973 survey's sample size is approximately 1,500 households. The same 1,500 households plus 1,500 new households comprise the 1975 sample. ***Content:*** Included is detailed information on households' ownership of appliances, use of insulation, transportation patterns, and energy consumption. The file also contains data on the demographic and socioeconomic characteristics of the household including employment status, age, race, and sex. These data can be used to analyze the impact of energy policies, including increased energy prices and the restructuring of electricity and natural gas rates, on the residential sector and its various components. ***Output:*** Ouput is available on computer printouts. Analyses can be accomplished by linking this data file to statistical packages such as the Biomedical Statistical Package or the Statistical Package for the Social Sciences. ***Availability:*** Output is generally available for internal use only.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-065

Fiscal Impact of Energy Price Changes on State and Local Government Purchases of Goods and Services. 6335.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Economic Impact; Energy Prices; Forecasting; Mathematical Models; Procurement; Simulation; States.

Purpose: The system is to estimate the dollar impact on State and local government outlays for purchases of goods and services when energy prices change. This model is being developed as a result of Public Law 93-275, section 18, 15 U.S.C. 777, which requires that the Federal Energy Administration take account of the fiscal impact of proposed Federal energy policy changes on State and local governments. ***Input:*** Input into the model is data from reports prepared for the Federal Energy Administration and from other public information, e.g., Survey of Current Business; Compendium of Public Finances; Governmental Finances; FEA Working Paper 76-WPA-12; and Research Triangle Institute reports to FEA in February and May 1976. ***Content:*** Impact estimates are made for individual States. These estimates result from one or more fuels which have undergone a price change. Base year for data is 1967, and updates can be made as new data become available. Forecasts of impacts can be made for future years with various assumed energy price changes. The model makes use of energy use per dollar of purchases multipliers based on the 1967 U.S. input-output table. ***Output:*** No regular reports are provided. The system is used as an analytical system to address policy issues as they occur. ***Availability:*** The output is for internal use only.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-066

Severance Tax Model. EIA-3.
OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate*

Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Economic Impact; Forecasting; Mathematical Models; Minerals; Severance Taxes; Simulation.

Purpose: The system is to allocate severance taxes by State and types of production and to maintain an updated file of severance tax rate changes in order to project revenues and budgetary impacts for the State and local sector. (Severence taxes are taxes levied upon those who extract minerals from land within the borders of a particular State. These vary from State to State according to type of mineral extracted and the particular tax rate in effect.). ***Input:*** The system contains forecasts of various severance tax revenues. ***Content:*** Severance taxes and production of resources subject to severance taxation for all relevant States are the content. ***Output:*** No regular reports are produced. The system is used as an analytical system to address policy issues as they occur. ***Availability:*** Output is intended primarily for internal use only. Publicly releasable information will be published in the National Energy Outlook.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

S02900-067

Crude Oil Pricing Model (DCROPS). 6272.1.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Crude Oil Production; Energy Prices; Energy Supplies; Forecasting; Mathematical Models; Petroleum; Simulation.

Purpose: The model is to provide short term monthly forecasts (a 40-month period beginning February 1976) of prices of domestic crude, given certain assumptions about crude production. These forecasts are provided in response to the need for information in the formulation of regulatory policy at FEA. The Energy Policy and Conservation Act of 1975 (Public Laws 93-275 and 93-159) is the authority for controls on the prices of certain domestic crude oils. ***Input:*** The input is crude oil production points for February 1976, 1977, 1978, 1979, and May 1979; decline rate of lower tier oil parameters, lower upper tier shift in production parameters; freeze parameters (month start and stop, prices to start and stop); and monthly volume and cost of first purchases of domestic crude oil by oil category. ***Content:*** The model provides forecasts of upper, lower, and stripper well production by month, given assumptions about upper/lower allocation for each forecast period as well as other input parameters listed above. It also forecasts composite crude price by month, computes required ceiling adjustments necessary for aggregate compliance, and computes excess or deficiency in producer receipts. ***Output:*** Principal reports are output on a monthly basis and contain price, output, and aggregate producer receipts data. ***Availability:*** These are for internal use only.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington DC 20461, (202) 566-9025.

S02900-068

Crude Oil and Natural Gas Production Model. 6272.2.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Crude Oil Production; Energy Prices; Energy Supplies; Forecasting; Mathematical Models; Natural Gas Production; Petroleum; Simulation.

Purpose: The model provides projections of prices and production for these fuels over a short to intermediate time period. It provides input to the Federal Energy Administration petroleum products forecasting system and to other systems requiring crude input forecasts. Production forecasts can be made under a variety of price ceiling strategies, reserve base estimates, and demand and supply elasticities. The solution method is an optimal control algorithm applied in an resource-exhaustion framework. The applicable implementation authority is the Energy Policy and Conservation Act of 1975, Title IV, Section 401. ***Input:*** The input is oil and gas reserves estimates from the Geological Survey, American Petroleum Institute and the American Gas Association; recovery cost functions from the National Petroleum Council, MIT Energy Laboratory, and Lewin and Associates; resource demand from FEA Regional Econometric Demand Model (RD4); regional and national domestic output growth rates; price ceiling regulations and decontrol schedules from FEA and Federal Power Commission; and capital productivity forecasts. ***Content:*** This model produces forecasts of domestic crude oil and natural gas production and prices on a monthly, quarterly, and annual basis. It has been designed to operate in an analytic environment in which ceiling levels have been imposed on wellhead prices of these resources at the national level. The model, when provided a national and regional set of demand curves for the resource and associated shortrun extraction cost functions and estimated rates of capital productivity growth, generates optimal resource extraction price and quantity vectors. The model solves iteratively for these optimal paths from the present through the point at which further resource recovery would not be profitable. The solution thus found is such that the present discounted value of marginal productivity of capital employed in resource recovery is constant over the life of resource deposits. Control variables at the discretion of the user are demand elasticity, initial resource supply, and growth rate of the economy. The model computes and reports optimal resource prices at each time period until exhaustion of economically recoverable resources; optimal resource production levels at each time period until exhaustion of economically recoverable resources; remaining proved and discoverable resource stocks, and cost conditions at each period as a function of resource stocks, production levels, time, and growth rate of technology. ***Output:*** Computer-generated reports are summary price and production forecasts, detailed quarterly forecasts for the United States and for FEA regions, monthly crude oil phased decontrol analyses, and detailed annual and quarterly forecasts for major oil and gas fields. ***Availability:*** Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center, 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461, (202) 566-9025.

S02900-069

FEA Crude/Transportation Model. 6121.

OMB Funding Title/Code: Salaries and Expenses / 92-1500-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Government Operations; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources; *Senate* Committee on Governmental Affairs.

Subject Terms: Crude Oil; Energy Policy; Energy Supplies; Fuel Allocation; Mathematical Models; Petroleum; Pipelines; Simulation.

Purpose: The system is to determine optional location and capacity of storage sites, drawdown strategies and allocation of reserves for Strategic Petroleum Reserves and to evaluate alternative crude oil pipeline systems. The requirement is from the Energy Policy and Conservation Act of 1975. *Input:* The input is Project Independence Evaluation System (PIES) demand data; crude oil supply curves; pipeline network definitions (routes and capacities); and Strategic Petroleum Reserve site locations and capacities. *Content:* The content is the simulation of flow of crude oil between points in the strategic reserve network of refineries, bulk storage terminals, and crude oil pipelines. Simulation is on a national basis. *Output:* The output is a computer printout showing flows between all locations. *Availability:* Publicly releasable information is available through FEA's National Energy Information Center.

Agency Contact: National Energy Information Center; 1200 Pennsylvania Ave. NW, Room 1411, Washington, DC 20461; (202) 566-9025.

FEDERAL HOME LOAN BANK BOARD

S03000-001

The FHLBB Budget.

OMB Funding Title/Code: Federal Home Loan Bank Board Revolving Fund / 82-4035-0-3-401; Federal Savings and Loan Insurance Corporation Fund / 82-4037-0-3-401.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Budget Information Systems, Financial Monitoring, Savings and Loan Associations.

Purpose: The Federal Home Loan Bank Board (FHLBB) budget is authorized by the Congress and includes the limitation amounts on Administrative and Nonadministrative Expenses of the Federal Home Loan Bank Board, the Office of Examinations and Supervision, and the Federal Savings and Loan Insurance Corporation. The Board formulates policies for and supervises the operations of the 12 Federal Home Loan Banks and the Federal Savings and Loan Insurance Corporation. It is also responsible for the examination and supervision of all savings and loan institutions insured by the Federal Savings and Loan Insurance Corporation. Accordingly, this system monitors both budget estimates and expenditures of the entities under the Board's jurisdiction. *Input:* The input is estimates from office directors and cost data from the FHLBB accounting section. *Content:* Information includes program highlights, summary of agency expenses, positions by organizational units, functions and responsibilities of organizational units, and historical and financial background. The expenditure programs of the Federal Home Loan Bank Board and the Federal Savings and Loan Insurance Corporation are presented as business-type budgets; the administrative expenses of the Federal Home Loan Bank Board (including the home office of the Office of Examinations and Supervision) are paid from assessments against the 12 Federal Home Loan Banks and the Federal Savings and Loan Insurance Corporation; the expenses of the 12 district offices of the Office of Examinations and Supervision are paid from fees collected from savings and loan institutions examined from assessments against the Federal Savings and Loan Insurance Corporation; and the amounts shown in the budget schedules for these activities include administrative expenses under annual limitation, nonadministrative expenses under a separate limitation, and certain additional expenses not under limitation. *Output:* The output is FHLBB Justification for (Budget) Estimates and the Budget Variance Report. *Availability:* The Budget Variance Report is for internal use only. The FHLBB Justification for (Budget) Estimates is publicly available.

Agency Contact: Budget Officer; 320 First St. NW, Washington, DC 20552; (202) 376-3423.

S03000-002

Financial and Operating Data Reporting System (FSLIC)–Insured Savings and Loan Associations.

OMB Funding Title/Code: Federal Home Loan Bank Board Revolving Fund / 82-4035-0-3-401; Federal Savings and Loan Insurance Corporation Fund / 82-4037-0-3-401.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Financial Monitoring, Savings and Loan Associations.

Purpose: The system provides the Federal Home Loan Bank Board with financial and operating data on Federal Savings and Loan Insurance Corporation (FSLIC)-insured savings and loan associations for monitoring the savings and loan industry. *Input:* The input is monthly and semiannual reports from FSLIC-insured savings and loan associations. *Content:* The Monthly Report includes a balance sheet, savings flow, mortgage lending activity, and loan commitment data; June/December Semiannual Report includes assets, liabilities, and net worth, income and expenses, slow loans and scheduled items, and various supplemental lending data for fiscal year end and six month; and March/September Semiannual Report includes cash and investment securities, interest/dividend rates on savings, savings account structure Federal income tax information, and savings capital by home and branch office. *Output:* The output is aggregate data from Monthly Report, June/December Semiannual Report, and March/September Semiannual Report; financial evaluation system; management information system; and Highlights Report. *Availability:* The aggregate data from the Monthly and Semiannual Reports (with the exception of Federal income tax information, slow loans, and scheduled items) are publicly available. The output of the Financial Evaluation System, the Management Information System, the Highlights Report, and the aggregate data on Federal income taxes, slow loans, and scheduled items is for internal use only.

Agency Contact: Industry Data Division; 320 First St. NW, Washington, DC 20552; (202) 624-4030.

S03000-003

FHLBB Libraries.

OMB Funding Title/Code: Federal Home Loan Bank Board Revolving Fund / 82-4035-0-3-401; Federal Savings and Loan Insurance Corporation Fund / All Programs.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Banking; Libraries, Savings and Loan Associations.

Purpose: The research library is to function as an information center and provide updated library services to the Federal Home Loan Bank Board's Washington and field offices. The subject areas provide tools for research and a means of fulfilling the needs of the users. The purpose of the law library is to provide FHLBB attorneys with a working library. *Input:* The input is publications of trade associations, congressional committee publications, special research groups, various State publications, graduate school papers, Government publications, and annual reports of FHLBB and FSLIC. *Content:* In addition to materials normally found in a law library, the FHLBB law library contains the following sources of information regarding banking and savings and loan associations: banking and savings and loan laws for the 50 States and the possessions or territories (Canal Zone, Guam, Puerto Rico, and the Virgin Islands); books on the history of banks and savings and loan associations; publications of the National Savings and Loan League; and publications of

the United States League of Savings Associations. The FHLBB research library collection includes a special reference section and a general collection of books on specific subjects such as savings and loan, economics, housing, money, banking, finance, real estate, accounting, management and other related subjects; theses; working papers; Government reports; and other special reports related to the savings and loan industry. A vertical file of special statistical reports, newsletters, and other information material is maintained. Also included in the collection are 350 periodicals on the above listed subjects, financial newspapers, annual reports of the State Banking Association and congressional hearings and reports that are related to functions of FHLBB.

Agency Contact: Federal Home Loan Bank Board, 320 First St. NW, Washington, DC 20552; (202) 376-3081.

FEDERAL MARITIME COMMISSION

S03100-001

Financial Management System.

OMB Funding Title/Code: Salaries and Expenses / 65-0100-0-1-406.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Merchant Marine and Fisheries; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Environment and Public Works.

Subject Terms: Accounting Systems; Budget Information Systems; Financial Management.

Purpose: The Financial Management System is concerned with the overall financial management of the Federal Maritime Commission. It is comprised of two major systems involving budget and fiscal accounting. The budget system includes the formulation of budget policies and programs; the preparation and justification of agency budget estimates; and budget execution. The fiscal accounting system is concerned with the administration of fiscal plans and the control and accountability of agency funds. Allotment accounting functions are performed by the General Services Administration under its integrated payroll and allotment accounting system. ***Input:*** Data for the budget system are based on an annual call for budget estimates and reflects the budgetary requirements of the agency in support of its programs and functions for the current and budget years. Estimates are supported with detailed narrative justifications, projected workload data, and objectives for each program and function. The data for the fiscal accounting system are derived from fiscal plans, apportionments, allotments, and various obligation and expenditure documents (payrolls, contracts, purchase orders, requisitions, travel orders, invoices, vouchers, etc.). ***Content.*** The budget system is reviewed monthly in conjunction with quarterly fiscal plans and allotment reports to determine the need for reprograming available resources. The fiscal accounting system is reviewed monthly in conjunction with automated accounting history and allotment status reports furnished by the General Services Administration for transactions processed during the month. Data are furnished on an accrued cost basis for each cost account entered into the system. Data reflect transactions processed against appropriations for prior years and the current fiscal year. The system reflects the amounts allotted, commitments, obligations, and uncommitted and unobligated balances. ***Output:*** The frequency of the system output is biweekly and monthly, and the following reports are involved: Computerized Payroll Listing (biweekly); Computerized Allotment Status Report (monthly); Computerized Accounting History (monthly); Computerized Listing of Undelivered Orders, Accruals, and Open Commitments by Detail Activity; Status of Appropriation (monthly); and Report on Budget Execution (monthly). ***Availability:*** System output is not publicly available since it is used primarily to meet internal *management requirements.*

Agency Contact: Office of Budget and Finance; 1100 L St. NW, Washington, DC 20573; (202) 523-5770.

S03100-002

Maritime Industry Information System (MARIS).

OMB Funding Title/Code: Salaries and Expenses / 65-0100-0-1-406.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Merchant Marine and Fisheries; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Environment and Public Works.

Subject Terms: Commodity Movement; Exports; Foreign Exchange Rates; Foreign Trade; Foreign Trade Agreements; Freight Forwarders; Imports; International Trade; Marine Transportation; Shipping; Tariffs; Trade Routes; Vessel Certification; Water Pollution.

Purpose: The Maritime Commission data system is composed of a number of individual but closely related subsystems through which data generated within the Commission have been encoded for automatic processing and retrieval, including information on tariffs, agreements, vessel certifications and freight forwarders. These records are integrated with current Bureau of Census vessel and commodity movement data to provide a broad range of up-to-date information, including the number, types, itineraries, and operators of all vessels in the U.S. foreign commerce; the volume of movement by commodity, vessel type, and carrier between any combination of U.S. and foreign ports; and the market share by commodity of individual liner carriers, conferences, and nationalities in any U.S. foreign trade. The System screens all cargo movements against tariff records to insure compliance with statutes requiring tariff filings and to provide an accurate determination of liner and container cargo movements. It is used to signal significant shifts in ocean traffic patterns and monitor the operations of cargo pools. To facilitate access to this data base, the system includes a general inquiry subsystem which is capable of processing multiple inquiries simultaneously. By agreement with the Bureau of Census, the Commission is prohibited from divulging any information developed from Census vessel and commodity movement data which would identify the commercial activities of individual companies or persons. ***Input:*** The data contained in this system are derived from applications filed with the Commission for Certificates of Financial Responsibility (Oil Pollution), applications to be licensed as an independent ocean freight forwarder, tariffs filed with the Commission by common carriers by water in the foreign commerce of the United States and conferences of such carriers, and from agreements filed with the Commission pursuant to Section 15 of the Shipping Act, 1916. U.S. and foreign currency values are obtained by Commission personnel. In addition, the Bureau of Census provides monthly import/export vessel and detailed commodity movement data. ***Content:*** The Water Pollution Subsystem includes applicant name/address, underwriter(s) name/address, vessel name and characteristics such as type, gross tons, and flag. Data are current and updated bimonthly. The Freight Forwarder Subsystem includes the name/address, home or branch office, license number, State, and certain characteristics for each Freight Forwarder. The data are current and updated monthly. The Tariff Subsystem includes tariff name, effective date, participating carriers, geographic trade route, and various characteristics such as type of tariff, direction, service, etc. Data are maintained in a current status and updated monthly. Geographic coverage is coded as follows: U.S. - Coded at either the coast, district or port level using Schedule 'D' - U.S. codes - as provided by Bureau of Census. Foreign - Coded at either the foreign group (trade area), coast or port level using Schedule 'K' - foreign codes - as provided by Bureau of Census. The agreements subsystem includes data on each active agreement (excluding terminals) on file with the Commission. Information includes agreement name, participating members, effective and expiration date, geographic trade route and various characteristics such as type of agreement, direction, service, and many others. Geographic coverage is described as appearing in agreement. In addition the trade routes are summary coded to reflect applicable coverage be-

tween ten U.S. coastal areas and nine major foreign areas. Data are current and updated monthly. The Master name address Subsystem provides name addresses for various mailing lists required for Commission staff and office use. Data are current and updated as required. The Monetary Subsystem provides daily or monthly currency values of U.S. and selected foreign currencies. Data are current and updated monthly. The Census/Vessel Commodity Subsystem includes monthly Import Export vessel and detailed commodity movement data. Data are processed monthly in conjunction with Commission data to develop historical data files of vessel/cargo movements. *Output:* All major reports are hardcopy. Each subsystem has its own report as follows. Unless otherwise stated, reports are provided on an as-needed basis. The Tariff Subsystem reports are the Tariff Master Listing, Tariff Index Listings (by tariff name or number), Tariff Name Address Listing - (tariff, agent or carrier names), and Tariff Operator Relationship Listing - (hierarchy and operator relationships). The Agreement Subsystem reports are the Agreement Master Listing, Agreement Index Listings, Agreement Name/Address Listing (agreement, representative and member names), and an Agreement book published annually. The Freight Forwarder Subsystem reports are the Freight Forwarder Master Listing and condensed Freight Forwarder Listing. The Monetary Subsystem reports are a monthly listing of daily currency values (from previous month) and a monthly comparison with the U.S. dollar. *Availability:* The agreement book is available for public use from GPO. Also, the Condensed Freight Forwarder Listing is made available for public use and distributed by the Office of Freight Forwarders. All other reports are generally restricted to the internal use of the Commission. However, within the limitations of its resources and the restrictions to information disclosure governing it, the Commission will make information from its data base available to other Government agencies.

Agency Contact: Bureau of Industry Economics; 1100 L St. NW, Washington, DC 20573.

FEDERAL MEDIATION AND CONCILIATION SERVICE

S03200-001

Agency's Budget System.

OMB Funding Title/Code: Salaries and Expenses / 93-0100-0-1-505.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Budget Information Systems.

Purpose: The Federal Mediation and Conciliation Service carries out the functions vested in it by the Labor Management Relations Act, 1947 (29 U.S.C. 171-180, 182). The Service assists labor and management in mediation and prevention of disputes affecting industries engaged in interstate commerce and defense production, other than rail and air transportation, whenever in its judgment such disputes threaten to cause a substantial interruption of commerce. Under the authority of Executive Order 11491 of October 29, 1969, as amended by Executive Orders 11616, 11636, and 11838, the Service also makes its mediation and conciliation facilities available to Federal agencies and organizations representing Federal employees in the resolution of negotiation disputes. Public Law 93-350, effective August 25, 1974, amended the National Labor Relations Act to extend its coverage to employees working in private nonprofit health care institutions. The Service is involved in special notice and mediation procedures designed to minimize work stoppages in contract disputes at all private nonprofit health care institutions throughout the Nation. *Input:* The budget is based on estimates of expenditures required to carry on the functions of the Agency. Internal resource requirements input are received from the National Office and the Regional Offices. External input on cost of Workers' Compensation and medical benefits is received from the Labor Department, and estimated cost of FTS and space rental is provided by the General Services Administration. *Content:* The approved budget is published in the appendix of The Budget of the United States Government Fiscal Year 1977. Budget coordination and finalization are prepared at the National Office level. *Output:* The budget output is once a year. *Availability:* Output is publicly available as publish. in the appendix of the Budget of the United States Government Fiscal Year 1977. A synopsis is published in the Federal Register once the budget is approved by Congress and signed by the President.

Agency Contact: Financial Management Division; 2100 K St. NW, Washington, DC 20427; (202) 653-5215.

S03200-002

Arbitration Case Tracking System (ARBIT).

OMB Funding Title/Code: Salaries and Expenses / 93-0100-0-1-505.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Arbitration, Arbitrators, Industrial Arbitration, Labor Disputes, Mediation.

Purpose: ARBIT is the on-line information storage and retrieval system used for locating appropriate people within the file and for arbitration case tracking. Requests are made for panels of arbitrators by private parties throughout the country. The Office of Arbitration, working through terminals, formulates panels, produces letters to the parties, and tracks cases from inception through completion. *Input:* Data are derived from arbitrator biographical sketches submitted by individual arbitrators and requests for panels of arbitrators submitted by parties involved in a labor-management dispute. *Content:* The content includes individual arbitrator experience data, case data, including grievance information, and organization data, including requesting parties' addresses and representative's names. These are submitted and updated daily. This information covers the entire United States. The information dates from 1949. *Output:* The principal output consists of letters containing panels of arbitrators sent to requesting parties. *Availability:* These reports are for internal use only.

Agency Contact: Office of Administration; 2100 K St. NW, Washington, DC 20427; (202) 653-5333.

S03200-003

Mediation Caseload Statistics System.

OMB Funding Title/Code: Salaries and Expenses / 93-0100-0-1-505.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Arbitration, Caseloads, Industrial Arbitration, Labor Disputes, Mediation, Strikes.

Purpose: In addition to being used for monitoring mediation caseload statistics, the system is used for storing descriptive information on the parties to the dispute, the issues, and the final resolution. *Input:* FMCS Final Reports of the mediation of labor-management disputes is the input. *Content:* The system contains information on disputes, technical assistance, and public relations case data covering the entire United States. Items include the number of meetings held, strike reports, and cases closed. This information is updated monthly. *Output:* The principal output consists of caseload statistics broken down by region, duty station, and individual mediator. *Availability:* These are for internal use only.

Agency Contact: Office of Administration; 2100 K St. NW, Washington, DC 20427; (202) 653-5333.

FEDERAL POWER COMMISSION

S03300-001

FPC Budget Files

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations; Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations; Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Budget Information Systems, Resource Allocation

Purpose: The purpose is to collect and maintain quantitative and narrative information necessary to develop and justify annual budget estimates to the Office of Management and Budget and the Congress, and to monitor Agency budget execution. ***Input:*** The data are internal input from the various bureaus and offices of the Commission. ***Content:*** The system contains annual bureau and office statements of current and projected positions, workload, space, equipment, travel, personnel compensation; personnel benefits travel; rents, communications and utilities; printing and reproduction; supplies and materials; equipment; outlays, total obligations and inventory of ADP systems; and budget programs, as follows: water resources analysis; hydroelectric project licensing; electric utility regulation; gas certificate regulation; gas rate regulation; industry systems analysis; regulatory compliance; administration; and distribution. In addition, a narrative justification is submitted along with annual statements of Commission collections and payments. ***Output:*** Annual budget estimates to the Office of Management and Budget and the Congress (manual, hardcopy) are the principal reports. ***Availability:*** Congressional budget estimates are available publicly following submission of the President's budget to the Congress. Supporting data are for internal use only.

Agency Contact: Office of the Comptroller; 825 North Capitol St., Washington, DC 20426; (202) 275-4789

S03300-002

Official FPC Files and Record

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations; Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations; Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Electric Utilities, Energy; Management Information Systems; Natural Gas

Purpose: The purpose is to centrally control and maintain the official regulatory files and records of the Federal Power Commission. ***Input:*** External source input includes required reports and regulatory applications and filings submitted by electric utilities and natural gas companies. Internal input includes staff analyses, legal papers, and other data submitted by the Commission, FPC staff and other Federal sources, i.e., Department of the Interior, Environmental Protection Agency, U.S. Army Corps of Engineers, and the Federal courts. ***Content:*** The information consists of reports and other information concerning electric utilities and natural gas companies subject to the Commission's jurisdiction, including: annual reports, natural gas producer, gas pipeline and electric rate schedules and tariffs, and volumes of Commission notices, orders, and opinions. Also maintained are docket sheets on all cases filed, the official service lists of the Commission, and service registers listing those upon whom notices, orders, decisions, or opinions were served. ***Output:*** No specific output is produced. This is primarily a reference source. ***Availability:*** Unless restricted by statute, Title 18 of the Code of Federal Regulations, or court orders, the information is publicly available by request to the FPC Office of Public Information

Agency Contact: Office of Regulatory Support Services; 825 North Capitol St., Washington, DC 20426; (202) 275-4970

S03300-003

Comprehensive Financial and Economic Information File (RISCEIF)

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305

Congressional Relevance: *House* Committee on Appropriations; Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations; Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources

Subject Terms: Class A Electric Utilities, Electric Utilities, Energy, Financial Monitoring, Natural Gas Pipelines, Pipelines, Privately-Owned Utilities, Public Utilities

Purpose: The purpose is to provide monthly and annual financial data on the electric industry and natural gas pipeline industry used by FPC, State Regulatory Commissions, Congress, other Federal agencies, the general public, and others. ***Input:*** Sources for the data are the electric utilities and natural gas pipeline companies as stated below filing annual reports, FPC Form 1, 1-M, and/or FPC Form 2 as prescribed under the requirements of the *Federal Power Act* and *Natural Gas Act*. Monthly reports, FPC Form 5, are filed by all electric utilities having $2.5 million or more in electric operating revenues, and *FPC Form 11*, filed by the *major* interstate natural gas pipeline companies whose combined sales for resale and gas transported (interstate) or stored for a fee exceed 50 billion cubic feet during the preceding calendar year. ***Content:*** Financial data are submitted monthly and annually on public use forms from privately-owned electric utilities, publicly-owned electric utilities, natural gas pipeline companies, Class A electric utilities, and major interstate natural gas pipeline companies. ***Output:*** Hardcopy press releases cover data on Class A and B privately-owned electric utilities and major interstate natural gas pipeline companies. Several annual statistical publications are generated in printout form. All output is accessible by terminals. ***Availability:*** The output is publicly available from the FPC Office of Public Information.

Agency Contact: Office of Accounting and Finance; 825 North Capitol St., Washington, DC 20426; (202) 275-4037

S03300-004

Gas Supply Indicators

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305

Congressional Relevance: *House* Committee on Appropriations; Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations; Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources

Subject Terms: Drilling, Energy Supplies; Natural Gas Pipelines, Natural Gas Reserves, Pipelines

Purpose: Gas Supply Indicators data are compiled to provide quarterly analyses of industry trends affecting gas supply. The criterion of the statistical series is their value as leading indicators of the industry response to changing economic conditions and regulatory policies. ***Input:*** Data sources for the report are: 1) Mineral Industry Surveys, U.S. Department of the Interior, Bureau of Mines, Marketed Production, Imports and Exports of Natural Gas; 2) Federal Power Commission, Sales by Producers of Natural Gas to Interstate Pipeline Companies - FPC Forms 2, 2A; 3) Federal Power Commission, Form 11 - Natural Gas Pipeline Purchases from Producer and Sales to Ultimate and Retail Customers; 4) Hughes Tool Company weekly reports to the Drilling Contractor; 5) Hughes Tool Company Active Rotary Rig data reported weekly to the Oil and Gas Journal; 6) American Petroleum Institute, Quarterly Review of Drilling Statistics for the United States; 7) World Oil; 8) Bulletin of American Association of Petroleum Geologists; and 9) Contract data reported to the FPC, Bureau of Natural Gas. ***Content:*** "Gas Supply Indica-

tors" includes annual and quarterly national data on marketed production, producer sales to interstate pipelines, number of active drilling rigs, exploratory and development drilling, and new contract sales by producers to interstate pipelines. Breakdowns of national series are made for offshore and FPC price areas. It includes a series of initial rates paid by interstate pipeline companies for natural gas under new long term and short term (emergency) contracts. The series covers the period 1970 to date and is updated quarterly. *Output:* A quarterly report with text, tables, and charts is produced. *Availability:* It is publicly available from FPC, Office of Public Information.

Agency Contact: Office of Economics; 825 North Capitol St., Washington, DC 20426; (202) 275-4170.

S03300-005

Bulk Electric Power System Reliability.

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Electric Power; Electric Powerplants; Energy; Power Load Forecasting; Privately-Owned Utilities; Public Utilities; Reliability.

Purpose: The purpose is to evaluate matters concerning power interruptions, load reductions, and bulk power supply hazards; to determine suitable reliability criteria and standards of operation and planning; to study the effects of transmission line interconnections on the reliability and economy of power supply, including the maintenance of extensive and up-to-date transmission line maps; to determine the causes of generating plant unreliability and methods of improvement; to study the means of providing adequate generating capacity at lowest cost; and to study the methods of load forecasting. *Input:* Public use forms (FPC Forms 12, 12A, 12D, 12E-2, 12F) are filed periodically by electric utilities (privately-owned, publicly-owned, and cooperatively-owned). Reports are filed under Order 331-1 as the need arises due to service interruptions. Annual reports are compiled and filed in response to FPC Order 383-3 on a voluntary basis by the nine Regional Electric Reliability Councils. Reports are filed under Order 445 when utilities modify their contingency procedure. Minutes of the meeting of technical and administrative committees of the Reliability Councils and attendance by Bureau of Power staff engineers at such meetings are included. Attendance and participation in conferences and meetings of the national engineering societies and similar organizations are included, as well as information received from Government agencies and other sources. Form 12E-2 has 5 schedules; one is filed monthly, the other four semiannually. There are 269 respondents; some are individual utilities, some are pools responding as a single entity on behalf of their members, and some are holding companies responding as a single entity on behalf of their subsidiaries. Form 12F is filed annually by some 550 utilities owning or planning transmission facilities at 69 kv or greater voltage. *Content:* FPC Forms 12 and 12A are annual reports filed by electric utilities giving information concerning energy production, transfers of energy and capacity loads, generating units, and planned capacity. FPC Form 12D is similar to Form 12 but much abbreviated and is filed at 5-year intervals by very small utilities. Reports are filed under Order 331-1 by utilities suffering an interruption to service, as the occasion arises; these reports describe the particulars of the equipment failure or other circumstances that caused an unforeseen interruption of service to customers. Reports are filed under Order 445 when a utility changes its procedures for dealing with situations in which load exceeds (or threatens to exceed) capacity. The information reported describes the procedures to be instituted by the utility in the event of an emergency. The reports filed by the Reliability Councils under Order 383-3 summarize on an integrated regional basis the 20 year projected planning of the utilities in each Council area. For the first decade information is given in significant detail. For the second decade the information is more general. Through attendance at and participation in meetings of the various engineering societies, information is obtained concerning technological studies and advances in the area of engineering such as materials, components, devices, mathematical methods of system analysis, reliability studies, and economics of engineering. Data received from Government agencies consist of historical statistics and projections. The information is supplied by Federal and State agencies for the most part, some of it annually, some biennially, and some as the occasion arises. Form 12E-2 provides information on construction plans and changes in generating capacity and transmission lines, and load forecasts semiannually. It provides actual load and capacity data monthly. Form 12F provides information on transmission planning at voltages of 69 kv or higher. *Output:* The principal reports are a series of special studies on: 1) "Interstate Status" of electric systems; 2) the market for power from Federal and licensed hydroelectric projects; 3) the electric power aspects of environmental statements of nuclear and fossil fueled powerplants; 4) annual reports summarizing and discussing the load and capacity projection of the Reliability Councils for the following ten-year period and for the succeeding ten-year period; 5) semiannual reports summarizing load and capacity estimates for the forthcoming winter and summer peak load periods; 6) semiannual reports summarizing the status of planned generator construction, completion of units, and causes of delays in completion; 7) reports on special topics related to bulk electric power supply-Powerplant Availability, System Controls and Communications, Reserve Practices, and other topics; 8) quarterly reports summarizing data concerning systems outages affecting supply to customers and an annual report summarizing data concerning transmission lines; 9) maps of the U.S. transmission system, updated periodically; 10) special reports such as National Power Survey, and Bulk Power Supply analyses in response to congressional queries; and 11) verbal reports in response to requests for information from NRC, FEA, ERDA, GAO, OMB, State agencies, and members of the public. *Availability:* All studies are available on request.

Agency Contact: Division of Power Supply and Reliability; 825 North Capitol St., Washington, DC 20426; (202) 275-4718.

S03300-006

Electric Power Fuel and Environmental Analyses.

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Air Pollution Control; Electric Power; Energy Prices; Environmental Assessment; Forecasting; Simulation; Thermal Powerplants; Water Pollution Control.

Purpose: The purpose is to analyze and evaluate information on electric powerplant fuel supplies, transport, stockpiles, quality, and costs; to determine the environmental effects of steam-electric powerplants and associated facilities upon air and water quality and the esthetic effects of transmission line installations; and to determine the effect of fuel and environmental control costs on the cost of electricity to consumers. *Input:* Input includes public use forms (FPC Forms #67 and #423); data from other Government agencies (Department of the Interior, Environmental Protection Agency, Energy Research and Development Administration, Federal Energy Administration,); data from industry associations (National Coal Association, Edison Electric Institute, Electric Power Research Institute); and private communications with electric power industry representatives. *Content:* FPC Form #67, titled "Steam-Electric Plant Air and Quality Control Data" is filed annually by some 850 steam-electric plants from all parts of the United States, having a capacity of 25 megawatts or greater. The data include the following information: 1) Air Quality Control Data-fuel types, quantities, and quality; boiler designs; flue gas cleaning equipment, amounts of pollutants discharged to the atmosphere, disposal of ash and sulfur waste products, cost of air pollution control; 2) Water Quality Control

Data-cooling water provisions, types of cooling systems, thermal and chemical discharges; 3) Future Air and Water Quality Data-projected plant expansions; quantity, quality, and source of future fuel requirements; projected plant water use; and 4) Plans and Costs for Meeting Air Pollution Standards-applicable air pollution control regulations, proposed method(s) for achieving compliance, pollution control costs associated with achieving compliance. FPC Form #423, "Monthly Report of Cost and Quality of Fuels for Electric Plant," is filed monthly by some 850 plants from all parts of the United States burning fossil fuels and having a total combined (steam-electric combustion, turbine, and internal combustion) generating capacity of 25 megawatts or greater. The form includes information on the type, quantity, quality, and price of fossil fuels delivered to electric powerplants; source of the fuel; and type of purchase. *Output:* Steam-Electric Plant Air and Water Quality Control Data is published annually. The Monthly Report on Fuel Cost, Quality is published monthly. The Annual Summary of Cost and Quality of Electric Plant Fuels, with special supplements on the origin of coal delivered to electric utilities and a comparison of the sulfur content of coal with applicable sulfur regulations is published annually. These are all hardcopy. *Availability:* All reports are publicly available.

Agency Contact: Division of Power Surveys and Analyses; 825 North Capitol St., Washington, DC 20426; (202) 275-4677.

S03300-007

Hydro and Electric Recurring Data Reports.

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Electric Power Generation; Electric Utility Rates; Energy Consumption; Financial Statements; Hydroelectric Power; Privately-Owned Utilities; Public Utilities.

Purpose: The purpose is to provide for a series of authoritative periodic FPC publications and statistics (relative to the generation, transmission, distribution, fuel consumption and stack data, and sale of electric energy) that are regularly used by the Congress, industry, Federal, State, and local agencies, the general and technical press, foreign governments and the United Nations organizations, academic and research institutions, and the general public. *Input:* Public use forms are filed by the utilities with the FPC. *Content:* The content includes: 1) Annual Report (Classes A and B). Detailed financial and operating information, filed by privately-owned electric utilities with electric operating revenues of $1 million or more. Due March 31; 2) Annual Report, Municipal Electric Utilities. Similar information from municipal electric utilities with annual revenues of $250,000 or more. Due March 31; 3) Typical Net Monthly Bills for Residential Service. Filed annually by selected power suppliers in each State for specified communities, typical net monthly bills for power at retail for residential service for communities of 2,500 or more population; and commercial and industrial service for communities of 50,000 or more, or if there are no cities that size, the three largest. Due about February 15; 4) All-Electric Homes Data Sheet. Filed annually by power suppliers in all cities having populations of 50,000 or more or supplying the three largest cities, net annual retail bills for all-electric homes computed under rates applicable January 1. Also latest information on number of all-electric customers and average electric consumption. Due April 15; 5) Monthly Powerplant Report. Filed by all electric utilities with generating capacity, monthly information on generation of electricity and consumption and stocks of fuel (Form 4-white). And from a selected sample of industrial establishments, generally with installed generating capacity of 5,000 kilowatts or more (Form 4-pink). Due 10 days after month reported; 6) Monthly Statement of Electric Operating Revenue and Income. Monthly information on operating revenues and income, filed by all privately owned electric utilities with annual electric operating revenues $2.5 million and over, and certain publicly owned utilities. Due about 40 days after end of month; 7) Industrial Electric Generating Capacity. From all industrial establishments which owned or operated generating capacity, other than motor generators, at any time during the year and did not report monthly on Form 12 E2. Due May 1; 8) Summary for National Electric Rate Book. Selected retail rate schedules of electric utilities both public and private, for inclusion in the FPC National Electric Rate Book. Filed periodically as requested by FPC; and 9) Retail Rate Level Change. All changes in retail rates, filed within 60 days of date of change, from all electric utilities serving at least one community of 2,500 or more population. *Output:* The principal hardcopy reports produced are: 1) Electric Power Statistics and advanced news release - hardcopy, monthly; 2) Typical Electric Bills - hardcopy, annual; 3) All-Electric Homes - hardcopy, annual; 4) Statistics of Privately Owned Electric Utilities - hardcopy, annual; 5) Statistics of Publicly Owned Electric Utilities - hardcopy, annual; 6) National Electric Power Generation and Energy Use Trends - hardcopy, quarterly; 8) Summary of Capacity, Production and Fuel Consumption - hardcopy, annual; 9) Retail Rate Increases - hardcopy, quarterly; 10) Supplement to Yearly Typical Electrical Bill Report (500 kwh) - hardcopy, quarterly; 11) Power Production Generating Capacity Data for 1970 to 1975 - hardcopy, annual; and 12) Monthly Comparisons of Peak Demands and Energy for Load by Power Supply Areas - hardcopy, annual. *Availability:* All publications are publicly available from the FPC; publications 1 through 5 are also available from the GPO.

Agency Contact: Division of Power Surveys and Analyses; 825 North Capitol St., Washington, DC 20426; (202) 275-4731.

S03300-008

Hydroelectric Power Resources of the United States (HPR).

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Electric Power Generation; Hydroelectric Powerplants; Powerplants.

Purpose: The purpose is to keep current an inventory of all existing hydroelectric plants in the United States and of potential undeveloped hydroelectric power sites; and to provide summaries by various categories, historical data, and forecasts for future development of hydroelectric power. *Input:* Data on existing hydroelectric powerplants are obtained from reports received by the Commission from both privately- and publicly-owned electric utilities and from reports on industrial generating plants. Data on the undeveloped hydro power resources are obtained from various sources which include reports and studies by Federal, regional, State and local agencies, studies by private interests and applicants for licenses or permits from the Commission, or from any other available source. Acts of Congress such as the Wild and Scenic Rivers Act provide input that identifies exclusions and potential exclusions from the data file. *Content:* Each record in the data file on magnetic tape has 960 characters which provide for 160 items of descriptive information on each hydroelectric plant or site. These items include names of plants, sites, and reservoirs; locations by streams, major drainages, States and regions, by coordinates, elevation, river miles and relative sequence on river reaches; drainage areas and average inflows; dam and reservoir descriptions; project purposes, type of project, license project numbers and action dates; plant data items, including generator ratings, number of units, status, average annual generation, head, capability, hydraulic capacity, types of turbine and power conduit, cost data; numerous processing codes and other items of information and pertinent remarks. *Output:* The principal reports are "Hydroelectric Power Resources of the United States, Developed and Undeveloped," every four years, an annual list of Federal hydroelectric plants in operation, under construction, and authorized, listings of 40

items from each record of the data file and four cross indexes in computer output formats; and certain summaries and tabulations of this data appearing in the annual report of the Federal Power Commission. *Availability:* "Hydroelectric Power Resources of the United States" is available from the Superintendent of Documents, U.S. Government Printing Office. Computer listings of selected plant and site data are generally for internal use, but are available on special request. A computer printout of each entire tape record is available on FPC Form 557.

Agency Contact: Division of River Basins; 825 North Capitol St., Washington, DC 20426; (202) 275-4684.

S03300-009

Electric Regulatory Activities.

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Electric Utility Rates, Price Regulation; Public Utilities, Public Utility Rates; Utilities.

Purpose: The purpose is to provide information concerning the electric utility regulatory workload of the Commission, electric rate schedules on file with the Commission, and the status of formal electric rate cases pending before the Commission. *Input:* All information is derived from internal sources. *Content:* The subsystems and their contents are: 1) Quarterly summary of electric regulatory activities - provides workload data on electric rate filings and cases for current and previous quarters, summary of rate cases pending at end of quarter, and number of cases and dollar value of corporate transactions pending for current and previous quarters; 2) index of electric rate schedules - lists all electric rate schedules filed with the Commission, including names of selling companies and other parties and types of electric service provided. Index is updated and reissued quarterly, and 3) alphanumeric Index by Company Name and Docket Number - lists alphabetically by electric utility (and by docket number where more than one case is pending) the docket number, status, assignment and internal activity for all formal electric rate cases. Covers all cases since 1974. *Output:* Summaries of electric regulatory activities are issued quarterly as Commission news releases. The index of electric rate schedules is a quarterly computer printout, reproducible in hardcopy, of approximately 350 pages, alphanumeric order, and tabular. The index by company name and docket number is a hardcopy computer printout, issued monthly, in columnar format and alphanumeric order. *Availability:* Summaries of electric regulatory activities and the index of electric rate schedules are available to the public. The index by company name and docket number is produced for internal only.

Agency Contact: Division of Rates and Corporate Regulation; 825 North Capitol St., Washington, DC 20426; (202) 275-5667.

S03300-010

Power Surveys and Systems Evaluation.

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation, *Senate* Committee on Energy and Natural Resources.

Subject Terms: Electric Power Generation, Electric Powerplants, Energy Policy; Financial Statements; Privately-Owned Utilities; Public Utilities, Utilities.

Purpose: The purpose is to investigate the electric power industry, including its characteristics, demands and supplies, structure, markets, and value of power, and to project future development patterns of the industry, the costs of electric power, and the impact of public policies on the industry. *Input:* Information is derived from electric power industry reports submitted to the Commission, including certain FPC public-use forms (FPC Forms 1, 12, 12E), staff analyses and reports, and reports of government-industry advisory Committees. *Content:* Industry reports are submitted to the Commission monthly, semiannually, and annually, and cover all aspects of electric power generation for every geographic region of the Nation. Advisory Committee reports are submitted as requested and are concerned with specific topics, such as power supply, fuels, finances, conservation, research and development, power supply adequacy, and environmental issues. The Committees are established to consider a particular issue, and their reports and recommendations are used as source material in the development of Commission policies. Public use form data include the following: 1) Form 1–detailed financial and operating information filed annually (March 31) by all privately-owned electric utilities with annual electric operating revenues of $1 million or more; 2) Form 12–annual power system statement (due May 1) filed by all systems which generate at least part of their own power and whose net energy generation exceeds 20 million kilowatt hours per year; and 3) Form 12E–a monthly supplement to Form 12 listing the near-term summer or winter load supply situations of the responding utilities and related transmission and generating facility delays. *Output:* Advisory Committee and Commission reports covering various electric power industry issues and problems are published as necessary. Periodic hardcopy reports of seasonal load-supply situations (national and regional) are published. Annual hardcopy reports are published listing plant costs, operating and fuel expenses, and related data for steam-electric, hydroelectric and gas turbine powerplants. *Availability:* All reports are available to the public through FPC or the Government Printing Office.

Agency Contact: Division of Power Surveys and Analyses, 825 North Capitol St., Washington, DC 20426; (202) 275-4766.

S03300-011

Status of Pending Hydroelectric Applications.

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Hydroelectric Powerplants, Licenses; Powerplants.

Purpose: The purpose is to provide information concerning the status of hydroelectric project applications pending for preliminary permits, licenses, license amendments, transfers, or surrenders, and other matters related to the Commission's hydroelectric licensing program under Part I of the Federal Power Act. *Input:* Information is derived from applications submitted to the Commission and from input at various stages of application processing. *Content:* The system provides the applicant name, FPC project number assigned, date application was filed, processing status of the application, installed generating capacity of the project, the engineer assigned, and a brief description of the type of application. A separate subsystem also provides a brief narrative history of applications involving new hydroelectric generating capacity. *Output:* The overall system provides an automated, hardcopy status report of all pending applications. It is published quarterly but can be updated more frequently. The system can be queried by applicant, status category, type of application, and project number. The quarterly new capacity report is manually produced. *Availability:* The reports are for internal use only.

Agency Contact: Division of Licensed Projects; 825 North Capitol St., Washington, DC 20426; (202) 275-4863.

S03300-012

Special Reports Issued by the FPC and Federal Power Commission Publications.

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Electric Power; Information Services; Maps; Natural Gas.

Purpose: The purpose is to provide to the press, the Congress, other Government agencies, the regulated industries, and the general public with information on availability of publications and reports issued by the FPC. ***Input:*** Information is submitted by internal sources, including all organizational units within the FPC. ***Content:*** These publications list special reports and publications issued by the Federal Power Commission. Reports are grouped under general, electric power, natural gas, special report, and map categories. The list of special reports covers reports available free of charge from the Office of Public Information. Title, date of issue, and news release (NR) number (where applicable) are provided. Publications contained in the publications list are available from the Superintendent of Documents, U.S. Government Printing Office. Title, date of publication, price, and description of contents are provided for each. These are updated as necessary. ***Output:*** The output consists of statistical reports, rules and regulations, decisions and opinions, operating data, special gas and power studies, maps, cost and rate information, power and gas savings, gas curtailment reports, electric load supply projections, and other matters, revised periodically. These are monthly, quarterly, annually, or as necessary. All are hardcopy publications. ***Availability:*** Reports are publicly available, from GPO, NTIS, and FPC. Availability varies from report to report.

Agency Contact: Office of Public Information; 825 North Capitol St., Washington, DC 20426; (202) 275-4006.

S03300-013

Natural Gas Industry Evaluation Systems.

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy Industries, Forecasting; Gas; Natural Gas; Synthetic Fuels.

Purpose: The National Gas Survey was established by a series of Commission orders, in accordance with the requirements of the Federal Advisory Committee Act, to provide the Commission, the public, and the industry with information designed to provide a clearer picture of the present and future course of the natural gas industry than could be obtained from the mass of unevaluated statistics and information currently available. This information is required for effective regulation of this industry. ***Input:*** The data in this system are the end product of a combined effort, directed by the Commission in which Federal and State agencies, industry representatives, and members from academic institutions and technical societies all participate, utilizing all industry knowledge, data, and information currently available. ***Content:*** The information in the system includes analyses of natural gas resources, natural gas industry technology, industry growth trends, and the anticipated interaction of probable future market forces, assuming various public policy and private industry decisions. The impact of future technological changes is carefully considered. The program goal is a periodically updated, comprehensive analysis of the future energy situation, and an overview of the natural gas industry and its probable future course. The National Gas Survey is nationwide and worldwide in scope. ***Output:*** The principal output of the survey will be hardcopy reports on the following subject areas; nonconventional natural gas resources, synthesized gaseous hydrocarbon fuels, regulatory aspects of substitute gas, rate design, impact of the gas shortage on consumers, efficiency in the use of gas, finance, and curtailment strategies. ***Availability:*** The system's output in the form of task force reports, preliminary summaries (chapters), and final, Commission approved reports (volumes) is available to the public. The source of published volumes is the U.S. Government Printing Office. All other documents are available through the Commission's Office of Public Information and/or from National Gas Survey files.

Agency Contact: Bureau of Natural Gas; 825 North Capitol St., Washington, DC 20426; (202) 275-4516.

S03300-014

Natural Gas Company Operating Information File.

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy Industries; Exports, Imports; Natural Gas, Natural Gas Pipelines; Pipelines.

Purpose: The Natural Gas Company Operating Information file provides the Commission and the public with detailed data and information on various aspects of the regulated natural gas industry such as reserves, production, production costs, contract and rate filing summaries, underground storage, imports and exports, pipeline curtailments, pipeline construction costs, and intrastate contract prices received by jurisdictional companies. It also encompasses natural gas company compliance filings, area rate refund reports, and certificate filing fees made by these companies. This file is maintained under the general requirements of section 14(a) of the Natural Gas Act. ***Input:*** The data in this file are derived from official FPC data collection forms, various compliance filings, and other reports required to be filed by natural gas pipeline and producing companies under the Commission's jurisdiction. ***Content:*** The natural gas company operating information file contains the following information. Dedicated year-end reserves and annual interstate production by company, by State and FPC production area, updated annually; producer expenditures, exploration and development activity, reserve additions and revenues by company updated annually; jurisdictional producer intra and interstate production and reserves by company, updated annually; underground storage volumes by company, by geographic region, updated monthly (semimonthly November through March), underground storage volumes, capacity, deliverability and cost by company, by geographic region, by field, updated annually; imports and export volumes and monthly prices by company, by FPC docket, by location, updated annually; actual and estimated pipeline requirements and curtailments by company and region, annual and winter basis, updated semiannually; actual monthly curtailments by company, by State, updated quarterly; pipeline construction costs by mile, by pipe size, by function, by company, by FPC docket, by geographic region, updated annually; monthly intrastate contract prices by company, by FPC production area, by State, updated quarterly; listing of regulated pipeline companies by type and size, by service area, updated semiannually; average wholesale gas prices for 14 large metropolitan areas, updated annually; reserve dedications by company, by FPC production area, by purchaser, updated monthly, field code listing by county and State name and code; buyer, seller and small producer code listings with name changes and date of change, active or inactive status, and jurisdictional contract and rate summaries by company updated continuously. ***Output:*** The system output is keyed in most instances to the frequency of reporting via official FPC data collection forms, filings, and reports. These include pipeline reserves and production - annual; underground storage - semimonthly, monthly/annual; imports and exports annual; pipeline curtailments - quarterly, semiannual; construction costs - annual;

pipeline listing - annual; wholesale gas prices - annual; interstate gas prices - quarterly; reserve dedications monthly; field, buyer, seller and small producer listings - annual. The code listings and reserve dedication reports are issued as ADP printouts; all other reports are issued as news releases and/or formal reports. *Availability:* With the exception of the internal monthly and semimonthly underground storage reports and two internal annual reports on pipeline construction costs, output is available to the public through the Commission's Office of Public Information. Information pertaining to producer reserves and cost data is considered confidential pending Commission and/or court action.

Agency Contact: Bureau of Natural Gas; 825 North Capitol St., Washington, DC 20426; (202) 275-4410.

S03300-015

Natural Gas Regulations System (Producer Rate).

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy Prices; Government Regulation; Interstate Commerce; Natural Gas Prices.

Purpose: Producer rate regulation is required by the Natural Gas Act to assure that natural gas is sold in interstate commerce at rates which are just and reasonable. The major functions of this system are to review exploration, developmental, and production costs associated with the production and sale of natural gas, recommend rates required to explore for and develop the natural gas reserves essential to the needs of the country, and review all producer rate filings made with the Commission. This system is maintained to provide the Commission and its staff with the information necessary to determine just and reasonable rates for the sale of natural gas. *Input:* The data are derived primarily from producer rate change filings, rate schedules, industry questionnaires, Commission orders and opinions, and data available from the Natural Gas Operating Information File. *Content:* This file contains records of rates applied for by producers for interstate gas sales to pipelines, a copy of each contract under which producer sales are made plus correspondence and other related producer information. These rate filings are made pursuant to Commission opinions establishing nationwide rates or as a result of contractual requirements or State actions affecting rates being charged. *Output:* Opinions which establish just and reasonable rates are produced approximately every two years. Hardcopy is available. Producer rate change filings are reported on summary reports on a continuous basis. Hardcopy reports only are available. *Availability:* National Rate Opinions are available to public in hardcopy form. Producer rate changes are reported on continuous reports for internal distribution only.

Agency Contact: Bureau of Natural Gas; 825 North Capitol St., Washington, DC 20420; (202) 275-4579.

S03300-016

Natural Gas Regulation System (Producer Certificate).

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Government Regulation; Interstate Commerce; Licenses; Natural Gas Pipelines; Natural Gas Sales; Pipelines.

Purpose: Under the Natural Gas Act, producers are required to obtain certificate authorization to sell gas in interstate commerce and to obtain abandonment authorization for the cessation of any sale of gas in interstate commerce. Certificate applications and abandonment applications are filed by producers pursuant to the Commission's Rules and Regulations as set forth in the Code of Federal Regulations, Title 18, Chapter I. The purpose of the file is to provide the Commission staff with adequate information concerning the amount of gas available, terms and conditions of gas sales, and location of gas dedicated to the interstate pipeline system. *Input:* The data necessary to support this system include applications for certificates of public convenience and necessity and gas contracts filed by producers, Commission orders and opinions, and data available from the Natural Gas Operating Information File. *Content:* The files contain a record of all producer certificate applications and contracts which govern the terms and conditions of the sales. Each certificate provides the applicant's name; description of facilities; pipeline locations, length, diameter, daily capacity; any compressor, gas-on-line, dehydration or purification plant, storage facilities; gas supply; and gas contract. Each gas contract contains the name of the purchaser, point of delivery, contract volume, price at time of filing, date and term of contract, and special conditions. *Output:* A semiannual summary of producer certificate filings of various types is prepared by the Bureau of Natural Gas for the Commission's information in hardcopy form with no computer capability. This summary identifies large producer certificate applications, small producer contracts filed by pipelines, applications for limited term certificates and for optional certificates and notifications of 60-day emergency sales by docket number or file number, seller, buyer, field, county, State, price, term, and volume. *Availability:* The summary of producer certificate filings is publicly available upon request, but it is primarily an internal report prepared for the information of the Commission.

Agency Contact: Bureau of Natural Gas; 825 North Capitol St., Washington, DC 20426; (202) 275-4524.

S03300-017

Natural Gas Regulation System (Pipeline Rate).

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy Prices; Government Regulation; Natural Gas Pipelines; Natural Gas Prices; Pipeline Rates; Pipelines.

Purpose: Pipeline rate regulation is required by the Natural Gas Act to assure that pipeline rates are just and reasonable. As part of its burden of proof in support of a proposed rate increase, a pipeline company is required to submit cost and financial data including an overall cost of service which is the starting point in determining just and reasonable rates. It represents the revenue requirements that will enable a company to recover its cost and operate profitably in order to attract capital for sustained service to its customers. Formal hearings are usually held on these rate increase proposals. Rulemaking proceedings are also instituted to set standards and new policies and to provide necessary information for effective regulating actions. *Input:* The data necessary to support this system are derived primarily from pipeline rate change filings, rate schedules, tariffs, reports and investigations instituted as a result of rate change filings, and Commission orders and opinions. Data from the Natural Gas Operating Information File are also used. *Content:* The Information File contains a historical record of each individual regulated pipeline's just and reasonable rates, cost of service, plant in service, depreciation rate, gas purchase cost and volume sold, volume of gas sold and rate price, balance sheet data, income statements, transmission line data, gas storage data, a finance payment data, capital structures, and allowed rate of return. *Output:* Opinions which establish just and reasonable rates are issued after the Commission has decided individual pipeline formal rate cases. Hardcopy is available. *Availability:* Pipeline rate opinions are available to the public.

Agency Contact: Bureau of Natural Gas; 825 North Capitol St Washington, DC 20426; (202) 275-4371.

S03300-018

Natural Gas Regulation Systems (Pipeline Certificate).

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committe on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Government Regulation, Licenses; Natural Gas Pipelines; Pipelines.

Purpose: Under sections 3 and 4 of the Natural Gas Act, over 120 jurisdictional natural gas pipeline companies must submit applications to the FPC in order to obtain approval prior to the construction and operation of new facilities, to make connections, to import or export gas, to provide new or modify existing service, and to abandon facilities. These jurisdictional companies transport and sell about 2/3 of the Nation's gas supply. The certification requirement has been placed upon those companies in order to protect the public interest by insuring adequate service, just and reasonable rates, and to prevent the unnecessary duplication of facilities. ***Input:*** The data necessary to support this system are derived primarily from the certificate application filed by the pipeline company, from Commission orders and opinions, and from data available from the Natural Gas Operating Information File. Supplemental data are frequently requested by staff from the applicant as required. ***Content:*** This file consists of all certificate applications applied for by Natural Gas Companies. Each application for a certificate by a jurisdictional pipeline company is accompanied by specific data on the project as to the financing, engineering, economics, gas supply, market, State and local authorization, location of facilities, flow diagrams, environmental impact, cost of facilities, construction, maintenance and operation schedules, the impact the projects will have on the entire system's operation, gas volumes to be transported, anticipated startup dates, and other relevant company data. Data on natural gas curtailment plans are also a part of this information source. ***Output:*** The ultimate output is the Certificate of Public Convenience and Necessity issued by the Commission. Reports at the staff level include internal memos recommending action, exhibits, testimony, and environmental impact statements. ***Availability:*** The Certificate of Public Convenience and Necessity, Exhibits, Testimony, Environmental Impact Statements, and correspondence to and from the applicant are all available to the public through the FPC, Office of Public Information. Staff memos recommending action are restricted to internal use.

Agency Contact: Bureau of Natural Gas; 825 North Capitol St., Washington, DC 20426; (202) 275-4496.

S03300-019

FPC Library.

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy; Information Services; Libraries; Public Utilities.

Purpose: The Federal Power Commission Library maintains materials which relate to certain phases of FPC fiscal and budgetary programs; current and retrospective files relating to congressional reports, hearings, and public laws for the regulatory agencies, as well as several executive departments such as Agriculture, Interior, and Energy Research and Development Administration. ***Input:*** Materials are derived from internal and external sources. ***Content:*** The content includes an extensive collection of publications and materials related to general management and accounting functions; the United States budget dating back to 1921; statistics of electric and gas, public utilities, including finance and management; Moody's Public Utilities and Moody's Industrials back to 1913; Standard and Poor's services on companies, stocks and bonds; Ebasco's analyses of public utility financing; Commerce Clearing House services on Federal and State taxation; publications containing data on finance and banking which influence the national economy and hence the use of electric power and natural gas; Federal Power Commission electric rates arranged by State, dating from 1939; and American Gas Association rate service. The remaining bulk of the collection deals with the legal and technical materials directly involved in public utility regulation, including publications on energy, environment, fuels, economics, accounting, and law. ***Output:*** Normal library products are produced. ***Availability:*** The library is available for FPC staff use only.

Agency Contact: Office of Administrative Operations; 825 North Capitol St., Washington, DC 20426; (202) 275-4303.

S03300-020

Natural Gas Distribution Model.

OMB Funding Title/Code: Salaries and Expenses / 26-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Forecasting, Mathematical Models, Natural Gas Demand, Natural Gas Distribution, Natural Gas Pipelines, Pipelines, Simulation.

Purpose: The model is a mathematical program which determines the optimum distribution of natural gas from producing areas to markets through the natural gas pipeline network. ***Input:*** Input data requirements for the model are the demand for natural gas by State, sector (residential, commercial, industrial, electric utility), and year, and natural gas production (both interstate and intrastate) by FPC producing area. Demand data, by sector, are provided by the Federal Energy Administration. Production data are derived from data prepared by the Future Requirements Committee and published in Future Gas Consumption of the United States, Volume 6, December 1975. ***Content:*** The model computes the optimum allocation of natural gas to sectors within each State, using goal-oriented techniques of mathematical programming. Optimum allocations are computed in accord with user supplied factors indicating the relative importance of satisfying demand in each of the four sectors in the States. The model determines an optional allocation from a set of potential solutions which are constrained by such factors as pipeline capacity, gas production, and maximum allowable deviation from historical patterns of gas distribution. ***Output:*** Major hardcopy reports consist of predicted flow of gas from supply areas to market areas on a pipeline-by-pipeline basis and predicted allocations of natural gas to residential, commercial, industrial, and electric utility sectors on a State-by-State basis. As the need for analysis of natural gas distribution arises, the model is run and reports are produced. ***Availability:*** Sample output from past analyses is available from the Agency contact.

Agency Contact: Pipeline Certificate and Curtailment Division; 825 North Capitol St., Washington, DC 20426; (202) 275-4515.

FEDERAL RESERVE SYSTEM

S03400-001

Bank Branch Structure Data.

OMB Funding Title/Code: Formulation of Monetary Policy; Supervision and Regulation of Financial Institutions.

Congressional Relevance: *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Banks, Bank Structure, Federal Reserve System.

Purpose: The file makes available complete structure information with underlying records necessary to prepare summary statistics or provide individual bank historical data. These records contain bank identification information needed for statistical, regulatory, supervisory, legal, and economic research purposes. ***Input:*** Information is provided by the Federal Reserve Banks, Comptroller of the Currency, and the Federal Deposit Insurance Corporation, as well as independent sources for selected geographic information. ***Content:*** Included are all institutions defined as banks, branches, and banking facilities at military and other government establishments located in the 50 States, the United States' possessions, and certain other areas controlled by the United States. Data include the bank name and address and related geographic information and characteristics of the bank/branch office, such as charter class and holding company affiliation. ***Output:*** The principal reports are the G.4.5 Monthly Federal Reserve Board Release; the Federal Reserve Bulletin (quarterly); and the Annual Statistical Digest. ***Availability:*** The data are primarily intended for internal use and use in conjunction with financial data.

Agency Contact: Freedom of Information Office, 20th St. and Constitution Ave. NW, Washington, DC 20551; (202) 452-2407.

S03400-002

Report of Income Data Files.

OMB Funding Title/Code: Formulation of Monetary Policy; Supervision and Regulation of Financial Institutions.

Congressional Relevance: *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Bank Financial Statements; Bank Income, Banks, Insured Commercial Banks.

Purpose: The data are used for supervision and regulation functions to analyze the performance of commercial banks. ***Input:*** The data are reported annually by all insured commercial banks. ***Content:*** The income report contains information on the sources of an insured bank's income, expense, taxes, profits, and changes in capital. Effective March 1976, data are collected from large banks ($300 million or more in total deposits) on a quarterly basis. Beginning with June 1976, data are available semiannually on all insured banks. The series begins in 1969, but prior to 1972 individual bank data are confidential. ***Output:*** The principal reports are the Annual Statistical Digest and the Federal Reserve Bulletin. ***Availability:*** A computer tape subscription series of individual bank data is available for data beginning in December 1972.

Agency Contact: Freedom of Information Office, 20th St. and Constitution Ave. NW, Washington, DC 20551; (202) 452-2407.

S03400-003

Consolidated Report of Condition.

OMB Funding Title/Code: Formulation of Monetary Policy; Supervision and Regulation of Financial Institutions.

Congressional Relevance: *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Bank Financial Statements, Banks, Insured Commercial Banks.

Purpose: The purpose is to monitor the financial condition of all commercial banks. ***Input:*** Data are developed from quarterly reports supplied by commercial banks. ***Content:*** The tapes contain detailed assets, liabilities, and capital accounts data for all insured commercial banks and their significant domestic subsidiaries. The detailed data include information on loans, investments, deposits, and capital accounts. ***Output:*** The principal reports are the Federal Reserve Bulletin and the individual hardcopy of reports. ***Availability:*** The data are available through an automated data series computer tape subscription service beginning in 1959.

Agency Contact: Freedom of Information Office, 20th St. and Constitution Ave. NW, Washington, DC 20551 (202) 452-2407.

S03400-004

Flow of Funds National Accounts System.

OMB Funding Title/Code: Formulation of Monetary Policy.

Congressional Relevance: *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Banking; Credit Market; Investments; Loans; Savings.

Purpose: The purpose is to collect information about sources and uses of funds pertaining to a broad cross-section of the U.S. economy. ***Input:*** Some elements of the data base are drawn from separate structures like corporate finance, Government finance, balance of payments, money and banking activities, individuals' savings, residential finance, and security market activity. These elements are integrated into the data base together with information from income and product accounts on saving and capital formation. ***Content:*** Quarterly and annual tables are published which include a full set of sector statements of savings and investment and a full set of transaction accounts that give net borrowing and lending in individual types of claims. Published current quarterly tables and the annual tables are contained in separate Federal Reserve Board publications. Credit market summary tables appear monthly in the Federal Reserve Bulletin. Once each year a more extended set of tables appears in the Bulletin to present the new and revised base data. Summary tables are also published in the Annual Statistical Digest. ***Output:*** The base data are published as tables of year-total flows from 1946 to the present and yearend outstanding claims from 1945 to date. These tables are available in hardcopy format. ***Availability:*** The base data exist in quarterly form from 1952 and are available on computer tape. These data are publicly available and are distributed by the Federal Reserve Board on request.

Agency Contact: Division of Research and Statistics; 20th St. and Constitution Ave. NW, Washington, DC (202) 452-3482.

S03400-005

Weekly Report of Commercial and Industrial Loans Outstanding by Industry/FR416a.

OMB Funding Title/Code: Formulation of Monetary Policy.

Congressional Relevance: *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Commercial Banks, Commercial Loans, Industrial Loans, Loans.

Purpose: The commercial and industrial (C and I) loan series is a short run indicator of the strength of business loan demand in the banking community. It serves as a basis for estimating total bank business loans. The information may be used to gauge the broad loan picture as well as the effects of special situations and seasonal patterns by industry. The information is also useful in projecting future loan demand. ***Input:*** The data are provided by a sample of 159 of the Nation's largest commercial banks. Business loans are reported as of the close of business every Wednesday. Term loans by industry are reported on the last Wednesday of each month. ***Content:*** The information requested is the volume of outstanding domestic commercial and industrial loans classified by business of the borrower and of

the nondomestic C and I loans classified as one of the following: 1) Bankers acceptances, 2) foreign commercial and industrial loans, and 3) not classified. The series begins in January 1964. *Output:* The principal reports are Commercial and Industrial Loans Outstanding by Industry and H.12 Federal Reserve Statistical Release. *Availability:* The data in aggregate form are distributed by the Federal Reserve Board and are available to the public.

Agency Contact: Freedom of Information Office; 20th St. and Constitution Ave. NW, Washington, DC 20551; (202) 452-2407.

S02400-006

Money Supply; Bank Reserves, Monetary and Banking Aggregates Data Files.

OMB Funding Title/Code: Formulation of Monetary Policy.

Congressional Relevance: *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Banks; Commercial Banks; Credit; Federal Reserve System; Financial Institutions; International Banking; Monetary Policy; Money; Securities.

Purpose: These data are used in the conduct of monetary policy to monitor and analyze the influence of monetary policy on the cost and availability of bank reserves, bank credit, and money. *Input:* Aggregate data are obtained from regular reporting by all insured commercial banks as well as selected information from other nonbank financial institution sources. *Content:* The money supply (M-1) consists of data on demand deposits of commercial banks other than domestic interbank and U.S. Government, less cash items in process of collection and Federal Reserve float; foreign demand balances at Federal Reserve Banks; and currency outside the Treasury, Federal Reserve Banks, and vaults of commercial banks. Data for more inclusive definitions also exist. The banking reserves data consist of seasonally adjusted levels of total reserves, required reserves, and excess reserves. The monetary and banking aggregates data relate in large part to the condition and operation of the Federal Reserve Banks and member banks, some of which also pertain to all banks, including State banks that are not members of the Federal Reserve System, and on bank debits, bank income, bank suspensions, and bank holding companies. There are also data on non-bank financial institutions, currency, money rates, securities markets, Treasury finance, consumer credit, gold, and international financial developments. *Output:* The principal reports are the Annual Statistical Digest, the Federal Reserve Bulletin (monthly), and the H.3 Statistical Release (weekly). *Availability:* Individual time series data are publicly available in hardcopy and machine-readable modes.

Agency Contact: Freedom of Information Office; 20th St. and Constitution Ave. NW, Washington, DC 20551; (202) 452-2407.

S03400-007

Weekly Report of Condition (416W) Data File.

OMB Funding Title/Code: Formulation of Monetary Policy / Supervision and Regulation of Financial Institutions.

Congressional Relevance: *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Bank Deposits; Banks; Commercial Banks; Federal Reserve System; Financial Monitoring.

Purpose: The file provides the capability to monitor the financial condition of the largest commercial banks in the Nation on a weekly basis. *Input:* The file consists of a detailed balance sheet prepared for approximately 330 of the largest commercial banks and significant domestic subsidiaries in the Nation. (These banks had total deposits in excess of $100 million as of December 31, 1965.) Data pertaining to balances in asset and liability accounts as of the close of business each Wednesday are voluntarily reported by these banks. *Content:* This reporting series began in July 1959. Individual bank data and names of respondent banks are confidential. Therefore only summary data are published. *Output:* Federal Reserve district and national totals of the balance sheet items are published each Wednesday in the Federal Reserve Statistical Release H.4.2 and, in a slightly different format, in the Federal Reserve Bulletin. Earlier data are published in the Annual Statistical Digest. Balance sheet items for banks in New York and Chicago appear in the H.4.3 Statistical Release. *Availability:* Individual bank data and names of respondent banks are not available to the public. Time series of national, Federal Reserve districts, and selected SMSA aggregates are available to the public.

Agency Contact: Freedom of Information Office; 20th St. and Constitution Ave. NW, Washington, DC 20551; (202) 452-2407.

S03400-008

Industrial Production Index Systems.

OMB Funding Title/Code: Formulation of Monetary Policy.

Congressional Relevance: *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Energy Consumption; Industrial Production; Manpower Utilization; Manufacturing Industries; Mining Industry; Public Utilities.

Purpose: The purpose is to measure the trends and cyclical fluctuations in industrial activity at the sector and aggregate levels. The data base contains data and indexes on the components of the four major industrial production series-total, consumer goods, business equipment, and materials-1976 revision. *Input:* Industrial production is a value-added weighted average of 235 individual series representing manufacturing, mining, and utility industries. These series are constructed from monthly data from various sources. Physical product data are from various trade associations and Government agencies such as Bureau of the Census and Bureau of Mines, production worker man-hours (Bureau of Labor Statistics) and kilowatt hour data by SIC (Federal Reserve) are both adjusted for output. *Content:* Estimates are published monthly for industrial production during the preceding month-total output of factories, mines, and utilities. The seasonally adjusted industrial production indexes are published monthly in the Federal Reserve Bulletin and in the Annual Statistical Digest. *Output:* The principal reports are the G.12.3 Federal Reserve Statistical Release (a monthly report in hardcopy format) and the Federal Reserve Industrial Production. *Availability:* Historical industrial production data back to 1954 for seasonally adjusted and not seasonally adjusted monthly indexes of market and industry groups are available on computer tape as well as in computer printout form. These data are publicly available and are distributed by the Federal Reserve Board on request.

Agency Contact: Freedom of Information Office; 20th St. and Constitution Ave. NW, Washington, DC 20551; (202) 452-2407.

S03400-009

Report on Foreign Branch Assets and Liabilities (FR502 and FR502S).

OMB Funding Title/Code: Formulation of Monetary Policy.

Congressional Relevance: *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Banks; Federal Reserve System; Financial Monitoring; International Banking; Multinational Corporations.

Purpose: The reports cover the assets and liabilities of foreign branches of member banks of the Federal Reserve System, of Edge Act Corporations, and of non-member banking institutions in the United States owned by foreign banks. *Input:* Form F.R. 502 (monthly) and Form F.R. 502-S (quarterly) are filed with District Federal Reserve Banks by all member banks of the Federal Reserve System, by Edge Act Corporations, and by nonmember banking institutions in the United States owned by foreign banks. *Content:* Monthly 502 data show breakdowns for several U.S. and foreign customer categories and breakdowns by dollar and foreign currency denomination. Published data are aggregates for all branches in the

United Kingdom and for branches in the Bahamas and Cayman Islands. Quarterly 502-S data show total claims and liabilities by the country of the branches' customers. *Output:* FR502 data are reported in table 3.22 "Foreign Branches of U.S. Banks" in the Federal Reserves Bulletin, published monthly. Aggregates of FR502S data are reported in the quarterly E-11 statistical release, Geographical Distribution of Assets and Liabilities of Major Foreign Branches of U.S. Banks. Also produced is the Annual Statistical Digest. *Availability:* The aggregate data are publicly available.

Agency Contact: Freedom of Information Office; 20th St. and Constitution Ave. NW, Washington, DC 20551; (202) 452-2407.

S03400-010

Margin Credit Data File

OMB Funding Title/Code: Formulation of Monetary Policy.

Congressional Relevance: *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Banks, Credit, Financial Monitoring; Securities.

Purpose: The file is maintained to provide information on the current and prospective trends of credit extention for securities transactions. The Federal Reserve Board uses this information to fulfill its role of monitoring margin credit requirements in a timely fashion. *Input:* Margin credit data are collected each month by the New York Stock Exchange (NYSE) from approximately 140 brokers and dealers. The NYSE processes this information into summary aggregate reports, copies of which are sent to the Federal Reserve Board on a timely basis, usually within two weeks of the monthly reporting date. (This comprises about 98 percent of all margin debt.) The annual data consist of individual broker dealer information collected by the NYSE from approximately 250 brokers and dealers. *Content:* The margin credit data collected and processed by the NYSE are of two distinct types: one type deals with total margin credit outstanding and the other is concerned with the distribution of outstanding credit by account equity class intervals (Status of Margin Accounts). The two types of information complement one another and provide the basis for monthly estimates of the total and the distributional breakdowns of margin statistics published in the Federal Reserve Bulletin. Monthly data collection began in 1973. *Output:* The principal reports are the Federal Reserve Statistical Release, C.2-Aggregate Summaries of Annual Surveys of Security Extension, as of June 30, the Federal Reserve Bulletin, and the Annual Statistical Digest. *Availability:* The aggregate data only (monthly or annually) are publicly available.

Agency Contact: Division of Research and Statistics; 20th St. and Constitution Ave. NW, Washington, DC 20551; (202) 452-3543.

FEDERAL TRADE COMMISSION

S03500-001

Financial Management System.

OMB Funding Title/Code: Salaries and Expenses / 29-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *House* Committee on Interstate and Foreign Commerce; *House* Committee on Small Business; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on the Judiciary.

Subject Terms: Accounting; Budget Information Systems; Financial Management; Management Information Systems.

Purpose: The system is designed to meet all internal and external needs for cost and other financial data for planning, programming, budgeting, control, and reporting of Agency operations. *Input:* The input is encumbering or obligating documents, invoices and vouchers, recurring documents, and interagency transfer of funds documents. *Content:* This system contains information concerning all financial transactions of the Agency, such as the obligation, accrual, disbursement, and receipt of funds. *Output:* Major reports are daily, weekly, monthly, annually, and on an ad hoc basis. These reports are generally hardcopy. *Availability:* Output is for internal use only.

Agency Contact: Division of Budget and Finance; 6th St. and Pennsylvania Ave. NW, Washington, DC 20580; (202) 523-3507.

S03500-002

Case/Project Tracking and Status (CPTS).

OMB Funding Title/Code: Salaries and Expenses / 29-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *House* Committee on Interstate and Foreign Commerce; *House* Committee on Small Business; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on the Judiciary.

Subject Terms: Government Regulation, Management Information Systems, Manpower Utilization, Productivity; Trade Regulation.

Purpose: The system is used to maintain an automated index of all Commission matters (i.e. investigations, cases, projects) that indicates the subject or respondent, the issues, violations, statutes, as well as the major events that have taken place, the current status, and the planned vs. actual hours to date. The information is used to produce Commission management reports. *Input:* The information in the file is supplied by managing professionals when matters are initiated or when they change in terms of characteristics, events, or status. The man-hours expended information comes from a subsystem to which the staff reports their hours by matter and type of activity. *Content:* The CPTS data base contains one record for each active and each completed matter. The records are presently updated once per month. Each record contains the type of matter, the identifying number, the subject or respondent, the statutes involved, the product/service codes, major events, status, and man-hours planned and actually expended to date. All bureaus of the Commission provide data that are consolidated within this system. *Output:* This system generates the Case/Project Profile, the Case/Project Status Report, and the Matters Pending by Program and by Organization. *Availability:* Output is for internal use only.

Agency Contact: Management Division; 6th St. and Pennsylvania Ave. NW, Washington, DC 20580; (202) 423-3367.

S03500-003

Case History Files (Public Records).

OMB Funding Title/Code: Salaries and Expenses / 29-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *House* Committee on Interstate and Foreign Commerce; *House* Committee on Small Business; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on the Judiciary.

Subject Terms: Administrative Procedures; Government Regulation; Litigation; Regulations; Trade Regulation.

Purpose: The system maintains all documents in connection with formal and rulemaking proceedings before the Commission and provides these to the public as well as the Commission for research. *Input:* Input is investigations, studies, proceedings, and activities conducted by the Commission and its staff. *Content:* This system consists of pleadings, transcripts, exhibits, briefs, decision, orders, opinions, policy statements, docket sheets and entries, requests for public comment, public comments, news releases, rules, guides, publications, and other materials required by law or directed by the Commission to be placed on the public record. *Output:* There are no principal reports or output. *Availability:* Files are publicly available.

Agency Contact: Deputy Secretary; 6th St. and Pennsylvania Ave. NW, Washington, DC 20580; (202) 523-3383.

S03500-004

Case History Files and Investigational Records Compiled for Law Enforcement Purposes.

OMB Funding Title/Code: Salaries and Expenses / 29-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *House* Committee on Interstate and Foreign Commerce; *House* Committee on Small Business; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on the Judiciary.

Subject Terms: Government Investigations; Government Regulation; Law Enforcement; Trade Regulation

Purpose: The system provides formal investigational records and related files in connection with nonpublic and policymaking activities of the Commission required for use as evidence. *Input:* Input is provided by Commission attorneys and other staff, reports and recommendations by staff for law enforcement activities, staff memoranda, and evidentiary materials. *Content:* This system contains applications for complaint, correspondence, interview reports, transcripts of nonpublic investigational hearings, documents and exhibits, legal and economic analyses, final reports of investigations, recommendations, comments of staff regarding pending recommendations, compliance records, and other memoranda involving attorney work product and Commission deliberations in the course of law enforcement and deterrence efforts. *Output:* The principal output is case history reports (hardcopy, as required). *Availability:* Files are utilized primarily to meet internal information requirements and as evidence in law enforcement proceedings. Output is not publicly available.

Agency Contact: Deputy Secretary; 6th St. and Pennsylvania Ave. NW, Washington, DC 20580; (202) 523-3383.

S03500-005

Statistical Report on Mergers and Acquisitions. P512006(F06).

OMB Funding Title/Code: Salaries and Expenses / 29-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *House* Committee on Interstate and Foreign Commerce; *House* Committee on Small Business; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on the Judiciary.

Subject Terms: Corporate Mergers; Government Regulation; Mergers; Trade Regulation

Purpose: The system was established in its present form in 1972 to provide as complete and accurate a list as possible of mergers, acquisitions, and joint ventures occurring during the year, and to publish an annual report on this information. *Input:* Input is from public sources such as the Wall Street Journal, Moody's Industrial, Standard and Poor's, company annual and 10-K reports, plus information on the specifics of the mergers as taken from the premerger notification reports and the quarterly financial reports, if not available elsewhere. Since these data are confidential, they are given in aggregated form in the report. *Content:* In large mergers in mining and manufacturing, information is given on the names of the acquiring and acquired companies, their sales, assets, SIC codes, and date of completion of the merger. For all other mergers, foreign and domestic, information is given on the names of the acquired and acquiring companies, the SIC codes and date of completion of the merger. *Output:* The output is the Statistical Report on Mergers and Acquisitions (annually, hardcopy). *Availability:* The report is available to the public through GPO.

Agency Contact: Bureau of Economics, 6th St. and Pennsylvania Ave. NW., Washington, DC 20580; (202) 254-7511.

S03500-006

Corporate Patterns Report (CPR). P512002(F02).

OMB Funding Title/Code: Salaries and Expenses 29-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *House* Committee on Interstate and Foreign Commerce; *House* Committee on Small Business, *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on the Judiciary.

Subject Terms: Government Regulation; Industrial Statistics; Industries; Manufacturing Industries; Trade Regulation

Purpose: The principal purpose of CPR-1972 is to provide the Commission with data on industrial concentration, integration, and diversification among the 1,000 leading manufacturing companies. The data would be useful in enforcement activities, economic studies, and policy planning. *Input:* Input is from a special report submitted by approximately 1,000 leading manufacturers of 1972. *Content:* Principal data to be collected are value-of-shipments by manufacturing product class (5-digit SIC-based classifications), sales by SIC classification in nonmanufacturing, minority ownership interests and joint ventures by the 1,000 leading companies, and net consolidated company sales and assets. Data are primarily collected for calendar year 1972. Companies are, however, permitted to substitute fiscal year data when supplying calendar year data would be unduly burdensome. Although data for acquisitions are required for acquisitions made since yearend 1972, the data for the acquisitions themselves would be either for calendar year 1972 or for yearend 1972. The geographic coverage of CPR-1972 includes the 50 States and the District of Columbia. *Output:* The output is a report (one-time, hardcopy). *Availability:* The report is scheduled to be publicly available in January 1978.

Agency Contact: Bureau of Economics; 6th St. and Pennsylvania Ave. NW, Washington, DC 20580; (202) 254-7686.

S03500-007

Quarterly Financial Report (QFR). P512085(F01).

OMB Funding Title/Code: Salaries and Expenses 29-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *House* Committee on Interstate and Foreign Commerce; *House* Committee on Small Business; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on the Judiciary.

Subject Terms: Corporate Finance; Corporations; Financial Statements; Manufacturing Industries; Mining Companies; Profits; Retailers; Wholesalers

Purpose: The system was established in 1947 to publish quarterly earnings data and balance sheet information on a universe of corporations which are primarily engaged in manufacturing, with mining or trade being added in 1974. Estimates are developed from information collected from a probability sample of corporations from these three sectors. The estimates are used each quarter in estimates of corporate profits prepared by the Bureau of Economic Analysis of the Department of Commerce. ***Input:*** Input is provided by questionnaires completed by sample companies. ***Content:*** This system covers a stratified sample of approximately 11,000 manufacturing corporations, approximately 2,400 retailing corporations, 600 mining firms, and 2,300 wholesale trade corporations. Reports are received quarterly for the sample companies, and aggregated data are published quarterly. Information includes: reporting company identification; reporting company classification data; profit and loss statement data; assets and liabilities; and blown-up estimates. ***Output:*** The output is the Quarterly Financial Report in hardcopy. ***Availability:*** Reports are publicly available through GPO; individual company data are confidential.

Agency Contact: Bureau of Economics; 6th St. and Pennsylvania Ave. NW; Washington, DC 20580; (202) 523-3632.

S03500-008

Premerger Notification Program. P512005(DB)

OMB Funding Title/Code: Salaries and Expenses / 29-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *House* Committee on Interstate and Foreign Commerce; *House* Committee on Small Business; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on the Judiciary.

Subject Terms: Corporate Mergers; Mergers

Purpose: The system was established in 1970 to provide information for evaluation of the possible antitrust implications of large mergers. In 1976 the Hart, Scott, and Rodino Antitrust Improvement Act increased the amount of information required and required consummation of any acquisition or merger (covered by the program) prior to submission of the report and approval by FTC/Justice Department. ***Input:*** Input is provided through questionnaires completed by acquired and acquiring companies. ***Content:*** In the manufacturing sector, acquired companies with sales or assets of $10 million and acquiring companies with sales or assets of $100 million must report. Reports are also required from the nonmanufacturing sector. To determine which companies must report, only assets are looked at in the nonmanufacturing sector. ***Availability:*** This is a joint program between the FTC and the Justice Department. The names of the merging parties are publicly available. The remainder of the data is for internal use.

Agency Contact: Bureau of Economics; 6th St. and Pennsylvania Ave. NW; Washington, DC 20580; (202) 254-7741.

S03500-009

Line of Business Program (LB). P512086

OMB Funding Title/Code: Salaries and Expenses / 29-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *House* Committee on Interstate and Foreign Commerce; *House* Committee on Small Business; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on the Judiciary.

Subject Terms: Business; Corporate Finance; Corporations; Financial Statements; Industrial Statistics

Purpose: The program was established in 1974 to provide data on lines of business. Information to be published in aggregated form includes sales, gross margins, operating incomes, assets, and such costs as media advertising, other promotions, research and development, and general administration. ***Input:*** Input is derived from reports received from the companies. ***Content:*** The contents include detailed profit and loss and balance sheet items by line of business for large corporations, which are collected annually. ***Output:*** The principal input is the Line of Business report aggregated data, annually produced in hardcopy. ***Availability:*** Reports will be publicly available. Individual firm data are confidential. Certain aggregated data can be provided upon request on a fee basis.

Agency Contact: Bureau of Economics, 6th St. and Pennsylvania Ave. NW, Washington, DC 20580; (202) 523-3820.

S03500-010

Litigation Support System.

OMB Funding Title/Code: Salaries and Expenses / 29-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *House* Committee on Interstate and Foreign Commerce; *House* Committee on Small Business; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on the Judiciary.

Subject Terms: Government Investigations; Government Litigation; Litigation; Trade Regulation

Purpose: The system is being developed to provide direct automated support for formal investigations, rulemaking proceedings, and litigated matters through establishment of index files containing key information and abstracts of documents collected, and through establishment of full text files of testimony and depositions, all of which are searchable through the use of the INQUIRE DBMS software. ***Input:*** Input is provided by evidence and other documents collected in support of the matter, court reporting, and depositions. ***Content:*** The content of the index records varies according to the data elements that the managing attorney believes to be important to his case. Data elements that are common to most cases include descriptive data about the document (i.e., author, subject, date); abstract of the content; admissibility; and relevancy to the issues. ***Output:*** The system is query based. Information is retrieved according to the need of the attorney at any point in time. ***Availability:*** Information if for internal use only.

Agency Contact: Management Division; 6th St. and Pennsylvania Ave. NW, Washington, DC 20580, (202) 523-3367.

Commission Minutes.

OMB Funding Title/Code: Salaries and Expenses / 29-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *House* Committee on Interstate and Foreign Commerce; *House* Committee on Small Business; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on the Judiciary.

Subject Terms: Decisions; Government Regulation; Trade Regulation

Purpose: The system maintains a comprehensive log of all official Commission actions. *Input:* Data are derived from Commission meetings. *Content:* The Minutes include a definitive description of Commission actions which constitute the official Federal Trade Commission exercise of enforcement and administrative authority under Federal statutes. They provide memoranda announcements of Commission actions for the instruction, direction, and guidance of staff. *Output:* Output is bound volumes. *Availability:* Output is not publicly available as it is primarily utilized to meet internal information requirements.

Agency Contact: Deputy Secretary; 6th St. and Pennsylvania Ave. NW, Washington, DC 20580; (202) 523-3383.

FOREIGN CLAIMS SETTLEMENT COMMISSION OF THE UNITED STATES

S03600-001

Budget/Fiscal System.

OMB Funding Title/Code: Salaries and Expenses / 79-0100-0-1-152.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on the Judiciary.

Subject Terms: Accounting; Financial Management

Purpose: The purpose is to provide comprehensive control and management of the financial resources authorized by the Congress for the operations of the Commission. *Input:* Data in this file are derived from the obligational activities of the Commission, which in turn are used as a basis of the accounting reports prepared by the External Services Branch of the General Services Administration's Financial Management Division. *Content:* The information content of the system consists of standard Agency budgetary and financial accounting data. The system is updated on a regular and continuous basis. *Output:* The reports consist of hardcopy reports comprising data on accounting history, allotment status, staffing, and undelivered orders. These are prepared monthly. *Availability:* The reports are publicly available in the office of the External Services Branch, Office of Financial Management, General Services Administration.

Agency Contact: Foreign Claims Settlement Commission of the United States; 1111 20th St. NW, Room 417, Washington, DC 20579; (202) 653-6156.

Library of Decisions of the Commission and Indices Thereto.

OMB Funding Title/Code: Salaries and Expenses / 79-0100-0-1-152.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on the Judiciary.

Subject Terms: Administrative Procedures; Civilian Internment; Claims; Decisions; Foreign Claims; Libraries; Prisoners of War; War Damages

Purpose: The Commission maintains a library of its decisions on claims to provide ready access to the determination it has made on claims, for use of both the Commission and the general public. Indices of its decisions and claims are also maintained. *Input:* Decisions on claims considered by the Commission are filed by program, and indices are maintained. *Content:* The content of the system is decisions from various claims programs conducted by the Commission, with indices thereto. They include World War II Prisoner of War Claims, World War II Civilian internees; claims of religious organizations for losses in the Philippine Islands during World War II; Prisoners of War during Korean and Viet Nam conflicts; Civilian internees during Korean and Viet Nam conflicts; U. S. merchant seamen captured and interned during World War II; sequestration of bank accounts during World War II in the Philippines; detention benefits to Guamanians during World War II; war damage or loss to property during World War II in certain Eastern European countries and certain Pacific areas and losses to certain insurers and passengers on ships; and benefits to civilians and members in or against the Governments of Yugoslavia, Panama, Poland, Bulgaria, Hungary, Rumania, Italy, Soviet Union, Czechoslovakia, Cuba, and the Chinese Communist Regime, and Micronesia. As the Commission adjudicates claims, the decisions are placed on file in the library. *Output:* Copies of Commission decisions are in typed form. No formal output is produced. *Availability:* Copies of the decisions are publicly available.

Agency Contact: Office of the General Counsel; 1111 20th St. NW, Washington, DC 20579; (202) 653-6166.

S03600-003

Claims Records and Indices Thereto.

OMB Funding Title/Code: Salaries and Expenses / 79-0100-0-1-152

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on the Judiciary.

Subject Terms: Administrative Procedures; Civilian Internees; Claims; Foreign Claims; Prisoners of War; War Damages

Purpose: The Foreign Claims Settlement Commission is authorized to consider certain types of claims of nationals of the United States for losses related to actions by foreign governments, war damage losses, and losses sustained by prisoners of war and civilian internees as a result of their detention. The materials submitted are filed in this system according to the program under which a claim is filed. These materials are then examined by the Commission; and where the claim is found to be meritorious, a certification of the amount of loss is made to the proper agency as directed by statute. *Input:* Materials in the system represent submissions by the claimants as well as information generated by the Commission and acquired by the Commission from other sources. *Content:* Information contained in the system relates to those items needed to be proven for a claim to be found compensable, including, but not limited to, evidence of ownership of the property claimed to have been lost, its value, and its nationalization or other disposition by the foreign government concerned. The system contents include: World War II Prisoner of War Claims; World War II Civilian internees; claims of religious organizations for losses in the Philippine Islands during World War II; Prisoners of War during Korean and Viet Nam Conflicts; Civilian internees during Korean and Viet Nam Conflicts; U. S. merchant seamen captured and interned during World War II, sequestration of bank accounts during World War II in the Philippines; detention benefits to Guamanians during World War II; war damage or loss to property during World War II in certain Eastern European countries and certain Pacific areas and losses to certain insurers and passengers on ships, and benefits to civilians and members of Armed Forces captured on U. S. S. Pueblo. It also contains claims for losses in or against the Governments of Yugoslavia, Panama, Poland, Bulgraria, Hungary, Rumania, Italy, Soviet Union, Czechoslovakia, Cuba, and the Chinese Communist Regime. *Output:* A decision is rendered on every claim. Representative decisions which set precedents or are of more than routine interest are published in the Annual Reports of the Commission. Decisions are in typed format and may be located by the use of indices which list claim number, decision number, and name of claimant. *Availability:* Decisions of the Commission are matters of public record.

Agency Contact: Office of the General Counsel, 1111 20th St. NW, Washington, DC 20579; (202) 653-6166.

GENERAL SERVICES ADMINISTRATION

S03700-001

ADP Management Information System (ADP/MIS).

OMB Funding Title/Code: Automated Data and Telecommunication Activities--Operating Expenses / 47-0900-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Electronic Data Processing Equipment; Equipment; Inventories; Management Information Systems.

Purpose: The ADP/MIS is to assist GSA and other Federal agencies in carrying out their management responsibilities for the most effective and efficient use of ADP. The system provides a perpetual, worldwide inventory of the Government's ADP equipment and annual information concerning ADP utilization, functional use, and manpower and cost. *Input:* The primary providers of information are Federal agencies except the House, Senate, and Architect of the Capitol. *Content:* The system contains information concerning ADP equipment and its acquisition and utilization. *Output:* An Inventory of ADPE in the U.S. Government and a Summary of Federal ADP Activities are published each fiscal year. A generalized retrieval system provides reports tailored to users' requirements. Magnetic tapes are produced. *Availability:* Output is available to Federal Government users without reimbursement (within limitations) and to non-Government users at a reasonable fee.

Agency Contact: Management Information Systems Division; 18th and F Streets NW, Washington, DC 20405; (202) 566-1544.

S03700-002

Software Exchange Program.

OMB Funding Title/Code: Automatic Data Processing Fund / 47-4541-0-4-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Electronic Data Processing; Information Exchange; Software.

Purpose: The program has been instituted to provide for interagency sharing of common-use computer programs and systems. The Federal Software Exchange Center (FSEC) will provide a central point for agencies to exchange programs, technical information, and experience in software and system development. The objectives are to provide for the collection of common-use software information, development and maintenance of a listing of common-use software to minimize the redevelopment of programs already tested and in use elsewhere, publication and distribution of a software exchange catalog containing abstracts of common-use software, dissemination of common-use software and/or documentation, and reduction of overall costs, time, and use of personnel resources for software acquisition and/or development. *Input:* Federal agencies are required to continually review software within their agency to identify programs or systems which would be of use to other agencies. Abstracts of the software are to be submitted to the Federal Software Exchange Center on SF-185, Federal Information Processing Standard Software Summary. *Content:* The inventory contains common-use software and its documentation developed or revised by either Government or contractor personnel. Software is all programs and routines used to extend the capabilities of computers, including independent subroutines, related group of routines, single programs, and sets or systems of programs. Documentation consists of a short narrative of the software, user instructions, logic flow charts, sample inputs/outputs, and program listings. *Output:* Output includes: 1) Federal Software Exchange Catalog--a hardcopy publication composed of three quarterly updates and a cumulative annual containing abstracts of software submitted to the center; and 2) software and related documentation--available separately or as a package upon request to the Federal Software Exchange Center. *Availability:* The catalog, software, and documentation are availalbe only to Federal agencies, State and local governments, Government cost reimbursement-type contractors, and federally funded activities.

Agency Contact: Automated Data and Telecommunications Service; 18th and F Streets NW, Washington, DC 20405; (202) 566-1120.

S03700-003

Regional Impact Analysis System (RIAS). TR-83; TM-226; TM-227; TM-228; TR-84; TM-229.

OMB Funding Title/Code: Federal Preparedness Agency--Salaries and Expenses / 47-0711-0-1-054.

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Armed Services; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Agriculture, Nutrition, and Forestry; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Economic Forecasting; Economic Statistics; Emergency Preparedness; Forecasting; Simulation.

Purpose: The system is to provide a data base and first approximation capability for analyzing the regional economic impacts of economic and other contingencies short of nuclear war. *Input:* This series of publications documents the Federal Preparedness Agency (FPA) assimilation and adaption of the Multi-Regional Input-Output (MRIO) economic model developed at the Harvard Economic Research Project under joint sponsorship by the Economic Development Administration, Department of Commerce, Federal Preparedness Agency, and other agencies. *Content:* The series consists of six publications: (1) Description of the MRIO Model, TR-83; (2) MRIO Data Base: MAPS, TM-226; (3) MRIO Data Base: IMS, TM-227; (4) Regional Distribution of National Aggregate Final Demand, TM-228; (5) Regional Feedback Model: Description, TR-84 (Unavailable until rewrite completed); and (6) Regional Feedback Model: Computer Program, TM-229. *Availability:* Reports are for internal use only.

Agency Contact: Federal Preparedness Agency; 18th and F Streets NW, Room 5024, Washington, DC 20405; (202) 566-0912.

S03700-004

Demand Impact Transformation Tables (DITT)--Data Estimates and Input-Output Review. IST-103, February 1972.

OMB Funding Title/Code: Federal Preparedness Agency--Salaries and Expenses / 47-0111-0-1-054.

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Armed Services; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Agriculture, Nutrition, and Forestry; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Economic Forecasting; Gross National Product; Input-Output Analysis; Mathematical Models.

Purpose: Demand Impact Transformation Tables (DITT) realistically translate aggregate Gross National Product (GNP) expenditures (actual or hypothetical) into final demand bills of goods which can then be applied to an interindustry table for estimates of total output requirements by input-output (I-O) industry. *Input:* Data are used as part of the Contingency Impact Analysis System to transform the GNP final demand components into I-O sector final demands. *Content:* This guidebook reviews input-output analysis and presents

I-O final demand and total output estimates derived through DITT for a number of recent periods. All estimates are in constant 1958 dollars. *Availability:* Information is for internal use only.

Agency Contact: Federal Preparedness Agency; 18th and F Streets NW, Room 5024, Washington, DC 20405; (202) 566-0912.

S03700-005

The Mathematics and Computation Laboratory (MCL) Thurow Model. GSA/OP/MCL TR-93, February 1974.

OMB Funding Title/Code: Federal Preparedness Agency--Salaries and Expenses / 47-0111-0-1-054.

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Armed Services; *Senate* Committee on Agriculture, Nutrition, and Forestry; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Economic Impact; Emergency Preparedness; Gross National Product; Mathematical Models; Simulation.

Purpose: The MCL Thurow Model is an adaptation of the Thurow macroeconomic model assimilated to aid the Federal Preparedness Agency (FPA) in policy simulation studies. ***Input:*** This macroeconomic model is part of a larger system, the Contingency Impact Analysis System (CIAS), used by the FPA to measure the impact of a contingency or emergency, specified in terms of the model's input, on a supply of strategic critical materials and the level and distribution of the Gross National Product. ***Content:*** The guidebook summarizes the data development and equation re-estimation experience, describes the model testing program, and discusses the capabilities and limitations of the model without extensive theoretical explanations. ***Output:*** Output is a model for economic analyses. ***Availability:*** The model is for internal use only.

Agency Contact: Federal Preparedness Agency; 18th and F Streets NW, Room 5024, Washington, DC 20405; (202) 566-0912.

S03700-006

A User's Guide for Capital Stock Measures by Industry Sector. GSA/OP/MCL TM-246, December 1974.

OMB Funding Title/Code: Federal Preparedness Agency--Salaries and Expenses / 47-0111-0-1-054.

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Armed Services, *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Agriculture, Nutrition, and Forestry; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Capital Investments; Capital Stock; Economic Research; Investments; Stocks.

Purpose: Capital stocks data were prepared by the Mathematics and Computation Laboratory for the use of the Federal Preparedness Agency in economic analyses. ***Input:*** The capital estimates were made using the perpetual inventory method. The net stock estimates are based upon assumed depreciation function which accelerates over the life of the investment item. Investment item life parameters were taken from Bulletin F, U. S. Department of the Treasury, adjusted to make the stock estimates equal the average book values reported to Census for 1962-64 for manufacturing sectors. For non-manufacturing sectors, the live parameters were adjusted using information from regulatory agencies and other sources. Separate estimates were prepared for stock owned by the Federal Government and operated by private contractors. Public sector stocks later sold to the private sector are given separately for manufacturing sectors and are included in the non-manufacturing estimates. ***Content:*** This guide contains a description of the Capital Stock Estimates 1947-71 data file, programs, and study output. The file includes industry investment data and associated estimates of gross and net capital stock in current constant dollars for the period 1947-71. The industry classification is the 3-digit SIC level of manufacturing and the 1958 BEA interindustry study classification for the nonmanufacturing sectors. ***Availability:*** Output is available through NTIS document number PB 240 949/AS.

Agency Contact: Federal Preparedness Agency; 18th and F Streets NW, Room 5024, Washington, DC 20405; (202) 566-0912.

S03700-007

Economic Systems Data Catalog. GSA/OP/MCL TM-244, July 1974.

OMB Funding Title/Code: Federal Preparedness Agency--Salaries and Expenses / 47-0111-0-1-054.

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Armed Services; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Agriculture, Nutrition, and Forestry; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Capital Investments; Catalogs; Data Bases; Economic Statistics; Emergency Preparedness; Stocks.

Purpose: This catalog provides unified reference and easy access to the economic data files that are publicly available within the Mathematics and Computation Laboratory (MCL) in support of the Federal Preparedness Agency, GSA. The economic data files listed and briefly described in this catalog have been acquired to meet the needs and requirements for information in response to real or anticipated situations which may be characterized as emergencies, crises, or disasters. This catalog has been developed so that maximum benefit may be gained from these data. It is intended that the catalog will provide managers and analysts alike with a ready reference source when structuring problems and tasks requiring economic data. Many of the data files described in the catalog have been arranged and classified in response to unique problems; however, it is conceivable that these data will have value in efforts to solve future problems which may have similar properties to those of the recent past. ***Input:*** Original data sources include the Department of Commerce, Treasury, Defense, Labor, and other sources. ***Content:*** Data bases maintained by MCL and listed in this catalog deal with: (1) capital stocks; (2) capital and labor input in total U.S. manufacturing, 1929-68; (3) 1958 demand impact transformation tables (DITT), (4) Mathematics and Computation Laboratory (MCL) Thurow model data; (5) multiregional input/output (MRIO) data base; (6) Office of Business Economics input/output tables; (7) real gross output by input output sectors, 1947-66; (8) San Francisco Federal Reserve System Data Bank; (9) stockpile materials consumption series (1950-69); and (10) extended capital stocks. ***Availability:*** The catalog is available through NTIS, document number PB 238 183/AS.

Agency Contact: Federal Preparedness Agency; 18th and F Streets NW, Room 5024, Washington, DC 20405; (202) 566-0912.

S03700-008

Resource Data Catalog. GSA/FPA/MCL TM-258, February 1976.

OMB Funding Title/Code: Federal Preparedness Agency--Salaries and Expenses / 47-0111-0-1-054.

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Armed Services; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Agriculture, Nutrition, and Forestry; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Defense Economics; Economic Statistics; Emergency Preparedness; Time Series

Purpose: The Federal Preparedness Agency (FPA) resource data base includes detailed records on virtually all resources important to the defense of, or in the event of enemy attack-the survival and recovery of, the United States. It is the result of a cooperative effort of the FPA and the Federal agencies having delegated emergency preparedness responsibilities. The FPA resource data base was established in an effort to provide the most accurate information possible to support the emergency information needs of the Federal agencies and to assist the Director, FPA in his roles of Presidential adviser and coordinator of non-military defense. ***Input:*** Federal agencies and departments having significant emergency responsibilities make important contributions to the resource data base. The data base has been developed either by drawing directly from existing agency statistical programs or by promoting modifications and extensions to existing data collection programs. ***Content:*** These data include (but are not limited to) economic time series such as price and production indices and employment and earnings statistics; factors for translating relatively general statements of alternative national objectives into detailed statements of requirements, interindustry tables showing the relationships among economic sectors, manpower requirements factors, weapons effects and meteorological data, and information on individual U.S. resources. This catalog is concerned with that portion of the data bank which supports damage assessment and vulnerability analysis information needs-the resource data base. In terms of scope, it is one of the most comprehensive data banks on U.S. resources ever compiled. A brief description of the coverage and contents of each component of the resource data base is provided in the catalog. ***Output:*** Classified and/or proprietary reports are produced. On-line inquiries can be made. ***Availability:*** Output is classified and/or proprietary.

Agency Contact: Federal Preparedness Agency; 18th and F Streets NW, Room 5024, Washington, DC 20405; (202) 566-0912.

S03700-009

Federal Information Center Statistical Reporting System.

OMB Funding Title/Code: Administrative and Staff Support Services--Salaries and Expenses, 47-0702-0-1-804

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Information Services

Purpose: The system is to provide the Central Office Federal Information Center (FIC) Coordinator's staff with the number and type of inquiries received categorized by agency for each of the 37 FICs. These data are used to analyze the adequacy of the staffing and communications equipment of the FICs and for determining the basic billing for other Federal agencies for FIC services. ***Input:*** The data are obtained by physically counting the number of walk-in and telephone inquiries received for each agency on six randomly selected sampling days each month. ***Content:*** The system contains the historical data on the number of walk-in inquiries, the number of telephone inquiries, and the number of letter inquiries received at each FIC. Additionally, data are broken down by number of inquiries received for each agency. ***Output:*** The system reports monthly on type of inquiries (walk-in, telephone, letter). Reports are produced annually or upon request regarding the number of inquiries received for each agency, the average number of inquiries answered by employees at each FIC, and the average number of telephone calls received on telephone lines at each FIC. ***Availability:*** Output is for internal use but is public information.

Agency Contact: Federal Information Center Program; 18th and F Streets NW, Room 6009, Washington, DC 20405; (202) 566-1937.

S03700-010

Public Buildings Service Information System (PBS/IS) Fair Annual Rental (FAR) Appraisal Rate Module.

OMB Funding Title/Code: Federal Building Fund / 47-4542-0-4-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Environment and Public Works; *Senate* Committee on Governmental Affairs.

Subject Terms: Appraisal Rates; Inventories; Leases; Property Management; Public Buildings; Real Property; Rent.

Purpose: The Fair Annual Rental (FAR) Appraisal Rate Module of the PBS/IS provides PBS with a data base of rates, by type of space, which is based on appraisals for each Government owned and leased building in the PBS inventory. These rates will be used beginning in fiscal year 1978 for production of the Standard Level User Charge billings. ***Input:*** The data are input by the Office of Space Planning and Management as a result of appraisal surveys. ***Content:*** The module is updated nightly. The data base, which contains all Government owned and leased buildings for which PBS is responsible, covers all 50 States and territories and is on-line and queriable. There is one file in the data base. It contains the appraisal rates for each building that are presently in effect as well as future rates. ***Output:*** Several hardcopy reports are produced on a daily, monthly, and quarterly schedule. The reports are used mainly to monitor the completeness of the data base; a query capability is available. ***Availability:*** The output is for internal use only.

Agency Contact: Public Buildings Service; 18th and F Streets NW, Washington, DC 20405; (202) 566-1652.

S03700-011

Public Buildings Service Information System (PBS/IS) Space Management Module.

OMB Funding Title/Code: Federal Building Fund / 47-4542-0-4-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Environment and Public Works; *Senate* Committee on Governmental Affairs.

Subject Terms: Inventories; Leases; Property Management; Public Buildings; Real Property; Rent.

Purpose: The Space Management Module of the PBS/IS provides managers and technical personnel with an automated inventory of buildings for which GSA is responsible, both federally owned and leased, and information on agency assignment square footage, leases, and agency requests for space. ***Input:*** The data contained in the system are input by Office of Space Planning and Management personnel as a byproduct of their space assignment, leasing, and other space management activities. ***Content:*** The module is updated nightly. Reports are produced on ad hoc, monthly, quarterly, and yearly bases. The data base is updated daily. The system is comprised of five major files. The Space Request File contains data on type and amount of space requested by agency location and key dates. The Building File serves all modules of the PBS/IS as the basic inventory of Government owned and leased buildings and contains for each building: Name, address, amount and type of space. The Space Assignment File contains data on all assigned/occupied space, by agency, by type of space, location, time frame, and number of personnel. The Lease Project File contains data on all leasing projects in progress. Each record contains data pertaining to the schedule and accomplishment of certain key events. The Lease Contract File is an inventory of all leases in effect, the terms of the lease, lessor/payee, and other pertinent data concerning the lease. The data base is queriable and on-

line. The Building and Assignment files also serve as input to the Standard Level User Charge (SLUC) Billing Module of PBS/IS. SLUC is basically an application program which operates from this data. *Output:* The module provides a number of periodic hardcopy reports concerning the inventory of space, assignments, buildings, and leases. Ad hoc queries are produced as required. *Availability:* System output is unique to the demands and requirements of the Office of Space Planning and Management and, as such, is not publicly available.

Agency Contact: Public Buildings Service; 18th and F Streets NW, Washington, DC 20405; (202) 566-1652.

S03700-012

Public Buildings Service Information System (PBS/IS) Status Reporting Module.

OMB Funding Title/Code: Federal Building Fund / 47-4542-0-4-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Environment and Public Works.

Subject Terms: Building Construction; Construction; Maintenance and Repair; Project Management; Public Buildings.

Purpose: The Status Reporting Module of PBS/IS provides Public Buildings Service (PBS) managers and technical personnel with information on the scope, schedule, and status of activities in four key operations areas: 1) New Construction Projects, 2) Prospectus Repair and Alteration Projects, 3) Non-Prospectus Repair and Alteration Projects, and 4) Project Development Report (PDR) and Prospectuses. *Input:* The data are input by PBS Construction Management and Repair and Alternation personnel as a by-product of their contract formulation, scheduling, and project control activities. *Content:* The data base consists of two major files, active and historical, in each of the major project areas. The New Construction File contains a record for every new construction project in process or completed during the current fiscal year. Each record contains a description of a new construction project and data pertaining to the schedule and accomplishment of certain project events. The Prospectus Repair and Alteration (R and A) File contains one record for every prospective R and A project in progress or completed during the fiscal year. Each record contains a description of the prospectus R and A project and data pertaining to the accomplishment of certain events. The Non-Prospectus Repair and Alteration file contains one record for each non-prospectus R and A project in process or completed during the fiscal year. Each record contains a description of the non-prospectus R and A project and data pertaining to the schedule and accomplishment of certain events. The PDR Prospectus file contains a record for every project development report (PDR) and prospectus in process or completed during the fiscal year. Each record contains a description of the proposed project and data pertaining to the schedule and accomplishment of certain key events. *Output:* SRS is a queriable system and has no standard reports. Reports are produced by the users on an ad hoc basis. *Availability:* System output is user unique and as such is not publicly available. The information in the system is not classified and could be made available upon request.

Agency Contact: Public Buildings Service; 18th and F Streets NW, Washington, DC 20405; (202) 566-1652.

S03700-013

Public Buildings Service Information System (PBS/IS) Repair and Alteration Computer Oriented System (RACOS) Module.

OMB Funding Title/Code: Federal Building Fund / 47-4542-0-4-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Environment and Public Works.

Subject Terms: Building Construction; Maintenance and Repair; Project Management; Public Buildings.

Purpose: The RACOS Module of the PBS/IS provides PBS Repair and Alteration personnel with an inventory of work items and their status, estimated cost, and planned schedule for completion. *Input:* The data are input by Repair and Alteration personnel as a byproduct of their day-to-day activities. *Content:* The module operates under a distributed data base concept and is updated on an as-required basis in and by the 10 PBS regions. The data base of work items includes work to be done in all 50 States and territories in buildings for which GSA is responsible. The data base consists of one on-line, queriable file-the Work Item File. This file contains an inventory of work items by building. Each record contains the description of the work item, the estimated cost, the planned fiscal year for accomplishment, and the work item status (i.e., pending, under design, under construction, and completed). *Output:* Several hardcopy reports are produced on monthly, quarterly, biannual, and yearly schedules. They are mainly inventory status reports. Queries are made on an as required basis. *Availability:* The reports are unique to the Repair and Alteration area and are not available publicly.

Agency Contact: Public Buildings Service; 18th and F Streets NW, Washington, DC 20405; (202) 566-1652.

S03700-014

Public Buildings Service Information System (PBS/IS) Resources Management Module

OMB Funding Title/Code: Federal Building Fund / 47-4542-0-4-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Environment and Public Works; *Senate* Committee on Governmental Affairs.

Subject Terms: Building Construction; Management Information Systems; Manpower Utilization; Project Management; Public Buildings.

Purpose: The Resources Management Module of the PBS/IS provides PBS Construction Management personnel with an automated analysis of how time is being spent by discipline/function (design and construction) both in the aggregate and for specific projects. *Input:* The data are input by Construction Management personnel via time cards (hours by project) and as a byproduct of their construction contract/project scheduling and monitoring activities. *Content:* The module is updated nightly. Standard reports are produced monthly. The system includes an on-line, queriable data base comprised of three files. The Interface File maintains project descriptive and interface data for each construction project. The Allocation File contains monthly, year-to-date, and cumulative data. The Employee Master File contains design and construction hours by project charged each month by Construction Management personnel. Geographically, the module covers all projects for which PBS is responsible in the 50 States and territories. *Output:* Reports are produced in hardcopy monthly. The data base is queriable. *Availability:* The standard periodic reports are geared to the requirements of Construction Management personnel and as such are not publicly available.

Agency Contact: Public Buildings Service; 18th and F Streets NW, Washington, DC 20405; (202) 566-1652.

S03700-015

Automated Quality Control Management System (AQCMS). 3520.
OMB Funding Title/Code: Federal Supply Service--Operating Expenses / 47-0500-0-1-804.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Government Procurement; Management Information Systems; Procurement; Quality Control.

Purpose: The system (AQCMS) is primarily designed to provide regional quality control personnel with a workload management and planning system to facilitate their day-to-day activities. ***Input:*** All input is from Federal Supply Services organizational elements. Purchase order line item data are obtained from regional and central buying and inventory management offices. Other input consists of work assignments made by regional quality control divisions. These assignments include complaint investigations, plant facility visits, quality assurance surveillance visits, and contract administration actions. ***Content:*** The AQCMS is a regional system, updated weekly in the 10 GSA regional offices. Each week is listed with all active FSS suppliers in the region and their corresponding open purchase orders. Also produced weekly is a listing of the previous week's accomplishments, i.e., purchase orders shipped, released, rejected. A monthly summary of accomplishments is produced at the end of each report month (23rd). No accomplishment data are stored or saved in the AQCMS past the monthly cycle. Supplier performance data are collected and saved for a 3-year period. These data summarize on a contract-by-contract basis the number of purchase order lines, released on time, released late, rejected, and the dollar value released. ***Output:*** The principal reports of the system are weekly reports of planning, schedules, and work accomplishments. A monthly cumulation of work accomplished is also produced. ***Availability:*** Output is designed for internal use.

Agency Contact: Office of Standards and Quality Control; Crystal Mall Bldg. 4, Room 518, Washington, DC 20406; (703) 557-7570.

S03700-016

Federal Specification Reference System (FSRS). 3510.
OMB Funding Title/Code: Federal Supply Service--Operating Expenses / 47-0500-0-1-804.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Quality Control; Standardization.

Purpose: The FSRS is a computer system designed for use in the implementation of the Federal standardization program. It provides specification managers with statistical data related to the program and assists operating personnel in the development and maintenance of Federal standardization documents. ***Input:*** Principal sources for input are bibliographic data of standardization documents, both Federal and non-Federal. ***Content:*** The system contains: 1) Identification of Government and industry specifications standards and regulatory requirements referenced in each Federal specification standard; 2) provision of statistical data on the number and type of Government and industry documents referenced within the Federal documents; 3) retention of audit trial on all Federal specifications standards that have been superseded or cancelled; and 4) provision for single entry for selected random total record feed out. ***Output:*** Annually and biennially produced publications and punched cards of primary references and indexes to Federal specifications are produced. ***Availability:*** Output is restricted to internal use.

Agency Contact: Specification Management Branch; Crystal Mall Bldg. 4, Room 527, Washington, DC 20406; (703) 557-0506.

S03700-017

Direct Delivery Order Control System--2790-A-II.
OMB Funding Title/Code: Federal Supply Service--Operating Expenses / 47-0500-0-1-804.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Government Procurement; Management Information Systems; Procurement.

Purpose: This system provides for a control and monitoring record for all direct delivery requisitions from time of their receipt until procurement action is complete. It enables GSA managers in the 10 regions to determine the status of any requisition. It is a subsystem to the main processing cycle. ***Input:*** Data are input by managers, contracting officers, and status clerks in the GSA regions. Each region has its own list of requisitions. Major categories of input data are purchase order numbers and processing status codes. ***Content:*** Stock numbers on incoming requisitions are checked against the master item file to determine whether it is a stock item or a non-stock item. It is then routed to the proper division for processing and a Work in Process Record (WIP) is established for control. From this point on, the different managers, contracting officers, and status clerks update the WIP to indicate the action being taken on the item. ***Output:*** The principal output is: 1) Daily Initial Buying List (A list of all requisitions which have been recorded as processed for buying action during the machine cycle of the date shown); 2) Daily Transaction Listing (List of all transactions processed against the Work-in-Process File for the date shown); 3) Weekly Monitor Listing (Signals managers that requisitions appearing on this listing require some kind of action); and 4) Weekly Inventory of Workload by Buyer. ***Availability:*** Output is used internally for contract monitoring.

Agency Contact: Federal Supply Service; Crystal Mall Bldg. 4, Room 615, Washington, DC 20406; (703) 557-8573.

S03700-018

Automated Delivery Order System (ADO).
OMB Funding Title/Code: Federal Supply Service--Operating Expenses / 47-0500-0-1-804.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Contractors; Contracts; Government Procurement; Procurement.

Purpose: By using master contract files, basic item and item contract files, and constant data files, a complete delivery (purchase) order is generated at the same time procurement transaction reporting data are automatically generated for input into the Procurement Transaction Reporting System. This system is used by all 10 GSA regions and the central office. ***Input:*** Data are provided by the 10 procurement functions of the GSA regions and central office. Data provided consist of items covered by contract, contract number, vendor, prices, zones prices, and the codes necessary to complete Procurement Transaction Reporting. ***Content:*** Three basic files are maintained: 1) ADO Master Contract File containing the contract number, the beginning and ending dates of the contract, the general conditions of the contract, such as discounts, inspection points, delivery items and the contractor's name and address; 2) ADO Item File containing the stock number, unit of issue, description, etc., of the item covered by a contract; it also contains the contract number, beginning and ending dates, item number, price, price breaks, and the zones the prices are applicable to; and the 3) ADO Constant Data File containing address codes, buyer names and telephone numbers, notes, and all other data that are always constant but required to print a purchase order. ***Output:*** The principal reports produced are:

1) Daily; 2) Semiannual ADO Demand Report Showing demand for each stock number; 3) ADO Demand by Agency and Delivery Zone; and 4) Semiannual ADO by Vendor identifying the vendor recipient of orders. *Availability:* Output is mainly for internal use. It is publicly available at cost.

Agency Contact: Federal Supply Service; Crystal Mall Bldg. 4, Washington, DC 20406; (703) 557-8573.

S03700-019

Procurement Transaction Reporting System (PTR).

OMB Funding Title/Code: Federal Supply Service--Operating Expenses / 47-0500-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Contractors; Contracts; Government Procurement; Procurement.

Purpose: The system is to establish a standard Government procurement volume reporting system under the authority of Executive Order 11717, to cover all procurement transactions entered into by the Federal Government for property or service involving the expenditure of Federal funds. ***Input:*** The General Services Administration (GSA) is responsible for managing a standard Government procurement reporting system that provides input from the various executive agencies and departments of the Government. ***Content:*** Information in the files is limited to contract/grant/purchase order number, effective date, issuing office, contractor's identification, principal place of performance, principal product or service code, type of contract or modification, extent of completion, negotiation authority, type of business, total dollar value per transaction, and kind of procurement action. ***Output:*** Several hardcopy and magnetic tape output reports are produced to satisfy GSA and other agency reporting requirements. ***Availability:*** Information is publicly available.

Agency Contact: Federal Supply Service; Crystal Mall Bldg. 4, Washington, DC 20406; (703) 557-0910.

S03700-020

Federal Supply Service (FSS) Supply System.

OMB Funding Title/Code: Federal Supply Service--Operating Expenses / 47-0500-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Government Procurement; Procurement; Supply Systems.

Purpose: The system is to receive all Federal Government supply requisitions for common use items, process to the point of producing shipment and billing documentation, and provide stock for satisfying these supply needs. ***Input:*** Federal agency requisitions are the external input. Internal input reflects plans and decisions of FSS for maintaining appropriate levels of depot stock for meeting the anticipated supply needs of these customers. ***Content:*** This system is mechanically responsive to the stock and nonstock requirements of the Federal Government (military and civilian) worldwide. Subsystems are located in each of the 10 GSA regions which have primary responsibilities for receiving requisitions from customers in those geographic areas, processing to the national system for supply decisions, maintaining stock for assigned items in effecting the decisions made in the national system, and shipping stock from their depot facilities. Cycles are repeated on a daily (5-day weekly) basis in both the regional and national integrated portions of the system. ***Output:*** Produced are daily status reports to customers in printed and or machine-readable form, daily reports to regions for FSS operational use in effecting shipments or ordering from vendors, daily reports for regional managers who direct and control the ultimate supply actions, and weekly/monthly reports to national and regional managers for assuring the efficiency of the total supply system. ***Availability:*** Output is normally used only internally, but is publicly available on request.

Agency Contact: Federal Supply Service; Crystal Mall Bldg. 4, Washington, DC 20406; (703) 557-9095.

S03700-021

Transportation Management Information System (TRANSMIS).

OMB Funding Title/Code: Federal Supply Service--Operating Expenses / 47-0500-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Government Procurement; Manpower Utilization; Procurement; Transportation.

Purpose: TRANSMiS accepts data on work performed in the GSA-FSS regional Transportation Services Divisions, summarizes the data, and provides reports to the directors of these Divisions and to the Assistant Commissioner, Office of Transportation and Public Utilities. ***Input:*** Workers in the Transportation Services Divisions maintain daily logs of work processed. Periodic extracts are made from these logs, and reports of hours expended and work units accomplished are entered on data entry forms which are mailed to a central site for keying and processing. ***Content:*** Work performed is categorized in elements (currently 24), such as procurement assistance, negotiations, shipments processed, issuances, and docket actions. The number of hours of work performed in each element and the number of units produced are summarized for each reporting Division. There is no individual record for each worker. Salary and overhead costs are used to compute costs per unit of work for each reporting Division. Cumulative files for each Division are maintained also. The system is updated monthly, and cumulative files are initialized at the beginning of each fiscal year. ***Output:*** There are three monthly printed reports. Two of these, Monthly Resource Allocation Report and Cumulative Resource Allocation Report, are identical but for data content value; the third, Administrative Data, results from analysis of monthly input and provides the number of employees reporting, total man-hours available, and total man-hours reported as productive. Each output is produced for each reporting Divison. ***Availability:*** Each reporting Division receives one copy of output derived from its own reported data. Output is not published and is intended for internal use.

Agency Contact: Federal Supply Service; Crystal Mall Bldg. 4, Washington, DC 20406; (703) 557-8672.

S03700-022

Traffic Profile System.

OMB Funding Title/Code: Federal Supply Service--Operating Expenses / 47-0500-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Freight Forwarders; Transportation; Trucking.

Purpose: The system provides Federal Supply Service (FSS) traffic managers and supply distribution managers with reports concerning the current less-than-truckload (LTL) class freight ratings and average weights of motor carrier shipments from each FSS Supply Distribution Facility (SDF). The system is a vehicle for easily estimating transportation costs under differing freight rate structures. Also, the system verifies that the level of Freight All Kinds (FAK)

rates negotiated with carriers by FSS Regional Transportation Services Divisions is not higher than or is less than the average freight classification of the commodities shipped from a regional SDF. ***Input:*** The data source is the FSS 65A2 system. The Regional Data Systems Divisions, on request, create a Traffic Profile Report from shipment manifest tapes produced by the FSS 65A2 system. ***Content:*** The information produced indicates for each SDF, or individual route from an SDF, by shipment weight bracket: Weight by class rating of the commodities shipped, total weight shipped, number of shipments, average shipment weight, average class rating, and percent of total weight shipped. ***Output:*** A computer-prepared traffic profile report in tabular form is generated upon request only. There is no query capability. ***Availability:*** Reports are for internal use.

Agency Contact: Federal Supply Service; Crystal Mall Bldg. 4, Washington, DC 20406; (703) 557-8672.

S03700-023

Motor Pool Accounting and Reporting System (MARS).

OMB Funding Title/Code: Federal Supply Service--General Supply Fund / 47-4530-0-4-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Accounting; Motor Pools.

Purpose: MARS processes input data received from the GSA Interagency Motor Pool Systems, summarizes the data, and provides accounting and operational reports to the individual motor pools, Regional Motor Equipment Divisions, and Central Office Motor Equipment Staffs. ***Input:*** Individual motor pools capture accounting (expense) and operational data on individual motor vehicles and forward these transactions daily to a central processing center for keypunching and processing. ***Content:*** Content is categorized in the four cycles of fleet management–acquisition, operations and utilization, maintenance and repair, and disposal. Subcategorization is in the form of utilization by customer, financial reporting, and cost accounting. Geographic coverage is by individual motor pool (currently 100), individual customer; regional consolidation of data (10 regions); and nationwide consolidation. The system is updated monthly. Information is reported on a monthly and year-to-date accumulation basis. ***Output:*** The four monthly printed reports identify operating expenses by fleet and major categories of vehicles, vehicle utilization, and changes to the vehicle inventory. The two quarterly printed reports identify customer utilization and age and mileage data on individual fleets. The two annual printed reports identify capitalized value of equipment by vehicle classification and present nationwide operational and cost data for publication in the Annual Motor Vehicle Report. There is no inquiry capability. ***Availability:*** Reports are for internal use only.

Agency Contact: Federal Supply Service; Crystal Mall Bldg. 4, Washington, DC 20406; (703) 557-8554.

S03700-024

Transportation Inquiry and Payment System (TRIPS).

OMB Funding Title/Code: Federal Supply Service--Operating Expenses / 47-0500-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Accounting Systems; Financial Management; Management Information Systems; Transportation Costs; Trucking.

Purpose: TRIPS is a comprehensive integrated system to perform financial and managment functions relating to transportation of material. TRIPS features an analysis of shipments from FSS Supply Distribution Facilities (SDF) by points of origin and/or destination and by carrier. Further, TRIPS provides a means of measuring carrier performance on shipments from SDF's and a method of determining the volume of parcel post shipments and charges due the United States Postal Service for such shipments. ***Input:*** The basic data source is the FSS 65A2 system with additional input of information from Government Bills of Lading prepared to cover shipments from vendors and others to the SDF's and other consignees. ***Content:*** The information produced indicates for each SDF the destination, weight, carrier, GBL number, and transportation cost of each shipment from that SDF. Also, the system indicates similar information on shipments from vendors and others to an SDF or a consignee other than an SDF. Destinations are coded by State/city codes. ***Output:*** The reporting system consists of six reports with emphasis on the identification of FSS, SDF outbound shipments. Also, two reports are for the identification of SDF inbound shipments and shipments from vendors to destinations other than SDF's. The reports are computer prepared in tabular form produced on a monthly basis with summary reports on a quarterly and annual basis. ***Availability:*** TRIPS reports are for internal use.

Agency Contact: Federal Supply Service; Crystal Mall Bldg. 4, Washington, DC 20406; (703) 557-8672.

S03700-025

Master Reference and Management Data System (MRMDS).

OMB Funding Title/Code: Federal Supply Service--Operating Expenses / 47-0500-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Government Procurement; Procurement; Supply Systems.

Purpose: The MRMDS was established to monitor, store, and disseminate Federal catalog system data. The system monitors every request for cataloging action or cataloging transaction from initial receipt by GSA until final disposition of said requests or transactions. The system stores both technical (e.g., item identification and reference) and supply management data on items of interest to GSA. ***Input:*** The prime sources of data are both commercial (industrial) and governmental in nature. The major categories of input are item identification data and supply management data. The item identification data are derived from a myriad of industrial/governmental sources. The supply management data are primarily developed by GSA (e.g., acquisition advice code, unit price, unit of issue) with some input from various user agencies within the Federal Government or friendly foreign governments. ***Content:*** The principal subject matter is basic item identification and supply management data. Specific categories of data contained in the system are: basic item identification data, user information, standardization data, freight data, and catalog management data. ***Output:*** Numerous hardcopy and magnetic tape output reports are produced at varying frequencies to satisfy individual agency requirements. Further, the system allows for the production of reports based on individual queries. ***Availability:*** MRMDS output is restricted to GSA and other Federal agency use.

Agency Contact: Federal Supply Service; Crystal Mall Bldg. 4, Room 403, Washington, DC 20406; (703) 557-7510.

S03700-026

National Personnel Records Center Registry File System.

OMB Funding Title/Code: National Archives and Records Service--Operating Expenses / 47-0300-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Civilian Personnel Records; Military Personnel Records; Personnel Records; Records Management.

Purpose: The registry is maintained to better control and retrieve personnel files when service requests are received. ***Input:*** Input is internal from the military and civilian personnel files once they are received by the Center for storage. ***Content:*** The National Archives and Records Service operates the National Personnel Records Center, St. Louis, MO, which receives, appraises, arranges, stores, preserves, maintains, and disposes of the national collection of records on separated military and civilian personnel. The Military Personnel Records Center holds records pertaining to former service personnel from all branches of service. Records of Army personnel separated from duty on or after January 1, 1960, and records covered service of former members of all branches of service with a separation date of January 1, 1964, or later are contained in this file. The Civilian Personnel Records Center holds Official Personnel Folders of separated civilian personnel, personnel locators (SF-50), and military entrance and separation X-rays. Records arriving at the Center are assigned registry numbers. All inquiries directed to the Registry Number File System at these centers require that the registry number be secured through use of the computer system, in order to locate a record. ***Output:*** Output is in the form of index "pull slips" to indicate the place of storage of a given personnel file. ***Availability:*** Information is for internal use only.

Agency Contact: Office of Federal Records Centers; Washington, DC 20408; (202) 724-1598.

S03700-027

NARS Automated System for the Control of Federal Records Centers Records (NARS-5).

OMB Funding Title/Code: National Archives and Records Service --Operating Expenses / 47-0300-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Archives; Personnel Records; Records Management.

Purpose: The system is to control and retrieve records stored in Federal Records Centers. ***Input:*** Input for this system is internal after Federal agencies have moved their records to the Federal Records Centers. ***Content:*** This system contains the necessary information for identification, control, and retrieval of records stored in the Federal Records Centers (FRC's) by Federal agency. It also provides information pertaining to current month activity and year-to-date activity. The system is updated continuously as new records are moved into the FRC's. ***Output:*** Reports are made on current month activity and year-to-date activity. ***Availability:*** Information is for internal use only.

Agency Contact: Office of Federal Records Centers; Washington, DC 20408; (202) 724-1598.

S03700-028

National Personnel Records Center (NPRC).

OMB Funding Title/Code: National Archives and Records Service --Operating Expenses / 47-0300-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Civilian Personnel Records; Military Personnel Records; Personnel Records; Records Management.

Purpose: The primary center mission at this location is to store, service, and safeguard records of separated military personnel, officer and enlisted, and selected organizational, medical, and other military records. ***Input:*** Personnel records of all Federal Government civilian and military employees are retired to this center. ***Content:*** The Center maintains personnel records of former members of the Armed Forces of the United States Coast Guard and of separated civilian employees of the Federal Government, as well as other designated records. The military and civilian personnel records are housed at separate locations within metropolitan St. Louis, MO. Organizationally, the former Military Personnel Records Center and the former Federal Records Center were merged into a single center named National Personnel Records Center. From an agency viewpoint, however, there are no changes in the locations, functions, or services provided by the former centers. Records of separated military personnel, including the U.S. Coast Guard, and other designated records of components of the Department of Defense are retired to the National Personnel Records Center (Military Personnel Records). The military personnel records in center custody consist of more than 30 million personnel and medical files of veterans who have served in the Army, Navy, Marine Corps, Air Force, and Coast Guard. To these are added on a continuing basis the records of personnel separated from these services. Personnel and pay records of separated civilian employees of the Federal Government are retired to the National Personnel Records Center (Civilian Personnel Records). Each Federal agency transfers the following types of records: 1) Official personnel folders of separated employees and comparable files accumulated before official personnel folders, as such, were established; 2) individual earnings cards (such as Standard Form 1127 or its equivalent) or comprehensive payrolls or individual pay folders; and (3) service records cards dated on or before December 31, 1947. ***Output:*** Output is responses to requests for personnel records from individuals or Federal agencies. ***Availability:*** Copies of records are available only to the individual to whom the records relate, or to others with the permission of the former employee or his surviving relatives.

Agency Contact: Office of Federal Records Centers; Washington, DC 20408; (202) 724-1598.

S03700-029

National Archives Reference Service.

OMB Funding Title/Code: National Archives and Records Service --Operating Expenses / 47-0300-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Archives; History; Records Management.

Purpose: 44 U.S.C. 21 authorizes the National Archives and Records Service to provide reference services to the general public and the Federal Government on permanently valuable historical records of the Federal Government and on historical material in Presidential Libraries. ***Input:*** Records are accessioned from Federal executive agencies, from Congress, and from the judicial branch. Private papers and other documents from private sources may be accepted for deposit. Records of the Federal Government and documents from private sources may be documentary material in any form, including books, papers, maps, photographs, and machine-readable materials. ***Content:*** Records are arranged in record groups reflecting their source. Archival records of Federal agencies may be any permanently valuable historical data made or received by an agency of the United States Government under Federal law or in connection with the transaction of public business and appropriate for preservation as evidence of the organization, function, policy decisions, procedures, operations, or other activities of the Government or because the informational value of data in them. Private papers and other docu-

ments from private sources accepted for deposit have similarly appropriate historical value. Some records predate the existence of the Federal Government and most are at least 20 years old. Records are not updated, but accretions to records series are added. *Output:* Preliminary inventories of record groups, microfilm publications of records, guides to record subjects reference service reports, and reference letters are prepared. *Availability:* Over 200 publications are available as listed in Publications of the National Archives and Records Service. They are available without charge from the Publications Sales Branch, National Archives and Records Service, GSA, Washington, DC 20408.

Agency Contact: Office of the National Archives; 8th St. and Pennsylvania Ave NW, Washington, DC 20408; (202) 523-3130.

S03700-030

Utilization System.

OMB Funding Title/Code: National Archives and Records Service --Operating Expenses / 47-0300-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Audiovisual Aids; Inventories

Purpose: The Center records transactions related to the preview, loan, rent, and sale of audiovisual materials by the Center's Distribution Branch and provide appropriate data for each title. Reports are to be used for management purposes and trend analysis. *Input:* Data are provided via customer orders and the required coding is accomplished by the Center's personnel. *Content:* When operational, the data base will contain data elements identifying the type of customers, their regions, the audiovisual's title, format, ID number, and sponsoring agency as well as the type and number of transactions and related costs. *Output:* The major output will be inventory report on computer printout hardcopy printed monthly and activity reports on computer printout hardcopy as requested, usually quarterly. Searching is accomplished by selecting the type of report desired, i.e., income or distribution of sales, rentals, loans or previews by title number, sponsoring agency, or media. *Availability:* Information is for internal use only.

Agency Contact: National Audiovisual Center; Washington, DC 20409; (301) 763-1872.

S03700-031

Master Catalog System.

OMB Funding Title/Code: National Archives and Records Service --Operating Expenses / 47-0300-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Audiovisual Aids; Inventories

Purpose: The system is to collect data concerning audiovisuals produced or funded by Federal agencies. This information is provided to Government agencies and the public via brochures, catalogs, reference letters, and telephone conversations. *Input:* Data are provided by the external agency responsibile for the audiovisual productions through contact with the Acquisitions and Disposal staff and the Information Branch. *Content:* Descriptions of physical format and content of each audiovisual title and of specific audiovisual titles will be in the data base. *Output:* Computer generated reports will be produced to satisfy agency needs. *Availability:* Catalog formats are prepared for Select Lists, an announcement bulletin, for Mini Catalogs, grouped according to subject or media; and for reference lists in response to popular requests. Products are provided to the public and Federal agencies.

Agency Contact: National Audiovisual Center; Washington, DC 20409; (301) 763-1872.

S03700-032

Equal Employment Opportunity Information System (EEOIS).

OMB Funding Title/Code: General Management and Agency Operations--Salaries and Expenses / 47-0110-0-1-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Affirmative Action; Discrimination in Employment; Equal Employment Opportunity; Federal Employees; Minority Employment; Training.

Purpose: Equal Employment Opportunity (EEO) reports contain data for the majority of GSA employees and are used to determine progress in the implementation of the GSA Affirmative Action Plan. Reports are received by EEO officials for transmittal to operating officials. *Input:* The primary sources for input are: 1) MAPS Data Base (Manpower and Payroll Statistics System--Date base consist of a basic record for each individual employee covering more than 80 information items of payroll and personnel data. 2) GSA Form 2118, Minority Group Designator Card--Appointing officials complete this form to identify new employees by minority designation. 3) Training Data Information System--system contains information on training received, purpose, and cost. Information is entered in system through GSA Form 2134, Training Authorization and Record, completed by trainee's organizational unit. *Content:* Extremely detailed personal and socioeconomic data are maintained within the system data base. *Output:* Output is machine-readable copy; since data on individuals are confidential, the system can be queried only by EEO officials. The principal output includes Personnel Action Reports (monthly and quarterly), Personnel Training Reports (quarterly), Average time analysis (quarterly), Comparative average annual wage analysis (quarterly) (U.S. Census Data), and Comparative penetration data (quarterly) (U.S. Census Data). *Availability:* Output is for internal use only.

Agency Contact: Office of Personnel; 18th and F Streets NW, Washington, DC 20405; (202) 566-1070.

S03700-033

Federal Buildings Fund Accounting System (FBF/AS).

OMB Funding Title/Code: Federal Building Fund / 47-4542-0-4-804; Construction Services Fund / 47-4602-0-4-804.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Environment and Public Works; *Senate* Committee on Governmental Affairs.

Subject Terms: Accounting; Financial Management; Public Buildings; Real Property

Purpose: The system was established shortly after enactment of the Federal Building Fund. The basic purpose of the system is to establish and maintain records and accounts of financial transactions to provide: 1) Full disclosure of the financial results of real property operations; 2) a means of complying with legal and administrative limitations on commitments, obligations, disbursements, and investments in property and other assets; and 3) effective financial control over, and accountability for, all funds, property, and other assets for which each real property manager is responsible. *Input:* The Public Buildings Service provides source documents of financial transactions for entry into the system. *Content:* The FBF/AS is a single integrated system that supports the operation of a daily accounting cycle at each of the 10 GSA regions and the central office. The system operates on the Federal Teleprocessing Network which pro-

vides remote access to a central time-shared computer. The system may be considered as consisting of three major operational functions and one support function. The first major function is the acceptance of input from the finance divisions or the internal generation of financial accounting entries and related transactions. The second is the processing and storing of the financial data. Last comes the function of reporting results of this processing to managers within GSA and to other Government agencies. Supporting these operational functions is the maintenance of address files and other necessary nonfinancial data. The system includes data on income and retained earnings; transactions; obligations; appropriation account; receipt account; status of work authorizations; status of allotments; status of recurring services; costs of building, area, and field offices; billings and receivables; cash disbursements; general ledger; and errors indicated from system edits. ***Output:*** Regular financial reports needed to satisfy the requirements of the Senate and House Committees on Appropriations, OMB, and the Treasury Department are produced in hardcopy. ***Availability:*** System output is publicly available.

Agency Contact: Office of Finance; 18th and F Streets NW, Room 3128, Washington, DC 20405; (202) 566-0568.

S03700-034

Centralized Accounting System (DAC).
OMB Funding Title/Code: Federal Management Policy--Salaries and Expenses / 47-0106-0-1-804.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Accounting; Financial Monitoring

Purpose: This system is composed of many subsystems which capture, control, and generate reports for all GSA regional offices and consolidates them for the central office. Reporting is accomplished to meet the financial and management information required for GSA services, staff offices, and commissions. External reporting is produced either automatically or from feeder reports generated in the system. ***Input:*** The internal sources of information are: Federal Supply Service, Public Buildings Service, Automated Data and Telecommunications Service, National Archives and Records Service, and staff offices. External sources of information include approximately 50 Presidential commissions. The major categories of input are: allotments, undelivered orders, accruals, payments, and billings. ***Content:*** The principal subject matter area is the accountability of funds for GSA and the Presidential commissions. Information includes purchase orders, travel, transportation payments, certified invoices, accounts receivables, billings, and utility payments. The major master files maintained at various levels, depending upon the reporting and control requirements, are Allotment Ledger Master, General Ledger Masters, Subsidiary Ledger Masters, Payment History Master, Accounts Receivable Master, and External Reporting Masters. ***Output:*** Both hardcopy and magnetic tape output is produced daily, monthly, and annually to satisfy various agency needs. ***Availability:*** Reports are not publicly available and are for internal use, except for those which are required under GAO, Treasury, or OMB regulations.

Agency Contact: Office of Finance; 18th and F Streets NW, Washington, DC 20405; (202) 566-1189.

S03700-035

Federal Register Privacy Act Index System.
OMB Funding Title/Code: Records Activities, Operating Expenses / 47-0300-0-1-804.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Personal Data, Privacy; Records Management

Purpose: The system has been developed to index and maintain agency records published annually in the Federal Register. ***Input:*** System data on Privacy Act records are obtained from annual agency submissions to the Office of Management and Budget. ***Content:*** The system contains descriptions of systems of records maintained by Federal agencies which are covered by the Privacy Act of 1974 [Public Law 93-579, 5 U.S.C. 522a(g)]. The act requires executive agencies to publish in the Federal Register notice for all systems of records as defined in the act. Descriptions identify by agency the records systems, categories of individuals on whom records are maintained, and page reference to agencies' description of systems of records. The index contains a listing 4,500 Register pages. As of December 31, 1976, 6,753 systems of records were reported by agencies. (See S00110-003, OMB Privacy Act Control Systems.) Annual compilation and publication of systems in the Federal Register is from July 1 to August 31. The index is maintained by the Register as a locator. Specific information on privacy systems should be obtained from agencies. ***Output:*** The system produces an index which lists Privacy Act Systems of Record by agency and subagency. The index was published in March 1977. All systems of Record are described annually in the Federal Register (July 1, August 31). ***Availability:*** The Federal Register and index are publicly available through GPO.

Agency Contact: Office of the Federal Register, 8th St. and Pennsylvania Ave. NW, Washington, DC 20408; (202) 523-5240.

INDIAN CLAIMS COMMISSION

S03800-001

Budget and Accounting System. 95 00 0001
OMB Funding Title/Code: Salaries and Expenses / 95-0100-0-1-752.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Interior and Insular Affairs; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Accounting; Budget Information Systems; Financial Management

Purpose: The primary function of this system is to provide management with the up-to-date status of funding and spending in every object class. ***Input:*** The primary source of input for this system is internal. The administrative office of the Commission provides purchase order information to the budget office for the system. ***Content:*** This system provides information on allotments, obligations, unobligated balances, accrued expenditures, and disbursements. These categories are accumulated and reported for major object class and subobject class under the major budget activities of the Commission. ***Output:*** The major output is centered around all budget and accounting transactions. These reports are generated in hardcopy form. ***Availability:*** Output generated from this system is for internal use only.

Agency Contact: Indian Claims Commission, 1730 K St. NW, Washington, DC 20006; (202) 653-6174.

INTER-AMERICAN FOUNDATION

S03900-001

Grant Monitoring System.
OMB Funding Title/Code: Inter-American Foundation / 11-4031-0-3-151.

Congressional Relevance: *House* Committee on Appropriations: Foreign Operations Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: Foreign Operations Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Foundations; Grants.

Purpose: The purpose is to monitor Agency grants. ***Input:*** Input is derived from grantee proposals, reports (progress) by grantees, correspondence, and Foundation staff travel reports. ***Content:*** The system maintains bibliographic data on grantees, i.e., identifying information, location, areas of concentration (subject matter), grant agreements and amounts approved, the duration of grants, and financial statistics. ***Output:*** Monthly financial summaries are produced. Summaries of specific grants are provided on request. ***Availability:*** Summaries are made available upon specific request.

Agency Contact: Administration and Finance; 1515 Wilson Blvd., Rosslyn, VA 22209; (703) 841-3870.

S03900-002

Accounting System.

OMB Funding Title/Code: Inter-American Foundation / 11-4031-0-3-151.

Congressional Relevance: *House* Committee on Appropriations: Foreign Operations Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: Foreign Operations Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Accounting Systems; Financial Management; Foundations.

Purpose: This system is designed to monitor the status and utilization of appropriated funds to accomplish the Agency mission. ***Input:*** Input is allotments, obligating documents, invoices, schedules of payments, journal vouchers, and all other documents reflecting expenditures. ***Content:*** This system is maintained in the Foundation's offices and the General Services Administration and contains the following information. Allotments, obligations, and unobligated balances. Accrued expenditures and disbursement are accumulated by cost center, major object class and subobject class under the major budget activities of the Agency. ***Output:*** Annual financial statements and various monthly reports are produced. ***Availability:*** Requests made of this system will require preparation of specific material.

Agency Contact: Administration and Finance; 1515 Wilson Blvd., Rosslyn, VA 22209; (703) 841-3870.

S03900-003

Budget System.

OMB Funding Title/Code: Inter-American Foundation / 11-4031-0-3-151.

Congressional Relevance: *House* Committee on Appropriations: Foreign Operations Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Foreign Operations Subcommittee; *Senate* Committee on Environment and Public Works.

Subject Terms: Budget Information Systems; Foundations.

Purpose: The purpose is to prepare, justify, and execute the Agency's budget. ***Input:*** Input is office records and managers' opinions and desires. ***Content:*** The system contains foundation accounting records, budget history records, and various office plans and desires. ***Output:*** The output is a budget request to OMB and submission to Congress. ***Availability:*** Information is available to the public upon request.

Agency Contact: Administration and Finance; 1515 Wilson Blvd., Rosslyn, VA 22209; (703) 841-3870.

INTERSTATE COMMERCE COMMISSION

S04000-001

Tariff File.

OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Business; Commerce; Interstate Commerce; Tariffs; Trade Regulation; Transportation Rates.

Purpose: The file is required by the Interstate Commerce Act to be: 1) a file open to the public for the inspection of charges for transportation regulated by the Commission; 2) used in regulation of the Interstate Commerce Act; and 3) used by the Commission to determine the correct rate to charge. It is the official file of all tariffs or schedules of rates, fares, and charges, and of transportation contracts, of carriers subject to the act. ***Input:*** The data are composed of all tariffs and schedules filed with the Commission by all modes and all carriers subject to economic regulation by the Commission. ***Content:*** The tariffs and schedules contained in this file provide the rates, fares, charges, classifications, rules, regulations, and practices for the transportation of passengers and property by all modes and all carriers subject to economic regulation by the Commission. It is updated whenever a new or revised tariff or schedule is received. ***Output:*** There is a monthly report to the Commission on the number of tariffs and schedules received, changed, or rejected. This information is also incorporated into the Interstate Commerce Commission Annual Report to Congress. ***Availability:*** There is an official file for use by the Commission and an identical file for use by the public in a public reading room.

Agency Contact: Bureau of Traffic; 12th St. and Constitution Ave. NW, Washington, DC 20423; (202) 275-7739.

S04000-002

ICC Library.

OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Administrative Law; Commerce; Economics; Interstate Commerce; Libraries; Transportation; Transportation Law.

Purpose: The ICC Library was established in 1894 to provide a specialized file pertaining to transportation and allied fields. ***Input:*** New material is added to this source as required when new publications come out pertaining to transporation and allied fields. This material may come from the Commission or from outside sources. ***Content:*** This collection emphasizes books and publications concerned with administrative law, transportation law, economics, history, and related subjects such as statistics, accounting, valuation, and finance. These books and publications are added to the file as necessary. ***Output:*** Hardcopy subject bibliographies are issued upon request. ***Availability:*** These bibliographies are available to the Commission and the public.

Agency Contact: Library; 12th St. and Constitution Ave. NW, Washington, DC 20423; (202) 275-7328.

S04000-003

Speeches of Members of the Interstate Commerce Commission.

OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Trans-

portation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Business; Commerce; Interstate Commerce; Speeches; Trade Regulation; Transportation.

Purpose: The file was established over 20 years ago for those who have a need to keep abreast of developments in surface transportation. It also provides a history and background of issues addressed by Commissioners over that period of time. ***Input:*** The speeches are provided by the Commissioners' offices and the Office of Public Information. ***Content:*** This source contains copies of speeches made by members of ICC over the last 20 years. New speeches are incorporated into the source after printing by Administrative Services. ***Output:*** The reports, titled "Library Bulletin," are published six times during the year. "Library Bulletin" is a hardcopy publication. ***Availability:*** The "Library Bulletin" is distributed to the offices and bureaus of the Commission and the public.

Agency Contact: Library; 12th St. and Constitution Ave. NW, Washington, DC; (202) 275-7328.

S04000-004

Overall Case Inventory and Control System (Central Status).
OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.
Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Administrative Procedures; Case Loads; Government Litigation; Interstate Commerce; Litigation.

Purpose: The system (Central Status) is to report information concerning pending caseloads and the progress of administrative proceedings. ***Input:*** The data are derived from proceedings dockets filed with the Commission. ***Content:*** The system enables the Commission to determine the age and status of its proceedings docket or how long a specific case has been at a particular processing stage, and, by applying preprogrammed quality (elapsed time) criteria, to display any line case for the review of management. Through statistical comparisons of elapsed processing times with prior periods, the Commission is aware at all times of the actual condition of its docket. Such information provides: 1) an important aid in reaching informed judgments regarding the efficiency of procedures of handling cases; 2) an effective tool for the control of pending cases by the Proceedings Director; and 3) the capability to establish due dates for the completion of each major processing stage and identify those cases which do not meet such due dates. ***Output:*** Output reports are of two types: 1) identification of cases on the docket in terms of the number and age of cases pending and the number and age of cases within the various process steps, and 2) identification of listings of those cases which meet certain predetermined conditions of age or have remained within a particular stage of processing beyond the previously established due date. In addition, specific reports include the Central Status Monthly Report, Central Status Annual Report, and Annual Report to Congress. The output is initially in the form of "test" on a CRT display unit. As required, unformatted hardcopy listings are produced for compilation/inclusion in annual offset printed reports. ***Availability:*** Output is available to the Congress in annual Commission reports.

Agency Contact: Section of Systems Development; 12th St. and Constitution Ave. NW, Washington, DC 20423; (202) 275-7538.

S04000-005

Master Information File, Accounting and Financial System (MIF).
OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.
Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Accounting; Common Carriers; Financial Statements; Transportation Financial Statements; Transportation Industry.

Purpose: This system assists in the formulation of a series of reports on all modes of the surface transportation industry depicting their individual and collective status within the industry. ***Input:*** System input is derived from carrier supplied data. ***Content:*** The system includes accounting, financial claims, and costing data, provided by the industry which, when stratified, will display certain economic trends influencing the various sectors of the surface transportation industry. ***Output:*** A full complement of financial and operating statistical reports are published and made available to members of the industry and the public. These reports enable carriers to better manage their industry; the regulatory agencies and rate bureaus to oversee the industry; and the economists to perform accurate forecasting and budgeting. Specifically, major system output includes, but is not limited to, the following: a series of publicly available pamphlets providing full financial disclosure for investment and financial analysis; summaries of revenue trends by carrier, region or mode; case-related information regarding determination of carrier revenue needs; and equipment and service statistics. The reports are prepared annually and are in the form of printed pamphlets compiled from intermediate hardcopy computer printouts and from manual external calculations. ***Availability:*** The output of the system is available to the general public.

Agency Contact: Section of Systems Development; 12th St. and Constitution Ave. NW, Washington, DC 20423; (202) 275-7538.

S04000-006

Rail Abandonments Information and Case Status System.
OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.
Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Railroad Abandonments; Railroads; Transportation.

Purpose: The system is to respond to inquiries regarding actual and possible impact on communities, economics, servicing requirements, etc., resulting from rail abandonment proceedings. ***Input:*** Input is derived from internal files of the Proceedings area of the Commission. ***Content:*** The system provides, on a case-by-case basis, information related to rate increases, construction, additional rail service, and the like. The system maintains a record for each rail abandonment proceeding. An initial record is created when a case is filed, and the record is subsequently updated as the case moves through adjudication and is decided. All records, active and pending, are always available for retrieval and reporting. The major data captured are docket number assigned (prefix and subnumber), case status, filing date, environmental review status, hearing designation, designation date, hearing decision, decision date, railroads involved, and States involved. ***Output:*** The output includes pending rail abandonment proceedings; summary of cases by selected status, including number of cases, average file-to-decision time, average designation-to-decision time computed to days and months; summary of cases by year of decision; and recapitulation tables by State and railroads. The output is in text format displayed on a CRT video display unit, is produced as-required, and is of a transient nature. ***Availability:*** The output is for internal Commission use for responding to inquiries from the public.

Agency Contact: Section of Systems Development; 12th and Constitution Ave. NW, Washington, DC 20423; (202) 275-7538.

S04000-007

Claims and Damage Information for All Carriers.

OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Claims, Freight Losses, Transportation.

Purpose: This system assists in the identification of problem areas, vulnerable commodities, and other motor and rail carrier freight loss and damage problems requiring concentrated corrective efforts. ***Input:*** Internal Commission accounting files are the system input. ***Content:*** The system processes claims data by commodity and cause of loss and performs advisory functions reflecting trends and patterns of economic losses. Major categories of data are claim identification, date of loss, amount of claim, amount paid, type of loss, location of loss, type of commodity, description of freight, theft and pilferage data, hijacking data, concealed and visible damage data, wreck and catastrophe data, totals by commodity type, claims type, and dollars claimed and dollars paid. ***Output:*** Internal management reports on computer printouts are the principal output. ***Availability:*** Information is for internal Commission use only.

Agency Contact: Section of Systems Development; 12th St. and Constitution Ave. NW, Washington, DC 20423; (202) 275-7538.

S04000-008

Internal Management and Administration System.

OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Management Information Systems, Personnel Needs, Resource Allocation.

Purpose: The system is to provide management support systems for the Office of the Managing Director. ***Input:*** Several integrated systems and subsystems are used to support internal management and administration. These include comprehensive computer support for Position Management, Status of Funds and Budgets, Number of Complaints, Investigations performed by ICC's Field Staff, and various related applications. ***Content:*** The internal systems include 1) Position Management--monitors all positions, including grade ranges and incumbent personnel within each position. This system is used for forecasting future position requirements and constantly displaying authorized versus onboard position strengths. In addition to position information, the data base contains several items of importance regarding the specific type of individual needed for the position. 2) Status of Funds--shows up-to-date status of appropriated funds, and all obligations applied to them, for all organizations within the Commission. Included are funding of personnel services, benefits, awards, and contract support services. ***Output:*** System output includes several subsidiary reports relating to funding status: Current Monthly Financial Accounting Transactions; Monthly Obligations and Disbursements List month by month; Overdue Transaction Registers; and Monthly Travel Statements. Field Staff Complaints, Investigations, Inspections--lists chronology of complaints against ICC regulated transport agencies (e.g., services, overcharges, damages, losses). It includes all juris and non-juris related complaint and inspections data reported to ICC by its investigators. ***Availability:*** Output is for internal Commission management use.

Agency Contact: Section of Systems Development; 12th St. and Constitution Ave. NW, Washington, DC 20423; (202) 275-7538.

S04000-009

Transportation Movement Information for All Rail Shipments.

OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Freight, Railroads, Transportation.

Purpose: This system is the single most comprehensive data base which supports the Commission's objectives in making available all pertinent statistical data on freight transportation and commodities transported for rail shipments. ***Input:*** Input is from two other major system areas: Freight Commodity Statistics, produced by the ICC, and Carload Waybill Statistics, produced by the Department of Transportation. Added to this combination of sources are data on terminal information, movement information, and car specifications. ***Content:*** The data grouping contains virtually all information regarding types of commodities hauled, origins and destinations, carriers and equipment, costs per hundred-weight and carload, interchange and terminal data, line miles, and in-depth freight car and commodity data. The major data elements include billed weight, carload rate, car-miles, commodity group and class, forwarder traffic, line haul data, mileage blocks, multiple-car movements, origins and destinations, revenues, short-line miles, territories, and related commodity statistical data. Although no major recurring reports are generated by the system, it does support the following Commission requirements: investigation of railroad freight-rate structure, economic projections through modeling, reporting equipment and service statistics and summaries of revenue trends; and annual reports to Congress. ***Availability:*** The output is used as input to other Commission reporting systems.

Agency Contact: Section of Systems Development, 12th St. and Constitution Ave. NW, Washington, DC 20423; (202) 275-7538.

S04000-010

Economic Projection through Modeling System.

OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Econometric Models, Economic Forecasting, Forecasting, Freight Rates, Simulation, Transportation.

Purpose: This system is to provide, through econometric modeling, projections of operating revenue and expense trends and the basis for future rate increases. ***Input:*** The system utilizes carrier supplied cost and rate data. ***Content:*** The system is used to compare anticipated rate increases with the forecast of inflationary trends in the economy and to show interdependence between transportation patterns and regional growth. This system exercises several complex algebraic formulae, containing real and hypothetical values, which will provide forecasting data necessary to the ICC and its related regulatory functions. ***Output:*** Output includes: 1) Revenue Forecasts: The projection of freight revenues is linked to the economic forecast of the model. Traffic movement is correlated with production actually in the economy. In turn, this traffic movement is translated into dollars to derive the revenue forecast. 2) Expense Forecast: The projection of expenses distinguishes between the price and constant dollar trends for labor, fuel, materials, and supplies. The projections among these are combined with quantity projections of each component to derive the forecast of expenses. 3) Rate Increase Forecasts: The projection of rate increase needs is derived from the relationship between forecasted revenues and expenses. Anticipated needs for a rate increase hinges on the extent to which these inflated expenses are outpacing projected revenue growth. ***Availability:*** Output is not publicly available as it is used to meet internal information requirements of the Commission.

Agency Contact: Section of Systems Development; 12th St. and Constitution Ave. NW, Washington, DC 20423, (202) 275-7538.

S04000-011

Master Regulated Carrier Inventory System.

OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Accounting; Common Carriers; Financial Statements; Management Information Systems.

Purpose: The Master Regulated Carrier Inventory System, or Carrier Address and Information System (CAS), is designed primarily to record all information pertinent to a carrier's reporting history, e.g., types of reports filed, dates of receipt, revenues, all ICC identities, and carrier address. ***Input:*** The record contains such elements as carrier ID, commodity code, prime type of operation, statistical region, ICC region, carrier status, and mailing address. ***Content:*** The system establishes a central point of responsibility for control of all name and address information to provide the Commission with a single and current source of communication data to track status and progress and to monitor all mandatory response cycles. The system maintains a carrier history record on all carriers responsible for submitting data to the Commission within a prescribed period of time. ***Output:*** The system provides mailing labels for all reports going out to the various carriers, control of receipt of reports, and a control of Master Information File processing in addition to augmenting many of the Commission's systems by virtue of its comprehensive data base. ***Availability:*** Information is for Commission use only.

Agency Contact: Section of Systems Development; 12th St. and Constitution Ave. NW, Washington, DC 20423, (202) 275-7538.

S04000-012

Rail Net Investment Base Computation System–Depreciation Analysis.

OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Accounting; Amortization; Depreciation; Financial Management; Railroads; Transportation.

Purpose: The system provides computerized and statistical methods for evaluating the validity of the railroads accumulated depreciation accounts and applies various formula criteria to applicable account items whose life characterizations, service life, ledger values, and related depreciation considerations will yield a realistic series of figures when computed to rates of investment returns. ***Input:*** Data are derived from carrier supplied data files. ***Content:*** Carriers are required to submit actuarial or simulated data to include equipment type, account group, installation year, number of units, ledger value, gross salvage value, cost of removal and various codes signifying additions, and transfers and/or retirements. The data are manipulated to provide a variety of output reports. ***Output:*** Output includes reports on dollars surviving vintage-original investment in assets remaining in services, life of a group of assets in addition to the manner in which the property is being retired, and retirement Rate Method–a systematic actuarial method for calculating property survivor curves that is based on property retired and property remaining in service. ***Availability:*** The reports are primarily for internal Commission use and one contained in Commission reports to Congress.

Agency Contact: Section of Systems Development; 12th St. and Constitution Ave. NW, Washington, DC 20423; (202) 275-7538.

S04000-013

Legislative Histories Pertaining to the Interstate Commerce Act, Its Amendments, and Related Acts.

OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Commerce; Interstate Commerce; Laws; Legislation; Trade Regulation.

Purpose: The Legislative Histories pertaining to the Interstate Commerce Act, its amendments, and related acts was established to provide a background and history of the act and related acts. This information is used for evaluation of proposed legislation, the development of proposed legislation, and historical information of the act and related acts. ***Input:*** The data are derived from the Congressional Record, the Monthly Catalog of U.S. Government Publications, and other checklists and indexes of Congress. ***Content:*** The Legislative Histories pertaining to the Interstate Commerce Act, its amendments, and related acts consist of congressional bills; committee reports, prints, and hearings; debates as recorded in the Congressional Record; slip laws; and other materials related to the legislation. Basically, they include the public documents that reveal the history of the enactment of specific laws of interest to the Commission. ***Output:*** The two principal reports from this source are the Daily Congressional Record Index (hardcopy publication produced when Congress is in session) and the Legislative Histories (prepared periodically when Congress is in session), hardcopy publications. ***Availability:*** Both reports are available for use in the library by both Commission personnel and the public.

Agency Contact: Office of Managing Director; 12th St. and Constitution Ave. NW, Washington, DC 20423; (202) 275-7328.

S04000-014

Fixed and Variable Cost Computations System.

OMB Funding Title/Code: Salaries and Expenses / 30-0100-0-1-404.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Accounting; Freight; Transportation Costs.

Purpose: The primary objectives are to provide the Commission with information on motor and rail carrier costs for use in its regulatory functions; to make available to the public cost information useful to carriers, rate bureaus, and traffic organizations; and to enhance the accuracy of cost estimates which directly influence carrier rate structures. ***Input:*** The system applies automated correlation of carrier report data to carrier supplied costing data contained on Rail Form A and Highway Form A, providing computations of fixed, variable, and/or total costs of single or multiple movements of commodities. ***Content:*** The system captures and processes data pertaining to the amounts and types of transport equipment and days operational. The categories of data collected and processed are amounts and types of commodities hauled and distances, interline traffic of commodities, wage and overhead expenses applied to commodity hauling, peddle-trip data, and intercity freight revenues. ***Output:*** The system generates unlimited statistical and costing data. The output from the computer is intermediate listings, graphics, or on CRT screens and is used as feeder data for formal ICC statements by the bureaus, offices and the Commissioners. ***Availability:*** Output is in formal ICC statements for publication.

Agency Contact: Section of Systems Development; 12th St. and Constitution Ave. NW, Washington, DC 20423; (202) 275-7538.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

S04100-001

Project Approval Document (PAD).

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Astronautical Research; Research; Space Science.

Purpose: The project approval document (PAD) authorizes the technical scope and content of projects funded from NASA appropriations. ***Input:*** Program associate administrators make project proposals through the project approval document based on agency goals and objectives. PADS are approved by the administrator or his designee. ***Content:*** The PAD includes sections on objectives, technical plan, facility plan, procurement strategy, management plan, project milestone schedule, resources, interagency relationships, and items subject to special management control. A PAD or subsidiary PAD (SUB-PAD) is prepared for each project in the NASA program. ***Output:*** An annual hardcopy document is prepared and approved. ***Availability:*** The report is publicly available from NASA.

Agency Contact: Office of Resources Analysis, Code BR; 400 Maryland Ave. SW, Room 6141, FOB 6, Washington, DC 20546; (202) 755-3214.

S04100-002

Research and Technology Objectives and Plans Summary.

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Astronautical Research; Research and Development; Space Sciences.

Purpose: This document lists supporting research and technology currently in progress throughout the NASA to support the Agency's technological planning for the next several years. It is the one NASA document that outlines NASA technology programs and is designed to facilitate communication and coordination among technical personnel in government, industry, and universities. ***Input:*** Input is from NASA field installations and headquarters. ***Content:*** This publication contains abstracts from approved RTOP (research and technology objective and plan), which is standard, formal document representing the lowest unit of science and technology program managed from NASA headquarters. It encompasses the spectrum of activity from basic research through applied research and technology to advanced systems technology, development, and test. ***Output:*** The RTOP Summary is an annual hardcopy report. ***Availability:*** The report is publicly available from NTIS.

Agency Contact: Office of Resources and Management Systems; 400 Maryland Ave. SW, Room 656, FOB 10B, Washington, DC 20546; (202) 755-3252.

S04100-003

FACS-Financial Status of Programs.

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Construction of Facilities / 80-0107-0-1-999; Research and Program Management / 80-0103-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Financial Management; Program Management.

Purpose: The system monitors the obligation and expenditure of money by project within NASA. ***Input:*** The master file is updated each month from field center input after certification that file maintenance has been properly and accurately completed. ***Content:*** The reports generated emanate from financial data elements that have been updated and assembled monthly. The data elements are maintained at the unique project level. ***Output:*** Output includes a series of "format" reports that reflect summary project level financial status (monthly, hardcopy and microfiche); a series of "volume" reports that provide detailed financial status by program office (monthly, hardcopy and microfiche); and a working data base (monthly, hardcopy and microfiche.). ***Availability:*** Reports are publicly available from NASA.

Agency Contact: Agency Accounts and Reports Division; 400 Maryland Ave. SW, Room 5081, FOB 6, Washington, DC 20546; (202) 755-3450.

S0-100-004

Status of Approved Programs.

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Construction of Facilities / 80-0107-0-1-999; Research and Program Management / 80-0103-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Appropriations; Financial Management; Program Management; Resource Allocation.

Purpose: The system provides a mechanism for maintaining a record of congressional appropriations to NASA and the issuances of these appropriations to the various NASA field installations. The data base contains congressional control amounts and NASA program plans. ***Input:*** The primary source of data is the approved Agency budget plan wherein each program office is issued resources authorizations. Further authorizations are issued by the program offices to the installations, and funding is provided in the form of allotments. The resources authority is categorized by budget line item and unique project by program year. ***Content:*** Resources authority is shown at the unique project level by budget line item and program year and is updated monthly. ***Output:*** The report is produced monthly for the current year and quarterly for prior years. ***Availability:*** Reports are publicly available from NASA.

Agency Contact: Office of Budget Operations; 400 Maryland Ave. SW, Room 6015, FOB 6, Washington, DC 20546; (202) 755-8320.

S04100-005

Report Management System Inventory

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Construction of Facilities / 80-0107-0-1-999; Research and Program Management / 80-0103-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Records Management.

Purpose: The system provides an inventory of Agency reports as specified under the Feueral Reports Act and implemented by OMB Circular A-40. ***Input:*** Input is from each of the NASA installations and headquarters offices. ***Content:*** Data elements maintained include installation; information systems; serial number; interagency control number; office of primary responsibility; frequency; expiration date; external requirer; OMB approval number; report title; distribution; costs; and respondents. ***Output:*** A keyword index is produced in the form of a computer printout. ***Availability:*** Output is publicly available from NASA.

Agency Contact: Office of Information Systems, 400 Maryland Ave. SW, Room 525, FOB 10B, Washington, DC 20546; (202) 755-3050.

S04100-006

FACS-Agencywide Coding Structure.

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Construction of Facilities / 80-0107-0-1-999; Research and Program Management / 80-0103-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Financial Management

Purpose: The Agencywide coding structure establishes a uniform method of identifying and classifying all NASA financial activity for planning, programming, budgeting, accounting, and reporting purposes. Additionally, the AWCS provides the official reference for the classification and coding of all financial activity. ***Input:*** Input is from NASA program offices. The establishment of new codes and changes and deletions of old codes are instituted by programmatic and budgeting activities within NASA. ***Content:*** The system is updated monthly for purposes of monitoring the identification and classification of NASA financial activities. Each of the financial transactions submitted monthly by each installation to the financial and contractual status system is compared to the Agencywide coding structure. This structure is applicable to NASA headquarters and field installations and sets forth the official reference for the classification of all financial transactions pertaining to the appropriations of NASA. ***Output:*** Principal output is a financial management manual (FMM 9110) (hardcopy only) and an automated listing of codes (hardcopy and microfiche). ***Availability:*** Reports are publicly available from NASA.

Agency Contact: General Financial Systems Division; 400 Maryland Ave. SW, Room 5109, FOB 6, Washington, DC 20546; (202) 755-3440.

S04100-007

NASA Budget Information System.

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Construction of Facilities / 80-0107-0-1-999; Research and Program Management / 80-0103-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Budget Information Systems; Resource Allocation.

Purpose: The system reports the past, current, and budget year moneys, distributing them on a geographic basis. The reports are utilized for presentation to Congress of NASA's appropriation funding requests as well as for in-house budgetary documentation. ***Input:*** Input is from NASA installations and headquarters program offices based on their congressional budget submissions. ***Content:*** Reports produced by the NBIS distribute moneys by installation, program office, program, project, location of performance, contractor, and budget line item. ***Output:*** The NBIS report is produced annually in the form of computer printouts. ***Availability:*** The report is publicly available through NASA.

Agency Contact: Office of Budget Operations; 400 Maryland Ave SW, Room 6015, FOB 6, Washington, DC 20546.

S04100-008

FACS-Object Class.

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Construction of Facilities / 80-0107-0-1-999; Research and Program Management / 80-0103-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Financial Management

Purpose: The system provides current fiscal year obligations by object class code according to OMB requirements. ***Input:*** An extract is taken from ADP inputs from the field centers and is used as a data base for the object class reports. ***Content:*** The current fiscal year obligations are summarized by object class code on a monthly basis. ***Output:*** Object class code reports are issued monthly in hardcopy and microfiche. ***Availability:*** Reports are publicly available through NASA.

Agency Contact: Agency Accounts and Reports Division; 400 Maryland Ave SW, Room 5081, FOB 6, Washington, DC 20546 (202) 755-3450.

S04100-009

FACS-Institutional Management System.

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Research and Program Management / 80-0103-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Financial Management.

Purpose: The system was established to monitor the financial status of institutional supporting activities at NASA installations. ***Input:*** The master file is updated each month from field center input after certification that file maintenance has been properly and accurately completed. ***Content:*** The reports generated emanate from the institutional data elements that are extracted from the monthly financial status reports. The data are maintained by the various subfunctions which comprise the Agency's institutional support. ***Output:*** Output pertains to institutional activity at the subfunction level (monthly, hardcopy and microfiche); program support at benefiting project level (monthly, hardcopy and microfiche); and installation operating funds by institutional resource category (monthly, hardcopy and microfiche). ***Availability:*** Reports are publicly available from NASA.

Agency Contact: Agency Accounts and Reports Division, 400 Maryland Ave. SW, Room 5081, FOB 6, Washington, DC 20546, (202) 755-3450.

S04100-010

FACS-Contractual Status.

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Construction of Facilities / 80-0107-0-1-999; Research and Program Management / 80-0103-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Contracts; Financial Management; Grants; Procurement.

Purpose: The system provides NASA with Agencywide management reporting required by finance, procurement, budget, and program offices. FACS produces reports used to monitor the status of financial and procurement data for selected contracts, purchase orders, and all grants. ***Input:*** NASA receives ADP generated data monthly from files and records maintained at each field installation. The major categories of data are contract number and unique project number. ***Content:*** The reports generated emanate from a series of procurement and financial data elements that are received monthly from each NASA installation. ***Output:*** Major output designates contracts by program office and unique project number, (monthly, hardcopy and microfiche) and by place of performance (semiannually, hardcopy and microfiche). ***Availability:*** Reports are publicly available through NASA.

Agency Contact: Agency Accounts and Reports Division; 400 Maryland Ave. SW, Room 5081, FOB 6, Washington, DC 20546; (202) 755-3450.

S04100-011

Office of University Affairs Management Information System.

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Astronautical Research; Contract Administration; Contractors; Contracts; Grants; Research and Development; Space Sciences; Universities.

Purpose: The system is the Agency's designated source and repository of management level information data and analysis on the total NASA-university effort. The system is used for internal management and to answer inquiries from Congressmen, other agencies, universities, private sector organizations, and individuals. ***Input:*** Data are obtained from the Agency's financial procurement accounting system and from individuals within NASA at the time actions are initiated with colleges and universities. The obtained data are financial information, technical characteristics of awards, and attributes of performing organizations. ***Content:*** Principal subject matter is awards to colleges and universities. Files are maintained at the contract or grant level with data items for essential attributes, e.g., obligations, expenditures, technical description, period-of-performance, geographical location, congressional district. Attributes of the performing institutions, such as mailing address, chief administrative officers, and type and size of school, are also maintained. The system is updated monthly. ***Output:*** The system is designed to generate reports directed toward specific questions. Output is supplied in a form most suitable to the user's needs and may consist of full-size line printer pages, reduced line printer pages, cards, microfiche, or bound reports. ***Availability:*** Reports are publicly available from GPO and NTIS.

Agency Contact: Office of University Affairs; 400 Maryland Ave. SW, Room 6125, FOB 6, Washington, DC 20546; (202) 755-8439.

S04100-012

NASA Scientific and Technical Information System.

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Research and Program Management / 80-0103-0-1-999

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Aeronautical Research; Astronautical Research; Information Services; Solar Energy; Space Sciences; Wind Energy.

Purpose: The System supports the NASA research and development effort and assists in dissemination of NASA program-generated information to the public and, through the NASA Technology Utilization Program, to private U.S. industry. Operating through two major contractor-operated components (NASA Scientific and Technical Information Facility, Linthicum, MD, and American Institute of Aeronautics and Astronautics (AIAA) Technical Information Service, New York, NY), the system acquires worldwide aerospace reports, journal literature, books, and conference papers; announces them in publicly available abstract journals and bibliographies; provides computerized literature searches and a current awareness service to NASA and NASA contractors; reproduces reports in microfiche; and provides on-line literature searches to NASA research centers and other organizations (including the congressional Office of Technology Assessment). Searches also are available to NASA Industrial Applications Centers to assist in technology spinoff and, by NASA-supplied tapes, to European research institutions through the European Space Agency. ***Input:*** All reports of NASA in-house, contract, and grant research and development are obtained for indexing, abstracting, and microreproduction. Also received are aerospace-related publications issued by other Government agencies (including DOD, FAA, ERDA, EPA, NOAA, NSF, and NTIS), nonprofit domestic and foreign research institutes, private firms, universities (particularly theses), and the NATO Advisory Group for Aerospace Research and Development. Under an agreement with NASA, the European Space Agency (ESA) provides precataloged computer-readable information on publications by European research institutions together with microreproduction of documents for further distribution. From the AIAA Technical Information Service, under NASA contract, the NASA STI facility receives precataloged data on aerospace journals, books, and conferences for direct entry into the centralized data bank. The Smithsonian Science Information Exchange provides announcements of ongoing aerospace research projects. ***Content:*** The system covers all the sciences and technologies related to aeronautics, space, earth resource surveys, solar and wind energy, and other areas of NASA research, development, and project management. Updated biweekly, the data base contains citations to over 1.5 million documents which may be searched by subject, report number, corporate source, author, contract or grant number, and other identifiers. (Geographic identifiers are not searchable unless identified as such in the indexed publication.) Computer-readable citations cover the period 1962 to present, while 200,000 citations to publications accessioned between 1915 and 1962 by the National Advisory Committee on Aeronautics are searchable on edge-indexed microfilm. ***Output:*** Scientific and Technical Aerospace Abstracts (STAR), an abstract journal issued biweekly and available on subscription from GPO, announces reports, doctoral theses, and NASA patents and includes a section on current research projects. (STAR is supplemented by the journal International Aerospace Abstracts (IAA) issued by the AIAA Technical Information Service.) Periodic bibliographies available on subscription include Aeronautical Engineering, Aerospace Medicine and Biology, Computer Program Abstracts, Earth Resources, Energy Management, and NASA Patent Abstracts. NASA/SCAN (Selected Current Aerospace Notifications), a current awareness service announcing selected STAR and IAA citations under a choice of 200 subject topics, is available to NASA and NASA contractors. RECON (Remote Console) is a computerized, on-line CRT display interactive system for information retrieval from the system data base. The NASA Combined Index is a microfilmed comprehensive index to all the documents in the data base and is used by NASA libraries. Printed literature searches are made for NASA, NASA contractors, universities, other Government agencies, and NASA Industrial Applications Centers. Copies of NASA publications and microfiche are provided to NTIS for public sale. Computer tapes of selected document citations are provided by cooperative agreement to the European Space Agency to facilitate searches by European research institutions. ***Availability:*** NASA and other publications are announced publicly in STAR and IAA, which are fully indexed to facilitate searching. Announced publications may be purchased from the sources indicated in the STAR and IAA citations, such as NTIS

or U.S. Patent Office. Various bibliographies are available on subscription for those interested in narrower subject areas that the full abstract journals provide.

Agency Contact: Scientific and Technical Information Office; 400 Maryland Ave. SW, Washington, DC 20546; (202) 755-3548.

S04100-013

AIAA Technical Information Service.

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Research and Program Management / 80-0103-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Aeronautical Research; Astronautical Research; Information Services; Space Sciences.

Purpose: The Technical Information Service of the American Institute of Aeronautics and Astronautics (AIAA-TIS) is, under NASA contract, one of the two primary support operations of the NASA Scientific and Technical Information System. AIAA-TIS acquires worldwide aerospace literature in the form of journal articles, conference papers, and books; abstracts and indexes them; publishes an announcement journal, International Aerospace Abstracts (IAA); reproduces many of the accessioned items in microfiche under agreement with the copyright holders; provides a public sales agency for copies of announced publications; and submits computer-readable cataloging data into the NASA Scientific and Technical Information Facility data base. ***Input:*** The literature abstracted and indexed by AIAA-TIS includes scientific and technical journals, reprints, foreign university dissertations, conference proceedings, and books, obtained by subscription or purchase from technical societies and publishers, or as gifts by societies, authors, industry, U.S. Government agencies, universities, nonprofit research institutions, or by exchange agreements with foreign organizations, or through the European Space Agency. All sciences and technologies related to aerospace and NASA research and development, energy programs, earth resources, and aerospace project management are represented in the acquired publications. ***Content:*** The AIAA-TIS is a major contributor to the full NASA TIS system of over 1.5 million document citations, having entered the published literature since 1962. Scope and searchability are the same as that of the report and other citations in the central data bank. Input of data and publication of IAA are on the same biweekly update cycle. ***Output:*** International Aerospace Abstracts (IAA), an abstract journal issued biweekly and available on subscription from the American Institute of Aeronautics and Astronautics, New York, NY, announces the aerospace published literature of journal articles, conference papers, and books. All citations to IAA-announced publications are part of the central data bank in the NASA Scientific and Technical Information System, therefore they are included in literature searches, RECON displays, bibliographies, and NASA/SCAN. Microfiche and hardcopies of a portion of the announced publications are available from AIAA. ***Availability:*** The AIAA-TIS processes only publicly available information.

Agency Contact: Scientific and Technical Information Office; 400 Maryland Ave. SW, Washington, DC 20546; (202) 755-3548.

S04100-014

National Space Science Data Center (NSSDC).

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Research and Program Management / 80-0103-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Aeronautical Research; Data Collection; Information Services; Rockets; Satellites; Space Sciences

Purpose: NSSDC furthers the widest practicable use of reduced data obtained from, or related to, space science experiments and provides U.S. investigators with a central repository for such data. Similar services are provided to scientists residing outside the United States through World Data Center A for Rockets and Satellites. Research work also can be performed onsite by resident and visiting scientists. ***Input:*** NSSDC collects, organizes, stores, announces, retrieves, disseminates, and exchanges data and information received from satellite experiments, sounding-rocket probes, and high-altitude aeronautical and balloon investigations. Data and documentation are received from principal investigators as well as from World Data Centers B (USSR) and C (England) for Rockets and Satellites. ***Content:*** NSSDC's System for Information Retrieval and Storage (SIRS) consists of four main information files. The Automated Internal Management (AIM) file provides characteristics of each spacecraft, experiment, and data set that have been identified in a hierarchical arrangement. The Technical Reference File (TRF) contains descriptions of publications and technical documents that are used as reference materials. The Rocket File includes information that names and describes all scientific rocket launchings identified by NSSDC. The Nonsatellite Data File contains data from sources other than satellite experiment flights. Data are in the fields of astronomy, geodesy and gravimetry, ionospheric physics, meteorology, particles and fields, planetary atmospheres, planetology, and solar physics. ***Output:*** Output includes announcement of Satellite Data Availability (as needed, hardcopy/microform); Report on Active and Planned Spacecraft and Experiments (as needed, hardcopy/microform); Handbook of Correlative Data (as needed, hardcopy/microform); Models of the Trapped Radiation Environment (as needed, hardcopy/microform); World Data Center A for Rockets and Satellites Catalogue (as needed/microform); Sounding Rocket Launching Report (as needed, hardcopy/microform); and SPACEWARN Bulletin (Monthly, hardcopy/microform). ***Availability:*** Reports are publicly available to scientific and educational (college level) users; they are available to others through NTIS.

Agency Contact: National Space Science Data Center; NASA/Goddard Space Flight Center, Greenbelt, MD 20771; (301) 982-2354.

S04100-015

Shuttle Information Service (SIS).

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Information Services; Space Shuttles

Purpose: This system is designed to provide a single authoritative source of information regarding Shuttle documents generated by Shuttle organizations and Shuttle contractors. The SIS is to identify and point out the existence, location, and source of information and in certain cases supply the requested information/documentation. To help insure the completeness of the SIS information files, SIS will exchange documentation/information between NASA centers and with the U.S. Air Force Space Transportation System Program Office. The SIS utilizes an automated Document Index System (DIS) which facilitates retrieval of documents maintained in the JSC Library. ***Input:*** Input is from scientific, technical, and engineering groups located at each of the NASA centers and their contractors; and other supporting organizations, including other U.S. Government agencies and their contractors. Input includes technical reports, specifications, drawings, standards, and technical analyses. ***Content:*** Shuttle Information Content includes communications, electronics, heat transfer, fluid mechanics, instrumentation, photography, quality assurance and reliability, structural mechanics, metallic and nonme-

tallic materials, aerodynamics, propulsion, medical information, spaceborne experiments, spacecraft design and testing, and payloads. The scope of the information is from 1965 to date, continuing as research proceeds. The files are updated weekly and cover all geographical areas. *Output:* Information output on specific documents or specific subject content is generated via an online CRT computerized system. Information is obtained by accession number, corporate source, report number, contract number, personal author, main subject terms and local JSC number, list by date, program or project, or office of prime responsibility. There are no recurring reports. The majority of output is by CRT with the option of hardcopy printouts. *Availability:* Output availability is controlled.

Agency Contact: Technical Library Branch; NASA Johnson Space Center, Houston, TX; (713) 483-6391.

S04100-016

NASA Library Network (NALNET).

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Research and Program Management / 80-0103-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Aeronautical Research; Information Networks, Libraries; Research and Development; Space Sciences.

Purpose: NALNET is a cooperative effort by the NASA libraries, located at headquarters and 11 research centers, to provide expanded and improved products and services while achieving the economies of centralized indexing, cataloging, and computer processing. The network offers direct on-line access for search and identification to a computerized data base of citations to over 180,000 books and 6,000 journals located at the various libraries. Products include printed union lists of books and periodical holdings, local book shelflists, catalog cards, and indexed book catalogs on COM. With a broad scope of coverage of publications related to aeronautics and space research, earth resources, energy, and other NASA research and development topics, NALNET is primarily for the use of NASA professionals and libraries; but searches are also made for NASA Industrial Applications Centers to assist in technology spinoff. *Input:* The NALNET data bank input consists of bibliographic records of books received by the NASA libraries after 1968, all journal titles and selected citations from the Library of Congress Machine Readable Catalog. Book and journal records of the American Institute of Aeronautics and Astronautics will shortly be incorporated into the network. *Content:* NALNET subject content covers the broad interests of NASA research and development, management, data processing, and other aspects of aeronautics and space technology and all the sciences related to space studies or the needs of space exploration, including geology, medicine, engineering, electronics, and biology. *Output:* On-line identification and search via CRT display is possible. Computer-printed catalog cards; union book and periodicals listings; local current book accession lists; local book shelflists and surplus lists; and local indexed catalogs are also generated. Searches may be made by title, author, Library of Congress or NASA terms, National Library of Medicine terms, LC card numbers, various classifications, corporate sources, and report numbers. *Availability:* Data are primarily for the use of NASA libraries, but searches are made for the NASA Industrial Application Centers to assist in technology spinoff.

Agency Contact: Scientific and Technical Information Office; 400 Maryland Ave. SW, Washington, DC 20546; (202) 755-3548.

S04100-017

Moon Literature Project (MLP).

OMB Funding Title/Code: Research and Development / 80-0108-0-1-999; Research and Program Management / 80-0103-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Lunar Exploration; Moon; Space Sciences.

Purpose: This system is designed to provide a bibliographic information base to all research in the field of lunar science, including published literature, Government documents, conference papers, and books. The service is intended for the use of the entire lunar science community including principal investigators, educators, and students. *Input:* Selection of the information is made from the published journals, review of abstracting services such as International Aerospace Abstracts, Scientific and Technical Aerospace Reports, Bibliography and Index of Geology, Meteorological and Geoastrophysical Abstracts, and subject searches conducted by the Institute for Scientific Information. *Content:* Content covers all research on the moon from 1950 to the present, with greatest percentage of coverage since 1969. Astronomy, geology, photogeology, and geophysical investigations are included. *Output:* Automated searches by author or combinations of authors and title keywords are done on request. Current references are published in the Lunar Science Information Bulletin (Lunar Science Institute) and in The Moon (Reidel Publishing Co.). *Availability:* Searches may be requested by any qualified investigator, educator, or student interested in the study of the moon and are supplied as computer printouts. The complete bibliography is available on microfiche.

Agency Contact: Lunar Science Institute; 3303 NASA Road #1, Houston, TX 77058; (703) 488-5200.

NATIONAL CREDIT UNION ADMINISTRATION

S04200-001

Federal Credit Union Management Information System.

OMB Funding Title/Code: Operating Fund / 25-4056-0-3-401; Credit Union Share Insurance Fund / 25-4468-0-3-401.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Cooperative Societies; Credit Unions; Federal Credit Unions; Financial Statements.

Purpose: The system provides financial, operational, and management information required to enable the Administration to carry out its mission as a Federal regulatory agency. The system covers all Federal credit unions and has limited application to federally insured State chartered credit unions. *Input:* The system input comes from Federal credit unions or NCUA employees (largely credit union examiners) at the regional level. *Content:* The content is financial data such as amount of shares, loans, assets; (for each credit union) management data such as delinquent loan rating, problem codes, and other codes; and statistical reference data such as State, county, congressional district, SMSA, and economic area codes. The system is updated each four weeks. Some segments have monthly updates. *Output:* The output is cyclic reports (computer printouts). Reports deal with financial and management condition of Federal credit unions. An example is the Adverse Condition Report which compares certain financial and management data and prints messages when certain predefined thresholds have been exceeded. *Availability:* Information is for internal use only.

Agency Contact: Office of Fiscal Affairs; 2025 M St. NW, Washington, DC 20456; (202) 254-9820.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

S04300-001

Accounting System.
OMB Funding Title/Code: Salaries and Expenses / 59-0100-0-1-503.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Accounting Systems; Financial Management.

Purpose: The accounting system maintains all of the essential accounting information required by law and administrative procedure. It controls the commitment, obligation, and expenditure of funds and other assets; it also provides the financial management data and analyses which program officials at all levels need to plan, execute, and evaluate their programs. ***Input:*** The system is typical of Federal Government accounting systems and contains information such as standard obligation and expenditure documents and budget data. ***Content:*** This system contains financial data on allotments, obligations, unobligated balances, accrued expenditures, and disbursements for 1) each organizational unit of the Foundation; 2) each agency program listed in the Catalog of Federal Domestic Assistance; and 3) each State, county, and city (cities exceeding 25,000 in population) receiving grants. ***Output:*** This manual accounting system provides the data necessary to prepare the standard external reports–SF 133, SF 6727, SF 224, SF 220, budget schedules, and the monthly internal financial management reports. ***Availability:*** Reports are designed to meet internal financial management needs and external reporting requirements, but they are also publicly available in consolidated Federal Government publications such as the Budget.

Agency Contact: Finance; 806 15th St. NW, Washington, DC 20506; (202) 382-8081.

S04300-002

Grant Information System (ARTS).
OMB Funding Title/Code: Salaries and Expenses / 59-0100-0-1-503.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Arts, Federal Aid to the Arts and Humanities; Grantees; Grants, Project Descriptions.

Purpose: The Grant Information System is a central file in the Arts Grants Office. It is used to enable some analysis of application/grant characteristics and patterns and to respond to external requests for information. ***Input:*** The system input includes applications, advisory panels, National Council on the Arts, and grants information. ***Content:*** This system contains application/grant information on each application from 1972 to present. It covers the National Endowment for the Arts Program and the National Endowment for the Arts Sub-program. Data include: Applicant/Grantee Name, Applicant/Grantee Address, Applicant/Grantee Type, Geographic Coverage, Type of Funds, Total Obligation, Description of Project, Project Goal, Activities, and Special Characteristics. ***Output:*** The output includes typed lists and an annual report. ***Availability:*** The output is primarily for internal use and response to inquiries.

Agency Contact: National Endowment for the Arts; 2401 E St. NW, Washington, DC 20506; (202) 634-6160.

S04300-003

Grants Information System (Humanities).
OMB Funding Title/Code: Salaries and Expenses / 59-0100-0-1-503.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Federal Aid to the Arts and Humanities; Grantees; Grants, Humanities; Project Descriptions.

Purpose: The Grants Information System is a central file on NEH grants maintained in the Office of Planning and Analysis. It is used to enable some analysis of grant characteristics and patterns and to respond to external requests for information about NEH grants. ***Input:*** The system input includes grant applications and obligation data. ***Content:*** This system lists the following information for each NEH grant, from 1970 to present: Title, Grantee Name, P.D. Name, Grantee Address, Type of Grantee, Congressional District, Total Obligation, Description of Project, Purpose of Grant, Institutional Characteristics, Minority Characteristics, Number of Grant Participants, Academic Field, Level of impact, Geographic Area of Grant Subject, Historical Period of Grant Subject, and Level of Training Provided by Grant, if educational. It covers both the National Endowment for the Humanities Division and the National Endowment for the Humanities Program. ***Output:*** The output is typed lists. Examples of major reports include comprehensive yearly lists of grants arranged by division and program, State and congressional district, outright grant size, gift and matching, and grant size. ***Availability:*** Those are primarily for internal use and responses to inquiries about characteristics of NEH grants.

Agency Contact: National Endowment for the Humanities; 806 15th St. NW, Washington, DC 20506; (202) 382-5862.

NATIONAL LABOR RELATIONS BOARD

S04400-001

Case Processing System.
OMB Funding Title/Code: Salaries and Expenses / 63-0100-0-1-505.
Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Arbitration; Case Loads; Industrial Relations; Labor Unions.

Purpose: The purpose is to provide an accounting of all cases processed in the Agency. Various statistical reports are obtained including median elapsed days and volume of cases at different stages of case handling. ***Input:*** The data are acquired from source documents of case actions. The data are transferred by analysis clerks into machine-readable formats resulting in punchcards. Master file updates are produced by Computer Science Corporation using batch processing. ***Content:*** The case data tracking system captures pertinent case tracking data from source documents onto machine-readable formats which result in punched cards. EAM equipment is utilized to collate, separate, and list various data elements. Various computer reports are generated showing, for example, median elapsed days for various states of casehandling, case volume statistics, and the applicability of case stages to constituent elements of the National Labor Relations Act and its amendments. ***Output:*** Output is median elapsed days, volume of case statistics, and applicability of case stages to elements of the National Labor Relations Act and its amendments. These reports, which are machine printouts, are produced monthly. A report of all case statistics is published annually. ***Availability:*** The reports are available publicly and used internally by Agency officials.

Agency Contact: Data Systems Branch; 1717 Pennsylvania Ave. NW, Washington, DC 20570; (202) 254-9226.

S04400-002

Executive Secretary's Management Information System.

OMB Funding Title/Code: Salaries and Expenses / 63-0100-0-1-505.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Arbitration; Case Loads; Industrial Relations; Labor Unions.

Purpose: The case tracking system was devised to expedite the processing of cases before the Board. Terminals in the Executive Secretary's Office provide monthly statistical reports on volume of cases handled by each Board Member's legal staff. ***Input:*** The primary source of data is case processing. The information derived from this system is input to the time-sharing computer. ***Content:*** Periodic reports show which cases are overdue according to established time standards and the responsible individuals. Statistics on the number of cases handled by each Board Member's legal assistant are printed out periodically. This system is operated on commercial time-sharing facilities, with data keyed in and reports generated on remote terminals located in the Executive Secretary's Office. ***Output:*** The system provides reports on stages of case processing, overdue cases, case statistics, and volume of cases. These reports are monthly printouts from the time-sharing computer. ***Availability:*** The monthly reports are used internally. Annual summaries are available publicly.

Agency Contact: Data Systems Branch; 1717 Pennsylvania Ave. NW, Washington, DC 20570; (202) 254-9226.

S04400-003

Legal Research System.

OMB Funding Title/Code: Salaries and Expenses / 63-0100-0-1-505.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Arbitration; Decisions; Industrial Relations; Labor Unions.

Purpose: The purpose is to classify case information for legal research. When subject matter is codified, outlined, indexed, and updated, it is published. ***Input:*** The data are cases processed by the agency. ***Content:*** On-line communications terminals are utilized for copy preparation to process data files for publication and the cumulative updating of classification outlines for subject matter classification and classified indexes on those outlines for publications covering Board decisions and related court decisions. ***Output:*** Output includes classified indexes on related Board and court decisions and the classification of subject matter outlines. These reports are monthly printouts of Board and court decisions. The output is magnetic tape data files. These tapes are input to GPO photocomposition process of Board and related court decisions. ***Availability:*** The output is available publicly.

Agency Contact: Legal and Research and Policy Planning Branch; 1717 Pennsylvania Ave. NW, Washington, DC 20570; (202) 254-9350.

S04400-004

Budget System.

OMB Funding Title/Code: Salaries and Expenses / 63-0100-0-1-505.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Budget Information Systems; Manpower Utilization; Resource Allocation.

Purpose: In order to meet Presidential and congressional requirements, four steps are employed in the Budget System: Budget Formulation, Budget Presentation, Budget Execution, and Budget Review. ***Input:*** Data come from all segments of the Agency. The budget staff manually gathers these data and systematically processes them to fill Agency needs and meet Presidential and congressional reporting requirements. ***Content:*** The budget staff develops and obtains approval of the budget, and implements and monitors agency operating plans. The agency's performance budget shows the relationship between the amount of work expected to be accomplished and the cost of that work. It provides comprehensive information to OMB, Congress, and Agency operating officials about the relative size of the work program and the extent to which economy and efficiency are effected. ***Output:*** Output is Manpower Report, Agency's Budget Report, and Performance Budget Report. The monthly reports are manually produced paper copies, the Agency's Budget Report, however, is produced annually. ***Availability:*** All the reports are available publicly and are used internally by Agency officials.

Agency Contact: Financial Management Branch; 1717 Pennsylvania Ave. NW, Washington, DC 20570; (202) 254-9040.

NATIONAL MEDIATION BOARD

S04500-001

NMB Case Processing Information.

OMB Funding Title/Code: Salaries and Expenses / 22-0160-0-1-505.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Airline Employees; Arbitration; Collective Bargaining Agreements; Industrial Arbitration; Labor Disputes; Mediation; Railroad Employees; Transportation Workers.

Purpose: The National Mediation Board, which was created in 1934, administers mechanisms provided by the Railway Labor Act for the adjustment of employee and labor-management disputes within the railroad and airline industries. Such responsibilities principally include the facilitation of collective bargaining through mediation, the investigation of questions of employee representation, and activities relating to emergency disputes procedures and arbitration. The National Railroad Adjustment Board and other boards of adjustment adjudicate individual and group grievances arising under collective bargaining agreements. The information deals with this caseload on an annual basis. ***Input:*** The data contained in this source are derived from the filing applications and closeouts received by the parties requesting the services of the National Mediation Board as well as from agreements reached through mediation or the parties' efforts. ***Content:*** The caseload record consists of the annual number of cases closed by this Agency in performing its responsibilities. These data reveal the number of mediation disputes, representation disputes, and arbitration and emergency boards resolved in the year as well as data on wage and rule agreements, interpretations, and applications of agreements. A report of the National Railroad Adjustment Board on a fiscal year basis is also included. ***Output:*** The frequency of output is on an annual basis (fiscal) and includes caseload data for mediation, representation, interpretations, and grievances. The source is printed as a soft back pamphlet. ***Availability:*** The output is publicly available primarily through GPO.

Agency Contact: National Mediation Board; 1425 K St. NW, Washington, DC 20572; (202) 523-5995.

S04500-002

Budget/Fiscal System.

OMB Funding Title/Code: Salaries and Expenses / 22-0100-0-1-505.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Budgets; Contracts; Financial Management; Management Information Systems; Personnel Management; Procurement.

Purpose: The administrative system includes the following functions: budget and financial management, personnel management, procurement, contract administration, and property and space management. ***Input:*** Data in this system are in accordance with requirements of the Office of Management and Budget, Department of the Treasury, Civil Service Commission, General Services Administration, and the General Accounting Office. ***Content:*** The administrative system consists of the budget and financial management of the National Mediation Board (budget estimates, justification, and execution); quarterly apportionments and reports on budget status. The function of personnel management includes recruitment of personnel and salary and wage administration. The procurement function involves the administration of contracts for furnishing supplies, equipment, and other materials. Property and space management functions are carried out in accordance with GSA regulations. ***Output:*** The frequency of system output is monthly, quarterly, and annually, as required by the Office of Management and Budget, Department of the Treasury, Civil Service Commission, and the General Services Administration. ***Availability:*** System output is publicly available, except for Civil Service Commission requirements on personnel management.

Agency Contact: National Mediation Board; 1425 K St. NW, Washington, DC 20572; (202) 523-5950.

NATIONAL SCIENCE FOUNDATION

S04600-001

Management Information System (MIS).

OMB Funding Title/Code: Salaries and Expenses / 49-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Environment and Public Works.

Subject Terms: Contract Administration; Grants; Management Information Systems; Project Proposals.

Purpose: The system exists mainly to support NSF's principal functions and includes the receipt, evaluation, approval, or declination of proposals and applications for grants and contracts and the administration of awards, contracts, and grants related to the proposals received and the maintenance of history data regarding prior year proposals and awards. ***Input:*** The data used for this system are derived from applications filed by individuals and institutions and may be found on various forms used for administrative processing. They are also recorded on an on-line data base. ***Content:*** The information contained in proposal master records includes items such as proposal title, fields of science, fields of application, requested amounts, effective dates, and status information. Award master records contain similar information: awarded amounts, dates of awards, split funding, status, and checkpoint data. Proposal processing and award processing are separate subsystems of the MIS, but they are closely related in supporting the NSF mission. Proposals and awards are national in scope and coverage. Administrative processing is accomplished on a fiscal year basis, but updating is done continuously on a daily basis. ***Output:*** Several monthly, quarterly, and annual hardcopy reports dealing with statistical analysis of proposed receipts, awards, and declinations are produced from the system. ***Availability:*** The output is publicly available.

Agency Contact: Division of Information Systems; 1800 G St. NW, Washington, DC 20550; (202) 632-7371.

S04600-002

Financial Accounting System (FAS).

OMB Funding Title/Code: Salaries and Expenses / 49-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Environment and Public Works.

Subject Terms: Accounting Systems; Financial Management.

Purpose: The system provides the operating officials of the NSF with the financial data needed to assist in the planning, programming, control, and evaluation required for the effective accomplishment of the NSF's goals. The system controls funds and other assets to insure that the budget execution is accomplished in accordance with the provisions of the law, administrative procedures, and policies. ***Input:*** Applications filed by institutions and individuals, training requests, travel authorizations, purchase orders, and other financial documents are the sources of system input. ***Content:*** The information contained in the financial files includes such items as financial coding structure (appropriation, organization, program, object class, operating plan, allotment, etc.), institution, transaction amount, transaction identification (letter of credit number, registry number, voucher etc.), posting date, and general ledger accounts updated. Master records summarize the amounts by such cuts as general ledger account, operating plan and allotment available balances, year-to-date obligations, and outstanding commitments (by operating plan, budget activity, allotment, and object class). ***Output:*** The principal reports include: 1) General Ledger Trial Balance, hardcopy, daily; 2) Budget Execution Reports, hardcopy, daily; 3) Obligation Status Reports, hardcopy, weekly; 4) Allotment Reports, hardcopy, weekly; 5) Cash Subledger Reports, hardcopy, weekly; 6) Operating Plan Summaries, terminal display, on request; and 7) Quarterly Expenditure Report, hardcopy, quarterly. ***Availability:*** All reports must be cleared through the Director of the Division of Financial and Administrative Management of the National Science Foundation.

Agency Contact: Division of Information Systems; 1800 G St. NW, Washington, DC 20550; (202) 632-7371.

S04600-003

Dahlgren Data System.

OMB Funding Title/Code: Salaries and Expenses / 49-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Environment and Public Works.

Subject Terms: Budget Information Systems; Grants.

Purpose: The principal functions of NSF are to support and fund basic and applied research, science and technology, policy research, science education improvement activities, and related scientific programs. The Dahlgren system exists to mainly support those functions. ***Input:*** The data used for this system are derived from award budgets filed by the Grants Office of the National Science Foundation. ***Content:*** The information contained in the budget file includes items such as salaries, equipment costs, travel costs, computer costs, number of man-months. Administrative processing is accomplished on a fiscal year basis, but updating is done continuously. ***Output:*** The principal reports are: 1) Budget Summaries by Program, hardcopy, annually and on request; 2) Budget Summaries by Institution, hardcopy, annually and on request; 3) Academic Year Salaries Report, hardcopy, on request; 4) Summer Salaries Report, hardcopy, on

request; and 5) File Listings, hardcopy, annually and on request. *Availability:* These reports are for internal use only.

Agency Contact: Division of Information Systems; 1800 G St. NW, Washington, DC 20550; (202) 632-7371.

S04600-004

RANN Documentation Center.

OMB Funding Title/Code: Salaries and Expenses / 49-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Environment and Public Works.

Subject Terms: Bibliographies; Energy Research; Environmental Research; Information Centers; Natural Resources; Productivity; Research, Selective Dissemination of Information; Technology Assessment.

Purpose: The RANN Documentation Center provides for the continuous and orderly collection, organization, preservation, and dissemination of the reports and other substantive documentation resulting from research projects supported by the RANN (Research Applied to National Needs) Program. The Documentation Center is primarily intended to serve those who can apply the reported research results to the solution or amelioration of national problems. *Input:* Documentation is provided by the grantees and contractors funded by the RANN Program. Most of the information is in the form of technical reports, but published books, journal articles, proceedings, and research papers are also included. *Content:* The documented research results submitted to the program cover all of the applied research areas currently or previously included within the scope of the RANN Program. To date, over 5,000 documents have been submitted to the Documentation Center on research projects concerned with the environment, resources, productivity, technological assessment and utilization, and energy. *Output:* Copies of individual RANN Research Reports prepared by grantees and contractors are available in hardcopy and microfiche. Quarterly announcements of new accessions, entitled Recent RANN Reports, are available in hardcopy. Special subject and program-oriented bibliographies are prepared periodically and are available in hardcopy and microfiche. *Availability:* All documentation acquired or produced by the RANN Documentation Center is publicly available.

Agency Contact: Division of Information System; 1800 G St. NW, Washington, DC 20550; (202) 632-7371.

S04600-005

Survey of Federal Support to Universities, Colleges, and Selected Nonprofit Institutions.

OMB Funding Title/Code: Salaries and Expenses / 49-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Environment and Public Works.

Subject Terms: Colleges; Education; Federal Aid to Higher Education; Higher Education; Nonprofit Institutions; Research Centers; Scientific Education; Scientific Research; Universities.

Purpose: Section 3(a)(7) of the NSF Act, as amended, requires the Foundation "... to initiate and maintain a program for the determination of the total amount of money for scientific research, including money allocated for the construction of the facilities wherein such research is conducted, received by each educational institution and appropriate nonprofit organization in the United States, by grant, contract, or other arrangement from agencies of the Federal Government, and to report annually thereon to the President and the Congress." The 14 Federal agencies with the largest academic support programs are requested to provide information to all universities and colleges in the United States, all independent nonprofit research institutes receiving more than $100,000, and all federally funded research and development centers (FFRDC's) managed by universities or nonprofit institutions. *Input:* Data are submitted by 14 Federal agencies with sizable programs in support of academic science: HEW, NSF, USDA, DOC, DOD, ERDA, EPA, DOI, NASA, DOT, HUD, AID, DOL, and NRC. *Content:* Data reflect actual obligations made during the fiscal year ending the previous June 30, regardless of when funds were authorized for or received by a department or agency and regardless of when such funds are to be spent by a recipient. All universities and colleges in the United States and its territories are included as well as all FFRDC's administered by universities or by nonprofit institutions. Coverage of nonprofit research institutes is limited to those with substantial intramural Research and Development programs ($300,000 or more total or $100,000 or more from any single agency). *Output:* A Report to the President and Congress: Federal Support to Universities, Colleges, and Selected Nonprofit Institutions is produced annually. More detailed data for individual institutions are also available on microfiche; and special reports may be requested covering data beginning with FY 1971, for which basic information is stored on tapes. *Availability:* Annual Final reports are available from GPO; the supplementary volume, presenting detailed statistical tables, is available from UNISG.

Agency Contact: Division of Information Systems; 1800 G St. NW, Washington, DC 20550; (202) 632-7371.

OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

S04700-001

Budget System.

OMB Funding Title/Code: Salaries and Expenses / 95-7100-0-1-553.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Accounting; Management Information Systems; Resource Allocation.

Purpose: The system is to provide management an up-to-date status of funding and spending in every object class. This system also provides information by vendor. *Input:* The primary source of input is internal. The Administrative Division of this Agency provides purchase order information to the Budget Division for entering into the system. *Content:* This system provides the following information: Allotments, obligations, and unobligated balances. Accrued expenditures and disbursements are accumulated by cost Center, major object class, and subobject class under the major budget activities of the Agency. *Output:* Output is schedules of payments and transactions by region. These reports are in hardcopy. There is query capability. *Availability:* Output is for internal use only. It is generated and distributed by this Agency.

Agency Contact: Office of the Executive Director; 1825 K St. NW, Washington, DC 20006; (202) 634-7958.

S04700-002

Case Tracking System.

OMB Funding Title/Code: Salaries and Expenses / 95-7100-0-1-553.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Case Loads; Decisions; Government Litigation; Litigation; Occupational Health and Safety.

Purpose: The system is to track the flow of cases from assignment to this Agency, through review, decision, and to the Court of Appeals. ***Input:*** Data are provided from interoffice divisions and regional field offices. ***Content:*** This system provides lists of fields, operations, options, motion request codes, action and disposition codes, party codes, commissioner codes, and judges codes. It is updated daily. ***Output:*** Output is judges reports of Court of Appeals cases. These reports are generated in hardcopy and are distributed weekly. ***Availability:*** Output is publicly available and is printed and distributed by this Agency.

Agency Contact: Office of the Executive Director; 1825 K St. NW, Washington, DC 20006; (202) 634-7568.

OVERSEAS PRIVATE INVESTMENT CORPORATION

S04800-001

OPIC Insurance System.

OMB Funding Title/Code: Overseas Private Investment Corporation / 71-4030-0-3-151.

Congressional Relevance: *House* Committee on Appropriations: Foreign Operations Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: Foreign Operations Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Contracts, Corporations, Foreign Investments, Insurance, Investments, Management Information Systems.

Purpose: The system was established to provide both manual and electronic data processing facilities to maintain records and create a data base for management information. The major functions of the system are to validate all input data; create new records on the master data bases; apply changes to previously established master records; and produce fiscal accounting, control, and statistical reports. ***Input:*** The data are derived from applications for insurance, insurance contracts, election of coverage requests, and insurance premiums. ***Content:*** The system consists of a contract subsystem, a cash subsystem, and an application subsystem. Each subsystem is run monthly. The application subsystem contains all information necessary for the processing of an application to obtain an insurance contract. The contract subsystem contains all information necessary to administer the contract subsystem, and the cash subsystem contains records of the premium payments for each contract. An automated data base dates from about 1971 and contains such information as country, name and address of company, amount of coverage, premium rate, and payment history. ***Output:*** Reports are generated monthly and include contract master record computer file, cash and master record computer file, applications master record computer file, contract bills, payment listing, new contract listing, active contracts with country listing, and pending application status listing. ***Availability:*** Output is not available publicly as it is company confidential.

Agency Contact: Office of the Treasurer; 1129 20th St. NW, Washington, DC 20527; (202) 632-3396.

S04800-002

OPIC Accounting and Budget System.

OMB Funding Title/Code: Overseas Private Investment Corporation 71-4030-0-3-151.

Congressional Relevance: *House* Committee on Appropriations: Foreign Operations Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: Foreign Operations Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Accounting, Budget Information Systems, Business Insurance, Contracts, Foreign Investments, Insurance, Investments, Loans, Surety and Fidelity.

Purpose: The accounting and budget system reports to management, other Federal agencies, Congress, and the public on the results of operation. The insurance program provides insurance coverage to U.S. businesses against political risks likely to be encountered in less developed countries. This includes coverage against inconvertibility of local currency, expropriation, nationalization or confiscation of property by a foreign government, and war risks damage to tangible property as a result of war, revolution, or insurrection. Finance programs assist U.S. lenders and business enterprises in locating and financing worthwhile projects in the developing world. Included are: 1) investment guaranty programs which protect U.S. lenders against debt or equity loss from commercial and political risks; 2) direct investment fund programs under which direct dollar loans are made to eligible borrowers; 3) preinvestment survey programs which are designed to encourage investors on a risk sharing basis to search out favorable projects in the developing nations; 4) an investment program under which net proceeds of insurance and finance programs are invested in U.S. Government securities; and 5) internal management costs incurred in connection with the administration of the Insurance and Finance programs. ***Input:*** The information is derived from contractual agreements with investors and vendors. Major sources of data are: vendor invoices, insurance contracts, loan agreements, insurance election of coverage forms, certificate of deposits, schedule of disbursements, contracts for services, and purchase orders for supplies and services. ***Content:*** The accounting and budgetary system is an administrative and management control system reflecting obligations and expenditures incurred for each department, object class, and general ledger account classification. The system reflects actual cost data by major expense categories such as salaries, contracted services, and other administrative costs, revenues such as premiums from insurance programs, interest and fees related to the finance program, interest realized from investment in U.S. Government securities, and recoveries related to prior claim payments. The accounting and budget input data is interfaced to provide actual data from the current fiscal year and comparative data to reflect activity for the past year and forecast data showing planned activity for the budget year. These data are incorporated in three distinct general ledger classifications: appropriated funds, operating funds, and deposit funds. Balances for various subclassifications are developed monthly and provide financial information necessary to compile financial reports reflecting obligations, expenditures, revenues, assets, liabilities, capital, and reserves that are forwarded to the Treasury Department, Office of Management and Budget, Congress, and the public on a monthly, quarterly, semiannual, or annual basis. Required financial reports are developed from the accounts which reflect a complete and factual record of operations. The reports include all pertinent financial data for the period covered and are prepared on a consistent basis from one period to another. ***Output:*** Monthly reports are the departmental allotment and obligation record and a statement of transaction. Quarterly reports are: 1) Statement of income, 2) balance sheet, 3) statement of changes in capital and reserves, 4) statement of changes in financial position, 5) statement of financial condition, 6) report of direct and guaranteed loan, and 7) loans receivable by function. Annual reports are: 1) analysis of changes in Government equity, 2) commitments and contingencies, 3) analysis of changes in statement of financial condition, and 4) input to the President's budget. ***Availability:*** Output is not publicly available. It is used to meet internal management needs and external reporting requirements.

Agency Contact: Office of the Treasurer; 1129 20th St. NW, Washington, DC 20527; (202) 632-8962.

S04800-003

OPIC Library.

OMB Funding Title/Code: Overseas Private Investment Corporation 71-4030-0-3-151.

Congressional Relevance: *House* Committee on Appropriations: Foreign Operations Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: Foreign Operations Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Banking, Foreign Investments; International Finance; Investments; Libraries.

Purpose: The chief purpose of the OPIC Library is to support the work of OPIC by providing library services to the staff. ***Input:*** The library acquires, organizes, and maintains printed materials and microforms in the subject areas of interest to OPIC. It provides information and reference services and circulates current issues of periodicals to the staff. It handles all interlibrary loan requests from the staff and prepares and circulates a newsletter and subject bibliographies. The library acts as the centralized order section to handle book purchases and periodical subscriptions. ***Content:*** The library collection consists of books, pamphlets, Government and World Bank documents and reports, annual reports of corporations, newspapers, and legislative histories of public laws pertaining to OPIC. Some of the subjects covered are banks and banking, international finance, international law, foreign investment, statistics, commerce, trade, and economics, with particular emphasis on the developing countries of the world. ***Output:*** The library takes part in interlibrary loan. ***Availability:*** The library's services are available to the public.

Agency Contact: Office of the Treasurer; 1129 20th St. NW, Washington, DC 20527; (202) 632-8962.

PANAMA CANAL COMPANY

S04900-001

Ship Data Bank System.

OMB Funding Title/Code: Panama Canal Company / 38-4060-0-3-406.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Merchant Marine and Fisheries; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Canal Capacity; Canal Tolls; Cargo; Interoceanic Canals; Marine Transportation; Ships.

Purpose: This system maintains a library of statistical data on ships that have transited the Canal or called at Canal ports. Daily reports are provided pilots and other operating personnel for use in transit and port operations, and summary reports are made to management on tolls revenue, time in Canal Zone waters, and other measures of Canal operating performance. In addition, data on types and quantity of cargo transited, trade routes, ship types, etc., are accumulated and reported for statistical analysis. ***Input:*** The primary sources of system input are internal and consist of documents prepared for each ship's arrival at the Panama Canal. The input consists of ship attributes and transit data and is prepared by the following operating units: Admeasurer's Office, Port Captains' Offices, Transit Operations Division, Customer Deposit Section, and Tolls Billing Section. The ship attributes consist of identification and general information, size, dimensions, tonnage capacities, operating characteristics, transit requirements, Port Captains, and Marine Traffic Control remarks. The transit data includes Boarding Officers, Customs and Quarantine information, actual transit information, Pilot's Ship Condition report, tolls, and supplementary charges and cargo declaration. ***Content:*** This system contains information on approximately 13,500 ships involving 30,000 transits. This library includes 145 items of data on each ship's attributes and 95 items on each transit, including type and amount of cargo carried. This information is utilized to prepare reports based on ships attributes, transit data, and cargo carried for operational, financial review, economic analysis, financial forecasting, and long-range planning. The data are also available for use in preparing reports to do research for Canal capacity, tolls, and other special studies. This system also provides the ship master file for input to the real time on-line Marine Traffic Control Ship Monitoring System. This system is processed daily to provide updated information on all ships that transit the Panama Canal or call at Canal ports. ***Output:*** The principal reports are: 1) Information Reports for Daily Operations (daily, reports); 2) Tolls Revenue Reports (daily, reports and chart); 3) Information Reports for Current and Future Planning (daily/monthly, reports); 4) Performance Reports (daily/monthly, reports); 5) Analysis Reports (daily/monthly, reports). These are hardcopy and CRT. ***Availability:*** Output is primarily for internal use.

Agency Contact: Panama Canal Company; Balboa Heights, CZ; 382-6453.

S04900-002

General Accounting System.

OMB Funding Title/Code: Panama Canal Company / 38-4060-0-3-406.

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Merchant Marine and Fisheries; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Accounting Systems, Financial Management.

Purpose: This is an integrated system which includes general ledger accounting, accounting for plant items, job order cost accounting, control of budget data, and reports comparing budget with current financial operations. The system produces financial information for use by management and operating personnel throughout the Company and the Government. For example, the Job Order Cost Accounting System provides a means whereby costs can be controlled on an individual job order basis in any bureau needing to control its workload in this manner. ***Input:*** The primary sources of system input are internal and consist of: 1) Journal Vouchers; 2) Vouchers Payable; and 3) Interface data from the following systems or subsystems: Storehouse System, Merchandise, Payroll, Plant Accounting, Job Order Cost Accounting, and Accounts Receivable. ***Content:*** This system pulls together all the financial transactions for the Panama Canal Company and Canal Zone Government. The General Accounting System accumulates and maintains financial and budget information for approximately 17,000 Operating Accounts and 550 Balance Sheet Accounts. This information is used to provide financial reporting based on operations for every level of management showing monthly and year-to-date information. This information is used to prepare required financial reports for the United States Government, including the U.S. Treasury and OMB. The input data is processed into the system approximately weekly, and financial reports are prepared monthly. ***Output:*** The principal hardcopy reports are: 1) Source Journals and Controls each processing cycle; 2) Job Order Reports, weekly and monthly; 3) Plant Accounting Reports, quarterly; 4) Financial Operating Reports, monthly; and 5) Financial Balance Sheet, monthly; Top Statements are prepared manually utilizing computer reports on a monthly basis. ***Availability:*** All output is for internal use only.

Agency Contact: Panama Canal Company; Balboa Heights, CZ; 382-6453.

S04900-003

Storehouse Inventory System.

OMB Funding Title/Code: Panama Canal Company - 38-4060-0-3-406; Operating Expenses - 38-0116-0-1-806

Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Merchant Marine and Fisheries; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Government Procurement, Inventories, Procurement.

Purpose: This system assists in controlling the materials and supplies required in the operations of the Panama Canal Company and Government. This system includes the computation of the desired level of stock, establishing reorder points for replenishing the stock level of such items, preparation of purchase orders to procure items,

and provision of numerous other elements of information used by personnel within the Supply and Community Service Bureau in managing this inventory. *Input:* User organizations create the material issues, returns to stock, reservation requests, and reservation orders. Inventory management personnel generate the purchase orders, material transfers, payments, and adjustments. Warehouse personnel input the stock receipts and inventory counts. *Content:* The Storehouse Inventory System maintains detailed information on each of 37,000 stock items. The information includes a detailed description of the item, the unit price, quantity on hand at various warehouse locations, total inventory value, usage data by organization, usage data by time period, and quantity on order. Twice per month the system produces a listing of items which have reached their reorder points, along with recommended order quantities. Management reviews the list and initiates the printing of purchase orders. An intransit file keeps records of outstanding orders and payments. The system interfaces with a General Accounting System to automatically update the inventory account, freight account, intransit account, and user end accounts. *Output:* The principal hardcopy reports are: 1) Stock Catalog, annual; 2) Order Guide, biweekly; 3) Purchase Orders, biweekly; 4) Stock Status, monthly; 5) Stock Activity, monthly; 6) Stock Usage, monthly; and 7) Undelivered Orders, monthly. The system provides no on-line query capability. *Availability:* All output except purchase orders addressed to vendors and catalogs for customers is for internal use only.

Agency Contact: Panama Canal Company; Balboa Heights, CZ; 382-6453.

RAILROAD RETIREMENT BOARD

S05100-001

Railroad Retirement, Disability and Survivor Benefit Payment System (including Medicare).

OMB Funding Title/Code: Railroad Retirement Account / 60-8011-0-7-601.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Disability Benefits; Medicare; Railroad Employees; Railroad Retirement Plans; Survivors Benefits.

Purpose: The system adjudicates claims, both automatically and manually, for retirement, disability and survivor benefits payable under the provisions of the Railroad Retirement Act of 1974 (45 U.S.C. 231 et seq.). The system pays regular retirement, supplemental, spouse, widow(er), children, student, and parent monthly benefits; it also pays one-time lump sum death benefits usually used for burial expenses and residual payments to qualified railroad retirement beneficiaries and lump sum applicants. The system enrolls and collects premiums from qualified railroad retirement beneficiaries for Medicare (Title XVI of the Social Security Act). The system also pays benefits under the provisions of Title II of the Social Security Act, as the result of the 1974 Railroad Retirement Act. *Input:* The system utilizes input from the individual applicant in the form of specific applications and supporting evidence (proof of birth, marriage, last person service, medical evidence). Wage and service month certification is received from other intra-agency files. The Social Security Administration supplies wage and possible benefit information through telecommunication transfer, and proofs and medical evidence documentation through manual paper exchange. Medicare beneficiary enrollment and entitlement data are shared with the Social Security Administration. *Content:* The benefit payment operation is comprised of four main subsystems that operate on a daily, semiweekly, monthly, and annual basis. The system provides for the accumulation and maintenance of records necessary for the issuance of payments under the Railroad Retirement Act and the Social Security Act, the control of data to report to the Internal Revenue Service on the amounts of supplemental annuity payments made during the year and the monetary amount controls to provide for the transfer of moneys between the various accounts under the Railroad Retirement Act and the various accounts under the Social Security Act. *Output:* The principal output includes: Check Issue File (tape, produced daily); Tax Credit File (tape, produced monthly); Supplemental Annuity File (tape, produced monthly); Various Microfilm Reference Files (tape, produced monthly); and Various Referral Files (hardcopy, produced daily). *Availability:* Output is not publicly available; it is primarily utilized to meet the internal information requirements of the Railroad Retirement Board and the information requirements of external agencies such as the Treasury Department and the Internal Revenue Service.

Agency Contact: Bureau of Retirement Claims; 844 Rush St., Chicago, IL 60611; (312) 751-4600.

S05100-002

Railroad Unemployment and Sickness Insurance Benefit Payment System.

OMB Funding Title/Code: Railroad Unemployment Insurance Fund / 20-8042-0-7-999.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Claims; Disability Benefits; Employee Benefits; Railroad Employees; Unemployment Insurance.

Purpose: The Railroad Unemployment Insurance Act (45 U.S.C. 351 et seq.) established a national railroad unemployment and sickness benefit system. The system receives, adjudicates, and pays claims for daily benefits from unemployed, sick, and injured railroad employees. *Input:* Sickness benefit claimants furnish information on an application, a statement of sickness completed by an attending physician, and claim forms for 14-day periods. Unemployment benefit claimants furnish information on an application, on claim forms for 14-day periods, and in some cases in a personal interview. Qualifying wage and service information for both unemployment and sickness benefit claimants is received from files maintained within the agency. *Content:* Unemployment and sickness benefit applications and claims for employees of the nation's railroad industry are processed on a master computer record which is updated daily producing a payment tape for release to the Treasury Department for the issuance of benefit checks. Records are maintained for individual claimants and contain information about reasons for unemployment and descriptions of illness and injury and are geocoded by city, State, and ZIP code. A record for each claimant contains identification of the claimant, information establishing qualifications for benefits, identification of railroad employer, reason not working, description of illness or injury, claim record, adjudication record, benefit payment or denial record, and record of recoverable and recovered amounts. *Output:* The system produces a daily unemployment and sickness benefit payment list from which the Treasury Department issues checks to individuals. The system can be queried by punchcard for a hardcopy printout of individual records. Daily and monthly hardcopy financial reports are produced. *Availability:* Information about individual claimants is restricted to internal use while statistical information is available to the public, in some cases, subject to a charge for compiling.

Agency Contact: Bureau of Unemployment and Sickness Insurance; 844 Rush St., Chicago, IL 60611; (312) 751-4800.

S05100-003

Railroad Employees' Creditable Compensation Recording System.

OMB Funding Title/Code: Railroad Retirement Account / 60-8011-0-7-601; Railroad Unemployment Insurance Fund / 20-8042-0-7-999.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Claims, Railroad Employees; Retirement; Work History, Workmens Compensation

Purpose: The system maintains for each covered employee a record of creditable compensation and service months from January 1, 1937 to date, and adjusts such record, as necessary. It is used to prepare each year, on an individual employee basis, certificates of reported creditable service and compensation showing the amounts reported for the previous year and a total of such service and compensation from 1937 to date and to send such certificates to employees. The system certifies an employee's service and compensation credits to the Bureau of Retirement Claims, the Bureau of Unemployment and Sickness Insurance, and the Social Security Administration as needed for adjudication of claims for benefits. Jurisdiction is determined for payment of claims where employees have credits under the Social Security and Railroad Retirement Acts, such jurisdiction to be determined on the basis of creditable service. Retirement cases are reviewed where annual compensation reports indicate possible return to railroad service, or adjustments in annuity rate. Such cases are referred to the Bureau of Retirement Claims to adjudicate the increases or decreases in annuity rate or effect suspension. ***Input:*** The system utilizes input from employers' reports of individual employee service and compensation and establishes new accounts from employee prepared forms, filed with the employer and the Railroad Retirement Board. This establishes the personal identification. The Social Security Administration supplies wage and possible benefit information through telecommunication transfer and proofs of identification when required. ***Content:*** The system provides for the accumulation and maintenance of individual employee's service and compensation records since January 1, 1937 to the current year, with an annual update. It also provides the daily certifications required to pay benefits and the annual issuance of the certificates of service months and compensation. Contents include employee name, employee service and compensation credits, basic amount of claims, average monthly compensation, primary insurance amount, and gross potential residual payments. ***Output:*** The principal reports are: 1) Daily report Certification of Service and Compensation basic amount, average monthly compensation, and primary insurance amount determinations, hardcopy; 2) Daily report Certification of Compensation hardcopy; 3) Daily report through telecommunication transfer to the Social Security Administration, certified service months and compensation, jurisdictional determinations, and gross residual amount, magnetic tape; 4) Annual Certificate of Service Months and Compensation hardcopy. ***Availability:*** The output is restricted to internal use only. It is available through agency distribution, to the Social Security Administration, and to individual railroad employees.

Agency Contact: Bureau of Data Processing and Accounts; 844 Rush St., Chicago, IL 60611, (312) 751-4850.

S05100-004

Regional Rail Reorganization Act Reimbursement System.

OMB Funding Title/Code: Regional Rail Transportation Protective Account - 60-0110-0-1-604

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Fringe Benefits, Protected Employees, Railroad Employees, Unemployment Insurance

Purpose: The Regional Rail Reorganization Act of 1973 (45 U.S.C. 701-794) authorizes the Railroad Retirement Board (45 U.S.C. 779) to reimburse the Consolidated Rail Corporation, the United States Railway Association (where applicable), and acquiring railroads (all employers under the Railroad Unemployment Insurance Act) for protective payments made to protected employees. Protective payments are monthly displacement allowances, separation allowances, termination of allowances, and moving expense benefits. Upon certification to the Board of the kind and amounts of protective payments made to individual employees, these employers are reimbursed for the amounts of such payments. ***Input:*** Railroad employers who claim reimbursements for protective payments submit an inventory identifying each protected employee and for each the level of protection and showing the changes in the level of protection. Input to this system is from master records for individuals maintained under the railroad unemployment and sickness benefit insurance system permits recoveries from protective payments required under the Railroad Unemployment Insurance Act. ***Content:*** Protected employees under this system are employees of the railroads of the Northeast who are adversely affected by the reorganization of those railroads effective April 1, 1976 and later. The inventory record of affected employees is updated as necessary to provide prompt reimbursements of payments made. Records for individuals are geocoded by city, State, and zip code. "Inventory of protected employees" is the basis for a master record for each employee who may receive a protective payment for which reimbursement must be made and which contains a record of amounts of protective payments and a record of reimbursements for the purpose of estimating and requesting appropriations for reimbursements and making required recoveries of benefits paid under the Railroad Unemployed Insurance Act. ***Output:*** Principal reports are monthly, hardcopy reports of a statistical nature, in addition to, when required, machine-readable tape of amounts of benefits to be recovered under provisions of the Railroad Unemployment Insurance Act. Punch card inquiry will produce hardcopy printouts of individual records. ***Availability:*** Information pertaining to individuals is available for internal use only except as necessary to make recoveries, while statistical information is available to the public, in some cases upon payment of appropriate charges.

Agency Contact: Bureau of Unemployment and Sickness Insurance, 844 Rush St., Chicago, IL 60611; (312) 751-4800.

S05100-005

Financial Interchange/Gross Earnings System.

OMB Funding Title/Code: Railroad Retirement Account / 60-8011-0-7-601.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Disability Benefits, Fringe Benefits, Health Insurance, Pensions, Railroad Employees; Social Security, Survivors Benefits.

Purpose: The financial interchange/gross earnings system provides data for estimating the additional social security taxes, benefits, and administrative expenses there would have been if railroad employment after 1936 had been covered by the Social Security system. Transfers of funds between the Railroad Retirement Account and the Old Age and Survivors, Disability, and Health Insurance (OASDHI) Trust Funds under section 7(c)(1) of the Railroad Retirement Act of 1974 are based on these estimates. System data are also used for legislative and budgetary analysis and other statistical and actuarial studies. ***Input:*** One-percent sample data are obtained from intra-agency and Social Security Administration files. SSA concurrence is obtained for disability determinations in sample cases and, where needed, family composition data are obtained by including cases in the Board's policing operations. For active employees record of gross compensation is obtained from railroad employers (the larger employers reporting by calendar month or quarter and the smaller only for the year.). ***Content:*** Tape file data include annual financial inter-

change benefits (amounts payable based on combined railroad and social security covered earnings) with associated pension, annuities and insurance claims, monthly rates, similar information with respect to actual social security benefits, related beneficiary data, and codes and factors used in the estimating process. Folder records are also maintained for sample beneficiaries. For sampled active employers, the system contains gross and creditable railroad compensation and service months figures for the year, and in the majority of cases gross compensation distributed by calendar quarter. *Output:* Annual tabulations used to develop figures needed for the determination and certification of transfers between the Railroad Retirement Account and the OASDHI Trust Funds, and for the annual soft cover volume "RRB-SSA Financial Interchange Calculations for Fiscal Year XX with respect to OASI, DI and HI Trust Funds, Summary and Documentations." Data are also developed for use in the triennial valuation of the railroad retirement system and for irregularly issued research and actuarial notes and reports. *Availability:* The output is publicly available through agency distribution. Access to individual records is restricted by the Privacy Act

Agency Contact: Bureau of Research; 844 Rush St., Chicago, IL 60611; (312) 751-4770.

RENEGOTIATION BOARD

S05200-001

Contractor Data Banks.

OMB Funding Title/Code: Salaries and Expenses / 66-0100-0-1-054.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Ways and Means; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Finance.

Subject Terms: Contractors; Contracts; Corporations; Defense Contracts; Excess Profits; Profits; Renegotiation; Space Contracts; Subsidiary Corporations.

Purpose: Renegotiation is the process of determining what part, if any, of the profits realized from defense and space contracts and subcontracts is excessive. Excessive profits are determined by the application of certain statutory factors. Contracts are not renegotiated individually. Rather, renegotiation is conducted with respect to the receipts or accruals of the contractor under all renegotiable contracts and subcontracts in the entire fiscal year. Contractors whose renegotiable receipts or accruals in a fiscal year exceed the statutory minimum ('floor') are required to file a Standard Form of Contractor's Report. *Input:* Data are derived from the: Standard Industrial Classification Code Data Bank, Common Control Data Bank, Historical Master File Data Bank, and Statutory 'Hot Date' File Data Bank. *Content:* For those companies subject to the Renegotiation Act of 1951, as amended, the following data banks are maintained by the Board: 1) Standard Industrial Classification Code Data Bank. This provides information on a company in relation to other similar companies in the same industrial field; 2) Common Control Data Bank. This ascertains which companies are related to others in parent subsidiary arrangements. The purpose is to determine whether companies under common control of other companies are properly complying with filing requirements; 3) Historical Master File Data Bank. This provides a historical record of a company's filings over a 10-year period; and 4) Statutory 'Hot Date' File Data Bank. The 'Hot Date' is either the 1-year deadline by which time the Board must commence renegotiation action after receiving an RB-1, contractor filing, or the 2-year deadline by which time renegotiation must be completed. *Output:* Contractor Data (machine-readable) is the principal output. *Availability:* The output is for internal use only.

Agency Contact: Renegotiation Board; 2000 M St. NW, Washington, DC 20446; (202) 254-8266.

S05200-002

Renegotiation Reporting System.

OMB Funding Title/Code: Salaries and Expenses / 66-0100-0-1-054

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Ways and Means; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Finance.

Subject Terms: Contracts; Defense Contracts; Excess Profits; Profits; Renegotiation; Space Contracts.

Purpose: The Renegotiation Reporting System assists the Board in its renegotiation process and the determination of what part, if any, of the profits realized from defense and space contracts and subcontracts is excessive. *Input:* System data collection are from two principal source documents: the Standard Form of Contractor's Report for Renegotiation and the Statement of Non-Applicability of the Renegotiation Act of 1951. *Content:* The major categories of data are income statement for renegotiation, segregation of sales, allocation of costs and expenses, financial statement data, method of accounting, and small business status. The data bank of the system includes such information as renegotiable sales and profits; return on capital; return on net worth; the primary SIC code for each contractor; common control information which indicates the corporate group to which the contractor belongs, if any; coded 10-year renegotiation history; and other miscellaneous data related to a contractor's renegotiable and non-renegotiable business. The Board uses output data from the system to provide a variety of information to the staff; to Department of Justice attorneys for use in renegotiation cases that have been appealed to the Court of Claims; to the public in filling requests under the Freedom of Information Act; and to the Congress. *Output:* The principal reports include: Income Statement for Renegotiation, Segregation of Sales, Allocation of Costs and Expenses, Financial Statement, Method of Accounting, and Small Businesses Status. These are machine-readable. *Availability:* Reports are for internal use only.

Agency Contact: Renegotiation Board; 2000 M St. NW, Washington, DC 20446; (202) 254-8256.

SECURITIES AND EXCHANGE COMMISSION

S05300-001

Administrative Proceeding Caseload System (ADM).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Accounting; Administrative Procedures; Caseloads; Management Information Systems; Testimony; Transcripts.

Purpose: The ADM system was designed to process caseload accounting, status, and costs incurred in taking testimony from witnesses. The system maintains information on key dates and events with respect to each case which are needed to satisfy the uniform caseload requirements of the Administrative Conference of the United States. *Input:* Data utilized by this system are derived from Commission orders, transcripts of testimony, and other proceedings documents. *Content:* The data file contains a record for each administrative action. Each record contains data elements pertinent to the progress, status, and testimony costs incurred. The data file is updated weekly. *Output:* The system produces periodic reports in hardcopy format on a monthly basis. Specifically, they include a Case Distribution Report, Monthly Report of Transcripts Taken, and a Closed Case Report. Data are also submitted to the Administrative Conference of the United States in machine-readable format. *Availability:* Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-002

Broker-Dealer, Investment Adviser Directory (BDA).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Broker-Dealers; Investment Advisers; Stock Brokers; Stock Exchanges.

Purpose: The BDA system has been designed to create and maintain a data file of selected profile information with respect to broker-dealer and investment adviser firms registered with the Commission. This system is also used as a source for pertinent data interfaced with the broker-dealer examination (BDX) system. ***Input:*** Basic data are derived from forms submitted by broker-dealers and investment advisers. ***Content:*** The data file consists of a record for each registered broker-dealer and investment adviser. The record contains such profile data as name, address, exchange membership, and other business related data. The data file is updated weekly. ***Output:*** The system produces periodic directories and supplements in hardcopy format. Specifically, they include a Broker-Dealer Directory, Investment Adviser Directory, Broker-Dealer monthly supplement, Investment Adviser monthly supplement, Regional Office Listings, and Statistical Listings. Ad hoc requests for specified data are also obtainable. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-003

Broker-Dealer Financial Reports (BDF).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee, *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Broker-Dealers; Financial Statements; Stock Brokers; Stock Exchanges.

Purpose: The BDF system was designed to process financial data submitted on form X-17A-10 reports. Form X-17A-10 reports are filed directly with the Commission (i.e., SECO firms) or with a self-regulatory agency who has qualified under a plan pursuant to rule 17a-10 of the Securities Exchange Act of 1934. ***Input:*** Data for this system are derived from financial reports filed by broker-dealer and exchange members. Reports filed with the National Association of Securities Dealers or national securities exchange are processed by the respective self-regulatory agency. Data are preprocessed and submitted to the Commission in machine-readable format. ***Content:*** The data file consists of a report for each reporting entity. Each record has the capacity to incorporate a minimum of 90 or a maximum of 400 separate line items. These line items reflect the financial condition of the firm for a given year. In general, the categories of information maintained include revenue sources, assets, liabilities, capital, and income expenses. ***Output:*** The system generates aggregate compilations and statistical tables based on preselected parameters specified by the user. These reports are produced annually utilizing the Report Generator System program applications. All output is hardcopy. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing, 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-004

Broker-Dealer Examinations (BDX).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Broker-Dealers; Examinations; Licenses; Stock Brokers; Stock Exchanges.

Purpose: The BDX system coordinates and compiles data on broker-dealer examinations commenced by the Commission and self-regulatory agencies. ***Input:*** Data for this system are obtained from reports of examinations conducted by the Commission and other regulatory agencies (e.g., securities exchanges and National Association of Securities Dealers). ***Content:*** Data are compiled monthly. A record is maintained to reflect examinations conducted against individual brokerage firms. The file is used to monitor the scheduling of examinations. ***Output:*** Monthly scheduled reports are produced in hardcopy format. Specifically, they are the Cumulative Maintenance Register, Broker-Dealer Examinations, Jurisdictional Report, Exception Report, S.I.P.C. Directory and N.A.S.D. District Listings. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington DC 20549; (202) 755-1152.

S05300-005

Broker-Dealer Location System (BDL).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Brokerage Offices; Broker-Dealers; Directories; Securities; Stock Brokers.

Purpose: The system was designed to process data on the location and movement of brokerage offices, national, regional, and local. The system is used primarily in economic-research studies connected with the monitoring of brokerage offices. ***Input:*** Raw data are obtained from the National Association of Securities Dealers. Data are submitted in machine-readable format. ***Content:*** The data file contains a record for each brokerage firm which reflects its location, main branch offices, and additional statistics. The file is updated quarterly. ***Output:*** The system produces various analytical reports in hardcopy format, on a quarterly schedule. They include: Main office location, Classification of National regions - State and local, Master Location List, and Broker-dealer office Movement List. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-006

Budget Fiscal System.

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce, *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Accounting Systems; Budget Information Systems; Financial Statements.

Purpose: The Budget Fiscal system was designed for the 1) formulation of budget estimates; 2) apportionment, allocation, and control of funds; 3) accounting systems and operations, including

payroll, leave, and administrative audit; 4) preparation of financial statements; and the 5) compilation of required reports in accordance with current regulations. *Input:* Raw data are obtained from standardized government forms, bills and vouchers from private companies and/or individuals, private correspondence concerning the undertaking of specific actions, and internally generated forms used as input sources to several computer based data files. *Content:* The data file contains individual company, agency or employee names, the object or service provided, the cost or periodic rental charge, and all necessary contractual language, and agency employee names, identification number, hours worked, compensation data, work activity classifications, leave records, and history records. *Output:* All output is on hardcopy on a biweekly, monthly, quarterly, or annual frequency, as required by appropriate rules and regulations or by proper request. Major report types include: Agency budget and accounting data, as required; payroll data, biweekly to all individual employees, monthly or quarterly to State and Federal tax authorities and yearly to all employees and appropriate tax authorities; and cost analysis data by agency, division, and office weeks. *Availability:* Unless excepted by the Privacy or Freedom of Information Act, the output is directed to only those people, agencies, or internal Agency components authorized by law and or pertinent rules and regulations to receive reports.

Agency Contact: Office of Comptroller; 500 North Capitol St., Washington, DC 20549; (202) 755-1515.

S05300-007

Corporate Index (CIN).

OMB Funding Title/Code: Salaries and Expenses 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Corporations, Directories, Indexes

Purpose: The Corporate Index System was designed to facilitate the production of two directories and provide other listings used by the staff as reference tools. *Input:* Data are derived from registration statements and exchange listing applications filed with the Commission. *Content:* The data file consists of a separate record for each filing entity. The file is updated weekly. The file is used as a source for producing mailing address labels for the Automated Mailing System (MAL). *Output:* Two principal directories are produced in hardcopy format for reproductive printing: Corporate Index Directory and Companies Filing Annual Reports. Other listings are provided to the State securities administrators on request. *Availability:* Reports are for internal use only.

Agency Contact: Office of Data Processing, 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-008

Complaint Processing (CMP).

OMB Funding Title/Code: Salaries and Expenses 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Complaints, Consumer Protection, Investments, Investors, Mutual Funds, Stock Brokers, Stockholders

Purpose: The CMP system maintains data on complaints received from the investing public. A major objective is to compile and analyze data on 'top-ten' brokers receiving the most complaints each month. A similar report is produced for complaints against mutual funds. *Input:* Data are compiled from complaints received from the investing public and processed in the headquarters and regional offices. *Content:* Data are processed and updated to the master file weekly. Complaint data are categorized by type of entity and type of complaint. *Output:* Regularly scheduled monthly reports are produced in hardcopy format. They include Complaints Against Broker-Dealers, Complaints Against Mutual Funds, Unit Workload Report, and Summary Complaints by Type and Entity. *Availability:* Reports are for internal use only.

Agency Contact: Office of Data Processing, 500 North Capitol St., Washington, DC 20549; (202) 755-1152

S05300-009

Committee on Uniform Security Identification Procedures (CUSIP) Numbering System-(CUP).

OMB Funding Title/Code: Salaries and Expenses 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Securities, Securities Identification System, Securities Regulation, Stocks

Purpose: The CUSIP Numbering System was adopted to provide a common method of identifying issuers and issues. The CUSIP number was conceived by the Committee on Uniform Security Identification Procedures. The CUSIP system is used in connection with the ownership reports and proposed sale of securities data file systems. *Input:* The CUSIP numbering system derives basic data from CUSIP data tapes obtained from the CUSIP Service Bureau. *Content:* The CUSIP is comprised of a CUSIP master file and a SEC file number index. Both are adapted to cross-reference certain other computer files containing issuer-issue data. The file is updated on a 10-day cycle. *Output:* The CUSIP Directory and transaction register are available in both machine-readable and hardcopy format. *Availability:* Data are obtainable from the CUSIP Service Bureau.

Agency Contact: Office of Data Processing, 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-010

Delinquency Reports System: (DEL).

OMB Funding Title/Code: Salaries and Expenses 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Compliance, Delinquent Reports, Securities Regulation

Purpose: The Delinquency Reports System (DEL) was designed to identify issuers who, based on certain criteria, have not filed specified report(s) with the Commission as required by the Act(s) under which the corporate entity is registered. This system is used to support the staff in the enforcement of rule compliance. *Input:* Data for the DEL system are derived by extracting pertinent data from several computer based data files, namely, Corporation Index, Investment Company Directory, and Workload Filing Requirements. *Content:* The date file for this system contains a record for each reporting entity which is alleged to be delinquent in filing a report(s). The record reflects the entity's file number, type report, due date, fiscal year, and report period. *Output:* The system produces regularly scheduled hardcopy listings on a monthly basis. They are Required Reports checklist, Active Investment Companies, and Delinquent Reports Listing. *Availability:* Reports are for internal use only.

Agency Contact: Office of Data Processing, 500 North Capitol St., Washington, DC 20549; (202) 755-1152

S05300-011

Financial and Operational Combined Uniform Single Report System (FOCUS).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Broker-Dealers; Broker Financial Statements; Financial Monitoring; Securities Regulation; Stock Brokers.

Purpose: The FOCUS system was designed to process certain financial data submitted by broker-dealers and exchange members. The system consolidates data previously collected and processed on four separate systems prior to calendar year 1976. The system is structured to provide for a more timely and uniform method of reporting by the brokerage industry. ***Input:*** Raw data are derived from X-17A-5 reports. Data are processed from hardcopy reports filed by SECO firms directly with the Commission. Report data filed with the national securities exchanges and the National Association of Securities Dealers are processed and submitted in machine-readable format in accordance with a qualified plan under section 17 of the Securities Exchange Act of 1934. ***Content:*** The data file consists of a record for each reporting entity filed on a quarterly basis. Monthly reports are reviewed manually to spot potential financial difficulties. Records reflect broker-dealer financial status and capture assets, liabilities, net capital requirements, and ownership equity. ***Output:*** The system generates hardcopy reports which reflect statistical analyses on special request. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-012

Investment Statistical Laboratory System (ISL).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Dividends; Securities; Stock Earnings; Stock Exchanges; Stock Market; Stock Prices; Stock Volumes.

Purpose: The ISL system was designed to provide stock performance and volume data on equity securities traded on the New York and American Stock Exchanges and NASDAQ over-the-counter securities. The system utilizes the Committee on Uniform Security Identification Procedures numbering scheme to facilitate interfacing the master file with other data file systems. ***Input:*** Data contained in the file maintained by this system are received on magnetic tape from Interactive Data Services, Inc. ***Content:*** The file contains a series of records for each issue traded. Data elements consist of stock price, volume, earnings, dividend factors, closing prices, and other base market information. The data file is updated quarterly. ***Output:*** Regularly scheduled reports, produced in hardcopy format, are Issuer Status Register, Price-Volume Register, and Alphabetic Listing. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-013

Investment Company Data File System (IVT).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Investment Companies; Investments; Mutual Funds; Securities Regulation; Stocks.

Purpose: This system was designed to maintain a data base of salient information on investment company and investment company complexes (e.g., principal underlying companies, sponsors, etc.). This system is structured to interface with other data files in order to generate related data pertaining to the total universe of investment company information. ***Input:*** Data are derived from various public use forms filed under the Investment Company Act of 1940. ***Content:*** A master file is maintained to reflect organization data on registered investment companies. Up-to-date data consist of name, address, status, assets, and company complexes. ***Output:*** The system produces regularly scheduled reports and listings in hardcopy format. They include: Investment Company Index Book, Overall Register of Investment Companies, Name-Address Register, 40-Act Investment Company Report, and Small Business Investment Companies. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549 (202) 755-1152.

S05300-014

Investigation-Enforcement-Litigation Reporting (INV).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Administrative Procedures; Enforcement of Regulations; Investigations; Securities Investigations; Securities Regulation.

Purpose: The INV system was designed to produce caseload name and statistical data on investigation and enforcement actions instituted by the Commission. ***Input:*** Data are derived from investigation reports, Commission orders, and court-litigation memoranda. ***Content:*** A separate record is maintained for each investigation, case or other formal administrative, civil, or criminal action. The Name-Relationship Index file (NRS) is used as the source file. ***Output:*** The system produces regularly scheduled reports in hardcopy format. They are Unit Caseload Report, Investigation caseload report (consists of a series of listing in various sort-sequence), and Age of Cases. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-015

Management Investment Company Annual Reports System (N-1R).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Financial Monitoring; Management Investment Companies; Mutual Funds; Securities Regulation.

Purpose: The N-1R system was designed to compile annual report data submitted by open and closed-end management investment companies. The system produces aggregate statistics and is programmed to screen item responses in order to detect possible deficiencies. ***Input:*** Data are derived from the Management Investment Company Annual Report. ***Content:*** The N-1R system is designed to process statistical and related name data contained in the EDP Attachments to Form N-1R reports. A composite record is created and maintained for each annual report. Data content includes type of funds, fund performance, and income expense ratios. ***Output:*** Vari-

ous statistical reports are generated using the Report Generator System (RGS) application programs. *Availability:* Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-016

Management Investment Company Quarterly Reports (N-1Q).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Financial Monitoring; Management Investment Companies; Mutual Funds; Securities Regulation; Stock Exchanges; Stock Performance.

Purpose: The system is designed to examine reports and portfolio transactions for possible deficiencies under program control. The N-1Q file is compatible with other market data files and is used to perform market impact studies in stock performance on management investment companies. *Input:* Data are derived from Form N-1Q reports filed with the Commission. *Content:* Data are processed on a quarterly update cycle to reflect cumulative transactions and holdings of portfolio securities as filed by management investment companies. *Output:* Regular scheduled reports are produced on a quarterly cycle in hardcopy format. Report types are Ticker Symbol Edit Listing, Zero Balance Merge Report, and 4-Quarter Transaction Register. Other statistical listings are produced on an ad hoc basis. *Availability:* Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-017

Municipal Securities Dealers (MSD).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Banks; Broker-Dealers; Municipal Bonds; Municipal Securities Dealers; Securities Regulation.

Purpose: This is a data file of municipal securities dealers which are banks or divisions of banks registered with the Commission. *Input:* Data are derived from form MSD applications and amendments. *Content:* The data file contains a separate record for each registrant. The record reflects name, address, filing date, and other profile information. *Output:* Directories and supplemental listings are generated quarterly in hardcopy. *Availability:* Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-018

Name Relationship Search (NRS).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Administrative Procedures; Broker-Dealers; Corporations; Indexes; Investigations; Securities Investigations; Securities Regulation; Stock Brokers; Stocks.

Purpose: The system is a comprehensive index file of name information on corporate entities and individual persons who have had or have a current relationship with the Commission. *Input:* The NRS file contains a separate record for each name, corporate and individual, indexed to an SEC docketed file. Names and related data are derived from public use forms as well as from internally generated documents. *Content:* Volatile name information is maintained as to corporate entities, principal persons, investigations, witnesses, and other related individuals having had some relationship with the Commission. *Output:* Regularly scheduled reports are produced daily and on special request. Reports described are in hardcopy format. In addition, some reports are also on microfiche. Examples of output are: Name Relationship Search, Alphabetic and Numeric Cumulative Registers, Enforcement Register, Administrative Proceeding Rule 2(e) Register, Broker-Dealer Accountants Register, Broker-Dealer SECO Firm Register, Broker-Dealer-Investment Adviser Firm Register, and Overall Index Register. *Availability:* Output is for internal use only.

Agency Contact: Office of Data Processing, 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-019

National Association of Securities Dealers Form Q Reports (NSD).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Brokerage Industry; Broker-Dealers; Financial Statements; Securities Regulation; Stock Brokers.

Purpose: The NSD system maintains a file of broker-dealer financial data submitted on Form Q reports and filed with the National Association of Securities Dealers (NASD). The NSD system was designed to provide additional data needed to perform statistical economic studies of the brokerage industry. *Input:* Data for this system are obtained in machine-readable format from the NASD. *Content:* The data file contains a record which consists of 50 line items and respective subline items reported on Form Q reports. The file is updated quarterly. Information includes net capital, reserve requirements, and indebtedness. *Output:* This system generates reports on special request, using the Report Generator System (RGS). *Availability:* Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-020

Negotiated Commission Rates (NCR).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Commissions; Sales; Securities Industry; Securities Regulation; Stocks.

Purpose: This system was designed to monitor the impact of Rule 19b-3 which provides for the elimination of fixed commission rates on exchange transactions after May 1, 1975. *Input:* Basic information was provided through Form X-17A-20, filed by exchange member firms and survey questionnaires from a sampling of selected brokerage firms. Daily stock transaction data are also received from the New York Stock Exchange in machine-readable format. *Content:* The system supported the study and analysis of a sampling of firms to develop information on the impact of Rule 19b-3. Data were developed on the objective areas of industry trends, self-regulatory trends, and quality of the market. *Output:* The system produces ag-

gregate data reflecting differential analyses on commission revenues during the monitoring period. ***Availability:*** Individual firm data are nonpublic.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-021

Ownership Reports (ORS).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Insider Trading; Securities Exchanges; Securities Regulation; Short-Swing Trading; Stockholders; Stocks.

Purpose: The system was designed primarily to automate and expedite the publication of the official summary of security transactions and holdings. The system verifies share balances and is programmed to detect short-swing profits. ***Input:*** Data are taken from Forms 3 and 4 filed with the Commission. ***Content:*** The data file is updated monthly. A unique record is maintained for each officer, director, and beneficial owner who has filed Forms 3 and 4 pursuant to section 16(a) of the Securities Exchange Act of 1934, section 30(f) of the Investment Company Act of 1940, and section 17(a) of the Public Utility Holding Act of 1935. Generally, the data captured include insiders holding securities, shares acquired, shares disposed of, and balance of holdings. ***Output:*** Regularly scheduled reports are produced in hardcopy and microfiche on a monthly basis and include Control Register, the Official Summary, History Report, Purged History Report, Late Insider Register, and 16-B Short-swing Trading. ***Availability:*** The Official Summary is available by subscription. Other reports described are for staff use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-022

Over-the-Counter Market Surveillance System (OTC).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Over-the-Counter Stocks; Prices; Securities Regulation; Stock Brokers; Stock Prices; Stocks.

Purpose: The OTC system is designed to process market-maker data on over-the-counter stocks. Price quotation history is generated on selected stocks. The system is programmed to produce graphic representations of stock-price movements. ***Input:*** Data are received in magnetic tape format from the National Quotation Bureau. ***Content:*** The system monitors the price movement on selected stocks to detect unusual fluctuations in prices quoted and in dealer interest. The file is updated weekly with data on type of security, broker identification, date of bid, bid price, and asking price. ***Output:*** The system generates weekly reports in hardcopy as follows: OTC Surveillance, OTC Special Surveillance, and OTC Price History. Queries are answered on an individual basis. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-023

Over-the-Counter Notification System (XST).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Broker-Dealers; Market-Makers; Over-the-Counter Securities; Securities; Securities Regulation; Stock Brokers; Stocks.

Purpose: The XST system was designed to process pertinent data on market-makers in Over The Counter (OTC) margin securities. Data processed by this system are used in conjunction with "pink-sheet" data furnished by the National Quotation Bureau (NQB). ***Input:*** Data are from Form X-17A-12(1) reports filed by market-makers pursuant to rule 17a-12 of the Securities Exchange Act of 1934 and data tapes provided by NQB. ***Content:*** The data file contains a record for each broker-dealer who has filed a report. The file is updated quarterly with such data as market-makers, type securities, name of security, and commence and cessation dates. ***Output:*** Quarterly reports in hardcopy are produced to reflect the activity of market-makers. Typical output includes: Active OTC Market-Makers, Inactive OTC Market-Makers, OTC Security Name Extract, and OTC Notification Update. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-024

Periodic Payment Plan Certificates System (PPC).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Investment Companies; Investments; Mutual Funds; Securities Regulation; Stocks.

Purpose: The PPC system was designed to process data on investment companies offering mutual fund payment plans to the public. ***Input:*** Data are from Form N-27D-2 reports filed pursuant to section 27(d) of the Investment Company Act of 1940. ***Content:*** The data file contains a unique record for each Form N-27D-2 report. Each record has the capacity to contain a maximum of 121 separate items. The file is updated quarterly. ***Output:*** Quarterly statistics on number of plans filed are generated in hardcopy. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-025

Pension Fund Monthly System (PFM).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Corporations; Employee Benefit Plans; Noninsured Pension Plans; Pension Plans; Securities.

Purpose: The Pension Fund Monthly System (PFM) was designed to collect and process survey data on noninsured pension plans. The system generates aggregate statistical data for publication. ***Input:*** Data are from survey questionnaire Form R-4a. The survey includes a small selective universe of bank trust departments and

corporations with self-administered pension funds. *Content:* The data file contains a record for each respondent's report for a given survey. Each record incorporates relevant data on assets; securities purchased; securities sold; and market value. The file is updated monthly. *Output:* The PFM system generates statistical compilations published in the Statistical Bulletin. *Availability:* The Statistical Bulletin is available by subscription. Individual corporate pension fund data are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-026

Proposed Sale of Securities (PSS).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Enforcement of Regulations; Sales; Securities Regulation; Stocks.

Purpose: The system was designed to facilitate the timely processing of Form 144 reports filed under the 1933 Act. Processed information programmed by this system assists the Commission in its regulatory and enforcement functions. *Input:* Data are from Form 144 reports filed pursuant to the 1933 Securities Act. *Content:* The data file contains a record for each security proposed for block sales that otherwise would require formal registration. Each record contains pertinent data describing the proposed transaction. The file is updated biweekly. Integration of this file with other data files allows cross-referencing of data in connection with enforcement and informal inquiries. *Output:* The system produces regularly scheduled hardcopy reports on a weekly and monthly basis. Typical reports are Monthly Transaction Listing, Weekly Master Listing, and Broker-Dealer Verification Listing. *Availability:* Reports are publicly available.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-027

Privately Placed Securities System (PPS).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Privately-Placed Securities; Securities; Securities Regulation; Stocks.

Purpose: The Privately Placed Securities System (PPS) was designed to process statistics on issues privately placed by certain foreign and domestic entities. Essentially, this system will incorporate data on securities not registered under the Securities Act of 1933. *Input:* Data for this system are derived from a survey letter sent to a select list of insurance companies and from various periodic reports filed with the Commission. *Content:* The data file contains a record for each entity which has issued private offerings. Categories of data captured include securities privately placed, characteristics of issuers, and issues and estimated proceeds. The file is updated monthly. *Output:* The system produces various statistical tables on a quarterly basis for publication. *Availability:* Summary data are published in the Statistical Bulletin which is available by subscription.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-028

Regulation A Time Lapse System (RAT).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce. The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Regulation A Stock Offerings, Securities; Securities Regulation, Stocks.

Purpose: The Regulation A Time Lapse System (RAT) was designed to compile and generate statistics on elapsed time during the processing cycle for Regulation A offerings. *Input:* Data are derived from Regulation A offering statements filed pursuant to the Securities Act of 1933 and from clearance memoranda. *Content:* The data file contains a separate record for each Regulation A filing. The record incorporates various dates and status items representing the processing cycle. The file is updated monthly. *Output:* Hardcopy reports are produced monthly and quarterly. The major reports are Regulation A Time lapse report and Regulation A Time lapse chart. *Availability:* Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-029

Registration Offering Statistics (ROS).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce. The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Securities Regulation; Stock Offerings, Stock Registrations.

Purpose: The ROS system was designed to maintain statistical data pertaining to registrations and offerings filed by corporate entities. *Input:* Data are derived from various registration statements and offerings filed with the Commission. The system also uses the privately placed securities data base (PPS) as a source for selected data. *Content:* The data file contains a unique record for each registration filing. Each record incorporates a variety of data elements which reflect the characteristics of a registration filed with the Commission. The file is updated monthly. *Output:* The system produces monthly reports in hardcopy format, including: Estimated Gross Proceeds, Federal Reserve Board Report, and Monthly Maintenance Register. *Availability:* Data are published in the Statistical Bulletin which is available by subscription.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-030

Registered Transfer Agent Directory (RTA).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce. The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Directories; Enforcement of Regulations; Securities Regulation; Stocks; Stock Transfer Agents; Transfer of Ownership.

Purpose: This system was designed to maintain a data file of transfer agents, both bank and nonbanks, which have registered under section 17A(c) of the Securities Acts Amendments of 1975. This system is used to assist the Commission staff in carrying out its regulatory functions related to the securities handling process. A principal objective is to identify qualifying securities registered under

the 1934 Act and the transfer agent servicing them. ***Input:*** Form TA-1, application for registration as a transfer agent, and amendments thereto are the source documents from which data are derived. ***Content:*** The data file consists of a record for each registered transfer agent. Each record contains name, address, organization profile, and the identity of issuers and issues for which it is conducting service. The data file incorporates transfer agents registered with the Commission and other bank regulatory agencies. ***Output:*** A Transfer Agent Directory is produced in hardcopy format. ***Availability:*** The directory is for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-031

Statistical Bulletin Series (STB).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Common Stocks; Sales; Securities; Stocks; Stock Transactions.

Purpose: The STB system is comprised of five subsystems files. These five files contain data items which are used separately and collectively to compile statistics on common stock transactions for economic studies and research purposes. ***Input:*** Data for this system are derived from several periodic sources and reports submitted voluntarily by the New York and American Stock Exchanges. ***Content:*** *Raw data are collected on a weekly* basis and updated monthly. System contents include exchange transactions, round lot volume, odd lot volume, composite indexes, and market value of shares. ***Output:*** The STB system produces periodically scheduled reports which are published in the Statistical Bulletin. ***Availability:*** Aggregate statistical data are in the Statistical Bulletin, which is available by subscription.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-032

Securities Traded on Exchanges (STK).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: *State, Justice, Commerce and Judiciary Subcommittee; House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Sales; Securities; Securities Exchanges; Stock Exchanges; Stocks.

Purpose: This system was designed primarily to produce data containing descriptions and statistics on issuers and issues of securities traded on exchanges. ***Input:*** Data for this system are collected from exchange listing applications filed pursuant to the 1934 Act. ***Content:*** The data file contains a record for each issuer and issue of securities traded on a national securities exchange. The file is updated on a quarterly basis. ***Output:*** Regularly scheduled reports are generated in hardcopy format and include Consolidated Stock List, Consolidated Stock List by Exchange, Federal Reserve Board Listing, and Securities Traded on Exchanges. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-033

Securities Violations Bulletin (SVB).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Enforcement of Regulations; Securities Violations; Stocks; Violations.

Purpose: The system is designed primarily to produce the Securities Violations Bulletin and periodic supplements. The information generated is used by the State securities administrators and other Federal enforcement agencies. ***Input:*** Raw data are obtained from State and Federal enforcement agencies. Notifications are received on *official actions taken against persons involved in securities* law violation. ***Content:*** The data file consists of a record for each person involved in some securities violation. The data file is updated daily and purged periodically to delete inactive records. The data file content includes name, file number, date, violation description, and State and volume-index reference numbers. ***Output:*** Scheduled reports produced quarterly in hardcopy are Securities Violations Bulletin, Wanted Supplement, and SV Master Index Register.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-034

Third Market Notification System (TMN).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Common Stocks; Market-Makers; Over-the-Counter Securities; Securities Regulation; Stock Brokers; Stocks.

Purpose: The Third Market Notification System (TMN) has been designed to process data on broker-dealers who are market-makers in common stocks. This system is interfaced with the third market transactions system which provides data or over-the-counter securities. ***Input:*** Data are derived from Form X-17A-9(1) reports filed by broker-dealers pursuant to Rule 17a-9 of the Securities Exchange Act of 1934. ***Content:*** The data file contains a separate record for each respondent engaged in market-making activity. Each record contains data items on dates, exchange, and stock identification. The file is updated quarterly. ***Output:*** The system generates quarterly reports in hardcopy. They include: Active listings by exchange, inactive brokers no longer making a market, inactive listing by exchange, and active market-makers. ***Availability:*** Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-035

Third Market Transactions System (XSN).

OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Broker-Dealers; Common Stocks; Market-Makers; Securities Regulation; Stock Brokers; Stock Transactions.

Purpose: The Third Market Transactions System (XSN) was designed to process third market transaction data. The XSN system incorporates data on broker-dealers who are market-makers in common stocks listed on the New York and other exchanges. *Input:* Data are from Form X-17A-9 reports filed by broker-dealers pursuant to Rule 17a-9 of the Securities Exchange Act of 1934. *Content:* The data file contains a record for each X-17A-9 report. Each record incorporates data as to share volume, dollar volume, stock description, exchange, and dates. The data file is updated quarterly. *Output:* Hardcopy reports are produced quarterly. They include detailed reports by stock and broker-dealer, summary reports by stock and broker-dealer, O-T-C Volume, O-T-C Volume in NYSE Common Stocks and O-T-C Volume Transactions. *Availability:* Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-036

Working Capital Data System (WCD).
OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Corporations; Financial Statements

Purpose: The Working Capital Data System (WCD) was designed to compile data on a survey universe of some 1,500 nonfinancial U.S. companies. Data are used to calculate and estimate the working capital position of these reporting entities. The system provides statistics concerning long term debt categorized by industry. *Input:* Data are from survey questionnaire Form R-2 which is submitted voluntarily by approximately 1,500 U.S. companies. *Content:* The data file contains a record for each reporting entity of the survey universe. The data file is updated quarterly and includes categories of data such as current assets, inventories, long term debt, receivables, and liabilities. *Output:* The system produces regularly scheduled statistical data in tabular format for publication on a quarterly basis. *Availability:* Statistical data are published in the Statistical Bulletin, which is available by subscription.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

S05300-037

Workload Filing Requirements (WFR).
OMB Funding Title/Code: Salaries and Expenses / 50-0100-0-1-403.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Interstate and Foreign Commerce; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Inventories; Management Information Systems; Records Management; Securities Regulation.

Purpose: The WFR system is designed to process data regarding the receipt, assignment, and disposition of registration statements, periodic reports, applications, proxy statements, and similar material filed under various acts. The system is used for inventory control and management planning. *Input:* Original data are derived from approximately 125 public use documents filed with the Commission under various acts. Supplemental disposition and status data are furnished by the assigned organizational unit. *Content:* A record is maintained for each document. A current active file reflects forms and filings in a pending status. Inactive records are written to a history file on a periodic basis. The WFR file is used in connection with the delinquency reports system (DEL). The major categories of data maintained include name of reporting entity, file number, receipt date, branch assignment, and disposition action. *Output:* The WFR system produces both hardcopy and microfiche reports on a weekly, monthly, and quarterly cycle. The reports are: Branch Unit Workload, Alphabetical Current Listing, Pending Unit Workload, Numeric Current Listing, Master History, prepunched cards, Form 8-K Items Listing, Post-effective Amendments, and Preliminary Pending Unit Workload. *Availability:* Reports are for internal use only.

Agency Contact: Office of Data Processing; 500 North Capitol St., Washington, DC 20549; (202) 755-1152.

SELECTIVE SERVICE SYSTEM

S05400-001

Automated Accounting System. NBQ-(1-999).
OMB Funding Title/Code: Salaries and Expenses / 90-0400-0-1-054.
Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Armed Services; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Armed Services.

Subject Terms: Accounting; Financial Management.

Purpose: This system is designed for efficient monitoring of the status and utilization of appropriated funds to accomplish the Agency mission as established by the Military Selective Service Act and Selective Service Regulations. *Input:* Warrants, allotments, obligating documents, invoices, schedules of payments, computer tapes from the automated payroll system, and journal vouchers comprise system input. *Content:* This system contains information on allotments, obligations, unobligated balances, accrued expenditures, and disbursements (all accumulated by cost center), and major object class and subobject class under the major budget activities of the Agency. *Output:* The Financial Plan is the basic financial management report for monitoring the status of funds throughout the fiscal year. It is produced monthly and is available on demand at critical times (near yearend). The Budget Activity Report accumulates cost information for monitoring the utilization of appropriated funds in accordance with program levels established by the Congress. It is quarterly and can be produced on demand. *Availability:* No information produced by the system is distributed outside the Agency although data are extracted from the output printouts and used to prepare reports sent outside the Agency.

Agency Contact: Selective Service System; 600 E St. NW, Washington, DC 20435; (202) 382-2304.

S05400-002

Reserve Officers Information Bank (ROIB). ROIB-1-3 1-42.
OMB Funding Title/Code: Salaries and Expenses / 90-0400-0-1-054.
Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Armed Services; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Armed Services.

Subject Terms: Armed Forces Reserves; Manpower Utilization; Military Personnel; National Guard; Officer Personnel; Personnel Records; Reserve Officers; Warrant Officers

Purpose: The system is to provide data on currently assigned officers and warrant officers of the Reserve and National Guard assigned to the Selective Service System and former officers and warrant officers. *Input:* The data are compiled from military personnel records as used by the members' parent service, data furnished by the members themselves, and the results of correspondence courses. *Content:* This system contains a variety of information relating to selection, placement, and utilization of military personnel. The system also contains information about members such as name, rank, social security account number, date of birth, physical profile, residence

and business addresses, and telephone numbers. Information is also recorded on unit of assignment, occupational codes, training, cost factors, efficiency ratings, and mobilization assignments and duties. *Output:* ROIB reports fall into eight major categories, with several specific reports within each category: Information input, strength reports, mobilization reports, financial reports, inspection reports, exception reports, locator reports, and miscellaneous. All reports are computer printouts. The physical reports are the Monthly Strength Report, the Quarterly Financial Summary, the Quarterly Unit Report, the Quarterly Drill Attendance Report, the Unit Commanders' Reports, the Military Correspondence Course Report, and the Mobilization Location Roster. *Availability:* Information in these records may be used by Agency officials for purposes of review in connection with appointments, assignments, promotions, and determining qualifications of individuals. Information is also exchanged with an officer's parent service upon official request.

Agency Contact: Selective Service System; 600 E St. NW, Washington, DC 20435; (202) 382-2304.

SMALL BUSINESS ADMINISTRATION

S05500-001

Office of Business Development Management Information System (OBD-MIS).

OMB Funding Title/Code: Salaries and Expenses / 73-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Small Business; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Business; Federally Assisted Loans; Government Lending; Industrial Promotion; Loans; Management Information Systems; Small Business.

Purpose: The purpose is to improve the management of limited resources devoted to the 8(a) program and to track development of firms approved for 8(a) business development. *Input:* The data are derived from input gathered by SBA field personnel from 8(a) approved firms and the procuring agencies with whom we contract. *Content:* The OBD-MIS contains detailed information on the firms approved for 8(a) participation: company name and address, chief executive officer, minority code, industrial classification, financial information, and contract information. It also contains information concerning the procuring agencies and the amount of 8(a) contract assistance over the years since 1972. *Output:* The output is: 1) Contract Awards by Procuring Agency-monthly printout; 2) Field Contract Activity-monthly printout; 3) 8(a) Companies and Contracts Awarded-monthly printout; 4) 8(a) Company Portfolio-monthly printout, 5) Status of 8(a) Contracts-monthly printout; and 6) 8(a) Company Financial Data-quarterly printout. *Availability:* Printouts are for internal use, but information is available upon request.

Agency Contact: Paperwork Management Branch; 1441 L St. NW, Washington, DC 20416; (202) 653-6391.

S05500-002

Portfolio Financing Report Information System (SBA Form 1031).

OMB Funding Title/Code: Business Loan and Investment Fund / 13-4154-0-3-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Small Business; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Business; Federally Assisted Loans; Government Lending; Industrial Promotion; Loans; Small Business; Small Business Investment Companies.

Purpose: The purpose of this system is to measure the amount and characteristics of the financial assistance provided to small business by Small Business Investment Companies (SBIC's) on a monthly basis. *Input:* Data are provided to SBA by all licensed and regulated SBIC's on SBA Form 1031, Portfolio Financing Report. There were 344 such operating SBIC's as of September 30, 1976. Input data required by the form include descriptive data on the small business concern and information on the amount and type of financing provided. *Content:* This system contains information that is supplied daily to SBA from SBIC's and is compiled and analyzed monthly and annually. Data are coded by industry (4-digit), State, age of business, type of financing, interest rate, terms, etc. Each report includes prefinancing financial and economic data on the individual small business which is the recipient of the assistance. *Output:* The output is monthly compilations of data issued to key management personnel in SBA and yearly compilations and analyses which are printed and issued to key agency personnel and made available for the public on an as-requested basis. *Availability:* Monthly reports and annual reports are available. Input documents are not available under the Privacy Act.

Agency Contact: Paperwork Management Branch; 1441 L St. NW, Washington, DC 20416; (202) 653-6391.

S05500-003

Loan Accounting System.

OMB Funding Title/Code: Business Loan and Investment Revolving Fund / 73-4154-0-3-403; Salaries and Expenses / 73-0100-0-3-403; Disaster Loan Fund / 73-4153-0-3-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Small Business; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Accounting; Business; Federally Guaranteed Loans; Government Lending; Industrial Promotion; Loans; Small Business.

Purpose: The purpose of this system is to provide information on business loans, investment and development, company assistance activities, and section 8(a) procurement contract activity and to liquidate certain RFC business and disaster loans. *Input:* The data are derived from filing applications of small business. *Content:* This system contains data files on loans to small business. Data collected on loans include: loan program and type, geographical location, SIC code, name of borrower, and amount approved and disbursed. Periodic reports are prepared summarizing the status of loan activities. Also, the system maintains accountability on contracts let-contract number, name and address of contractor, time limit of contract, and dollar amount of contract. *Output:* The output is quality-control computer printouts to maintain the system integrity. The frequency varies to the particular need. Some are monthly, quarterly, semiannually, and annually. *Availability:* The printouts are for internal management use only. However, upon request, information is available from the system.

Agency Contact: Paperwork Management Branch; 1441 L St. NW, Washington, DC 20416; (202) 653-6391.

S05500-004

Management Assistance Control Record (SBA Form 1062). SBA 1062.

OMB Funding Title/Code: Salaries and Expenses / 73-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Small Business; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Business; Federally Assisted Loans; Government Lending; Industrial Promotion; Loans; Small Business.

Purpose: This form provides essential data concerning SBA clientele receiving management and technical assistance. It allows us to key in on an individual client by use of an identification code and obtain a thorough history of client experience in the Agency. It is intended to provide statistical counts for use by headquarters in target setting, congressional and outside inquiries, and is to be used by staff to track. ***Input:*** Each Management Assistance Officer (MAO) at the local level is responsible for submission of 1062 data to the Central Office (CO). All appropriate data are recorded by MAO to cover his needs for client tracking and program administration while CO is furnished the statistical data for national input. The client provides the detailed data required. ***Content:*** This system contains a complete history of SBA clientele receiving management and technical assistance. Data include geographic coverage, type of assistance, type of loan, type of business, minority code, veteran manhours required, date completed, as well as other information. ***Output:*** The output is: 1) Management Assistance Monthly Report-printout; 2) Management Information Summary-monthly printout; 3) Management Assistance Client List-biweekly printout; 4) MA Client History-printout on request; 5) Borrower Client List-borrowers only, monthly printout; and 6) Special Sorts or Runs-printouts as required. ***Availability:*** Generally for internal use, reports may be made public upon request.

Agency Contact: Paperwork Management Branch; 1441 L St. NW, Washington, DC 20416; (202) 653-6391.

S05500-005

Procurement Source Program.

OMB Funding Title/Code: Salaries and Expenses / 73-0100-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Small Business; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Business; Contractors; Contracts; Government Procurement; Industrial Promotion; Procurement; Small Business.

Purpose: The Procurement Source Program provides a systematized inventory of small business production facilities categorized by Standard Industrial Code Identification numbers. It fulfills the requirement for establishment of a small business facilities inventory required by P.L. 85-536 (the Small Business Act). It is used on a continuing basis to assist small concerns to obtain Government contract opportunities either at the prime or subcontract level. ***Input:*** The data are derived from application forms filled out by small business firms which are potential suppliers of goods and services needed by the Federal Government. ***Content:*** The Procurement Source File identifies small business concerns by name, address, telephone number, Standard Industrial Code reference number, type of business experience, production capacity, production and test equipment, level of quality control, and financial capacity. It is updated annually and is used nationally. ***Output:*** Hard copy is provided to Federal and prime contracting offices as required. ***Availability:*** Information is publicly available.

Agency Contact: Paperwork Management Branch; 1441 L St. NW, Washington, DC 20416; (202) 653-6391.

S05500-006

Management Information System.

OMB Funding Title/Code: Salaries and Expenses / 73-0100-0-1-403; Disaster Loan Fund / 73-4153-0-3-403; Business Loan and Investment Fund / 73-4154-0-3-403; Surety Bond Guarantees Revolving Fund / 73-4156-0-3-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Small Business; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Business, Federally Assisted Loans, Government Lending; Industrial Promotion; Loans; Management Information Systems; Program Evaluation; Small Business.

Purpose: This system contains significant information for overall management evaluation. ***Input:*** The data are derived from applications and originals of assistance from small business. ***Content:*** This system generates significant information for overall management evaluation. It includes national summary highlights on all loan programs for current and past fiscal year, status of loan portfolio, loanmaking by category and other output, loan applications pending at end of month, comparison of loan approvals FY to date, status report of procurement and management assistance, percentages of trouble loans and accounts by programs by month (SBA dollars), investment division activities, Small Business Investment Company data, and status report on prime contracts. Similar information is included for regional offices. ***Output:*** Reports are produced monthly in a hard copy book type publication. ***Availability:*** This is an internal management document used for program evaluation.

Agency Contact: Paperwork Management Branch; 1441 L St. NW, Washington, DC 20416; (202) 653-6391.

S05500-007

Surety Bond Accounting System.

OMB Funding Title/Code: Surety Bond Guarantees Revolving Fund / 73-4156-0-3-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Small Business; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Accounting; Bonds; Contracts; Federally Assisted Loans; Small Business; Surety and Fidelity.

Purpose: The system was established to finance guarantees to surety against loss as a result of the breach of terms of a bid bond, payment bond, or performance bond by a principal on a contract. ***Input:*** The data are derived from filing applications of small businesses. ***Content:*** This system contains name and address of contractor, amount of contract, geographic location, and type of contract. ***Output:*** The principal report is a consolidated fee billing report that goes to surety companies. ***Availability:*** Information is for internal management use only.

Agency Contact: Paperwork Management Branch; 1441 L St. NW, Washington, DC 20416; (202) 653-6391.

S05500-008

Program Evaluation System (SBA Form 684).

OMB Funding Title/Code: Business Loan and Investment Fund / 73-4154-0-3-403.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Small Business; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Business; Federally Assisted Loans; Government Lending; Industrial Promotion; Loans; Program Evaluation; Small Business; Small Business Investment Companies.

Purpose: The purpose of this system is to measure the effects of the program assistance on the financed small business concerns. This system tracks on an annual basis the firms financed and eventually will provide time series on the progress of the financed firms. ***Input:*** Data are provided to SBA by SBIC's on a sample of financed businesses on an annual basis. Sample size is now 700 with the earliest data being from firms financed in 1973. Data are reported to SBA annually by SBICs on the Program Evaluation Report (SBA Form 684) as of March 31st of each year. ***Content:*** Data include location codes to county level, SIC codes to 4-digits, age of business, form of business, prefinancing data on financial and economic attributes, and

current financial data on a continuing basis. Information codes are provided for outcome of financing and reasons for unsuccessful businesses if appropriate. *Output:* No major reports will be forthcoming until the 1973 data are at least five years old. *Availability:* Analysis or research will be made available to public as requested.

Agency Contact: Paperwork Management Branch; 1441 L St. NW, Washington, DC 20416; (202) 653-6391.

S05500-009

SBIC Industry Review

OMB Funding Title/Code: Business Loan and Investment Revolving Fund / 73-4154-0-3-403

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Small Business; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Banking, Housing and Urban Affairs.

Subject Terms: Accounting; Business Loans; Federally Assisted Loans; Financial Management; Government Lending; Loans, Small Business; Small Business Investment Companies.

Purpose: The system provides information on the financial condition of the Small Business Investment Company (SBIC) industry and its subelements, and on the operations of SBICs over the program's life. The system covers all operating SBICs which report annual data to SBA. *Input:* Data are provided annually to SBA by each SBIC on Financial Report, SBA Form 468, with the accompanying CPA's opinion and schedules. *Content:* Information includes comprehensive financial and portfolio information on the status and operations of SBICs. Data are coded by SBIC size, ownership, and location (county level), investment policy, and venture capital status. Data are updated annually. *Output:* Annual aggregate financial reports are published and analyzed in SBIC Industry Review. Individual company data are not publicly available under Privacy Act restrictions. *Availability:* Information is publicly available as requested in aggregate form as presented in SBIC Industry Review.

Agency Contact: Paperwork Management Branch; 1441 L St. NW, Washington, DC 20416; (202) 653-6391.

SMITHSONIAN INSTITUTION

S05600-001

The Smithsonian Institution.

OMB Funding Title/Code: Salaries and Expenses / 33-0100-0-1-503; Museum Programs and Related Research (Special Foreign Currency Program) / 33-0102-0-1-503; Science Information Exchange / 33-0103-0-1-251; Construction and Improvements, National Zoological Park / 33-0129-0-1-503; Restoration and Renovation of Buildings / 33-0132-0-1-503; Construction / 33-0103-0-1-503; Miscellaneous Appropriations / 33-9911-0-1-503; Salaries and Expenses, Woodrow Wilson International Center for Scholars / 33-0400-0-1-503.

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on *House* Administration; *Senate* Committee on Agriculture, Nutrition, and Forestry; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Anthropology; Archives; Arts; Astrophysics; Biological Research; Biology; Exhibits; Geology; Museums; Natural History; Research; Social Science Research; Technology.

Purpose: The Institution, established in 1846 for the "increase and diffusion of knowledge among men," is an independent trust establishment. It performs research in the fields of anthropology, astrophysics, biology, geology, paleontology, cultural and political history, and the history of technology. It publishes the results of explorations, studies, and investigations. Over 70 million objects and specimens of scientific, cultural, and historical significance are preserved for study and reference. Many of these objects are displayed in permanent, special, and traveling exhibitions. The Institution participates in the international exchange of governmental and scholarly publications; conducts fellowship and other higher education programs; presents a wide array of workshops, classes, lectures, seminars, and symposia for a variety of participants; publishes the Smithsonian magazine; and produces radio and television programs to serve a national constituency. Each year there are well over 20 million visitors to Smithsonian exhibitions. Several thousand scholars and students come to the Institution's collections, laboratories, libraries, and archives for research purposes for periods ranging from a few days to many months. Additionally, the Institution responds to tens of thousands of telephone, letter, and personal visit inquiries annually. *Input:* Smithsonian research, exhibition, education programs, and other functions are based on data stemming from a variety of sources: Terrestrial (including archeological and anthropological), marine, and astrophysical observations; objects and specimens in the national collections and information bearing on their source, composition, attribution; archives and library materials; oral histories; and live performances and presentations. *Content:* Principal collections, subject matters, and information include anthropology (including important collections and data on North American Indians); aeronautics and astronautics, astrophysics and astronomy; worldwide collections and information in botany, entomology, mineral sciences, paleontology, and vertebrate and invertebrate zoology; American portraiture; Far and Near Eastern Art; American paintings and sculpture; decorative arts, crafts, and design; the applied arts (numismatics, photographic history, graphic arts, postal history, and textiles); cultural history (including costumes, furnishings, and musical instruments); industries (including mining, ceramics, and glass); military, naval, and political history of the United States, the history of science and technology (including electricity, nuclear energy, mathematics, mechanical and civil engineering, medical and physical sciences); animal conservation and management; museology and museum training; and conservation of museum specimens and artifacts. *Output:* The Smithsonian Year, issued annually, documents the operations and financing of the Institution's museums, galleries, laboratories, and other activities. Other reports and output include exhibitions, exhibit and other catalogs, and research publications. These occur on a frequent basis throughout the year and appear in hardcopy form. Information on many objects and specimens in the National Collections is in computer storage. Output on these items can take the form of hardcopy, punched cards, or tapes. Similar information exists on the nationwide Bicentennial Inventory of American Paintings. *Availability:* As a general rule, all reports are available to the public. Many research reports and exhibition catalogs are available from GPO.

Agency Contact: Smithsonian Institution; 1000 Jefferson Dr. SW, SI Bldg., Room 408, Washington, DC 20560; (202) 381-6391.

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on *House* Administration; *Senate* Committee on Agriculture, Nutrition, and Forestry; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Accounting; Budget Information Systems; Financial Management.

Purpose: The Smithsonian's budget/fiscal system supports the operation and review of the activities of over 60 museums, art galleries, research laboratories, auxiliary activities, and supporting administrative and technical offices funded from Federal appropriations and the Institution's trust funds. The system provides for the gathering and assembling of programmatic and financial data for budget formulation purposes, the posting of approved budgets on the accounting records of the Institution, the preparation of reports for internal review and monitoring of actual and projected results against budget, the distribution of prescribed reports and other materials to the Office of Management and Budget, U.S. Treasury, and other agencies, and for audit capability by internal and outside auditors. ***Input:*** Prearranged system input includes the program plans of the Institution's organizational units, staffing plans, and data resulting from payroll, purchase orders, contracts, cash disbursements, and other financial transactions. ***Content:*** The system includes data arranged by appropriation or fund, fiscal year, organizational unit (which defines the principal subject matter), object classification, and function classification. ***Output:*** Monthly financial reports in hardcopy form are issued to all Smithsonian organizational units for management purposes. Other reports include Smithsonian Year, the Institution's annual report on its operations and finances to the Congress, and the annual budget documents to the Office of Management and Budget and the Congress. ***Availability:*** Reports are primarily for internal use or for submission to appropriate Government entities and outside auditors. Smithsonian Year is made available to the public.

Agency Contact: Smithsonian Institution; 1000 Jefferson Dr. SW, SI Bldg., Room 408, Washington, DC 20560; (202) 381-6391.

S05600-003

Smithsonian Science Information Exchange, Inc. (SSIE). S05600-003.
OMB Funding Title/Code: Science Information Exchange / 33-0103-0-1-251.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on *House* Administration; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Information Services; Research; Research and Development.

Purpose: SSIE operates and maintains a national data base of information on research in progress. The Exchange attempts to provide as comprehensive and as timely an information resource as possible in order to assist the Nation's research community in avoiding unwarranted duplication of research, enhancing scientific communication, and improving research management. ***Input:*** Notices of Research Project (NRP) are collected from more than 1,300 organizations which support or conduct research. These include all agencies of the Federal Government as well as major foundations, fundraising organizations, universities, and State and local governments. Some foreign organizations which support research in areas of high national concern, such as cancer and energy, also register their research with SSIE on a regular basis. ***Content:*** Each NRP provides information on "who" is conducting "what" research, "when" and "where" the research is intended to be carried out, and under "whose" support. Project records in the system cover research being conducted in every State in the Union. They are updated annually and are retained on file for up to two years after completion. Some 120,000 project descriptions are processed into the data base each year. These cover basic and applied research in all areas of the life, physical, social, behavioral, and engineering sciences. SSIE project descriptions are prepared in most cases by principal investigators. Each NRP contains a brief technical summary of the work to be performed in addition to essential administrative information such as project title; principal and co-investigator names; period covered by the project record; names of performing and supporting organizations; performing organization addresses; and, in some cases, project funding. ***Output:*** SSIE produces published information products in the form of inventories of ongoing research in specific fields of science such as cancer research, water resources, and environmental research. Some of these are compiled on an annual basis. All are made available to the public through either the Government Printing Office or the National Technical Information Service. The Exchange offers access to subsets of the data base in magnetic tape form under individual leasing arrangements. SSIE also conducts searches of the file in specific areas, by subject, performing or supporting organization, or any combination of subject and administrative search criteria. These searches are performed for a modest fee. The data base is also available for on-line access through the SDC Search Service offered by the System Development Corporation of Santa Monica, CA. ***Availability:*** All SSIE products and services are publicly available at published fees.

Agency Contact: Smithsonian Science Information Exchange, Inc.; 1730 M St. NW, Suite 300, Washington, DC 20036; (202) 381-4271.

S05600-004

Smithsonian Institution Libraries (SIL).
OMB Funding Title/Code: Salaries and Expenses / 33-0100-0-1-503.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on *House* Administration; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Anthropology; Archives; Arts; Aviation History; Biology; Geology; Information Services; Libraries; Science; Technology

Purpose: SIL collects and provides access to library materials which support research, exhibit, and curatorial programs in art, history, science, and technology. The collections created primarily serve historians, scientific researchers, exhibits specialists, and curators, who make up the staff of the Smithsonian, as well as visiting scholars and researchers. The Libraries are a decentralized service delivery system, composed of libraries which emphasize subject specialties and focus on the programs of individual museums and research bureaus of the Smithsonian. These are supported by centralized reference and circulation, acquisitions, cataloging, and conservation services. SIL maintains close contact with the Library of Congress and other Federal libraries to avoid duplication and maximize effectiveness. ***Input:*** Information is collected on a worldwide basis in the form of published materials determined to be relevant to the art, history, science, and technology programs of the Smithsonian or specifically required to support a current research project. Materials collected include reports, proceedings, bulletins, annual reports, and other publications of museums, galleries, learned societies, and other national and international organizations engaged in research and curation. ***Content:*** The collections include primary and secondary source materials most of which are in book form. Significant subject specialties include systematic and evolutionary biology, anthropology, geological sciences, aviation history, American culture, the history of art and design, and the history of science and technology. Special features of the collections include an extensive historical collection of manufacturers' trade catalogs and the Dibner Collection of rare materials in the history of science and technology. ***Output:*** SIL maintains a union catalog of its bibliographic holdings which provides access to the intellectual content of the collections. This catalog is in card format and can only be queried manually. Output is normally in the form of information given to the requestor verbally or through access provided to relevant materials for use onsite or through interlibrary loan. ***Availability:*** The collection is primarily intended for use by staff and official visitors, but every effort is made to accommodate anyone engaged in serious research

Agency Contact: Smithsonian Institution Libraries; Natural History Bldg., Room 24, Washington, DC 20560; (202) 381-5496.

TENNESSEE VALLEY AUTHORITY

S05700-001

Bookkeeping System.

OMB Funding Title/Code: Tennessee Valley Authority Fund / 64-4110-0-3-301.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Environment and Public Works.

Subject Terms: Accounting; Budget Information Systems; Management Information Systems; Resource Allocation.

Purpose: The system accumulates accounting data and prepares internal reports for accounting and for management to plan, monitor, and control expenditures. ***Input:*** All internal organizations provide source data. Major input data are distribution of receivables and payments. ***Content:*** The system provides information that is necessary to prepare and support balance sheets and income statements for TVA on a monthly basis. ***Output:*** Output includes statement of expenditures by organizations-fiscal year budget allocations are included; financial statement, volume I-corporate type balance sheet and statement of operations and funds and supporting schedules; and financial statement, volume II-budget and related fiscal information. Output is hardcopy and prepared monthly. ***Availability:*** Information is prepared for internal use.

Agency Contact: Division of Finance; Tennessee Valley Authority, Knoxville, TN; (615) 632-3291.

S05700-002

World Fertilizer Market Information System.

OMB Funding Title/Code: Tennessee Valley Authority Fund / 64-4110-0-3-301.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Environment and Public Works.

Subject Terms: Agricultural Chemicals; Fertilizers; Inventories.

Purpose: The system provides the world fertilizer industry with detailed data and analyses of fertilizer market trends and new developments. ***Input:*** Data on fertilizer production units and distribution and marketing facilities are collected from published and unpublished sources. Data collected by other agencies, such as USDA, Bureau of Mines, Trade Commission, Bureau of Census, and FAO, are included for analysis and interpretation. ***Content:*** This system consists of two files: 1) World Fertilizer Production Capacity-A worldwide inventory of current and future fertilizer production units cataloged by company name, location, product and capacity, current plant status, and scheduled years of operation for projected new units. All major fertilizer materials are included along with raw materials essential for the manufacture of fertilizers. Time period is 1967-80 and the file is updated weekly. 2) Annual World Fertilizer Production, Consumption, and Trade-This file includes world fertilizer production, consumption, export, and import statistics by product and country for the years 1962-75. This file is updated annually. ***Output:*** The principal output of this system is two biennial publications Fertilizer Trends and World Fertilizer Market Review and Outlook. Output can be punched card, tape, hardcopy, or CRT display. ***Availability:*** Information is publicly available from TVA-NFDC. All information is available through a commercial computer time-sharing direct file access system as well.

Agency Contact: National Fertilizer Development Center; Muscle Shoals, AL 35660; (205) 383-4631.

S05700-003

Planning and Budgeting System.

OMB Funding Title/Code: Tennessee Valley Authority Fund / 64-4110-0-3-301.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Environment and Public Works.

Subject Terms: Budget Information Systems; Planning; Resource Allocation.

Purpose: The purpose of the system is to plan, fund, and control the implementation of TVA program operations. ***Input:*** All internal organizations provide source data. ***Content:*** The planning and budgeting system encompasses the entire TVA program operations. The time cycle is on an annual basis with a 5-year future projection. Major categories of data include program goals, objectives, accounts, amounts, and fiscal years. ***Output:*** The principal output is the Tennessee Valley Authority Program Budget and Budget Estimates Submission to OMB. ***Availability:*** Information is for internal governmental use.

Agency Contact: Office of the General Manager; Tennessee Valley Authority, 400 Commerce Ave., E12C28 C, Knoxville, TN 37902; FTS 852-3100.

S05700-004

Electric Sales Statistics.

OMB Funding Title/Code: Tennessee Valley Authority Fund / 64-4110-0-3-301.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Environment and Public Works.

Subject Terms: Electric Power; Powerplants; Public Utility Rates; Sales.

Purpose: This information is utilized in planning and management of the TVA power system. Primary uses are power load forecasting, TVA power rate analysis, and internal reporting. ***Input:*** Data are from accounting records of TVA power distributors and TVA financial records. ***Content:*** This system contains electric power sales statistics that aid in the management of the TVA electric power system. These statistics are also used by the power distributors for management purposes. The following types of information are maintained: Sales by rate and class, use by residential and commercial and industrial users by levels of energy use, and TVA sales by delivery points to the 160 power distributors and 50 industries and Federal agencies. ***Output:*** A variety of monthly statistical summaries (hardcopy, magnetic tape) are produced. ***Availability:*** Information is publicly available.

Agency Contact: Division of Power Utilization; Tennessee Valley Authority, Room 719, Power Building, Chattanooga, TN 37401; (615) 755-2346.

ARMS CONTROL AND DISARMAMENT AGENCY

S05800-001

Budget and Fiscal System. ACDA-1.

OMB Funding Title/Code: Arms Control and Disarmament Activities / 94-0100-0-1-152.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

ubject Terms: Budget Information Systems, Financial Management.

Purpose: The ACDA Budget and Fiscal System is designed to produce the Agency's annual budget request, facilitate and control the legal management of all funds appropriated to the Agency, and provide fiscal data revealing current condition, trends, etc., of Agency activities to top management. *Input:* Sources of information are obligating and expenditure documents of all types, including payrolls and external research contracts. *Content:* Subject matter includes all activities and functions of the Agency which involve the projected and actual expenditure of funds: Travel, salaries and related expenses, supplies and materials, rent, equipment, communications, printing, and other services. Data/information coverage includes support of the Strategic Arms Limitation Talks (SALT), negotiations on Mutual and Balanced Force Reductions in Europe, nuclear test limitations, nonproliferation of nuclear weapons, conventional arms transfers, world military expenditures, and other arms control policies, measures, and negotiations. Time reference is the fiscal year, October 1 through September 30. Geographic coverage is Washington, DC, Geneva, Switzerland, and other possible negotiating or conference sites. Accounting and budget data are maintained under agreement with the General Services Administration. Analyses, internal reports, budget preparation, and presentation are handled by a small Agency staff. *Output:* Annual ACDA, OMB, and congressional budget requests in hardcopy and miscellaneous internal fiscal and budget reports are produced. *Availability:* Budget requests are publicly available when incorporated into and published with the President's Annual Budget. The source for the document is GPO. Other output is restricted to internal use.

gency Contact: Budget and Fiscal Office, 321 21st St. NW, ashington, DC 20451; (202) 235-9788.

05800-002

World Military Expenditures and Arms Transfers (WMEAT). CDA-2.

MB Funding Title/Code: Arms Control and Disarmament Activies / 94-0100-0-1-152.

ongressional Relevance: *House* Committee on Appropriations: tate, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *enate* Committee on Foreign Relations.

bject Terms: Arms Sales, Military Expenditures; Weapons.

Purpose: WMEAT is an annual publication which includes data r the previous 10 years for all countries in the world covering ilitary expenditures and arms imports and exports. These data are pdated and revised annually. WMEAT has a computer data base hich can be used for data analysis and to answer data queries from her agencies and the public. WMEAT is one means of fulfilling CDA's mandate to provide information to the executive and legistive branches of Government on arms control. *Input:* Most military expenditure and arms transfer data are obtained from the epartment of Defense, economic data from the World Bank and the epartment of Commerce, and population data from the Census ureau. *Content:* Subject matter includes GNP, military expenditre, population, arms imports, arms exports, and size of armed rces. Data are provided for each individual country in the world d are also aggregated to regional, alliance, group, and world levels. ata are provided over a 10-year time series for each variable. Each ar the 10-year series is moved ahead one year. Data for the newly ded year are provided, and revisions are made in the whole 10-year ries when appropriate. *Output:* World Military Expenditures and rms Transfers is an annual GPO publication. Data in the WMEAT stem are also used in reports to Congress; in various presentations, emoranda, tables, and vue-graphs; and in response to inquiries from vernmental and private groups or individuals. WMEAT can provide immediate computer-printed copies of the data in various forms hen queried. *Availability:* World Military Expenditures and Arms ansfers, 1966-1975 is publicly available from GPO.

Agency Contact: Arms Transfer Division; 320 21st St. NW, Washington, DC 20451; (202) 632-0613.

S05800-003

ACDA Contract and Reimbursable Agreement Retrieval System. ACDA-3.

OMB Funding Title/Code: Arms Control and Disarmament Activities / 94-0100-0-1-152.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Contractors; Contracts; Government Procurement; Procurement.

Purpose: The ACDA Contract and Reimbursable Agreement Retrieval System is designed to produce reports on pertinent information on Agency contracts and reimbursable agreements which have been obligated and awarded in excess of $10,000. Monthly reports on status of completion support the contract unit in contract administration functions. Reports and/or specific information are produced to respond to various quarterly, biannual, and annual Government procurement reporting requirements. Reports are produced to respond to congressional hearings, Freedom of Information requests, and various agency requirements. *Input:* Sources of information are contracts, reimbursable agreements, procurement regulations and laws, contractors, and Government agency proposals. *Content:* The content includes names and addresses of each contractor and Government agency; title of project; date of award; agency research or other category; fiscal year; amount of contract or agreement obligated; agency bureau or office; state of completeness, type of contract; type of organization; labor surplus area information; large, small, or minority business data; negotiation authority; industrial security program; extent of competition; equipment to be delivered; and applicability to Cost Accounting Standards. In addition, the Reimbursable Agreement system includes data on work being performed in-house or by Government agency external contractors. *Output:* The principal reports are: 1) Monthly status of completion report (machine-readable); 2) biannual information on labor surplus areas and small, large, and minority business concerns (query capability, machine-readable); 3) as requested, alphabetical and chronological reports for congressional hearings (machine-readable); 4) as requested, research category reports for congressional hearings and OMB requests (machine-readable); and 5) not less frequently than bimonthly, alphabetical and chronological reports for internal Agency use. *Availability:* While available to Congress and the public through the Agency, most output is for internal Agency use.

Agency Contact: Contracting Office; 320 21st St. NW, Washington, DC 20451; (202) 632-0450.

S05800-004

Documents on Disarmament. ACDA-4.

OMB Funding Title/Code: Arms Control and Disarmament Activities / 94-0100-0-1-152.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Arms Control, International Relations, Negotiations, Nuclear Proliferation, Nuclear Testing.

Purpose: Documents on Disarmament is an annual published volume of basic documents on arms control and disarmament developments. It is for the use of ACDA and other Government officials, private scholars, and other persons interested in the subject. *Input:* The input includes all types of unclassified documents (reports, statements, addresses, and papers) dealing with the formulation of arms control policy and the conduct of international negotiations on arms

control and disarmament. *Content:* The scope includes all arms control and disarmament matters: Strategic Arms Limitation Talks (SALT), Mutual and Balanced Force Reductions talks (MBFR), nuclear test limitations, nonproliferation of nuclear weapons, conventional arms limitations, and military expenditures limitations. It covers negotiations in Geneva, Vienna, and New York as well as bilateral negotiations. The document applies to one calendar year. *Output:* Documents on Disarmament, an annual published volume, is the output. *Availability:* The document is available at the Government Printing Office.

Agency Contact: Office of Public Affairs; 320 21st St. NW, Washington, DC 20451; (202) 235-9798.

CIVIL SERVICE COMMISSION

S05900-001

The Library.

OMB Funding Title Code: Salaries and Expenses / 24-0100-0-1-805.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Bibliographies; Information Services; Libraries; Personnel Management

Purpose: The Library provides bibliographic support to the Agency by maintaining current and retrospective materials in Federal personnel administration and related subject fields. *Input:* The materials include books, journals, dissertations, unpublished papers, and Government documents. *Content:* The system's content includes data on public administration, general management, political science, education and training, psychology, and sociology. A legislative reference collection includes selected bills, reports, hearings, documents, public laws, and basic legislative reference books. *Output:* The Library provides a current awareness program through the monthly publication, Personnel Literature, the daily Congressional Record Digest, and subject bibliographies in the Personnel Bibliography Series. *Availability:* Output is publicly available.

Agency Contact: Civil Service Commission; 1900 E St. NW, Washington, DC 20415; (202) 632-4432.

S05904-0/1

Labor Agreement Information Retrieval System (LAIRS).

OMB Funding Title/Code: Salaries and Expenses / 24-0100-0-1-805.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Arbitration; Collective Bargaining in Government; Federal Employees; Information Storage and Retrieval; Labor Management Relations

Purpose: This system is an automated index and data base for retrieval of information and statistics on various labor management contracts between agencies of the Federal Government and unions representing Federal employees. *Input:* The text of the contracts is maintained in microfiche files which are indexed by computer, thus making specific clauses of interest quickly accessible to interested parties. A terminal at the central office of CSC is connected to a computer in El Segundo, CA, which contains the data base of 3,800 records. *Content:* Content includes management rights (GP), supervisor's role, management grievance procedures, arbitration provisions, number of arbitrators, arbitrator selection procedures, payment of arbitration fees, type of arbitration, scope of arbitration authority, and arbitration exclusions. *Output:* Indexes and/or hard-copy of microfiche texts are generated as needed. *Availability:* Output is available upon request through the CSC Office of Labor Management Relations or other Federal agency headquarters.

Agency Contact: Assistant Director for Information Services; 1900 E St. NW, Washington, DC 20415; (202) 632-9878.

S05908-001

Automated Personnel Registers.

OMB Funding Title/Code: Salaries and Expenses / 24-0100-0-1-805.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Civil Service System; Examinations; Federal Employees; Personnel Records

Purpose: The system maintains automated personnel registers for the various Federal examinations. *Input:* The input consists of examinations for Federal employment. *Content:* Data elements include test scores; rating of education and experience; preparation of notice of rating; index and punch cards for area offices; and statistics and listings on competitors. Examination papers are scored, and scores and other applicant information are entered into the computer system. Ratings for 12 categories are developed on the applicant and sent to the appropriate area office in the desired format (magnetic tape or punched cards). The data are sent from a terminal at CSC, to the Washington, Philadelphia, and St. Louis area offices. Data elements include application processing; letters of acceptance, examination record cards, punched register cards, magnetic tape file; nationwide file on all competitors centrally processed; and statistical reports. A register of all GS-13-15 applicants provides nationwide certification. It maintains a history of the number of referrals for an applicant. *Output:* The principal output is quarterly reports on the number of applicants available by grade, age, sex, and occupation. Quarterly reports on appointments and a report tabulating the number of Schedule C positions and listing vacant positions are also produced. *Availability:* Output is available through the Agency on request.

Agency Contact: Office of Examining Systems Development; 1900 E St. NW, Washington, DC 20415; (202) 254-3075.

S05909-001

Retiree Annuitant System.

OMB Funding Title/Code: Government Payment for Annuitants, Employees Health Benefits / 24-0206-0-1-551; Payment to Civil Services Retirement and Disability Fund / 24-0200-0-1-805; Civil Service Retirement and Disability Fund / 24-8135-0-7-602; Employees Life Insurance Funds / 24-8424-0-8-602; Employees Health Benefits Fund / 24-8440-0-8-551; Retired Employees Health Benefits Fund / 24-8445-0-8-551.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Annuities; Civil Service Pensions; Federal Employees; Pensions; Retirement Income

Purpose: The purpose of the Retiree Annuitant System is to maintain all necessary records of Federal retirees and/or their survivors and to produce monthly annuity checks for them. *Content:* The system contains a master file, change file, withholdings file, waiver master file, home address file, due later file, and survivor file. There are also files for the accumulation of reports data and for control purposes. *Output:* The basic monthly output of the system is a series of tape files for the Department of the Treasury to use in printing the annuity checks. Other output includes pay data, insurance, health benefits, tax withholding, and control reports. *Availability:* The output is available from the Department of the Treasury by request to the Bureau of Retirement, Insurance, and Occupational Health.

Agency Contact: Systems Development Division; 1900 E St. NW, Washington, DC 20415; (202) 632-7450.

S05911-001

Clearinghouse on Productivity and Organizational Effectiveness.
OMB Funding Title/Code: Salaries and Expenses / 24-0100-0-1-805.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Federal Employees; Information Services; Personnel Management; Productivity in Government; Public Administration.

Purpose: The information function of the Clearinghouse on Productivity and Organizational Effectiveness draws heavily on the resources of the Civil Service Commission's professional staff and library to provide productivity information. ***Input:*** Presently, the Clearinghouse provides information and technical assistance in a number of ways. When inquiries are received, they are directed to the specialists in the office whose knowledge and experience make them the best persons to respond to the request. Information is provided by experts, therefore, and not by a generalist operating a data bank. Information is communicated by telephone, in writing, by mailing actual source documents, face-to-face, and by referring inquiries to the appropriate people. A writer-editor coordinates most of the responses and performs literature and reference searches when the inquiry requires. ***Content:*** The Clearinghouse has established a working arrangement with the CSC Library to complement its own resources, so that its data base has been expanded by virtue of the extensive and comprehensive resources of the library. Beyond what information or technical assistance is available in the Clearinghouse requests are often referred to the library or to actual sources. The writer-editor is responsible for insuring that the resources of the library are made known and used. The Clearinghouse is preparing a series of Resource Application Packets drawn from the sources in the library to routinely mail to its audiences and to disseminate in response to requests. The packets consist of bibliographic citations, comprehensive abstracts, and actual samples of selected sources. They focus on only one subtopic of productivity at a time and are designed to be of use to Government practitioners. As of September 1976, the Clearinghouse had developed three such packets: Performance Evaluation, Position Management, and Work Measurement. The Clearinghouse insures that the library stores and catalogs the proper sources on productivity, influencing what the library orders and holds on its shelves. The library provides to the Clearinghouse audiences and to the public at large a monthly listing of new publications and periodicals through its Personnel Literature series. Consequently, this is another source of information besides the Resource Application Packet. ***Output:*** The Resource Application Packet is the only publication produced regularly by the Clearinghouse. However, the writer-editor prepares pertinent articles for existing trade journals and productivity newsletters. The Clearinghouse also routinely makes blanket mailings of new documents and publications for its audiences. ***Availability:*** Information is available on request.

Agency Contact: Clearinghouse on Productivity and Operational Effectiveness; 1900 E St. NW, Washington, DC 20415; (202) 632-3824.

S05911-002

System for Evaluation of Agency Statistics.
OMB Funding Title/Code: Salaries and Expenses / 24-0100-0-1-805.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Agency Evaluation; Federal Employees, Personnel Management, Program Evaluation.

Purpose: This system is used for recording, maintaining, and reporting statistics on agency evaluations. ***Input:*** Statistics are gathered during CSC evaluation visits at approximately 750 Government installations per year. Input is derived from CSC Form 1045 and is recorded and maintained on punched cards. ***Content:*** Data elements include agency name and location, team composition, participants at opening and closing of session, type of leadership and review, total employees at installation, type employee reviewed (GS, WG, Other), and program coverage. ***Output:*** The system produces a quarterly report for use by the Bureau of Personnel Management Evaluation. ***Availability:*** Information is available from CSC's Bureau of Personnel Management Evaluation.

Agency Contact: Bureau of Personnel Management Evaluation; 1900 E St. NW, Washington, DC 20415; (202) 632-4540.

S05911-003

Agency Equal Employment Evaluation System.
OMB Funding Title/Code: Salaries and Expenses / 24-0100-0-1-805.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Discrimination in Employment; Equal Employment Opportunity; Federal Employees; Personnel Management.

Purpose: This system is used for input preparation, item analysis, and selected sorts for approximately 100 to 150 EEO questionnaire surveys annually. ***Input:*** Input includes CSC Form 1165. Maintenance is performed on magnetic tape on up to 30,000 questionnaires annually. Factor analysis, correlations, and percentile analysis are performed on all questionnaire surveys processed. ***Content:*** Data elements consist of multiple choice replies to questions related to discrimination in the work situation. ***Output:*** Reports are produced on percentage of positive and negative responses and percentages against a mean and standard unit deviation table. ***Availability:*** The information is for use within the Bureau of Personnel Management Evaluation.

Agency Contact: Analysis and Development Division; 1900 E St. NW, Washington, DC 20415; (202) 632-4473.

S05914-001

Accounting, Financial Management, and Unified Planning Systems.
OMB Funding Title/Code: Salaries and Expenses / 24-0100-0-1-805, Federal Labor Relations Council, Salaries and Expenses / 48-0609-0-1-805; Intergovernmental Personnel Assistance / 24-0300-0-1-806; Revolving Fund / 24-4571-0-4-805.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee, *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Accounting; Financial Management; Planning.

Purpose: This is a financial management planning and control system which provides effective financial support to all Commission activities and meetings in its policies, procedures, and requirements, the external demands of law; SAO regulations; Treasury fiscal requirements; and OMB directives. ***Input:*** Data sources include the budget system, payroll system, work reporting system, budget and accrual input, payment input from 10 regional budget and accounting offices, and the central office. Payments are recorded by object class and geographic location. ***Content:*** Obligations and expenditures are recorded by fiscal year with updating on a 4-week accounting period. Expenditures are recorded in accordance with GSA geographic location codes. ***Output:*** Every four weeks the system produces hard-

copy, machine-generated work reports, accounting data, and output on status of allotments, status of costs, and obligations. ***Availability:*** These are publicly available through agency distribution.

Agency Contact: Budget and Finance Division; 1900 E St. NW, Washington, DC 20415; (202) 632-6161.

S05915-001

Federal Personnel Management Information System (FPMIS).
OMB Funding Title/Code: Salaries and Expenses / 24-0100-0-1-805.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Civilian Personnel; Civil Service System; Federal Employees; Management Information Systems; Personnel Management; Personnel Records.

Purpose: FPMIS is being developed by teams of Civil Service Commission and agency analysts to provide information on the Federal civilian work force to the President, to the Congress, to the general public, and to program managers and officials in the Commission, OMB, and other Federal central management and line agencies, and to promote more timely and effective processing of personnel actions at a reduced unit cost throughout the Federal Government. ***Input:*** Data to establish and maintain the data base at the Civil Service Commission will be furnished by Federal agencies from personnel action, training, labor management relations, appeals, grievances, and other documentation. ***Content:*** The content of the FPMIS data base at the Civil Service Commission has not been determined at this time. However, it is anticipated that FPMIS will build on the present Central Personnel Data File (CPDF) which includes items such as name, social security number, date of birth, grade, step, salary, minority group designator, and geographic location code. It may also include data on leave, labor organization membership, union contracts, grievances, appeals hearings, positions, incentive awards, employee suggestions, and other areas generally associated with the manpower management function. Update cycles have not been determined, but they will probably vary between subsystems. ***Output:*** FPMIS as a minimum is expected to provide either on a regularly scheduled or on an ad hoc basis the output now produced by the Central Personnel Data File (CPDF) and to have the capability to provide output on hardcopy, magnetic tape, punchcards, microfiche, microfilm, and CRT. Requirements for output beyond what is currently provided by CPDF have not been determined. ***Availability:*** Civil Service Commission reports will be available to the central management and other Government agencies, Congress, and the general public as required. Output identifying individuals will be released in accordance with the Privacy Act of 1974 (5 U.S.C. 552a).

Agency Contact: Civil Service Commission; 1900 E St. NW, Washington, DC 20415; (202) 254-7795.

S05915-002

Central Personnel Data File (CPDF).
OMB Funding Title/Code: Salaries and Expenses / 24-0100-0-1-805.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Civilian Personnel; Civil Service System; Federal Employees; Management Information Systems; Manpower; Personnel Management; Personnel Records.

Purpose: The Central Personnel Data File (CPDF) is used for the generation of many monthly, quarterly, and annual statistical reports on Governmentwide personnel information. Many reports are generated also as a result of requests for special studies. The system is used by most of the bureaus in the Civil Service Commission, CSC regional offices, other Federal agencies, the Congress, and the general public. ***Input:*** The system receives personnel action, training, and certain personnel serving or have previously served under competitive full-time career transactions are used to update a master file of data covering most active Federal civilian employees. ***Content:*** CPDF data content includes items such as name, social security number, date of birth, grade, step, salary, minority group designator, and geographic information, current and prior work experience, personal preferences,. ***Output:*** CPDF generates reports on status of work force employed by the legislative branch; number of full-time permanent Federal employees; CS retirement and FEGLI current status coverage; CSR grade and step; occupational distribution by category series and grade for employees; white and blue collar hires and separations; and grade and step distribution. ***Availability:*** The reports are available to central management and other Government agencies, Congress, and the general public as required.

Agency Contact: Bureau of Manpower Information Systems; 1900 E St. NW, Washington, DC 20415; (202) 632-6808.

S05915-003

Federal Automated Career System (FACS).
OMB Funding Title/Code: Salaries and Expenses / 24-0100-0-1-805.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Civil Service System; Federal Employees; Management Information Systems; Personnel Management; Personnel Records.

Purpose: The Federal Automated Career System (FACS) is a CSC program designed to assist agencies in meeting their staffing needs. FACS is a centralized computer-based skills inventory covering career Federal employees at certain key grade levels and in certain occupational groups. It is a system of identifying, through advanced computer techniques, persons for filling specific job vacancies. ***Input:*** FACS includes records of most current Federal employees who are now serving or have previously served under competitive full-time career or career-conditional appointments in selected occupations and grade levels. ***Content:*** There are over 80 searchable fields or unique elements of information in an individual's record. These elements are grouped by identification information, current and prior work experience, personal preferences, education, training, and special qualifications. This allows FACS to be very detailed in its search requirements. In addition, the system permits combining any of these searchable fields in any logical sequence to obtain optimum results. ***Output:*** Search and retrieval of employee records meeting selective criteria in the following occupations and grade levels are provided: Personnel Management and Industrial Relations, GS-11/14; General Administration, GS-13/14; Finance and Accounting, GS-13/14; Architecture and Engineering, GS-13/14; Business and Industry, GS-13/14; and Mathematics and Statistics, GS-13/14. ***Availability:*** When a vacancy occurs, an authorized agency official may telephone the request to the FACS control unit, make a request by mail, or come to the FACS desk in person for search requirements.

Agency Contact: Bureau of Manpower Information Systems; 1900 E St. NW, Washington, DC 20415; (202) 632-6808

S05915-004

Federal Executive Assignment System (FEIS).
OMB Funding Title/Code: Salaries and Expenses / 24-0100-0-1-805.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Executives; Federal Employees; Personnel Records.

Purpose: The Federal Executive Inventory System (FEIS) was established to make available to agency heads the most capable executives throughout the Federal service when they are making assignments at grades GS-16, 17, and 18; provide the comprehensive data necessary for more effective planning in the executive manpower area; and give outstanding executives expanded opportunities to use their talents throughout the Government. *Input:* All employees in grades GS-15 and above are required to complete SF-161. Data from this form are keypunched into 30 to 54 cards. *Content:* The Screening File contains a condensed record of coded information on each person in the system. The Master Inventory File contains full records (the coded information in the Screening File plus translations of certain codes and some free-form information). The Working Master File contains everything in the master except the translations. *Output:* Search criteria are divided into mandatory and desirable items and are run against the screening file. Selections are ...wed against BEM (Bureau of Executive Manpower of the Civil Service Commission) and narrowed down until a referral selection list is ready. A complete printout is then sent to the requesting agency. *Availability:* When a supergrade career position is to be filled, agencies must request a referral list from the Bureau of Executive Manpower (BEM) and consider their own internal merit promotion plans.

Agency Contact: Bureau of Manpower Information Systems; 1900 E St. NW, Washington, DC 20415; (202) 632-6808.

S05915-005

Data Base Master Plan.

OMB Funding Title/Code: Salaries and Expenses / 24-0100-0-1-805.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Data Bases; Electronic Data Processing; Information Storage and Retrieval; System Management.

Purpose: This document presents a plan to establish a data base environment for the Civil Service Commission's data processing. It establishes an approach to converting the present tape-oriented system and proposed disk-oriented systems into the new environment. *Content:* The plan discusses the need for data standardization, the elimination of data redundancy, the features required in a Data Base Management System, and a Transaction Handler. *Output:* An integrated data base design and a system-by-system implementation plan are shown. *Availability:* Output is available on request.

Agency Contact: Civil Service Commission; 1900 E St. NW, Washington, DC 20415.

S05917-001

Merit System Review of State and Local Agencies.

OMB Funding Title/Code: Intergovernmental Personnel Assistance/ 24-0300-0-1-806.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Civil Service System; Employment Statistics; Federal Employees; Government Employees; Intergovernmental Relations; Local Governments; Personnel Management; State Governments.

Purpose: The Merit System Review of State and Local Agencies is used by the Bureau of Intergovernmental Personnel Programs to generate an annual compilation of personnel statistics. *Input:* Data are received from State and local agencies on accessions, separations, employment, costs, classification actions, promotions, and related data. *Content:* System data elements include number of employees in various categories, amount expended, number of appeals by type of appeal, number of applicants by type of examination, number of selection devices, number of test centers, sources of test materials, disposition of appeals, number of accessions by type of appointment, and number of separations by type. *Output:* Merit System Reports and Grant System Reports are provided. *Availability:* The information is available from the Bureau of Intergovernmental Personnel Programs and the Bureau of Policies and Standards.

Agency Contact: Office of Evaluation and Program Management; 1900 E St. NW, Washington, DC 20415; (202) 632-6892.

S05917-002

Equal Employment Opportunity Statistics on State and Local Governments Employees System.

OMB Funding Title/Code: Intergovernmental Personnel Assistance/ 24-0300-0-1-806.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Discrimination in Employment; Employment Statistics; Equal Employment Opportunity; Government Employees; Intergovernmental Relations; Local Governments; State Governments.

Purpose: This system compiles EEO data on State and local government employment statistics. *Input:* Data are received from State and local agencies on accessions, separations, employment, costs, classification actions, and promotions. *Content:* System data elements include type of jurisdiction (State, county, city); function (public welfare, health, or employment security); and number of minorities by minority, sex, and occupational group. *Output:* Reports describe total employees by jurisdiction, total employees by occupations, percentage of employees by ethnic group, and percentage of employees by jurisdiction. *Availability:* This information is available fro... the Bureau of Intergovernmental Personnel Programs and the Bureau of Policies and Standards.

Agency Contact: Office of Evaluation and Program Management; 1900 E St. NW, Washington, DC 20415; (202) 632-6892.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

S06000-001

Financial Information System. 383; 384; 385.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-053; Operating Expenses / 89-0100-0-1-251; Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Armed Services; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Accounting; Budget Information Systems; Financial Management.

Purpose: The system is the primary financial information collection and dissemination mechanism for the Agency. *Input:* The input includes congressional actions, OMB budget decisions, field financial reports, field and headquarters financial plans, program financial status information, and manpower management reports (contractor). *Content:* The financial management system is composed of two primary modules-the accounting module and the budgeting module. The accounting and budgeting modules are interfaced to provide

comparisons of actual costs with financial plan estimates. This provides a tool for measuring performance by month. The interface enables much of the past year actual data to be recast into the new budget structure by machine. Data in these modules are organized in a programmatic rather than object class or special analysis structure. The accounting module is designed to collect and disseminate cost and obligation data at varying levels by budget and reporting classification, reporting organization, contractor, and location. The budgeting module is essentially made up of two major submodules–budget formulation and budget execution. Budget execution is built around the Financial Plan, a document which provides guidance and ceilings on costs and obligations at various reporting levels. Each office or organization which receives an allotment also receives a financial plan to provide guidance in expending the allotment. Since ERDA receives two appropriations (one for operating expenses and one for plant and capital equipment), each program is actually controlled by two financial plans. Both financial plans are computer-generated and contain only current year data. The financial plan is organized by office, organization, and program. The operating expenses financial plan is maintained on a cost and obligations basis, while the plant and capital equipment financial plan is on an obligational basis. Budget formulation is primarily a manual system. Budget schedules show a 3-year spread (past year actuals, current year estimates, and budget year estimates) for comparison purposes. Since the budget structure changes somewhat from year to year, past year actuals and the current year estimates are recast into the new budget year structure for comparability. Special analyses of the budget data are also prepared as are certain crosscuts which emphasize computers, laboratories, and personnel. *Output:* The principal output consists of Budget Status Tables, Financial Plans (Cost and Obligation), Manpower Reports (Contractor), Obligation and Cost Accounting Reports (Actual Vs. Planned), and Treasury Schedules and Reports. *Availability:* Output is generally for internal use only.

Agency Contact: Office of the Controller; 20 Massachusetts Ave. NW, Room C-207, Washington, DC 20545; (202) 353-5002.

S06000-002

National Solar Heating and Cooling Information Center. Energy (305).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Cooling Systems; Heating Systems; Information Centers; Solar Cooling; Solar Heating.

Purpose: The National Solar Heating and Cooling Information Center was established by the Department of Housing and Urban Development in cooperation with the Energy Research and Development Administration under provisions of Public Law 93-409, to help make everyone aware of the practical feasibility of solar energy and to encourage the public and industry to consider solar energy systems for houses and commercial buildings. *Input:* Information and data (e.g., reports, studies, proposals, grants) from HUD and ERDA laboratories and contractors, universities, consultants, and other contractors from both the public and private sector are sources of input. *Content:* Information is, or will be, available on such subjects as thermal energy for buildings, flat plate solar collectors, thermal storage systems, solar water heating, building heating systems, combined heating/cooling systems, collectors and component materials, focusing collectors, economic analysis of solar systems, and photovoltaic power generation. Other topical areas are electric power generation, methane production, agricultural applications, thermal radiation properties, and solar system models. The Center can provide locations of solar homes and offices for inspection, names of architects who specialize in solar design, builders with solar experience, solar equipment manufacturers, detailed scientific or technical findings, and comprehensive listings of books and periodicals on specific subjects. *Output:* Based on existing and new information from the ERDA Oak Ridge Technical Information Center, the NSH and CIC maintains or is developing a voluminous listing of state-of-the-art reports, periodicals, books, buyers' guides, and a directory of solar energy uses and users. Literature searches will be performed on request. The Center provides exhibits and the names of organizations that will furnish topical speakers. Information on grant applications (e.g., eligibility and timing for application submission) is available. The Center is establishing a centralized data bank of information. *Availability:* All data that are provided directly by the Center are unclassified, nonproprietary, and available to Government agencies, business and industry, and the general public without cost. Information provided by other sources available to the Center may have to be purchased.

Agency Contact: Division of Solar Energy; 20 Massachusetts Ave. NW, Washington, DC 20545; (202) 376-9482.

S06000-003

ERDA Headquarters Technical Library.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-053; Operating Expenses / 89-0100-0-1-251; Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Armed Services; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy; Information Services; Libraries.

Purpose: The ERDA Technical Library serves ERDA Headquarters personnel by providing the scientific and technical literature needed to support ERDA's mission. The library maintains an extensive collection of books, reports, public documents, and serials covering all energy-related areas. The library is open to the public, but materials must be used in the library or borrowed through established Interlibrary Loan procedures. *Input:* The input includes MARC (Machine-Readable Cataloging Applications Package); Unclassified Reports Listing program; Headquarters Report Index -2444; KWIC-KWOC (Key Word In Context - Key Word Out-of-Context); and Serial Information Control System (SICS). *Content:* The computerized system contains all books cataloged by the ERDA Library since mid-1974, and includes selected subject areas of L.C. MARC tapes, which are updated monthly. The number of all full size unclassified reports held by ERDA Library are reported and updated every six weeks. The titles and number of ERDA Headquarters reports are updated monthly (Word Processing). The KWOC Index of the titles of ERDA Headquarters reports is updated monthly. All subscriptions handled by the ERDA Library are updated monthly. *Output:* The output consists of: 1) Author-Title Book Catalog, Subject Book Catalog, KWIC Index to Book Catalog, Shelf List to Book Catalog - Selected Dissemination of Information output from MARC tapes; 2) Unclassified Reports List; 3) ERDA 76-41; 4) ERDA Headquarters Reports; and 5) Accessions and Holdings List, KWIC Index, Routing slips, Serial Expiration Report, Routing List by Journal, Publisher List, Routing List arranged by recipient, X Cards, Claim Letters, and Serial Expiration Letter. All output is hardcopy. *Availability:* Reports are available through NTIS Other output is for internal use.

Agency Contact: Division of Administrative Services; 20 Massachusetts Ave. NW., Washington, DC 20545; (202) 376-9015.

S06000-004

Energy Films Distribution. 75.
OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-053; Operating Expenses / 89-0100-0-1-251; Operating Expenses / 89-0100-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Armed Services; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Audiovisual Aids; Energy; Films.

Purpose: The purpose of the Energy Film Distribution System (EFD) is to provide teachers, broadcasters and program chairmen of schools, television stations, civic clubs, government and industrial organizations with a means to obtain educational and informational films as well as technical and professional films on energy and energy-related subjects. The EFD is an on-line film booking system which books written or oral requests for motion picture films up to a year in advance and generates appropriate forms and correspondence to confirm booking, daily listings of films to be mailed, mailing labels, a record of the return of films, and subsequent availability for dispatch, and statistics. Information recorded includes that identified on the enclosed form T1-234. ***Input:*** The input is schools, TV stations, civic clubs, Government, and industrial organizations. ***Content:*** This is an on-line film booking system which records the availability of educational films on energy and energy-related subjects. The system generates forms to confirm bookings, labels, a record of the return of films, and a daily listing of films to be mailed. ***Output:*** The system generates hardcopy correspondence forms to communicate with film requestors. It also produces status reports on the circulation of films. The frequency is daily. ***Availability:*** The films and related system products are available to the public.

Agency Contact: Technical Information Center, Oak Ridge, TN 37830; (615) 483-8611.

S06000-005

Liquid Metal Fast Breeder Reactor Plant Parameter Information System. 40.
OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Breeder Reactors; Liquid Metal Fast Breeder Reactors; Reactors.

Purpose: The system provides compilation of LMFBR reactor systems characteristics for use in making management decisions. Data input and retrieval are via an on-line computer system (System 2000). ***Input:*** The input is from the Division of Reactor Development and Demonstration, contractors, international agencies, and the Assistant Administrator for International Affairs. ***Content:*** This system is part of the overall LMFBR program of developing a broad technological and engineering base for the LMFBR with extensive utility and industrial involvement so that upon this base a capacity can be established for a competitive commercial breeder industry as a means for meeting national energy needs in the 1990's and beyond. One of the program's overall objectives is to achieve public acceptance of the LMFBR Power Generation System by demonstrating its inherent strategy, economic benefit, and environmental acceptability. ***Output:*** Output from the system is generally in hardcopy form via System 2000. The frequency of output is on an as-required basis. ***Availability:*** Output is generally restricted to internal use.

Agency Contact: Division of Reactor Development and Demonstration; 9700 S. Cass Ave., Argonne, IL 60439; (312) 739-7711.

S06000-006

Nuclear Material Management Plan. 41.
OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Inventories; Nuclear Materials.

Purpose: The system's purpose is the inventory and resource management of nuclear materials. ***Input:*** The input is from operation offices via contractors. ***Content:*** The major input document to the system (Form AEC 408) is concerned with the Quarterly Forecasts of Nuclear Material Requirements. Some of the information required on the input document is: Project Number, Project Title, and Material Type. This information is submitted to the system on an annual basis. ***Output:*** Output is generated annually and represents a summary of the input. ***Availability:*** Output is generally restricted to internal use.

Agency Contact: Waste, Production and Reprocessing; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-4128.

S06000-007

Reactor Information File. 289.
OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Electric Utilities; Nuclear Powerplants; Nuclear Reactors; Powerplants; Reactors.

Purpose: The Reactor Information File edits and processes parametric, cost, and schedular data received from electric utilities and other sources on civilian nuclear powerplant units. Computer printouts from RIF are used for preparation of ERDA publications ERDA-125, ERDA-30 and TID-8200, as well as reports, analyses, and information responses to other ERDA components, Congress, other agencies, industry, and the public. ***Input:*** The input comes from electric utilities having nuclear plants ordered or under construction and the Nuclear Regulatory Commission Offices of Public Affairs and Industry Relations. ***Content:*** The system interfaces with other systems which maintain information (including statistics) in the following areas with respect to central station nuclear powerplants: Number of plants announced, on order, under construction, operable, or terminated; schedules; capacity rating; costs; and operational history. ***Output:*** The output frequency is monthly, quarterly, or as required. Products of the system are sent to ERDA organizations, other agencies, industry and the public via Publications ERDA 125 and 30; and the Congress (Joint Committee on Atomic Energy and other energy-related committees) receives "update" which is a report on nuclear power. ***Availability:*** These are publicly available through ERDA distribution.

Agency Contact: Nuclear Energy Assessments; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-3748.

S06000-008

National Plan for Energy Research, Development, and Demonstration: Creating Energy Choices for the Future. 123.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Budget Information Systems; Energy Planning; Energy Policy; Energy Programs; Research and Development.

Purpose: The National Plan is published yearly in two volumes. Volume 1 presents the energy technology goals, Research, Development, and Demonstration (RD and D) priorities, implementation policies and required resources for the normative and strategic elements of ERDA's plan. Volume 2 details energy R and D activities which are supported in whole or in part by the Federal Government. It highlights specific program goals, objectives, strategies, schedules, problems, and expected results. The plan's primary purpose is to be used as a background for budget preparations and hearings. ***Input:*** The primary input to the plan comes from the ERDA Program Administrators and ERDA labs and research centers. Programs from other Federal agencies are also presented in Volume 2. ***Content:*** The documents are updated each year and present the national energy policies, plans and programs for the Federal Government. Volume 1 defines the national energy problem, presents the nature of its solution, and defines the roles of the private sector and ERDA and the other Federal agencies. The fundamentals of the plan, such as the national energy policy and technological goals, strategies, priorities and supporting technologies are discussed along with a presentation of the current year's energy R and D program. Volume 2 presents the following for each program: objectives, national energy goals it supports; strategy; Federal role; international cooperation; technological, institutional, and environmental status and problems; program implementation; and milestone charts. ***Output:*** The National Energy Plan is published yearly in two parts. These are Volume 1: The Plan; and Volume 2: Program Implementation. Both reports are sent to the President and the Congress early in the calendar year. ***Availability:*** The National Plan is available to the public from NTIS.

Agency Contact: Planning, Analysis, and Evaluation; 20 Massachusetts Ave. NW, Washington, DC 20545; (202) 376-4354.

S06000-009

Coupled Energy System - Economic Models. 465.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Econometric Models; Economic Impact; Energy Policy; Energy Supplies; Environmental Assessment; Forecasting; Simulation.

Purpose: The integrated energy system-economic models are used to evaluate the long run economic, energy, and environmental effects of various combinations of Government energy policies. These include policies relating to research, development, and demonstration of new energy supply, conversion, and end-use conservation technologies both in current and future time periods. ***Input:*** The integrated-uses economic portions of the system rely on largely historical data to project economic levels and inter-industry activity through the year 2000. Energy and technological parameters arise from exogenous forecasts of individual technologies and resources. Data Resources, Inc., Cambridge, MA, shares provision of economic data with the Brookhaven National Laboratory National Center for the Analysis of Energy Systems. The latter provides energy and technology data. ***Content:*** The integrated system consists of four models. The Data Resources Incorporated (DRI) Macroeconomic Growth Model is used to specify the annual values for the Gross National Product (GNP) and its component parts as well as relative prices and shares for capital and labor. The growth model is used to estimate the nominal and real values of consumption, investment, government spending, and net exports over time through the year 2000, given exogenously specified population and productivity estimates, and aggregate production and utility functions. The second model is the Hudson-Jorgenson nine-sector econometric model of interindustry transactions. This model is based on a system of accounts for the private domestic sector of the U.S. economy, including final demand, primary input, and inter-industry transactions in current and constant prices. The U.S. economy is divided into nine industry groups, including five groups within the energy sector - coal mining, crude petroleum and natural gas, petroleum refining, electric utilities, and gas utilities. The model also includes three categories of primary input - capital services, labor services, and imports - and four categories of final demand - consumption, investment, government purchases, and exports. Through this model, the process of production for energy and nonenergy products can be traced from the purchase of primary input through all stages of intermediate processing to deliveries to final demand. ***Output:*** Model output, hardcopy, is used as input to larger analyses such as the annual national plan for energy research, development, and demonstration, topical reports, and special analysis for ERDA units. The model output is rarely the final product in an analysis. ***Availability:*** Analyzed model output is publicly available through the Office of the Assistant Administrator, Planning, Analysis, and Evaluation, ERDA or the Center for the Analysis of Energy Systems, Brookhaven National Laboratory.

Agency Contact: Planning, Analysis, and Evaluation; 20 Massachusetts Ave. NW, Washington, DC 20545; (202) 376-4364.

S06000-010

Contracts Information System (CIS). 93.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-053; Operating Expenses / 89-0100-0-1-251; Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Armed Services, *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Contract Administration; Contractors; Contracts; Government Procurement; Procurement.

Purpose: The CIS is a centralized data base which collects and processes contract and procurement data. ***Input:*** The input is derived from headquarters divisions administering contracts and/or interagency agreements, all field offices and energy research centers, and ERDA cost-type prime contractors when total procurement actions under the contract are estimated at $250,000 or more. ***Content:*** Information is used for management purposes, for informational reports, and for furnishing procurement information required by congressional committees, the General Accounting Office, General Services Administration, Small Business Administration, Renegotiation Board, Office of Federal Contract Compliance, Department of Labor, and the proposed Government-wide Federal Procurement Data System (FPDS). ***Output:*** Output relates to contracts and contractors and is generated in response to queries by the Congress, private industry, and other Government agencies. Nine reports pertaining to procurement are updated monthly. A vendor file is also contained in the system. ***Availability:*** Output is generally available to the public through agency distribution.

Agency Contact: Division of Procurement; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-3316.

S06000-011

Research Projects Information System. 488.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-053; Operating Expenses / 89-0100-0-1-251; Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Armed Services; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Budget Information Systems; Contract Administration; Energy Research; Environmental Protection; Management Information Systems; Research and Development.

Purpose: The Research Projects Information System is a management information system. Principally designed for the Division of Biomedical and Environmental Research, it has been recently expanded to include all Divisions of the AES. The system is designed to integrate contractual, budgetary, financial, and technical information in one central data base. The system maintains budget data on each AES research project, historical, current, and projected. It provides timely and accurate information on each project, including objectives and technology. *Input:* The input is derived from contractors and internal sources. *Content:* The system is designed to integrate contractual, budgetary, financial, and technical information in one data base. It provides detailed information on projects in the area of environmental safety. Each project is coded in terms of its general category (nuclear energy, fossil fuel, etc.) and its areas of research interest (health effects, measurement, etc.). A project description includes an abstract of the proposed work and a listing of keywords. *Output:* The output consists of computer reports produced for management budgetary requests or other individual requests. Frequency of output varies. The system responds to queries. *Availability.* These are available to the general public.

Agency Contact: Office of Program Coordination; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-3562.

S06000-012

A Computer Code for Conceptual Cost Estimates of Steam Electric Power Plants (Concept). 468.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Construction Costs; Nuclear Powerplants; Powerplants; Thermal Powerplants.

Purpose: The CONCEPT computer package was developed to provide conceptual capital cost estimates for nuclear and fossil-fueled powerplants. Cost estimates can be made as a function of plant type, size, location, and date of operation. The output includes a detailed breakdown of the estimate into direct and indirect cost according to the accounting system described in the cost model. Cost models based on 1973 technology are currently provided in CONCEPT IV for first and second unit PWRS, BWRS, HTGRs, and coal, oil, and gas-fired plants. PWR, BWR, and coal cost models are currently being updated. *Input:* The input is derived from Union Carbide General Offices - Oak Ridge, IAEA, external utilities, and miscellaneous sources. *Content:* The system collects semiannual data on construction labor and material costs relating to powerplants. Some of the materials factored in are concrete ply-form, three types of structural steel, reinforcing steel, lumber, and land. One of the major system files contains data on cost models representing 48 different types of plants. *Output:* The system generates daily output in two major areas. One area represents the development and testing of various methods and models; the other one is associated with providing special assistance for construction estimates. *Availability:* Details on the system (including the computer programs) are available to the public through the Argonne National Code Center. A reference manual (ERDA-108) is also available through NTIS.

Agency Contact: Office of Nuclear Energy Assessments; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-3748.

S06000-013

U.S. Uranium Resources and Supply.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Nuclear Energy; Power Resources; Uranium

Purpose: The purpose of this data acquisition system is to gather information on domestic uranium ore reserves and resources, economics, and production capability as a basis for Agency and industry planning for nuclear energy and alternative system development. Data are gathered and published in a wide ranging variety of uranium raw materials related subjects, including efforts of Government and Government contractors and the private sector. *Input:* Information is developed by gathering the results of industry activities in uranium exploration and mining. The basic data are used to prepare estimates of U.S. uranium reserves and resources. Analysis of the data by ERDA personnel results in projections of uranium supply. Statistics on exploration and mining activity and future plans are also provided by industry. ERDA is generating additional information under a National Uranium Resource Evaluation program which is a systematic reconnaissance survey using various methods to identify areas favorable for the occurrence of uranium leading to preparation of national uranium resource appraisal. *Content:* Information covers all aspects of uranium raw materials area for the United States, including Alaska. Data are released routinely through press releases and papers and annually through publication of "Statistical Data of the Uranium Industry" and a Uranium Industry Seminar held in Grand Junction, CO. Similar data are gathered and reported regarding foreign uranium resources and production capability. *Output:* The principal output is the report GJO-100, "Statistical Data of the Uranium Industry," published annually. Reports on specific areas and topics are published as work is completed. *Availability:* The data and reports are available to the public from ERDA.

Agency Contact: Division of Uranium Resources and Enrichment, 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-4303.

S06000-014

Information Center for Energy Safety (ICES).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy; Information Services; Occupational Health and Safety; Power Resources; Safety.

Purpose: The Information Center for Energy Safety (ICES) was established at Oak Ridge National Laboratory by the Energy Research and Development Administration as a national center for collecting, storing, evaluating, and disseminating safety information essential to the development and use of several nonnuclear forms of energy. ***Input:*** Energy safety information is collected by information specialists who scan all available sources–literature, meetings, personal contacts among experts in the field, screen out those of pertinence, separate the sources into ICES's subject areas, and abstract and enter into the ICES storage and retrieval system. ***Content:*** Energy safety is related to the following energy technologies; Solar–the energy as derived directly from the sun's radiance; coal–the energy obtained directly from the burning of coal; coal conversion and utilization–the energy and source chemicals obtained by conversion of coal; oil, gas, and shale technology–the energy obtained by conversion of these fuels; magnetohydrodynamics (MHD)–the energy obtained by direct conversion of fuel to electricity; thermonuclear–the engineering, metallurgical, and physical science requirements associated with plasma containment; geothermal–the energy obtained from geothermal sources; wind–the energy obtained from wind sources; electrical energy systems–the storage, transmission, and use of electrical energy; transportation and storage–containment, storage, and transfer of energy other than electricity; and advanced systems–the energy obtained from advanced sources. ***Output:*** The output consists of answers to technical inquiries, state-of-art reviews, periodic dissemination of information, monthly material in National Safety Council R and D Newsletter, bibliographies and abstracts, and consultation with staff members. ***Availability:*** Since ICES is currently under development, access to the information is limited to Federal agencies, their contractors, and selected industrial concerns.

Agency Contact: Environment and Safety; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-3562.

S06000-015

Socio-Economic Environmental Demographic Information System (SEEDIS).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Demography; Energy Policy; Environmental Assessment; Forecasting; Population Statistics; Socioeconomic Indicators.

Purpose: The purpose of the system is threefold: digitizing census tract maps, creating a geographic data base, and mapping this information. Energy-production decisionmakers and planners are supplied with the capability to manipulate, analyze, display, and map a broad range of socioeconomic, environmental, and demographic data. ***Input:*** The input is derived from Bureau of Census population and housing data, Bureau of Labor data, San Francisco Bay area data on industrial water use in California, and business, transportation, agriculture, health, environmental, and natural resources data. ***Content:*** SEEDIS has the following capabilities. It produces high-quality, low-cost maps for graphical display of statistical data by geographical and political area and provides an error free geographical data base for spatial analysis applications. The SIRAP project within SEEDIS provides a central repository for regional and national data bases used by the Army Corps of Engineers in cost-benefit analyses and socio-economic-environmental impact planning for their civil works construction projects. A series of 12 basic demographic profiles containing information useful to planners and researchers in human resources programs was compiled from the 1970 census data and is used for projecting manpower profiles. A specialized data base limited to data items pertaining to the San Francisco Bay metropolitan area is being developed for use by the Association of Bay Area Governments. In collaboration with the Lawrence Berkeley Laboratory Energy and Environment Division, a multiregional input-output model is being developed which utilizes linear programming techniques to analyze U.S. production, employment, and energy use. A project to edit, sort, interpolate, and display the California water use by industries is being completed. The Employment Projections Project has enabled the Bureau of Labor Statistics and State employment security agencies to project employment by occupation and industry to 1980 for States and metropolitan areas with populations of 250,000 and over. The Regional Management Information System and the Computerized Charting for Employment Benchmark Adjustments projects involve data from several Department of Labor automated reporting systems, such as the Employment Security Automated Reporting System (ESARS) and the Employment Security-202 (unemployment insurance) reporting system. ***Output:*** The output includes maps, bar charts, pie charts, analyses, population studies, manpower studies, input-output studies, California and Bay Area studies, and employment studies. ***Availability:*** These are available to Federal agencies and their contractors and State and local government agencies.

Agency Contact: Environment and Safety; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-3562.

S06000-016

Stripmining and Land Reclamation Information System.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Coal Mining; Environmental Assessment; Land Reclamation; Reclamation; Strip Mining.

Purpose: The system's purpose is to assist the solution of the problems of land reclamation and land management by the organization of a data base and implementation of a data system for its use. The data base is related to assessing the environmental impact of surface mining. ***Input:*** The input is derived from State extraction and reclamation permits of coal mining States and publications reporting results of R and D. ***Content:*** The content includes data gathered on State mining permits, including mining and regulatory data; disturbance data, including related geophysical and ecological information which is used to understand the potential problems in each region; mine topography, hydrology, and overburden characteristics; and permit cost effectiveness studies of alternative reclamation techniques, policies, and programs. The initial emphasis is on Illinois, Indiana, Ohio, and Kentucky. ***Output:*** Queries are answered, and analyses and studies are prepared. ***Availability:*** This information is available to Federal agencies and their contractors and State and local agencies.

Agency Contact: Environment and Safety; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-3562.

S06000-017

Fossil Energy Update.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy; Fossil Fuels; Information Services; Research and Development.

Purpose: Fossil Energy Update is a comprehensive current awareness announcement of publications covering fossil energy research, development, and demonstration issued by ERDA and its contractors. *Input:* Fossil Energy Update also contains references to reports, journal articles, conference proceedings, patents, and monographs issued by other U.S. Government agencies, research and industrial institutions, and foreign countries. *Content:* The subject scope of Fossil Energy Update includes coal and coal products, petroleum, natural gas, oil shales and tar sands, electric power engineering, environmental aspects, power transmission and distribution, and MHD Generators. *Output:* An abstract journal is published monthly in hardcopy form. Each issue of Fossil Energy Update contains the subject, personal author, corporate source, and report number indexes. *Availability:* Fossil Energy Update is available to the public on a subscription basis from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161. The annual subscription cost is $27.50. The price covers 12 monthly issues and an annual cumulative index.

Agency Contact: Office of Technical Information; 20 Massachusetts Ave. NW, Washington, DC 20545; (202) 353-4035.

S06000-018

Solar Energy Update.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Abstracts; Bibliographies; Energy Research; Photovoltaic Conversion; Power Resources; Research and Development; Solar Energy; Tidal Power; Wind Energy.

Purpose: Solar Energy Update is a comprehensive current awareness announcement of publications covering solar energy research, development, and demonstration issued by ERDA and its contractors. *Input:* Solar Energy Update also contains references to reports, journal articles, conference proceedings, patents, and monographs issued by other U.S. Government agencies, research and industrial institutions, and by foreign countries. *Content:* The subject scope of Solar Energy Update includes solar energy conversion, photovoltaic conversion, photosynthetic conversion, solar thermal powerplants, ocean thermal gradient powerplants, solar radiation utilization (space heating and air conditioning, cooking, water heating, etc.), solar collectors and concentrators, tidal power, and wind energy. *Output:* An abstract journal is published monthly in hardcopy form. Each issue of Solar Energy Update contains subject, personal author, corporate source, and report number indexes. A cumulative index volume will be published annually beginning in 1977. *Availability:* Solar Energy Update is available to the public on a subscription basis from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161. The annual subscription cost is $27.50. The price covers 12 monthly issues and an annual cumulative index.

Agency Contact: Office of Technical Information; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-4035.

S06000-019

ERDA Energy Research Abstracts (ERA).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Abstracts; Energy Research; Information Services; Nuclear Energy; Research and Development.

Purpose: ERDA Energy Research Abstracts (ERA) provides abstracting and indexing coverage of nonnuclear and nuclear energy scientific reports, patents, journal articles, conference papers, theses, and monographs originated by ERDA and its laboratories, energy centers, and contractors. *Input:* ERA is the prime vehicle for timely announcement, in comprehensive and organized fashion, of the availability of publications reporting the results of ERDA's research, development, and demonstration programs. Dissemination of this information is necessary for the fulfillment of ERDA's mission and is authorized by law (Public Law 93-438, sec. 107e). *Content:* ERA also covers certain other technical information on nuclear fuel cycle technology, foreign reactor and fusion technology, as well as documents received from foreign governments with which ERDA has agreements for technical cooperation. *Output:* An abstract journal is published semimonthly in hardcopy form. Each issue of ERA contains subject, personal author, corporate author, and report number indexes. The latter indicate the availability of each report. Semiannual and annual indexes are provided. *Availability:* ERA is available to the public on a subscription basis from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. ERA is available on an exchange basis to universities, research institutions, industrial firms, and publishers of scientific information. Federal, State, and municipal agencies concerned with energy development, conservation, and usage may obtain ERA free of charge.

Agency Contact: Office of Technical Information; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-4035.

S06000-020

Technical Information Center (TIC).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy Research; Information Centers; Information Exchange; Information Services; Technology Transfer.

Purpose: The Center (TIC) in Oak Ridge, TN, is the collection, processing, and distribution point for scientific and technical information generated by the ERDA programs. One of the primary objectives of TIC is to insure that ERDA-sponsored research is reported promptly and that reports are distributed within ERDA and to its contractors. When suitable, reports are also made available to the general public. Scientists, linguists, editors, craftsmen, educators, writers, engineers, librarians, computer specialists, and information specialists maintain TIC's strong centralized technical information activity. *Input:* Authority for public availability of ERDA's research and development is derived from the Energy Reorganization Act of 1974. In pursuing its mandate, TIC locates and acquires energy-related scientific and technical information nationally and internationally through bilateral agreements with foreign countries, special exchange programs, and organization-to-organization agreements. *Content:* Selected information items attained through the above means become part of ERDA's science information archives and data base and are retrievable on both a current and retrospective basis. The TIC bases are divided according to broad subject disciplines and are available for use in several ways–batch searching (RESPONSA); on-line interactive searching (RECON); as separate tapes available to others for local application; as tapes representing the U.S. input to the International Nuclear Information System of the IAEA; and for bibliography preparation. Nearly 850,000 citations are subject indexed and machine-searchable, corresponding to ERDA's programmatic interests. *Output:* The TIC publishes the ERDA Energy Research Abstracts, Energy Abstracts for Policy Analysis, Solar Energy Update, Fossil Update, and various bibliogra-

phies. TIC also develops and maintains the ERDA data bases, the RESPONSA batch search system, and the RECON on-line search system. TIC maintains a unique publishing capability for preparing, printing, and announcing ERDA prestige publications and any publication of special interest to the ERDA program. The Center provides technical reference services and document and film requests services and carries out an educational services program devoted to aiding students and teachers in their studies of energy. *Availability:* Films and educational materials are available from the ERDA Technical Information Center, P. O. Box 62, Oak Ridge, TN 37830. Other publications are for sale through the U.S. Government Printing Office, Washington, DC 20402, or the National Technical Information Service, Springfield, VA 22161.

Agency Contact: Office of Technical Information; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-4035.

S06000-021

RECON (REmote CONsole).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy; Information Storage and Retrieval; Power Resources; Research and Development.

Purpose: RECON is the ERDA computerized on-line, interactive storage and retrieval system. It is designed to permit scientists, librarians, and information specialists located at various sites across the country direct and fast access to bibliographic records stored in large files which cover a broad range of energy-related topics. *Input:* The data bases available on RECON include those made available through negotiated agreement with other Federal agencies and companies and the ERDA Energy Data Base (EDB), with TIC providing the total input and evaluation. *Content:* The subject scope of the nearly 850,000 citations includes nuclear science, power reactor licensing and regulation, energy policy, coal technology, solar energy, geothermal energy, oil shale, magnetohyrodynamics, conservation, electric power engineering, direct energy conversion, thermonuclear power, environment and safety, and basic research and development. The indexes available for on-line searching are author, corporate author, country of publication, journal code, patent country, subject categories, and controlled subject descriptors. RESPONSA, a variation of the RECON system, allows searching in the batch mode. *Output:* The principal output of RECON is the capability for computer terminal searching. The output of the ERDA Energy Data Base includes ERDA Energy Research Abstracts, Energy Abstracts for Policy Analysis, Solar Energy Update, Fossil Update, and various bibliographies. *Availability:* RECON is available to ERDA, ERDA contractors, and other Government agencies with which ERDA has agreements.

Agency Contact: Office of Technical Information; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-4035.

S06000-022

Energy Abstracts for Policy Analysis (EAPA).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee, *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Abstracts; Economics; Energy; Energy Policy; Energy Research; Forecasting; Information Services; Power Resources.

Purpose: EAPA is a bibliographic data base sponsored by the Energy Research and Development Administration. EAPA provides abstracting and indexing coverage of selected publicly available nontechnical literature contributing to energy-related analysis and evaluation. The thrust is toward policy issues, economics, supply and demand, and forecasting of major and potential energy sources. The audience includes scientists, policymakers, planners, and economists. *Input:* EAPA covers pertinent material from congressional committee prints; ERDA and other Federal agency and department reports; news reports; regional and State government documents; books; and conference proceedings and papers. In general, only documents considered to have significant reference value and published within the past two years are included. *Content:* Subject areas covered by EAPA are policy; conservation; research and development studies; economics; supply and demand; forecasting; systems studies; and environmental effects. Specific fields of energy sources, including fossil fuels, nuclear fuel, hydrogen and synthetic fuels, and hydroelectric power; unconventional energy sources, including solar, wind, geothermal, tidal, and waste products; energy conversion and storage; and energy consumption, including residential, commercial, industrial, agricultural, and transportation sectors, and intersectional studies; and efficient energy utilization in these sectors. *Output:* EAPA is produced monthly in hardcopy form. It is machine-readable on RECON as a subset of ERDA Energy Data Base. *Availability:* EAPA is available to the public on a subscription basis from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. The annual subscription rate is $20 for domestic subscribers. An annual subscription includes 12 issues plus an annual index.

Agency Contact: Office of Technical Information; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-4035.

S06000-023

Technical Books and Monographs.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Bibliographies; Catalogs; Energy; Information Services.

Purpose: This catalog is a bibliography of books and monographs sponsored by the Energy Research and Development Administration. *Input:* The books and monographs are grouped under 13 subject categories. Information for each book, published or in press, includes title; author and author affiliation; publisher and publication date; a physical description of the book consisting of page and illustration count; Library of Congress card number; International Standard Book Number; a brief descriptive statement concerning the book; and a list or a description of the contents for more recent books. Recent symposia published as ERDA project reports appear in a special section at the end of each subject category. Additional ERDA publications are described at the end of the catalog. *Content:* The content is a bibliographic listing of books and monographs published by ERDA. *Output:* The output is an annual hardcopy of ERDA-sponsored books and monographs. *Availability:* It is free on request to ERDA Technical Information Center, P. O. Box 62, Oak Ridge, TN 37830.

Agency Contact: Office of Technical Information; 20 Massachusetts Ave. NW, Washington, DC 20545; (301) 353-4035.

S06000-024

Argonne Code Center (ACC).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Computers; Data Bases; Energy; Information Services; Software

Purpose: The Argonne Code Center is sponsored by ERDA and was established in 1960. It serves as a central information agency and library for computer software and data collections developed under ERDA funding for USERDA offices and contractors, U.S. Government and contracting agencies, research and educational institutions, and industrial concerns, consistent with guidelines established by ERDA headquarters program divisions. ***Input:*** The Center operates primarily through installation representatives at cooperating U.S. Government and contracting agencies, research and educational institutions, and industrial concerns engaged in nuclear science, reactor development, and other ERDA program areas. ***Content:*** The Center collects, reviews, maintains, and distributes computer programs, systems, and associated documentation; tests and evaluates library programs to facilitate use by persons or installations other than the originators; answers technical inquiries; assists others in program implementation and conversion; maintains worldwide communications with similar information centers; and coordinates acquisitions of non-Government software. ***Output:*** The system prepares and publishes the Computer Program Abstract reports describing the Center's library collection and the Computer Program Summaries Report describing ERDA-funded computer program development efforts; performs literature searches, maintains information files, and compiles bibliographies of computer program literature in ERDA program areas; issues Software Newsletters containing information on commercial software packages, programs, and systems developed by other Government agencies; publishes and maintains The American Nuclear Society Mathematics and Computation Division's benchmark problem book; and participates in preparation of standards and guidelines directed to effective exchange of computer programs. ***Availability:*** The Center serves persons and institutions with a professional interest in computer software in Agency program areas.

Agency Contact: Argonne Code Center; Argonne National Laboratory; 9700 South Cass Ave., Argonne, IL 60439; (312) 39-7711.

Berkeley Particle Data Group.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Information Services; Particle Physics; Physics.

Purpose: The Berkeley Particle Data Group was established in 1958 and is sponsored by ERDA, the National Bureau of Standards, and the National Science Foundation. ***Input:*** Particle data experimenters throughout the world submit data to the group. ***Content:*** The system's content is the compilation of particle physics data including properties of particles and indexes of all documents on experimental particle physics. ***Output:*** The output is the biannual "Review of Particle Properties," which appears alternately in Reviews of Modern Physics and in Physics Letters B; the publication, LBL 90; an Index of All Documents on Experimental Particle Physics; in collaboration with CERN/Geneva, a series of compilations of cross sections for particle reactions; and data retrieval and bibliographic searches to meet requirements of individual physicists. ***Availability:*** Qualified users include physicists engaged in high energy physics research.

Agency Contact: Berkeley Particle Data Group; Lawrence Berkeley Laboratory; Berkeley, CA 94720; (415) 843-2740.

S06000-026

Biomedical Computing Technology Information Center (BCTIC).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Biomedical Research; Computers; Information Centers; Medicine; Nuclear Medicine.

Purpose: BCTIC is sponsored by ERDA, Bureau of Radiological Health, Society of Nuclear Medicine, and Society for Computer Medicine. Work began under the auspices of the Society of Nuclear Medicine Computer Committee in 1971; and BCTIC was established as an ERDA-sponsored information analysis center in 1975. BCTIC provides a national computing technology resource to clinical medical practice and to biomedical research and development. The purposes are continuing assessment of the state-of-the-art, fostering of exchange of computing technology, avoiding of duplication of efforts, effecting cost savings, and promoting advancement of the state-of-the-art. ***Input:*** BCTIC serves its sponsors' programs by providing technology transfer and services, thereby improving the exchange of information among research and medical groups. It provides the means for collaboration among members of the user community; focuses attention on outstanding problems of mutual concern; advances the technology through the "open code/data concept"; and provides training in the implementation of the specialized software and hardware interface designs. ***Content:*** Early emphasis is on computer applications in nuclear medicine, and all technology will be considered in the information analysis center. Long-range goals include an extension to biomedical research on a wider scale and an in-depth consideration of biomedical data. ***Output:*** The principal output is the publication and maintenance of a directory of nuclear medicine research centers, hospitals, laboratories, and clinics that use computers and a handbook of the computing technology utilized by each; and a periodic newsletter which covers current activities, literature accession lists, and news of current work and problems in the user community. Topical meetings are held and the proceedings are published as state-of-the-art reviews or generalized surveys. The Center answers inquiries, publishes abstracts of the computer code, and publishes and fills requests for data packages. Technical conferring services and personal assistance to visitors to the Center are provided. ***Availability:*** BCTIC publications are available for sale by the National Technical Information Service, Springfield, Virginia 22161.

Agency Contact: Biomedical Computing Technology Information Center; Oak Ridge National Laboratory; P. O. Box X; Oak Ridge, TN 37830; (615) 483-8611.

S06000-027

Biomedical Sciences Section (BIOSCI).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Biomedical Research; Environmental Health; Information Services; Toxicology.

Purpose: The Biomedical Sciences Section is sponsored by the National Library of Medicine, Environmental Protection Agency, National Institutes of Health (National Institute for Environmental Health Sciences), and Energy Research and Development Administration. ***Input:*** BIOSCI component interactive groups represent a multidisciplinary cross section in the life sciences: Biomedical Studies Group; Data Extraction and Analysis Group; Environmental Mutagen Information Center; Environmental Teratology Information Center; and Toxicology Information Response Center. ***Content:*** System services include toxicology literature collection and evaluation; toxicology data extraction and data base building; toxicology state-of-the-art reviews; and toxicology consultation. ***Output:*** The output is state-of-the-art reviews; data extraction for computerized surrogate chemical handbook file; collection, analysis, and computer storage of chemically induced mutagen and teratogen information; and a broad-based toxicology information gathering and analysis response service. ***Availability:*** The group serves the sponsors and the interested scientific community.

Agency Contact: Biomedical Sciences Section; Information Center Complex/Information Division; Oak Ridge National Laboratory; P. O. Box X, Oak Ridge, TN 37830; (615) 483-8611.

S06000-028

Center for Energy Studies (CES).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy Research; Information Services; Power Resources.

Purpose: The Center for Energy Studies (CES) was established to provide a central liaison for energy research and educational activities and to provide a formal focal point for the collection and dissemination of energy information. ***Content:*** The Center was given a broad mandate to initiate, stimulate and provide liaison for multidisciplinary energy programs. To date, programs have been initiated or enlarged in the following areas: Geothermal, energy conservation, coal and lignite, solar and wind power, nuclear, oil and gas, new fuels, electric power, and environmental effects. ***Output:*** The Center has conducted several major policy studies for Federal, State, and local governments. ***Availability:*** For publications, contact Jerry Matthews, Energy Information Services, ENS 302, The University of Texas at Austin, Austin, TX 78712.

Agency Contact: Center for Energy Studies; The University of Texas at Austin, Austin, TX 78712; (512) 471-3434.

S06000-029

Controlled Fusion Atomic Data Center.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy; Nuclear Energy; Nuclear Fusion; Particles; Thermonuclear Energy.

Purpose: The Controlled Fusion Data Center was established in 1965 and is sponsored by the Energy Research and Development Administration, Division of Magnetic Fusion Energy. ***Input:*** Fusion experimenters submit data to the Center. ***Content:*** The Center produces data on collisions involving charged and neutral particles with gases and surfaces which are directly related to controlled thermonuclear research. ***Output:*** The Center publishes data compilations and state-of-the-art reviews and maintains a bibliography of collision processes. ***Availability:*** Government agencies and their contractors, research and educational institutions, and industry may use data produced by the Center. Data compilations are either published commercially by John Wiley and Sons, Inc., or sold by the U.S. Government Printing Office.

Agency Contact: Controlled Fusion Data Center; Oak Ridge National Laboratory; P.O. Box X, Oak Ridge, TN 37830; (615) 483-8611.

S06000-030

Criticality Data Center.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Criticality; Fissionable Materials; Information Centers; Nuclear Energy; Nuclear Materials; Safety; Transportation of Hazardous Substances.

Purpose: The Criticality Data Center is sponsored by the Energy Research and Development Administration, Division of Military Applications. The Center was established in 1965 and concerns itself with criticality safety. ***Input:*** The input is derived from books, monographs, reports, journals, and data in the subject area. ***Content:*** The content is criticality safety data in transportation, storage, and chemical and metallurgical processing of fissile materials. ***Output:*** The Center performs analyses of the critical dimensions of accumulations of fissile materials; publishes data compilations, together with necessary correlations, technical guides, and standards; and provides guidance in the preparation of regulations and standards related to criticality safety. ***Availability:*** Government agencies and contractors, research and educational institutions, and industry may use data produced by the Center.

Agency Contact: Criticality Data Center; Oak Ridge National Laboratory, P. O. Box X, Oak Ridge, TN 37830; (615) 483-8611.

S06000-031

Ecological Sciences Information Center (ESIC).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305; Operating Expenses / 89-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Ecology; Electric Powerplants; Entrainment, Environmental Assessment, Fossil Fuels; Nuclear Energy; Thermal Pollution, Transuranics.

Purpose: Established in 1968, ESIC provides information support related to the assessment of the environmental impact of both nuclear and fossil energy. The sources and interactions of radionuclides in the environment, pathways to man, and effects in man and experimental animals are of concern. Information support is provided to the National Uranium Resource Evaluation Project with a computer-searchable file of annotated references to the geochemistry and geo-

physics of uranium. *Input:* The geology of selected areas within the United States is used in computer mapping procedures. The Nevada Applied Ecology Information Center compiles the data base on the Environmental Aspects of the Transuranics and provides information to the Nevada Applied Ecology Group. References and abstracts originally assembled as the basis for a comprehensive review of radionuclides in soil and uptake by plants are computer-searchable. Transport of uranium and thorium in the environment, as related to the thorium fuel cycle, are the subjects of a data base, annotated bibliography, and critical review. *Content:* Computerized information files are compiled on the environmental impact of cooling electric generating stations. Subjects related to cooling include effects of temperature, chlorine, and other chemicals, impingement, and entrainment. A predictive fish population model on the effects of power station operations is supported by a data base on the life history, biology, population dynamics, and tropic interactions of striped bass. Other data bases are built by the Center for the ORNL Environmental Sciences Division. The journal "Ecology" was searched from 1956 through 1976 for articles pertaining to ecosystem analysis, either subprocesses or total systems, and an annotated and indexed data base is being compiled. Information support is provided to the assessment of cycling of carbon in the biosphere with an extensively indexed and annotated data base. *Output:* Reviews and/or bibliographies on thermal effects of aquatic systems, effects of entrainment, and environmental aspects of the transuranics are published on a regular basis. A number of specialized bibliographies and literature overviews are also published. In-depth literature searches using computerized data bases and extensive library facilities are provided. *Availability:* Bibliographies are available from NTIS. Resources and services in the Center are available to all individuals.

Agency Contact: Ecological Sciences Information Center; Information Center Complex/Information Division, Oak Ridge National Laboratory, P. O. Box X, Oak Ridge, TN 37830; (615) 483-8611.

S06000-032

Energy Research, Development, and Demonstration Inventory.
OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy Research; Information Services; Inventories; Research and Development.

Purpose: The Energy Research, Development, and Demonstration Inventory was established in 1971 and is sponsored by the Energy Research and Development Administration. The Inventory is a computerized file containing descriptions of current energy-related research done or sponsored in the United States. The scope of interest includes all energy sources–fossil fuels, nuclear, and unconventional; electric power generation, transmission, distribution, and storage; energy uses and conservation–heating and cooling, lighting, appliances, industrial processes, transportation, agriculture; economic and legal aspects; and environmental and health effects. In relation to these subjects, information on exploration, mining, processing, resources and reserve studies, and basic or applied research and engineering development is of interest. *Input:* The input is from books, monographs, reports, journals, and data in the subject area. *Content:* The descriptions of energy research projects are arranged by subject categories and consist of (when available) title, research institution and city, sponsor, principal investigator(s), project duration, funding level, description of research, number of technical personnel assigned to the project, type of research (basic, applied, and/or developmental), and publications. Keywords and secondary subject categories, when needed, are also added to the project descriptions. Various statistical summary tables on funding are included in the published version of the Inventory. Statistical studies of the measurement of coverage and the representativeness of the Inventory projects are conducted and summarized in the published Inventory. *Output:* The system prepares inventories of descriptions of energy-related research and development progress. The third and latest issue (in five volumes), dated January 1976, is entitled Inventory of Energy Research and Development: 1973-1975, and is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. *Availability:* The system answers inquiries concerning information in this computer information base. Limited computer searches are performed as time allows.

Agency Contact: Information Center Complex/Information Division; Oak Ridge National Laboratory, Bldg. 3603, P. O. Box X, Oak Ridge, TN 37830; (615) 483-8611.

S06000-033

Environmental Information Analysis Center (EIAC).
OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305; Operating Expenses / 89-0100-0-1-251.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Environmental Health; Information Centers; Information Services; Nuclear Powerplants; Plutonium; Powerplant Siting; Radiation Safety; Tritium.

Purpose: Sponsored by the ERDA Division of Biomedical and Environmental Research, the Battelle-Columbus Laboratories Environmental Information and Analysis Center developed a regionally oriented data system utilizing the resources of the EIAC. *Input:* The input is monographs, reports, journals, books, and data in the subject area. *Content:* Originally, the EIAC played an important role in support of the field data collection requirements for the bioenvironmental and radiological safety feasibility study for a nuclear excavated sea level canal and for support of the AEC Division of Military Applications supplementary test site bioenvironmental study on Amchitka. The cycling and transport of radionuclides in complex ecosystems has received major emphasis, with special consideration given to tritium, plutonium, and nuclear powerplant siting. The operational scope has continued to expand in support of the ERDA program for the development of a new, more comprehensive thesaurus of terms required to identify the broad environmental and technological considerations relevant to this task. *Output:* Currently, EIAC is updating the bibliography on the bioenvironmental effects associated with nuclear powerplants to identify the more recent literature collected and used as background information in the preparation of general environmental siting guides for nuclear powerplants-topics and bases. *Availability:* Requests about output availability must be made to the Center.

Agency Contact: Environmental Information Analysis Center; Battelle-Columbus Laboratories; Columbus, OH 43201; (614) 424-6424.

S06000-034

Environmental Mutagen Information Center (EMIC).
OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-251.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Chemicals; Environmental Health; Information Services; Mutagens; Toxicology.

Purpose: The Environmental Mutagen Information Center is sponsored by the National Cancer Institute, National Institute of Environmental Health Sciences, and the Energy Research and Development Administration. The Center was established in 1969 and maintains a data base on the mutagenic activity of chemicals. ***Input:*** The sources of information are books, monographs, reports, journals and data collected from experimenters in subject area. ***Content:*** The system contains information on the mutagenic activities of chemicals and the identification of chemicals capable of inducing mutations. ***Output:*** The system publishes yearly compilations of the chemical mutagenesis literature and prepares state-of-the-art reports. The EMIC data base is available via two on-line computer networks, TOXLINE and RECON. TOXLINE is maintained by the National Library of Medicine, and RECON is maintained by ERDA. ***Availability:*** Services from the Center are provided free to the sponsoring agencies and their contractors. Others in the interested scientific community are served on a full cost recovery basis. Services are provided free on a mutual information exchange basis to American, European, Japanese, and Indian environmental mutagen societies and their members. Publications may be obtained from the Mutagenesis Branch, National Institute of Environmental Health Services, P.O. Box 12233, Research Triangle Park, NC 27709 or NTIS.

Agency Contact: Information Center Complex/Information Division; Oak Ridge National Laboratory, P. O. Box X, Oak Ridge, TN 37830; (615) 483-8611.

S06000-035

Environmental Resource Center (ERC).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Energy Research, Environmental Assessment, Environmental Health, Hazardous Substances, Information Centers, Information Services.

Purpose: Sponsored by the Energy Research and Development Administration and the National Science Foundation, Research Applied to National Needs, the Center was established in 1975. The Environmental Resource Center (ERC), Ecological and Environmental Sciences Section of the Information Center Complex, Oak Ridge National Laboratory, extends the expertise and facilities of the section to diverse user groups on both long-range projects and short term or specialized study contracts. ***Input:*** By adopting a matrix management system based on information system functions and subject specialization, ERC has assembled as its major resource a professional staff of scientists with practical operating experience in monograph preparation, abstracting, tabular data extraction, and computerized information retrieval and manipulation. The ability to quickly mobilize an environmental task force geared to specific tasks is accompanied by strong environmental data bases and extensive information collections ranging from commercially available large-scale disciplinary collections such as Biological Abstracts to in-house collections on environmental health and control data of emerging energy technologies. ***Content:*** Capabilities range broadly across the environmental damage and control spectrum from energy technologies to hazardous substances. ***Output:*** Many products and services are available through ERC. These include information overview monographs, abstract journals, newsletters, topical reviews, annotated bibliographies, management information systems, tabular data extraction, data base creation, directory and distribution services, and maintenance of environmental data resource file in hard-copy, microfiche, and magnetic tape form. The ERC also provides response and referral services including in-depth literature services, using computerized data bases and extensive library facilities; answering of specific environmental questions posed by the scientific community, Government agencies, industry, and others; the publication of bibliographies as natural byproducts of the response service; and technical survey activities. ***Availability:*** Some services are available to everyone; other are available only to funding agencies.

Agency Contact: Environmental Resource Center; Information Center Complex/Information Division, Oak Ridge National Laboratory, P. O. Box X, Oak Ridge, TN 37830; (615) 483-8611.

S06000-036

Information Center for Internal Exposure.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305; Operating Expenses / 89-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Biomedical Research; Environmental Health; Information Centers, Information Services; Radiation Safety.

Purpose: The Information Center for Internal Exposure is sponsored by the Energy Research and Development Administration, Division of Biomedical and Environmental Research. Original work of the Center started in 1948, it was formally established in 1965. ***Input:*** The sources are books, monographs, journals, reports, and data in the subject area. ***Content:*** The Center is concerned with the estimation of dosage received from internally deposited radionuclides; calculation of maximum permissable concentrations of radionuclides in air, water, and food; body-burden calculations; and analysis of information relevant to metabolic questions involved in estimating internal exposure. ***Output:*** The Center answers inquiries on topics within the scope of interest and conducts literature searches, prepares compilations of data and information, and supplies interpretations and recommendations to the committees on Radiological Protection and the National Council on Radiation Protection Measurement. ***Availability:*** Work is performed primarily for Government agencies, their contractor laboratories, and for NCRP and ICRP committees. Inquiries from other sources are honored as workload permits.

Agency Contact: Information Center for Internal Exposure, Health Physics Division; Oak Ridge National Laboratory, P. O. Box X, Oak Ridge, TN 37830; (615) 483-8611.

S06000-037

ERDA Insolation Observatory.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Insolation; Radiation; Solar Energy; Solar Radiation.

Purpose: The goal of the Center is to provide for the ERDA a working center of expertise that has detailed information on existing insolation data, its quality, quantity, and availability, and the state-of-the-art of insolation instrumentation research programs for specific kinds of insolation data; to conduct experimental work to test and develop instruments and techniques for insolation research, including data handling and display techniques; to gather insolation data from a network of remote, portable installations, and to reduce, compile, and report that data. ***Input:*** The input is in-house experimentation and data collection from outside sources. ***Content:*** Data on solar radiation received on a given body or over a given area comprise the content. ***Output:*** Specific tasks include the experimental mapping of day sky at Battelle Observatory for insolation studies; modification of portable automatic photometers to provide insola-

on data; evaluation of present status of U.S. insolation data base and ata dissemination pr ram; and the evaluation of the present status f the U.S. insolation instrumentation and data acquisition program. *Availability:* Contact the Laboratory for information.

gency Contact: Pacific Northwest Laboratories, Richland, WA 9352; (509) 946-2121.

06000-038

Liquid Metal Fast Breeder Reactor Fuel-Cladding Information Center (LMFBR).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305; lant and Capital Equipment / 89-0103-0-1-305.

ongressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works ubcommittee; *Senate* Committee on Energy and Natural Resources.

ubject Terms: Cladding; Engineering; Fast Flux Test Facilities; Fuels; Information Services; Liquid Metal Fast Breeder Reactors; Nuclear Fuels.

Purpose: The LMFBR Fuel-Cladding Information Center provides nuclear engineers and scientists with a broad base of engineering data on LMFBR nuclear fuels and cladding materials. It maintains a central data source of materials performance from irradiation tests on experimental mixed-oxide fuel elements and FFTF Fast Flux Test Facility) driver fuel elements. *Input:* In-house experimentation and data collected from outside sources comprise system input. *Content:* The system includes fuels and cladding materials data from LMFBR mixed-oxide fuel element development programs. Data for all experimental mixed-oxide fuel elements irradiated in the EBR-II (Experimental Breeder Reactor) are maintained on magnetic tape and microfilm files. These files are cladding fabrication, cladding properties, irradiation history, postirradiation examination results, and breached cladding files. The Center has data on the manufacturing of driver fuel elements for the FFTF, the fabrication of experimental mixed-oxide fuel elements, and postirradiation examination of materials. *Output:* The system provides traceability to original raw materials with data for each major fabrication step, answers inquiries, and provides data compilations. Data are available directly from the computer in the form of tables, plotted curves, and simple statistical analysis. Summaries are prepared for experimental fuel elements irradiated in the EBR-II. The files contain data only for U.S. technology. *Availability:* Persons so designated by the ERDA Division of Reactor Development and Demonstration have access to the Center.

gency Contact: LMFBR Fuel-Cladding Information Center, Westinghouse Hanford Company, Hanford Engineering Development Laboratory, P.O. Box 1970, Richland, WA 99352; 509) 942-3284.

06000-039

National Geothermal Information Resource (GRID).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305; Operating Expenses / 89-0100-0-1-251.

ongressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology, *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works ubcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

ubject Terms: Environmental Assessment, Geothermal Energy; Information ervices, Libraries

Purpose: Established in 1974, the Center provides information on five major categories of geothermal science and technology-physical chemistry, exploration, utilization, environmental effects, and institutional considerations. *Input:* The input is books, monographs, journals, reports, and data in the subject area. *Content:* The Center provides information on physical chemistry, exploration, utilization, environmental effects, and institutional considerations. *Output:* Output includes publication of Compilation of Geothermal Information; data and bibliographic searches to meet the needs of geothermal scientists and engineers; and preparation of special reviews. *Availability:* Services are available to ERDA and its contractors. There is a nominal charge to other users.

Agency Contact: National Geothermal Information Resource; Lawrence Berkeley Laboratory, University of California, Berkeley, CA 94720; (415) 843-2740.

S06000-040

National Neutron Cross Section Center (NNCSC).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Information Services; Neutrons; Nuclear Physics; Physics

Purpose: The National Neutron Cross Section Center (NNCSC) collects and disseminates data and bibliographies on neutron-induced nuclear reaction and related quantities. These are stored in one of the Center's three automated library systems and consist mainly of energy- and angle-dependent cross sections and resonance parameters, although other types of data are also included. This information is primarily for use in reactor and nuclear physics studies. NNCSC is also responsible for coordinating the nuclear data evaluation activities of over 20 Government and industrial laboratories and that of several data centers in order to improve the quality and timeliness of reference nuclear data. *Input:* Nuclear physicists supply input data. *Content:* Energy- and angle-dependent cross sections and resonance parameters and other types of data are the content. *Output:* The system publishes compilations of cross section data and bibliographies, including BNL-325 and BNL-400, maintains the Cross Section Information Storage and Retrieval System (CSISRS) library in computerized form containing all experimentally measured neutron cross sections, maintains the Evaluated Nuclear Data File (ENDF) in computerized form containing complete (experimental and theoretical) values recommended for applied scientific use, maintains the Computerized Index to Neutron Data (CINDA) bibliography; and answers specific inquiries for tabulated data with output in tape, computer card, printout, or graphic form. *Availability:* Experimental and evaluated data are available to ERDA contractors at no cost and nominal cost to others in the United States and Canada.

Agency Contact: National Neutron Cross Section Center, Brookhaven National Laboratory, Upton, Long Island, NY 11973; (516) 345-2902.

S06000-041

Nevada Applied Ecology Information Center

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology, *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Environmental Protection; Hazardous Substances; Nuclear Testing; Plutonium; Radiation Safety; Radioactive Contamination; Radioactive Waste Disposal; Transuranics; Uranium.

Purpose: The Center is sponsored by the National Applied Ecology Group, U.S. ERDA, Nevada Operations Office. The Center was established in 1971 and concerned itself with the bioenvironmental data for the nuclear testing site, primarily, plutonium, uranium, and other transuranics, and special emphasis on distribution and movement. ***Input:*** Data are collected from organizations and publications throughout the world. ***Content:*** Studies of animals, plants, soil, resuspension, man, exposure, legal and political aspects including regulations and standards for environmental levels, safety, shipping and storage waste disposal, analysis of plutonium and other environmental materials, movement, and the fate of radionuclides in the environment "with emphasis on availability to man" are included. Governmental data on radiation dose, environmental conditions of chemical isotope, organisms used in research, route of intake, roentgen distribution, particle size, and effects are compiled. Other transuranics in the environment due to nuclear testing serve as interface in the scientific and industrial community for the collected compilation and analysis of data relevant to the scope of the Center. The Center provides information on topics within its scope. ***Output:*** Upon request, Center personnel consult with members of the public, industry, and the scientific community. ***Availability:*** Specialized bibliographic services, including verified abstract, reprint copies, and data are available free to ERDA, its contractors, and to others with a professional interest on a cost recovery of information exchange basis. Documents relating to plutonium and other transuranics and their ecological and radiobiological significance are available.

Agency Contact: Director, Nevada Applied Ecology Information Center, Nevada Operations Office, P. O. Box 14100, Las Vegas, NV 89114; (702) 734-3194.

S06000-042

Nuclear Data Project.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Information Service; Libraries; Nuclear Physics; Physics.

Purpose: Established in 1964, the Nuclear Data Project collects and evaluates nuclear structure data from radioactive decay and nuclear reactions. ***Input:*** Nuclear physicists supply the data. ***Content:*** The Project maintains a complete computer-indexed library of published world experimental nuclear physics. In addition, the Center has established a computer-based system for evaluated nuclear structure data (ENSDF). Numerous computer programs are maintained for data checking, performing calculations, preparing plots of data, computations, and special drawings, tables, and figures from the ENSDF. Other programs are maintained for general analysis. ***Output:*** This system provides reference [illegible] of nuclear [illegible] and provides [illegible] pertaining to [illegible] basis. [illegible] utilized [illegible] services [illegible] ERDA/RECON [illegible]

S06000-043

Nuclear Safety Information Center (NSIC).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Bibliographies; Information Centers; Nuclear Security Measures; Radiation Safety; Safety.

Purpose: Established in 1963, the Center covers all aspects of nuclear safety, such as general criteria, analysis, and operating systems; environmental surveys; monitoring; siting and containment of facilities; transporting and handling of radioactive materials; reactor transients, kinetics, and stability; nuclear instrumentation and control; other engineered safety features, such as emergency power systems, emergency core cooling systems, filter systems; release and transport of fission products; accident analyses and risk assessment; technical information involved in the licensing of nuclear facilities; and operational data relating to their safe operation. ***Input:*** The input consists of books, monographs, journals, reports, and data in subject area. ***Content:*** The computerized NSIC Information File contains complete bibliographic data, abstracts, and keywords on over 110,000 documents. ***Output:*** The system publishes state-of-the art reports, the technical progress review, Nuclear Safety, and topical bibliographies; it answers technical inquiries and prepares retrospective bibliographies; it provides a current awareness (selective dissemination of information) service consisting of biweekly mailing of selected listings and it makes the collection of documents at the Center and technical consultations available to qualified users. The NSIC Information [illegible] one of the data bases included in the RECON system and [illegible] by anyone with access to RECON. ***Availability:*** Nuclear Regulatory Commission and ERDA personnel as well as their direct contractors are entitled to free service. However, all others may use any of the NSIC services on a cost-recovery basis.

Agency Contact: Nuclear Safety Information Center; Oak Ridge National Laboratory, P. O. Box X, Oak Ridge, TN 37830; (615) 483-8611.

S06000-044

Oceanographic Data Acquisition and Monitoring System.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305; Operating Expenses / 89-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Oceanographic Research.

Purpose: This project is concerned with the development of new methods and techniques of data acquisition of oceanographic parameters. The instrumentation development involves special attention to digital sampling, integrating and averaging of analog data from sensors. Techniques and instrumentation for data communication systems suitable for oceanographic data and command system communication will be studied and developed. Application of computer-controlled telemetry communication techniques to this field could greatly expand the quality and quantity of data available in real-time for continuous examination and evaluation of oceanographic parameters. This could apply to fixed station buoys and eventually to movable buoys with application of navigational tech

niques. The lack of availability of automated data acquisition and monitoring instrumentation systems for oceanographic work hinders needed or desired investigation of environmental or biological studies in the coastal regions. ***Input:*** In-house development of technology is the source of input. ***Content:*** The essential requisites for successful programs of oceanographic measurement are low power consumption data acquisition and monitoring systems operating automatically or in command-response modes with minimum manual intervention in remote off-shore and on-shore locations; implementation of valid data sampling, averaging and reconstruction techniques; on-line data monitoring for validity and quality determination, and appropriate telemetry communication and central station reception, monitoring, and recording of data. Signal processing and special electronics required for certain types of sensors will be considered. ***Output:*** Nonstandard reports are produced as a result of the progress of the projects. ***Availability:*** The reports are publicly available from the Laboratory.

Agency Contact: Oceanographic Data Acquisition and Monitoring System Development; Brookhaven National Laboratory, Upton, NY 11973; (516) 345-2123.

S06000-045

Physical Data Group.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Information Services; Neutrons; Nuclear Physics; Particles; Photons.

Purpose: The Physical Data Group was started in 1957 and covers neutron, photon, and charged particle cross section data required for weapons, weapons effects, shielding, and reactor calculation (experimental and evaluated data); development of data processing codes for producing constants required for neutronic-photonic codes employing diffusion, discrete ordinates, and Monte Carlo methods; integral neutron experiment data, critical and bulk, static and dynamic, required for the testing and evaluation of neutronic and photonic data and for the improvement of calculational methods; development of Monte Carlo neutronics and photonics computer codes including linked neutronics-photonics; and development of advance computer programs to unify storage, manipulation, reorganization, retrieval, and display of numeric and bibliographic information. ***Input:*** Nuclear physicists supply input. ***Content:*** Neutron, photon, and charged particle cross section data are the information content. ***Output:*** The Center answers inquiries on topics within its scope and publishes state-of-the-art reviews and data compilations. ***Availability:*** Groups served include Government agencies, contractors, and others if the workload permits.

Agency Contact: Physical Data Group; Lawrence Livermore Laboratory, Livermore, CA 94550; (415) 447-1100.

S06000-046

Radiation Chemistry Data Center.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Information Services; Libraries; Radiation Chemistry.

Purpose: The Radiation Chemistry Data Center was established in 1965. The Center collects and indexes literature on radiation chemistry and related topics and maintains a computerized data base for providing bibliographies, retrospective searches, and a current-awareness service. ***Input:*** Books, monographs, journals, reports, and data in subject area are system sources. ***Content:*** Related topics on which some information is collected are photochemistry, molecular radiobiology, and hot atom chemistry. ***Output:*** The system compiles kinetic data on chemical reactions brought about by ionizing radiation, and other properties of irradiated systems, and publishes compilations and critical reviews of this data. The emphasis is on kinetic and spectroscopic data for transients and radiation effects on chemical systems. ***Availability:*** The Center answers inquiries on topics within its scope for a minimum charge of $20. It provides current-awareness service through the biweekly List of Papers on radiation chemistry ($20 per year; $25 including an annual cumulation containing indexes or $12 for the annual cumulation alone). Occasionally, the Center publishes compilations and critical reviews on radiolysis of selected compounds; rate data for transients in solution; and other properties of irradiated systems in the NSRDS-NBS series. Onsite use of the Center is available by prior arrangement.

Agency Contact: Radiation Chemistry Data Center, Radiation Laboratory; University of Notre Dame, Notre Dame, IN 46556; (219) 283-6527.

S06000-047

Radiation Shielding Information Center (RSIC).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305; Operating Expenses / 89-0100-0-1-053.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Armed Services; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Armed Services; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Information Centers, Radiation Safety.

Purpose: Established in 1962, the Center functions as a technical institute, serving as an information exchange medium between shielding research and design projects throughout the Government and industry with the purpose of saving time, preventing duplication of work, and seeking to advance the technology. ***Input:*** RSIC, a radiation interaction, transport, and shielding information analysis center, serves its sponsors as a national technology resource by collecting, organizing, evaluating, and disseminating information related to radiation from reactors, radioisotopes, weapons, accelerators, and to that occurring in space. ***Content:*** In addition to published information, RSIC collects, examines, packages, and disseminates complex digital computer codes, evaluated cross-section data sets, multigroup data libraries, radiation environment data, and benchmark problems for use in shielding calculations. ***Output:*** With the assistance of the computerized Storage and Retrieval Information System (SARIS), the center answers technical inquiries, publishes general bibliographies, writes state-of-the-art reviews, and routinely disseminates selected information to fill individual needs indicated by customer profiles. A monthly newsletter covers current activities, literature accession lists, news of current work and problems in the shielding community, additions and corrections to the data and code collections, and general shielding information. RSIC publishes abstracts of computer code and data packages and fills requests for the packages; it makes recommendations, advises, and trouble shoots on problems connected with the code and data collection. RSIC serves as a clearinghouse for Defense Nuclear Agency and ERDA-sponsored nuclear data activities, maintaining and distributing evaluated and processed cross section data sets. Seminar-workshops on specific topics are held, and the proceedings are published as state-of-the-art technical conference [illegible] and personal assistance [illegible] center are provided. ***Availability:*** All scientific and [illegible] are qualified

RSIC exists to serve the information needs of its sponsors and their contractors and to assist in meeting their reciprocal information exchange commitments. Products and services are given without charge to these communities of RSIC users. RSIC publications are available for sale by NTIS.

Agency Contact: Radiation Shielding Information Center; Oak Ridge National Laboratory, P. O. Box X, Oak Ridge, TN 37830; (615) 483-8611.

S06000-048

Rare-Earth Information Center (RIC).
OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources

Subject Terms: Geochemistry; Information Services; Metallurgy; Physics; Rare Earth Metals; Toxicology.

Purpose: Established in 1966, the Center is concerned with the metallurgy and solid state physics of the rare earth metals, intermetallic compounds and alloys, the analytical, inorganic and physical chemistry, ceramics, technology, geochemistry, and toxicity of the rare earth elements and compounds. *Input:* Books, monographs, journals, reports, and data in subject area are system sources of input. *Content:* The emphasis is on: the physical metallurgy and solid state physics of the metals and their alloys. *Output:* The Center answers inquiries for a minimum service charge of $25. Call the Center for the details of this policy. It makes referrals; provides extensive surveys and in-depth analyses on a cost-recovery basis; prepares and publishes reviews, bibliographies, and compilations at irregular intervals; publishes RIC NEWS, a quarterly newsletter containing items of current interest concerning the science and technology of the rare earths; and maintains a file of journal articles, reports, books, and translations concerned with the rare earths. Files are accessible for onsite use by prior arrangements. *Availability:* Services are available to everyone.

Agency Contact: Rare-Earth Information Center; Energy and Mineral Resources Research Institute, Iowa State University, Ames, IA 50010, (515) 294-2272.

S06000-049

Research Materials Information Center (RMIC).
OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-251.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation

Subject Terms: Crystals; Information Services; Physics; Solid State Physics.

Purpose: Established in 1964, the Center's primary emphasis is on the availability, preparation, crystal growth, and the physical, optical, magnetic, and electrical properties of high-purity inorganic research materials. *Input:* Books, monographs, reports, journals, and data submitted by experimenters in the subject area are sources of input. *Content:* Data on high-purity inorganic research materials are the system's content. *Output:* The Center answers specific inquiries regarding availability, preparation, and properties of research-quality specimens, maintains an up-to-date listing of available desired materials, and serves as a focal point for exchange of information between producers and users of research-quality materials. It provides [illegible] documents and to current research and development [illegible] products literature searches. It also publishes the Solid State Physics Literature Guides (in seven volumes) and the International Directory of Solid State Materials Production and Research, ORNL-RMIC-13, June 1975. *Availability:* Services are limited to ERDA, its contractors, and workers in solid state materials science actively participating in the RMIC information program through provision of reports and papers and responses to questionnaires describing their work, materials, methods, equipment, and purpose of research.

Agency Contact: Research Materials Information Center; Solid State Division; Oak Ridge National Laboratory, P.O. Box X, Oak Ridge, TN 37830, (615) 433-8611.

S06000-050

Shock Wave Data Center.
OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-251.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Hugoniot Curves; Information Services; Shock Waves.

Purpose: Established in 1965, the Center collects shock wave information on chemically classifiable materials which allows the calculation of at least one Hugoniot curve. *Input:* In-house experimental data, scientific literature, and private communication are the sources of input. *Content:* Shock and particle velocity, pressure, compression, and density are listed for all Hugoniot curves. Other pressure volume curves will be listed as they become available. *Output:* The Center answers all inquiries concerning data and references within the scope of the Center from ERDA and its contractors. Other inquiries are answered as time permits. It publishes a compilation of shock wave data which is updated periodically and which can be obtained from NTIS. *Availability:* Services are available to ERDA and its contractors only.

Agency Contact: Shock Wave Data Center; Lawrence Livermore Laboratory, H Division, P.O. Box 808, Livermore, CA 94550; (415) 447-1100.

S06000-051

Table of Isotopes Project.
OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-251.
Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Isotopes; Nuclear Structure; Radioactivity.

Purpose: The primary purpose of the project is to produce the Table of Isotopes. The first edition of this book was published in 1940. A seventh edition is scheduled for publication in 1977. *Input:* Worldwide collection of isotopes data is the source of input. *Content:* The project's areas of specialization are the evaluation of data on radioactivity and nuclear structure and the application of computer techniques to the compilation and publication of these data. *Output:* Requests for references or data are answered to the extent possible. On-line computation of properties useful for nuclear spectroscopy (internal conversion coefficients, beta- and alpha-decay transition rates, vector-addition coefficients, etc.) is provided via a dial-up service (from standard teletype or equivalent terminal). Magnetic tapes of theoretical internal conversion coefficients (Hager-Seltzer) are provided on request. *Availability:* The Table of Isotopes is published by John Wiley and Sons, Inc., and is available worldwide. Use of the on-line computation package requires an account at the LBL com-

puter center. This may be obtained by most organizations or individuals with Government contracts (information available on request). Users of this service are charged a small fee for computation and connect time. Magnetic tapes are provided on a replacement basis.

Agency Contact: Table of Isotopes Project; Lawrence Berkeley Laboratory; University of California, Berkeley, CA 94720; (415) 843-2740.

S06000-052

Toxic Materials Information Center (TMIC).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305; Operating Expenses / 89-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Contaminants; Environmental Health; Information Services; Pollutants, Toxicity; Trace Elements.

Purpose: Established in 1972, the Toxic Materials Information Center serves as the major information facility for the NSF-RANN Environmental Aspects of Trace Contaminants Program and its grantees. TMIC performs multiple information functions for this program and acts as a focal point for exchange of information between researchers and users of the data obtained by the researchers. ***Input:*** Books, monographs, journals, reports, and data collected from experimenters in the subject field are the sources of input. ***Content:*** The content of TMIC centers on environmental levels of toxic materials and their consequences. Since this is a RANN (Research Applied to National Needs) program, national priorities have determined the priority ordering of the materials emphasized. For the first four years the toxic metals were the first priority, but the emphasis is shifting to synthetic and natural organic compounds (primarily non-energy-related industrial chemicals). TMIC is a component center of the Environmental Resource Center, Information Center Complex, Oak Ridge National Laboratory. It shows the extensive environmental data bases and in-house literature collections housed at ORNL and maintains several specialized collections on trace contaminants and environmental transports. ***Output:*** The Center prepares comprehensive information overviews on the environmental, health, and control aspects of selected trace contaminants to provide in a readily accessible form to members of the scientific community such as administrators, decisionmakers, and researchers information needed to assess the effect of such pollutants on the environment and on humans. It answers specific inquiries regarding environmental levels of pollutants and maintains an up-to-date listing of criteria and standards available in this area; provides references to documents and to current research and development projects; conducts literature searches; and publishes data compilations and bibliographies. ***Availability:*** The Center produces an annual directory of program personnel and maintains management information systems of all grants of the program. It also produces a bimonthly abstract journal, NSF-RANN Trace Contaminants Abstracts, which reports the research results which have been published by investigators in the Environmental Aspects of Trace Contaminants Program, Research Applied to National Needs: National Science Foundation. This publication is available upon request.

Agency Contact: Toxic Materials Information Center; Information Center Complex/Information Division, Oak Ridge National Laboratory; P.O. Box X, Oak Ridge, TN 37830; (615) 483-8611

S06000-053

Transportation Accident Environmental Data Bank.

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Accidents, Environmental Assessment; Hazardous Substances; Radioactive Materials; Transportation of Hazardous Substances.

Purpose: The maintenance of the Transportation Accident Environmental Data Bank involves the active pursuing of sources of new data, the updating of indices, and responding to official users who wish to obtain environmental data. ***Input:*** User requests for non-existing data are expected to be the major contributor to this identification. It is anticipated that when needs for new data are identified, feasible methods of obtaining these data will also be recognized. Recommendations for acquisition of needed data will be made. ***Content:*** Nuclear safety data related to trasnporting and handling radioactive materials is contained. ***Output:*** Various types of output are available by contacting the laboratories. ***Availability:*** Output is available from Sandia Laboratories on request.

Agency Contact: Transportation Accident Environmental Data Bank; Sandia Laboratories, Albuquerque, NM 87115; (505) 264-5678.

S06000-054

Water Resources Center (WRC).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee, *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Hydrologic Models; Hydrology; Radioactive Pollution of Water; Water Pollution; Water Quality.

Purpose: The Desert Research Institute, Water Resources Center (WRC), is considered to be without peer in the area of theoretical ground water hydrology and the prediction of radionuclide migration in the ground. ***Input:*** The staff is comprised of hydrogeologists, civil engineers, chemists, physicists, biologists, and geochemists, enabling WRC to conduct research covering all aspects of the hydrologic cycle. ***Content:*** WRC is continually updating a hydrologic data storage and retrieval computer system which contains data from six States, including Alaska, incorporating chiefly ERDA and the Environmental Protection Agency activity. WRC maintains a water resources data bank for the State of Nevada which includes data on surface and ground water and water quality. The Center has the capacity to model a hydrologic regime anywhere in the world with the appropriate data. ***Output:*** WRC routinely responds to many requests for hydrologic data and information and also publishes and distributes hydrologic reports based on its work for ERDA and others. It serves as a consolidated source of [illegible] data for ERDA [illegible] to nuclear detonation effects [illegible] hydrologic system [illegible] of migration of radionu[illegible] time and space. [illegible] Services are available to sponsors free of charge; others small fees.

[illegible] Water Resources [illegible] Research [illegible]ation, P.O. Box [illegible]07; (702)

S06900-055

Regional and Urban Studies Information Center (RUSTIC).

OMB Funding Title/Code: Operating Expenses / 89-0100-0-1-305; Operating Expenses / 89-0100-0-1-251.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Science and Technology; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Commerce, Science, and Transportation; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Energy; Information Services; Socioeconomic Data.

Purpose: RUSTIC was created in 1973 to help meet the information needs of local and State governments, academicians, and Federal authorities and to determine the most efficient and effective means for the transfer of empirical data among professionals in various institutions. ***Input:*** The numerical data files of RUSTIC are organized under a comprehensive data management system and are designed to serve the research needs of ERDA laboratories and State, Federal, and local governments in social science-socioeconomic analysis and energy, energy consumption, and energy production analyses. ***Content:*** RUSTIC provides socioeconomic data and technical assistance to a diverse user community involved with the development and planning of energy-related resources. ***Output:*** RUSTIC is a summary tape processing center of the Bureau of the Census. ***Availability:*** RUSTIC handles data requests on a cost recovery basis. User requests must be submitted in written form, with complete data requirements specified in terms of content, geographic level of tabulation, and format. A maximum cost estimate for the finished product is provided by the RUSTIC staff and should be included in an appropriate purchase order. In instances in which an individual user might be better served by another national data service group, such as a tape copying center, RUSTIC will refer the user to that group.

Agency Contact: RUSTIC; Oak Ridge National Laboratory, P.O. Box X, Oak Ridge, TN 37830; (615) 483-8611.

UNITED STATES INFORMATION AGENCY

S06100-001

Management Accounts Structure (MAS).

OMB Funding Title/Code: Salaries and Expenses / 67-0100-0-1-153; Salaries and Expenses (Special Foreign Currency Program) / 67-0103-0-1-153.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Accounting; Budget Information Systems; Financial Management.

Purpose: The system is designed to serve Agency management needs for financial information to support budget formulation and presentation, program evaluation, and funds allocation and control. The structure provides uniform and consistent categories which identify, within the organization, points of responsibility for the activities that are conducted, the types of resources that are utilized, and the sources of fund support. ***Input:*** The data sources are all internal, by program source. All data are coded to provide detail at the lowest level of program source (i.e., country within geographic area, within Overseas Missions). Data provided by the support elements provide information as to the end user, where applicable. The data provide, within each geographic area and media service, the cost associated with each major activity (radio, press, motion picture, television, and Information Center Services), and the function, e.g., the functions under "Center Activities" are USIS center and Cultural/Information Programs, Binational Centers, and USIS English Teaching. Subfunctions under these functions provide a further breakdown and can be made specific enough to identify an individual project. ***Content:*** The specific information contained in each entry in the system provides appropriation code, the fiscal year, the organizational and cost center entity, the geographic reference, the major activity and functions, and the resource code (object classification and specific type of expense). Allotments are issued to each cost center within an organizational entity (e.g., by country for each geographic area) and provide for the obligational and apportionment authority. The system is designed for cross-referencing. Hence, information can be obtained by country by area, or by activity across country and area lines. All information is designed to provide a functional activity breakdown that is the basis for the Agency's congressional budget presentation. ***Output:*** Allotments issued to overseas locations are processed manually or processed in an automated system by a regional finance office of the Department of State. In both cases, reports are generated monthly and provide a detailed accounting for each allotment issued to an overseas cost center by function and resource codes within each function. The functions are summarized to reach the allotment total. The reports also provide current month and cumulative fiscal year totals for obligations and expenditures. Domestic allotments are processed on a centralized automated system. Reports are hardcopy. The reports are as follows: 1) weekly - Detailed Transaction Register and Status of Allotments; and 2) monthly - Status of Allotment; Program Obligations (by resource code for each function within a cost center); and Open Document Listing (listing of unpaid obligations). ***Availability:*** Reports are for internal use only.

Agency Contact: Management Analyst; 1750 Pennsylvania Ave. NW, Washington, DC 20547; (202) 632-6680.

S06100-002

ADP Handbook - Summary of Automatic Data Processing (ADP) Program in USIA.

OMB Funding Title/Code: Salaries and Expenses / 67-0100-0-1-153.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Accounting; Electronic Data Processing; Financial Management.

Purpose: The system provides for full disclosure of financial results; adequate data for management needs; effective control over funds, property, and other assets; reliable accounting support to USIA budget reports; and integration of USIA accounts with central accounting and reporting operations of the Treasury Department. ***Input:*** Information in the data file for this system is derived from payments and obligations records, requests received from the procurements for overseas posts, specific reports from media services, and data received from other internal sources. ***Content:*** The ADP System provides data at all sufficient management levels-organization, cost center, subcost center or activity center, and function. In addition, a system of resource codes is included which provides descriptive types of expenses. Various data are provided on weekly, biweekly, monthly, quarterly, semiannually, annually, and on when-requested bases on both domestic and worldwide USIA operations. The information content is updated as required. The handbook is intended to be used as a training tool, an aid for briefings, and as a congressional automatic data processing (ADP) budget document. It describes management responsibilities within USIA for developing and implementing the ADP program and contains an inventory of operating automated applications, both domestic and overseas. ***Output:*** The system provides [illegible] hardcopy outputs. Frequency of individual reports [illegible] to weekly, biweekly, monthly, quarterly, [illegible] when-requested basis. A few of the reports [illegible] Register, Status of Allotment Report, Report [illegible] Basis-Appropriations Fund Accounts, [illegible] Analysis Report, Wage and

1977 Congressional Sourcebook

ments, Skills Inventory Profile/Record, VOA Language Reports, Script Usage Report, and Resource Code Summary by Area. *Availability:* These are for internal use only.

Agency Contact: Management Analyst; 1750 Pennsylvania Ave. NW, Washington, DC 20547; (202) 632-6680.

S06100-003

ICS Book Appraisal Index.

OMB Funding Title/Code: Salaries and Expenses / 67-0100-0-1-153.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Books; information Services; Libraries.

Purpose: The Book Appraisal File of about 50,000 titles was converted from a hardcopy file in one location to a microfiche file at 24 locations, including 18 overseas. *Input:* System input is internal. The Information Center Service Appraisals and Bibliographic Division (ICS/B) is responsible for the operation and maintenance of the ICS Book Appraisal File. ICS/B provides the Computer Services Center with all new book appraisals and changes and deletions in existing index entries on a monthly basis. *Content:* Access to a specific title is accomplished by means of three computer-produced indexes–two alphabetical by Author and Title and one in numerical sequence by Dewey Decimal Classification Number. Each index shows the author, title, fiche, frame number, Dewey number, year of publication, and the ICS Service position on the title. Every month the Computer Services Center produces the three indexes showing data changes in 24 microfiche locations. Every six months the Computer Services Center produces indexes of the entire appraisal file in the three formats to interfile the monthly change. *Output:* The following reports are run quarterly with monthly supplements: ICS Book Appraisal File Index by Dewey Decimal, ICS Book Appraisal File Index by Titles, and ICS Book Appraisal File Index by Author. *Availability:* These are for internal use only.

Agency Contact: Management Analyst; 1750 Pennsylvania Ave. NW, Washington, DC 20547; (202) 632-6680.

S06100-004

Radio Frequency Reporting System.

OMB Funding Title/Code: Salaries and Expenses / 67-0100-0-1-153.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Broadcasting; Radio Broadcasting; Radio Frequencies.

Purpose: The major functions are to provide relay stations with a summary of their operations, to allow long-range planning of radio frequencies, to make adjustments to the broadcast schedule, and to report on seasonal broadcast effectiveness. *Input:* Systems input is internal and is derived from information received from radio broadcasting relay stations and broadcast monitoring stations worldwide. *Content:* A data communications link between Broadcasting Service, Engineering and Technical (IBS/E), located at 25 M Street SW, and the Computer Services Center, 1750 Pennsylvania Ave. NW, provides the Center with the capability of receiving data observations by teletype from relay and monitoring stations worldwide. These data, totaling over 100,000 observations per month, provide the input via teletype to the computer. Procedures for processing observations from relay stations and monitor posts are similar, but separate files are maintained. Observations are brought into the system through punched paper tape in a matrix format, they are screened by the computer for errors. Files with errors are rejected. Accepted observations are converted to individual transactions, using the matrix itself and the Transmission Schedule. Each therefore becomes a complete profile on a single transaction. Acceptable transactions then are merged with the records on the master file which contains all observations for a season. During the merging process, the file is analyzed and trend reports are produced. *Output:* The system's output consists of 12 hardcopy reports. Four reports are processed daily, four monthly, two quarterly, and two as-requested. These reports include: IFRB Master File Update Audit Trail, Monitor Observation Validate, Relay Station Observation Validate, Trend Analysis, VOA Language Report, VOA Frequency Report, VOA Relay Report, VOA Supplemental Relay Report, VOA Transmission Schedule, IFRB Frequency Distribution Report, IFRB Acceptable Transaction Merge Duplicate Change Report, and IFRB Transaction Sheet. *Availability:* These are for internal use only.

Agency Contact: Management Analyst; 1750 Pennsylvania Ave. NW, Washington, DC 20547; (202) 632-6680.

S06100-005

Exhibit Property Inventory System.

OMB Funding Title/Code: Special International Exhibitions / 67-0064-0-1-153.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Exhibits; Government Property; Inventories; Property.

Purpose: This system helps the Information Center Service maintain protective and administrative control over exhibit property, including loaned, rented, purchased, and donated items. *Input:* The Exhibit Division of Information Services Center (ICS/EO) is responsible for controlling the exhibit property and for supplying input data for the Exhibit Property Inventory System. *Content:* The exhibit property ADP records consist of a Master File Inventory of items at various locations worldwide. The system is updated as required to incorporate property acquisitions and disposals into the records. *Output:* The system output provides ICS/EO with a transaction register of all changes. A monthly warehouse inventory report is printed as well as a quarterly worldwide inventory (in various data sequences), a quarterly location listing, and opening and closing exhibit property inventory reports on an as-requested basis. All reports are hardcopy. *Availability:* Reports are for internal use only.

Agency Contact: Management Analyst; 1750 Pennsylvania Ave. NW, Washington, DC 20547; (202) 632-6680.

S06100-006

Donated Books Operation.

OMB Funding Title/Code: Salaries and Expenses / 67-0100-0-1-153.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Books; Donations; Inventories.

Purpose: This is a continuing program in which two lists per month containing up to 60 book titles each are distributed to USIA and Peace Corps posts. Approximately 3 million books are made available annually to USIA for donations abroad through the ordering posts. *Input:* The data contained in the data file for this system are derived from post orders submitted to the Information Center Service (ICS). *Content:* Requests for donated books are limited to titles on the Donated Books Lists. The requests must be submitted to reach ICS/C by the date noted on the front cover of each list. The number of books in stock is given as a guide in placing orders. When total orders from the field exceed the quantity in the warehouse, adjustments are made by ICS as equitably as is possible. Certain publisher restrictions on the distribution of the books therefore, each post is required to check the restrictions [illegible] ing

books. *Output:* The system provides the following reports: Inventory Proof List, Donated Book Order Proof List, and Consolidated Donated Book List. *Availability:* Reports are for internal use only.

Agency Contact: Management Analyst; 1750 Pennsylvania Ave. NW, Washington, DC 20547; (202) 632-6680.

S06100-007

Radio Script Usage Reporting.

OMB Funding Title/Code: Salaries and Expenses / 67-0100-0-1-153.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Radio Programs.

Purpose: The major function of this system is to produce statistical reports for the Voice of America on radio script usage. *Input:* System input is internal. Data contained in the data file for this system are derived from copies of content reports of daily broadcasts. Script title data are combined with script usage data to produce the required statistical reports. *Content:* Script Menu records are maintained on a magnetic tape file which is updated monthly by the addition of new script titles and by the deletion of script titles which no longer are current. The system has been expanded recently to include statistics relating to Language Service (in-house) originated scripts. Additionally, it has been revised to include air time for each script broadcast, and other data elements have been added to increase the usefulness of reports as a management tool for VOA officials. *Output:* The system produces six hardcopy reports, five monthly and the sixth as-requested. The reports are Script Usage Report; Scripts Used during the Month; Broadcast Service Subject Report; Broadcast Service; Broadcast Data Report; Script Usage by Title; and Area/Country List, Language List, and Script Type List Report. *Availability:* These are for internal use only.

Agency Contact: Management Analyst; 1750 Pennsylvania Ave. NW, Washington, DC 20547; (202) 632-6680.

S06100-008

Periodical Subscription Operation.

OMB Funding Title/Code: Salaries and Expenses / 67-0100-0-1-153.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Management Information Systems; Periodicals; Subscriptions Lists.

Purpose: This system assists the Information Center Service (ICS) with the annual procurement activity required to maintain nearly 25,000 subscriptions to approximately 1,000 different titles for use in overseas information centers, binational centers, reading rooms, and presentations. The system also assists the Agency Library (IOR/L) in maintaining about 5,100 subscriptions to magazines and newspapers for approximately 1,000 titles for the library and for staff use in 400 Agency offices worldwide. *Input:* Information in the data file for this system is taken from request for subscriptions from USIA overseas posts and the library. *Content:* The Information Center Service (ICS) and the Agency library receive analyses of the statistics concerning the procurement and use of these periodicals and newspapers by domestic elements and on a worldwide basis by overseas posts. ADP reporting consists of statistical data, in various arrays, of the procurement order for budget presentation; analysis and review; and selective reporting of subscription use for management purposes. Reports are prepared semiannually. Data are updated constantly to introduce changes in subscriptions, titles, and usage into the system. *Output:* Frequency of system output is semiannually and annually. A total of 17 hardcopy reports are issued, including the following: Cost by Title, List by Location, Number of Subscriptions by Title, Net Price List, Subscriptions for Staff Use Report, Summary of Staff Use Periodical, Master Address/Location Report, and Master Title Report. *Availability:* Reports are for internal use only.

Agency Contact: Management Analyst; 1750 Pennsylvania Ave. NW, Washington, DC 20547; (202) 632-6680.

S06100-009

Resource Management System (RMS).

OMB Funding Title/Code: Salaries and Expenses / 67-0100-0-1-153.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Financial Management; Management Information Systems; Resource Allocation.

Purpose: The Resource Management System (RMS) was developed to expand the Country Public Affairs Officer's (CPAO) control over the responsibility for his/her country's program by allowing him/her to affect directly the level and nature of Washington activities supporting his/her program. *Input:* RMS uses a computer to input data, edit the data, update the RMS files, and produce reports. The edit process consists of seeing if valid entries are present in certain data fields. Invalid entries are rejected and appear in a daily error report used for correction of those transactions. Input is from internal sources. *Content:* The Resources Management System informs the Country Public Affairs Officer (CPAO) what it costs the Agency to supply his/her program with media services from Washington and gives the CPAO direct control over that portion of these resources which can be attributed to that country and which can be reprogrammed. The Agency's RMS Control Branch provides centralized receipt and routing of all overseas posts' orders for Agency products and services under RMS and the maintenance of RMS/DSA accounts. *Output:* The system produces six hardcopy monthly reports: Resource Code Number by Area, Status of Direct Support by Allocation by Country, Status of Direct Support Allocation by Organization, Transaction Listing, Outstanding Orders Referred to Media for Information - by Country, and Outstanding Orders Referred to Media for Information - by Organization. *Availability:* Reports are for internal use only.

Agency Contact: Management Analyst; 1750 Pennsylvania Ave. NW, Washington, DC 20547; (202) 632-6680.

S06100-010

Film-TV Inventory and Catalog System.

OMB Funding Title/Code: Salaries and Expenses / 67-0100-0-1-153.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Films; Inventories; Television Programs.

Purpose: The Motion Picture and Television Service (IMV) is engaged in supplying films and TV programs to USIA posts throughout the world. Each year about 500 new titles are acquired for distribution. The computer system is designed to collect, inventory, and catalog data concerning these titles and their distribution and to retrieve it in useful listings and catalog formats. *Input:* The data contained in the data file are derived from internal sources. Information to update the system is sent to the Computer Services Center (IOA/FD) in two forms-paper tapes from automatic writing machines, which also print the Program Products Orders and Film Shipment Notices, and input forms supplied by IOA/FD on which IMV records details concerning titles, post inventory changes, catalog data, and codes used in the system. *Content:* Ten or eleven post inventories are printed out each month so that each post receives an

up-to-date listing annually. The inventory shows all titles owned by the post except those of a "dated" or "restricted" nature; that is, all titles for which the post is held accountable. The post is responsible for reporting any changes in its inventory and the reasons for the change. Post catalogs are produced with the same schedule for post inventories. Each post catalog contains all titles in the post inventory except those which have been retired by the Agency. A master catalog, containing all titles available for use abroad, except those which are "dated" or "restricted," is produced annually as soon as possible after the close of the fiscal year. The retired title file is updated annually with titles which the Agency retired during the preceding year. *Output:* The system produces 22 hardcopy reports on a monthly, annual, and as-requested basis. Principal reports include the following: Post Inventory Listing, Post Catalog Subject Matter, Listing and Subject, Annual List of "Dated Titles," Retired and TV Inventory, Retired Title Report, Master Catalog Alpha Report, IMV Product Distribution Report, Master Title Report, and IMV Country/Language Tables. *Availability:* These are for internal use only.

Agency Contact: Management Analyst; 1750 Pennsylvania Ave. NW, Washington, DC 20547; (202) 632-6680.

S06100-011

Audience Data System - USIS Mexico.

OMB Funding Title/Code: Salaries and Expenses / 67-0100-0-1-153.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Mailing Lists; Management Information Systems; Publications Distribution.

Purpose: This system provides data processing services requested by USIS Mexico for distribution of periodicals, within country, and books regionally. The system provides USIS Mexico with Name and Address Labels for various publications. It also produces reports for management purposes on an as-requested basis. *Input:* All transactions are originated by USIS Mexico on the Distribution or Regional Book Office (RBO) System Transaction Record. USIS Mexico notifies the Computer Services Center when Name and Address Labels are to be printed, specifying the number of labels needed and the records for which labels are to be printed. *Content:* USIS Mexico distributes a number of publications to target audiences comprising professionals, academicians, and other opinion leaders. As names are added, changed, or deleted from the file of recipients or as addresses or other changes occur, USIS Mexico furnishes the pertinent data to the Agency Computer Service. This system provides all the data necessary (approximately 12,000 records) for processing name and address labels, statistical reports, and other special requests for the post. *Output:* This system produces three hardcopy reports: Transaction Record Proof (monthly), Name and Address Labels (as-requested), and Special Request Reports (as-requested). *Availability:* Report are for internal use only.

Agency Contact: Management Analyst; 1750 Pennsylvania Ave. NW, Washington, DC 20547; (202) 632-6680.

NUCLEAR REGULATORY COMMISSION

S06200-001

NRC Financial System (General Ledger System).

OMB Funding Title/Code: Salaries and Expenses / 31-0200-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Accounting; Financial Management.

Purpose: The General Ledger System was established in order to allow its users an orderly and timely means to account for financial data. The major functions of this system are to validate all input data, accrete new transactions to the General Ledger master file, apply changes to previously established master records, and produce various accounting reports on a monthly basis to fulfill reporting commitments. *Input:* The data contained in the data file for this system are derived from obligations, payments, disbursements, and accruals collected from within the Agency as well as from external institutions. *Content:* The file serves as a year-to-date transaction history file and is updated on an as-needed basis. The General Ledger master reflects the transaction code, allotment fund code, fund type, balance sheet code, summary class code, status code, budget and reporting classification code, and year-to-date amounts. *Output:* The frequency of system output is monthly and includes the following: General Ledger Master Record Computer File; General Ledger Offset Record Computer File; Microfiche Files; Division Summary Listing; Status of Allotment Listing; Financial Operating Status Listing; and Offset Trial Balance Listing. *Availability:* The reports are not publicly available; they are primarily utilized to meet internal information requirements.

Agency Contact: Division of Accounting; 1717 H St. NW, Washington, DC 20555; (301) 492-7535.

S06200-002

License Information System.

OMB Funding Title/Code: Salaries and Expenses / 31-0200-0-1-305.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Licenses; Nuclear Facilities.

Purpose: The Nuclear Regulatory Commission operates a closely related group of systems which process nuclear facility licensing information. An on-line data system contains status and scheduling of NRC regulatory activities; inspection results; and characteristics of nuclear licensees. The system provides for the periodic reporting of status change and other update information, the maintenance of various information files; and the publication of status reports. These reports are used in the administration and management of NRC. *Input:* The data are collected from licensee reports and staff input. *Content:* Data on revenues received from indemnity, material, and facility license fees are collected regularly and maintained on file. An internal management report is generated on a monthly basis showing the following information; allotment fund order, budget and reporting number, contract identification on purchase order number, appropriation fund code, bureau voucher number, type of fee, month processed, and the amount. Another report details refunds of license fees to licensees. It contains the company name, license number, invoice number, and the amount of the refund. Other information is maintained which details the procedures and processes for reviewing information reported by nuclear licensees under the NRC performance evaluation program. The information covers routine operating information, release of radioactive effluents, and licensee incidents or events. This reported information is reviewed and evaluated; analytic reports are published. *Output:* Reports are issued monthly and are available in hardcopy. A query capability exists for certain data types. *Availability:* Several reports are publicly available; others are primarily for internal staff/management information.

Agency Contact: Office of Management Information and Program Control; 1717 H St. NW, Washington, DC 20555; (3[illegible]

S06200-003

Radiation Exposure Information and Reports System (REIRS).
OMB Funding Title/Code: Salaries and Expenses / 31-0200-0-1-305.
Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Occupational Health and Safety; Radiation Safety.

Purpose: Parts 20.405, 20.407, and 20.408 of Title 10, Chapter 1, Code of Federal Regulations require reports concerning occupational radiation exposure information to be submitted to the NRC. REIRS was established to facilitate permanent storage, manipulation, and retrieval of information. ***Input:*** The information contained in REIRS is derived from radiation exposure reports required to be submitted by certain NRC licensees and from information provided by the State of Illinois. ***Content:*** The system consists of four subsystems: 1) Annual data-NRC licensee name, address, and number, the number of individuals annually monitored, and the range of the whole body exposure (updated annually); 2) termination data-name, address, and number of the NRC licensee reporting; name, social security number, and birth date of the terminating individuals; period of employment and or exposure; estimate of the individuals' dose or exposure to concentrations of radioactive materials (updated continuously); 3) overexposure data-same as above except that the date that the overexposure occurred replaces the dates of employment (updated continuously); and 4) Illinois data-name, address, and number of the Illinois registrant; name, social security number, date of birth, sex, and estimate of exposure of each individual monitored during each year (updated annually). ***Output:*** The major output is the Annual Occupational Radiation Exposure Report. Some 25-30 other statistical reports, primarily in computer printout form, are developed during the year. ***Availability:*** The annual report is publicly available. Copies of other reports, except those containing names and social security numbers, are available upon request.

Agency Contact: Office of Management Information and Program Control; 1717 H St. NW, Washington, DC 20555; (301) 492-7735.

POSTAL SERVICE

S06300-001

USPS Banking System (BKS).
OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Banks; Postal Banks; Revenue.

Purpose: The system is to capture postal revenue data at the point of their deposit and to control the bank balances and transfers of such revenues until credited to the United States Postal Service (USPS) account at the Federal Reserve Banks. The Postal Service is thus able to release for investment or other use the optimum amount of moneys from float and excess bank balances. This optimum deposit and cash transfer system also provides for future USPS commercial banking requirements such as bank line credit, regional disbursement and money order reconciliation assistance. ***Input:*** Data are received from Form 3020X Certificate of Deposit for Postal Funds. (Remaster deposits USPS funds and calls data collection center to report deposits.) ***Content:*** The USPS Nationwide bank balances and transfer of revenues to USPS accounts at Federal Reserve Banks are put in the system daily. ***Output:*** The Certificate of Deposits Summary Report is printed daily. ***Availability:*** Copies of most reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-002

Postal Service-wide Contract Data System.
OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Contractors; Contracts; Equipment; Government Procurement; Inventories; Postal Equipment; Procurement.

Purpose: This system provides a quarterly updated listing of all postal equipment and supply and service contracts (except those for real property acquisition and for mail transportation). The data generated by this system are intended for use by all levels of postal contracting management. The purpose of the data presented is to provide contracting managers with an overview of procurement activities and statistical summaries within their sphere of management control. ***Input:*** Data are input by means of contract registers maintained by each postal contracting facility and forwarded to the U.S. Postal Service Western Area Supply Center, Topeka, KS, at weekly intervals. ***Content:*** The data elements include the postal facility awarding the contract; the contract number, including the fiscal year of award; the method of award (formally advertised, negotiated price competition, negotiated design or technical competition, follow-on to competition, sole source, intergovernmental commercial source, or intergovernmental noncommercial source); the item being purchased; the value of the contract; a code to identify the contractors as a large business, small business, or minority business; the award date of the contract; the completion date of the contract; the status of the contract (active, termination in process, physically complete, or closed out); the contract type (cost reimbursable, time and material/labor hours, or firm fixed price); the identity of the contractor; the requiring activity (for USPS headquarters Office of Contracts awards only); the contracting officer (for USPS headquarters Office of Contracts awards only); and the value of contract modifications. ***Output:*** Output includes computer printed listings of contract awards by postal contracting facility and computer printed summaries by methods of awards, commodities, number of contracts, total dollar amounts of awards, as well as random selections of certain data elements. ***Availability:*** Copies of most reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-003

Consumer Complaint Program (CCP).
OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Complaints; Consumer Protection; Postal Service.

Purpose: This system provides a procedure for collecting and consolidating customer complaint information, for assessing postal service, and determining probable causes of complaints. It is used as a basis for recommended corrective action. Reports produced for each accounting period summarize complaints received by office, district, region, and nationwide and provide comparative data on subjects, dispositions, and estimates of causes for customer complaints. ***Input:*** Output includes PS Form 4314 Consumer Service Card (prepared by USPS customer) and PS Form 4314-c Consumer

Service Card (Spanish language). *Content:* The system collects and consolidates complaint information submitted by customers nationwide. *Output:* A printed Executive Summary Report is issued for each accounting period. *Availability:* Copies of most reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-004

Delivery Services Analysis (DEL).
OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Mail Delivery; Productivity.

Purpose: This system provides all levels of management (national, regional, district, sectional, and post offices) with timely delivery services operation, production, and cost control information pertinent to over 6,000 post offices. Reports produced provide detailed data on post office deliveries, pickups, and costs. *Input:* A specially designed source data document, Form 3997-C-Delivery Service Operations Analysis, is submitted by selected postal facilities. *Content:* The system contains post office delivery data for all first- and second-class post offices. Comparative delivery data per hour are gathered on a nationwide basis. *Output:* Reports printed each accounting period include post office hours; volume, hourly delivery, and collection pickup information; delivery hours and minutes per delivery, and cost data and possible deliveries. *Availability:* Reports are not generally available. Copies will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-005

Delivery Statistics, City and Rural (DLV).
OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Costs; Mail Delivery; Rural Mail Delivery.

Purpose: This system provides all levels of management (national, regional, district, sectional, and post offices) with timely delivery services operation, production, and cost control information pertinent to over 6,000 post offices. Reports provide detailed data on post office deliveries, pickups, and costs. *Input:* Data are derived from Form 4029-Rural Delivery Statistics and Form 4028-City Delivery Statistics (prepared by post offices). *Content:* The system contains data on post office deliveries, pickups, and costs, collected annually on a nationwide basis. *Output:* Annual printed reports are the City Delivery Statistics Summary and the Rural Delivery Statistics Summary. *Availability:* Copies of most reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-006

Energy Reporting System (ERG).
OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Energy Consumption; Fuel Consumption; Postal Equipment, Vehicles.

Purpose: This system provides various levels of management with data concerning energy utilized by postal facilities and vehicles. Monthly reports are produced showing energy usage for facilities and by postal vehicles. *Input:* Data are derived from PS Form 4928-Postal Facility and Vehicle Energy Usage (prepared by postal facilities). *Content:* The system contains data on energy utilization by postal facilities and vehicles on a monthly basis. Its geograpnic coverage is nationwide (first-class offices only). *Output:* Printed monthly reports include Energy Usage for Facilities and Energy Usage by Postal Vehicles. *Availability:* Annual reports are available through the Federal Energy Administration.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-007

Highway Register System (HWY).
OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Contracts; Government Procurement; Mail Delivery; Motor Transportation; Procurement, Rural Mail Delivery, Vehicles.

Purpose: This system provides a complete record of star route contracts of services provided the USPS. It is the source of basic data necessary for research and analysis on highway transportation. The register also supplies statistical reference information called for by Federal and State government agencies. It provides data on master routes and segments, type of movements, and type of vehicle. Summary reports by State, region, and nationwide by type of movement and within type of movement by type of vehicle are produced for use by State roads commissions for allocation of Federal highway funds. Reports show also the number of routes and dollar values for each pay grouping with totals by State, region, and nationwide. *Input:* Data are derived from Form 5509A-Record of Star Route Contracts (prepared by post offices). *Content:* The system contains data on maintenance of USPS highway transportation contractual services on a nationwide basis. *Output:* The following printed reports are produced: Register-A-Listing-Star Routes (semiannual); Type of Movement, Vehicle, Route, and Type (accounting period); and Star Route-Pay Croupings (accounting period). *Availability:* Copies of most reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-008

Mail Fraud and Prohibited Mailings System (MEP).
OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Fraud; Mail Fraud; Mail Investigation; Prohibited Mailings.

Purpose: This system maintains information pertaining to the type, frequency, and location of various occurrences of mail fraud and prohibited mailing schemes. It enables the Inspection Service, USPS, to give prompt investigative attention where needed. Reports are produced to indicate the details of investigations in progress and investigations completed. Data are broken down under Federal judicial district or non-Federal judicial district to indicate the number and date for presentations, prosecution declined, indictments, arrests, dismissals, acquittals, or convictions. The kind of sentence and length of sentence and the amount of fines or restitutions also appear. In addition, fraud cases data contain the amount of public loss or public savings, and prohibited mailing cases data contain the amount of dealers' gross annual receipts. ***Input:*** Data are derived from USPS Form 536–Source Data–Fraud and Mailability (prepared by USPS Inspection Service). ***Content:*** The system contains information pertaining to mail fraud and prohibited mailing schemes on a nationwide basis. It is updated as data are submitted. ***Output:*** Closed Case Reports are printed monthly and quarterly. Mail fraud and prohibited mailings data are available by query. ***Availability:*** Reports are not generally available. Some reports containing information resulting from completed investigations are provided upon individual request in accordance with Postal Service information disclosure policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-009

Mail Losses Reporting System (MLS).

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Consumer Protection; Mail Delivery; Mail Losses.

Purpose: This system is designed to maintain a 2-year history of mail losses at all post offices and sectional center facilities. Reports of valid mail losses are produced showing mailing office and receiving office, content and dollar value, and type of mail. ***Input:*** Data are derived from Form 1510–Customer Loss/Complaint Form. ***Content:*** The system maintains mail losses information on a nationwide basis. It is updated daily. ***Output:*** The following printed output is generated: Mail Loss Quantity (monthly); Quantity Value Report-mailed (monthly and quarterly); and Mail Loss Statistics (as requested). ***Availability:*** Reports are not generally available. Some reports containing information resulting from completed investigations are provided upon individual request in accordance with Postal Service information disclosure policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-010

Origin-Destination Information System.

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Mail; Management Information Systems.

Purpose: ODIS is an information system by which mail volume data, service analysis data, and other characteristics of mail data are collected, developed, and presented in a variety of report formats for use by all levels of postal management in such areas as: 1) design and development of bulk and preferential mail centers; 2) development of forecasts of mail volume for planning purposes; 3) measurement of overall service performance through the National Service Index Report; 4) measurement of service standard achievement; and 5) forecasting, budgeting, fiscal control, and manpower planning operations. Reports include class of service achievement, service analyses, national and interregional distributions, mail characteristics, and ZIP code usage. ***Input:*** USPS Form 1300, a data collection form for recording origin destination service performance information, is the source of information. Data are collected at selected sample post offices. ***Content:*** The system collects information on mail volume data and service analysis. Information consists of statistically selected samples on a nationwide basis. ***Output:*** The following printed reports are produced quarterly: Service Analysis Data for First-Class Letter Mail between Major ODIS Areas in the United States; National Service Index Report; Bulk Mail Facility (BMF) Report; and Mail Characteristics Report. The First-Class Mail Standard Achievement Report is printed biweekly and for accounting periods. ***Availability:*** Copies of most reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-011

Project Authorization Control System (PACS).

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Accounting; Construction.

Purpose: This system establishes and maintains a reporting system on a weekly and accounting period basis for all outstanding budget authorizations, commitments, and payments on construction and improvement projects for the U.S. Corps of Engineers and the U.S. Postal System controlled by the U.S. Postal Service. Also provided is a journal voucher file including "contra" entries to adjust accounts each accounting period as the project progresses through authorization and commitment to payment and completion of all obligations. ***Input:*** Input is derived from: Form 4209–Corps of Engineers Authorization and Commitment; Form 4211, USPS Form for recording commitments; Form 4211A, USPS form for authorizing payments; and Form 1233, USPS form for project completion. Source data are prepared by contracting officers. ***Content:*** Information consists of data on control of outstanding budget authorizations, commitments, and payments on construction and improvement projects on a nationwide basis. ***Output:*** Monthly output includes a printed status report and Project Authorization (microfilm). ***Availability:*** Copies of most reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-012

Resources Utilization Study.

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Management Information Systems; Manpower Utilization; Resource Allocation.

Purpose: This system is designed to meet the need by USPS headquarters and regional administration for current information on the utilization of resources (manpower, equipment, forms, and procedures) in post office field operations. ***Input:*** Data are derived from PS Form 3772-Survey of Field Resource Utilization. ***Content:*** Data consist of measures of resource utilization (manpower, equipment, forms, and procedures) collected on a nationwide basis. ***Output:*** A Manpower Utilization Survey is produced on request. ***Availability:*** Reports are not generally available. Copies will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-013

Revenue History Report (RHP).

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Postal Revenue; Revenue.

Purpose: This system provides an annual historic revenue report of selected revenue accounts for use by the Economic Analysis Division, USPS, in monitoring revenue patterns nationwide starting with fiscal year 1973. It contains annual revenue data for all post offices within each 3-digit postal ZIP code area. ***Input:*** Data are derived from selected revenue accounts from the General Ledger System. ***Content:*** The system contains data used to monitor USPS historical revenue patterns. Information is upoated annually. ***Output:*** Annual Revenue Data for All Post Offices is printed and generated on magnetic tape. ***Availability:*** Copies of reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-014

Revenue/Cost Analysis System (RCA).

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Costs; Mail; Management Information Systems; Postal Revenue; Revenue.

Purpose: The revenue portion of the system estimates revenue and pieces and weight of mail by class, subclass, and type of mail service. It is called the Revenue, Pieces and Weight System. The domestic and foreign probability estimates account for about 85 percent of all revenues. The domestic nonprobability estimates (publishers second-class, controlled circulation, third-class bulk rate, and fourth-class catalogs) account for the remaining 15 percent and are derived from samples at destination points in post offices. The data collected and estimates made are used to prepare the Annual Revenue and Cost Analysis Report and the Postmaster General's Annual Report. The cost portion is primarily based upon the In-Office Cost System. This system samples the work of employees in all categories of post offices, except the smallest offices, to estimate within-office direct labor costs of handling mail by class and subclass and other postal services. This system deals with about 60 percent of all wage and salary costs. The revenue and cost estimates by class of mail and type of service are used as a basis for rate proposals prepared for review by the Postal Rate Commission. ***Input:*** Revenue and cost data are derived from statistically selected probability samples. ***Content:*** This is the statistical analysis system utilized by the USPS to estimate revenue and costs by class of mail. It is based upon designated samples collected on a nationwide basis. ***Output:*** The following reports are printed: Domestic Mail Estimates of Revenue, Pieces and Weight by Class (accounting period, quarterly); Congressional Franked Mail Estimates of Pieces and Weight (quarterly); Volume of Registered and COD (quarterly); Penalty Mail (quarterly); and Bulk Mail Estimates of Pieces and Weight (annually). ***Availability:*** Reports are available through the Postal Service headquarters library.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-015

Statement of Ownership, Management, and Circulation (SOC).

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Classification Systems; Mail; Postal Rates; Publishers, Second Class Mail.

Purpose: This system is designed to determine whether publishers are complying with the conditions under which second-class mailing privileges have been authorized for their publications. ***Input:*** Data are derived from Form 3526-Statement of Ownership, Management, and Circulation (submitted by publishers). ***Content:*** The system is used for determining compliance with second-class mailing privileges. It is updated annually. ***Output:*** Output relates to discrepancy (second-class mailing privileges) and letters mailed to postmasters for corrective action. ***Availability:*** No reports are generated. Information is available upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-016

National ZIP Code System.

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Codes; Zip Codes.

Purpose: This system maintains records of ZIP codes assigned to post offices throughout the United States and its possessions. Data are arrayed to indicate class or type of unit. In addition, records are maintained for multi-ZIP coded cities which indicate post office box numbers, rural routes, stations and branches, buildings, firms having unique ZIP codes, hospitals, apartments, hotels, motels, Government buildings, colleges, universities, military installations, and named and numbered streets. The data are used to produce the Directory of Post Offices and the National ZIP Code Directory, which are updated quarterly. County data are updated annually. ZIP-a-list master tapes and ZIP-a-list change tapes are produced quarterly and are available for loan to postal customers from postal data centers. ***Input:*** Data are derived from Form 1362-Report of Change in Post Office Status and Form 1061-Changes to Street Master File. Source data are

prepared by the Customer Services Department. *Content:* The system is used to maintain ZIP codes assigned to post offices nationwide. It is updated quarterly and annually. *Output:* The following reports are printed annually: GPO Formatted State List; GPO Formatted Numeric List Tape; GPO Formatted Alphabetic List Tape; GOP Formatted County List Tape; GPO Formatted National ZIP Code Directory; and Postmaster ZIP Code List. ZIP-a-list master tape and a directory of post offices file are generated quarterly on magnetic tape. *Availability:* No reports are generated. Information is available upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-017

Concentration Bank Analysis Program (CBA).

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Banks; Concentration Banks; Financial Management; Postal Banks.

Purpose: The system is to enable the Banking Division, USPS, to analyze earnings, expenses, and profitability of concentration bank operations in order to make needed monthly adjustments to deposits in each of the 21 concentration banks. *Input:* Input is prepared by the USPS Banking Division from concentration bank data. *Content:* Data on the analysis of concentration bank operations are maintained in the system. They are updated monthly and cover nationwide operations. *Output:* A monthly USPS Concentration Bank Analysis is printed. *Availability:* No reports are generated. Information is available upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-018

USPS Financial Reporting System (POF).

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Accounting; Costs; Financial Management; Postal Revenue.

Purpose: This system is used by the USPS management to control costs. It is designed to compare both the current and year-to-date actual revenue and expense with the plan for the same period last year. Reports provide a condensed revenue and expense statement and average productive hourly rates by employee category for each of the 5,000 largest post offices as well as summaries for all sectional centers, districts, regions, and the Nation. Summaries are also produced for individual headquarters organizational units such as departments and groups. *Input:* Data are derived from General Ledger Revenue and Expense Accounts (USPS Accounting System) and USPS Budget Planning System (USPS Operating Financial Units). *Content:* The system provides condensed revenue and expense statements for the largest 5,000 post offices in the Nation. *Output:* A 1-page financial statement for each USPS organizational unit for each accounting period is printed. *Availability:* Copies of most reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-019

Budget and Reporting System.

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee, *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Budget Information Systems; Financial Management.

Purpose: The system provides financial plan data to managers in the Postal Service for the purpose of comparing approved budget authorizations against actual data. Reports produced by this system are distributed to organizations by finance number, departments, and groups. *Input:* Data are derived from Form 1912H-Headquarters and Headquarters-Field Operating Plan (prepared by each USPS financial operating unit); Form 1912I-Inspection Service Field (prepared by Inspection Service); Form 1921R/D-Regional Headquarters and Districts (prepared by regional office); and Forms 1912P and 1912O-Post Offices. *Content:* This system for financial operating plans updated annually. *Output:* A financial report for each accounting period is printed. *Availability:* Copies of most reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-020

Government Fiscal Year Revenue System (GFY).

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Accounting; Postal Revenue; Revenue.

Purpose: The system is designed to collect revenue data reported on postmasters' statements of accounts and to compile such data into various revenue categories and cost groupings. Reports produced identify each post office's revenue in dollars, its cost ascertainment, revenue units, and other pertinent information. *Input:* Data are derived from General Ledger Revenue Accounts, automated data collected from the USPS Accounting System. *Content:* The system contains data on the collection of postal revenue by class of office and type of revenue. *Output:* Statements of Revenue by Class of Office and Type of Revenue are printed for accounting periods and fiscal years. *Availability:* Copies of reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-021

Management Operating Data System (MOD).

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Manpower Utilization; Productivity.

Purpose: The system is designed to provide postal management with essential information on the relationship between workloads and actual and planned work hours. The system is not designed to compare one installation with another but to provide local management with information needed for planning and control. Management summary type reports are produced identifying by post office the work hours by division, mail volume, detailed breakout by operation, volume transactions by time, work hours by operation/tour, station/branch operation breakouts, letter sorting machine performance, and trend analysis. ***Input:*** Data are derived from mail volume recorded at first distribution handling (data captured via Postal Source Data System scales and meter readings from piece handling equipment at largest post offices). Work hours are recorded from the post office's time and attendance system. ***Content:*** The system contains information that provides local post office management a basis for planning and control. ***Output:*** A management report (summaries of work hours) is printed daily. ***Availability:*** Copies of most reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-022

National Bulk Mail System (NBMS).

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Bulk Mail Centers; Mail; Parcel Post; Productivity.

Purpose: This system functions as the major control mechanism for the National Bulk Mail System. It provides management information daily on the operating condition of each bulk mail center. Operational information includes vehicle control (van status), mail processing (volumes processed recycled by major sorting system), and production control (plant efficiency, man-hours expended, plant recycle rate, and percent damage). ***Input:*** Parcel post volume data are captured from bulk mail process control computers. Manpower time and attendance data are derived from PSDS or manually collected. ***Content:*** Data on the mechanism process control system for USPS bulk mail facilities are contained within the system. The nationwide data are updated as needed. ***Output:*** Printed reports pertain to Mechanized Maintenance Identification and Preventive Maintenance Scheduling and Manpower, Labor, Volume Management Reporting. ***Availability:*** Copies of most reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-023

Second-Class and Controlled Circulation Publications Program.

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Controlled Circulation Publications; Mail; Postal Rates; Second Class Mail.

Purpose: This system maintains the Second-Class and Controlled Circulation Publications (SCP) file for the Postal Service. The system provides for interactive SCP file updating and for interactive inquiries. ***Input:*** Data are derived from Second Class and Controlled Circulation Publisher applications to the Postmaster for special postal mailing rates. ***Content:*** The system maintains a file of second-class and controlled circulation publications data. It is updated as required. ***Output:*** Basic data on second class and controlled publications are produced on printout as required. ***Availability:*** Information is available upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-024

Depot Supply Management System.

OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

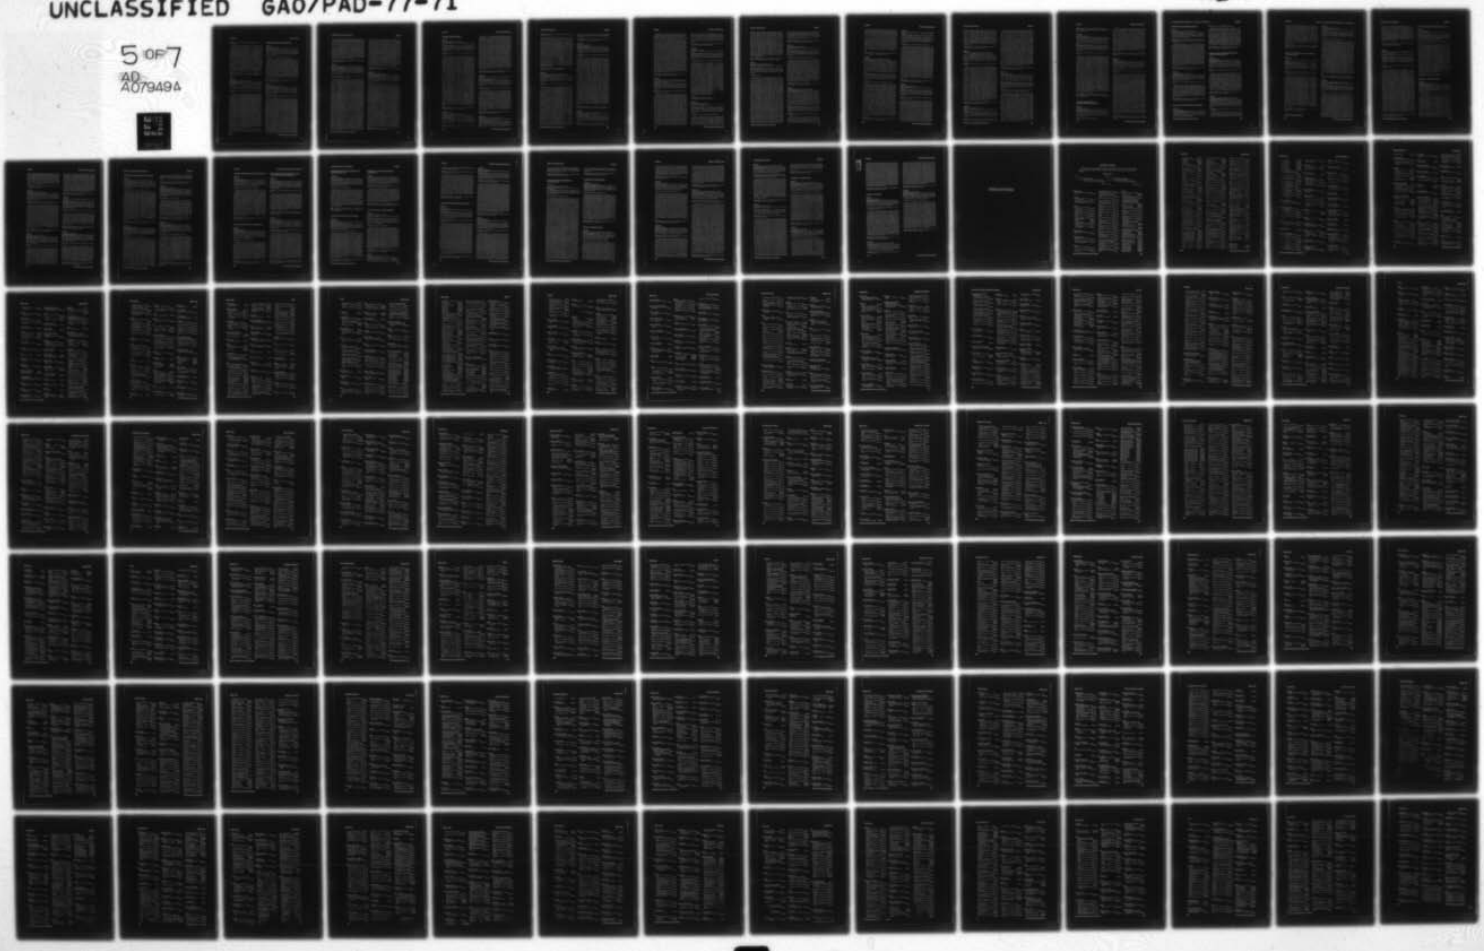
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Equipment; Inventories; Postal Equipment, Procurement.

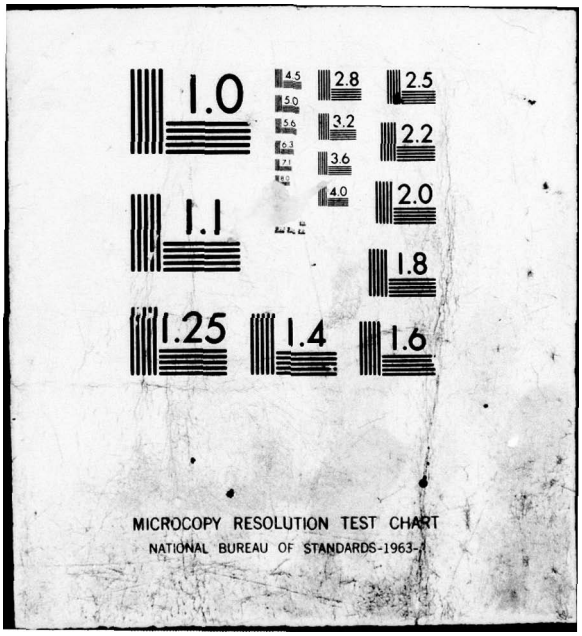
Purpose: This system is designed to control inventories of postal equipment, general supplies, and mechanized equipment repair parts stocked, stored, and issued by area supply centers at Somerville, NJ, and Topeka, KS, to post offices, bulk mail centers, and vehicle maintenance facilities. Data on requirements forecasts, stock levels, and issue quantities are made available to supply managers at the supply centers, USPS headquarters, and financial managers at the postal data centers and USPS headquarters. ***Input:*** Input is generated by manual stock requisitions submitted by various postal users, stock receipt forms generated by supply center inventory control personnel, and automated local postal facility inventory data adjustments which generate computer activated stock requisitions. ***Content:*** The system identifies each supply center inventory item by stock number or post office item number, by descriptive noun, quantity on hand, quantity due in, unit of issue, unit price, and the factors related to computation of stockage quantities, such as usage rates, lead times, safety levels, operating cycle times, and economic order quantities. Items of equipment repair parts are also identified to their end item of use and other factors relative to parts cataloging. The system also provides for historical issue information by line item quantity and dollar value, by postal facility. Data are updated continuously. ***Output:*** Output is from the computer located at the U.S. Postal Service Western Area Supply Center, Topeka, KS, and includes automated stock item status printout notices to supply managers; automated inventory item quantity and value report printouts; and accounting period (4-week interval) reports on the items issued, by dollar value, by postal facility. This report is transmitted by the Topeka computer directly to each postal data center computer for use in financial reports. ***Availability:*** Copies of reports will be provided upon individual request in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters; 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142.

S06300-025



Report of Serviceable Property Not Installed or Not in Use System.



OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

MICROCOPY RESOLUTION TEST CHART
NATIONAL BUREAU OF STANDARDS-1963-A

Subject Terms: Equipment; Inventories; Postal Equipment; Surplus Government Property.

Purpose: This system is designed to identify postal equipment not in use for the purpose of redistribution to fill a need, in lieu of procurement. The system reports postal equipment nationwide and is used by contracting officers as a first source prior to procurement. ***Input:*** Data are input by means of a manually prepared form by each postal facility having items of property not in use and identified for reporting to the system computer data bank at the U.S. Postal Service Western Area Supply Center, Topeka, KS. ***Content:*** Content includes: postal facility reporting the property; post office item number/national stock number of the property; description of the property, quantity; FEDSTRIP address code of the property location, FEDSTRIP address code of the shipping location to report the receipt of property formerly reported as not in use; and FEDSTRIP address code of the postal facility shipped property not in use. ***Output:*** Output is a computer listing of all reported property not in use, by location, item identifier, description, quantity, unit price, and total value per line item. ***Availability:*** Distribution of reports is made to each postal Regional Contracts and Supply Management Branch. Copies will be provided to the public upon individual request in accordance with Postal Service release of information policies.

S06300-026

Rural Route Evaluation System. USPS 010.080.
OMB Funding Title/Code: Postal Service Fund / 18-4020-0-3-402.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Post Office and Civil Service; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Evaluation; Mail Delivery; Postal Service; Rural Mail Delivery

Purpose: This system is designed to evaluate the workload on rural routes for determining carrier compensation and/or possible adjustment of work load and areas served. The system is nationwide in scope and is used by Postal Service management in evaluating rural mail delivery and collection operations and administering these functions efficiently. ***Input:*** The primary source of the data is actual mail counts taken on rural routes annually or more frequently when required by instructional formula. The mail count operation is internal; data are gathered by Postal Service personnel for application to Postal Service mail delivery operations. ***Content:*** The content includes individual route workload characteristics such as mail volume, route mileage, mailboxes served on routes, actual carrier workhours, and carrier daily work schedule. The information is recorded at post offices for a 2-week period during the year (normally in September) and submitted to USPS data centers for computer conversion to route evaluated work-hours. Adjustments are made in rural routes and rural carrier compensation based on the results of the mail count. Rural routes at all post offices are included in the system and affected by the system guidelines. ***Output:*** Output is individual hardcopy sheets for each rural route evaluated in the system. A hardcopy listing of all routes, by region and nationwide, where mail counts were conducted and routes evaluated, is also provided. Reports are produced annually (more frequently for certain routes). The system is on tape and can be queried. ***Availability:*** Reports are not generally available. Individual requests will be considered in accordance with Postal Service release of information policies.

Agency Contact: USPS Records Officer; Headquarters, 475 L'Enfant Plaza SW, Room 3211, Washington, DC 20260; (202) 245-4142

INTERNATIONAL TRADE COMMISSION

S06400-001

USITC Accounting System.
OMB Funding Title/Code: Salaries and Expenses / 34-0100-0-1-152.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Ways and Means; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Finance.

Subject Terms: Accounting, Management Information Systems.

Purpose: The system provides various statistical records and activity data for the purpose of comparing approved budget and work plan authorizations against actual workload and assessing the need for management actions. ***Input:*** Source documents are prepared internally from financial transaction documents and from information received from organizational components within the Agency. ***Content:*** The files contain current period (month or 4-week period) and year-to-date data on agency obligations, disbursements, and activity statistics. Personnel costs are maintained on both an organizational component and activity basis. ***Output:*** Principal output is monthly and annual reports on budget execution and the financial status of the Agency and activity time and cost reports based on 13 4-week periods. Output is hardcopy, and no capability currently exists for on-line query of the system. ***Availability:*** Copies of reports and official documents of the U.S. International Trade Commission are restricted to internal use only.

Agency Contact: Finance and Budget Division, 701 E St. NW, Washington, DC 20436; (202) 523-3393.

S06400-002

Synthetic Organic Chemical Reports.
OMB Funding Title/Code: Salaries and Expenses / 34-0100-0-1-152.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Ways and Means; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Finance.

Subject Terms: Benzenoid; Chemicals; Foreign Trade; Imports; Organic Chemicals; Synthetic Organic Chemicals.

Purpose: The Synthetic Organic Chemical Reports provide a current compilation of all the producers and importers of these chemicals, their production, sales, and imports. These data are of use in the preparation of reports to the President and to the committees of Congress, background digests for all the GATT negotiations, peril-point findings, and other investigations. Other Government agencies and the committees of Congress also use the Commission's synthetic organic chemical statistics and reports in their operations. The biggest user in recent years has been the Office of the Special Representative for Trade Negotiations (STR). The 1969-71 data were used in preparing their most recent ASP study. The Bureau of Domestic Commerce also uses these data in its mobilization studies and pays the Commission for part of the cost of compiling the data. The officials and specialists of the Customs Service also use these data in their work, and the Bureau of the Census incorporates a summary and some of the details in the Statistical Abstracts and the Census of Manufacturers. Various public and private agencies utilized the Commission's synthetic organic chemical reports in planning new facilities, making market studies, buying new materials, and finding new markets and new sources of supply. ***Input:*** The production quantity and sales quantity and value data contained in these reports are compiled from data received from domestic manufacturers. The import data are obtained by analyzing invoices covering imports through the principal U.S. Customs Districts. ***Content:*** The Synthetic Organic Chemicals: United States Production and Sales report, published annually, covers the production quantity and sales quantity and value of more than 8,000 synthetic organic chemicals produced by more than 800 domestic manufacturers. The Imports of

Benzenoid Chemicals and Products Report, published annually, presents statistics on United States imports of benzenoid chemicals and products, which are dutiable under the American Selling Price (ASP) system of duty assessment. The Report on U.S. Production of Selected Organic Chemicals, released monthly, covers a specified number of "trend" chemicals selected by Government and industry on the basis of their economic importance, seasonality, and specified uses. Currently the report covers 97 chemicals produced by approximately 300 domestic manufacturers. *Output:* The Synthetic Organic Chemical Reports consist of the following reports: Synthetic Organic Chemicals: United States Production and Sales (annual: final and 14 preliminary reports); Imports of Benzenoid Chemicals and Products (annual), and Selected Synthetic Organic Chemicals United States Production (monthly: Series C/P). *Availability:* The Synthetic Organic Chemical Reports are available to the public through the U.S. Government Printing Office.

Agency Contact: Office of Industries; 701 E St. NW, Washington, DC 20436; (202) 382-6201.

S06400-003

Tariff Schedules of the United States Annotated - (TSUSA - 1976).
OMB Funding Title/Code: Salaries and Expenses / 34-0100-0-1-152.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee. *House* Committee on Ways and Means; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Finance.

Subject Terms: Classification Systems, Customs Administration, Foreign Trade, Imports, Tariffs, Trade Regulation.

Purpose: TSUSA (1976) is a legal document of approximately 1,050 pages, which is used by the importing business community (U.S. importers, brokers and private individuals) to ascertain the appropriate commodity classification, dutiable status, statistical treatment, and other fundamental requirements necessary for the entry of foreign goods into the United States. Upon actual entry of the goods, the TSUSA is the official manual of the U.S. Customs Service in the classification, appraisal, and liquidation of goods. Certain statistical information appearing on the Customs invoices is verified and forwarded to the U.S. Bureau of the Census for processing and publication. Thus, the TSUSA is the basic source of all U.S. import Statistics, a highly important analytical tool for U.S. business decisionmakers in tracking competitive products and for national and international governments in matters of trade policy. *Input:* With respect to the treatment of imported merchandise, the TSUSA embodies governing public laws, Presidential proclamations, and other executive actions issued pursuant to trade agreements, and related matters, including such matters as may be needed for the reporting of statistics. TSUSA is published and kept current by the United States International Trade Commission (formerly the U.S. Tariff Commission) pursuant to section 201 of the Tariff Classification Act of 1962. The statistical provisions and reporting instructions contained in the TSUSA are formulated by the interagency Committee for Statistical Annotation of Tariff Schedules, pursuant to section 484(e) of the Tariff Act of 1930, as amended by section 608(a) of the Trade Act of 1974. This Committee, which is composed of representatives of the Secretary of the Treasury, the Secretary of Commerce, and the United States International Trade Commission, and which is chaired by the Commission representative, "are authorized and directed to establish from time to time for statistical purposes an enumeration of articles in such detail as in their judgment may be necessary, comprehending all merchandise imported into the United States and exported from the United States, and shall seek, in conjunction with statistical programs for domestic production, to establish the comparability thereof with such enumeration of articles." The primary object of the Committee is the improvement in the quality and utility of U.S. import, export, and production data. *Content:* The principal subject matter contained in the TSUSA comprises legislative and executive instruction with respect to the Customs treatment of imported goods and statistical reporting instructions. The basic editions of the TSUSA and supplements thereto are issued periodically (as needed). The current 1976 edition (9th) has been supplemented on four occasions since issuance on November 21, 1975. The TSUSA is the only authoritative source with respect to the classification, dutiable status, and statistical treatment of imported goods; the publication also contains historical sections which enable researchers and others to track legislative, statistical, and other changes back to the effective date of the TSUSA (August 31, 1963). *Output:* Based on the TSUSA classification, duty is collected by the U.S. Customs Service. The TSUSA duties reflect recent U.S. trade negotiation concessions, such as those entered into under the General Agreement on Tariffs and Trade. The TSUSA is issued periodically; the publication is updated from materials stored on magnetic tapes (MT/ST system); camera copy is prepared by the USITC for printing (26,000 copies), and distribution by the GPO. The current TSUSA subscription price is $23.00 plus $5.75 for foreign mailing which includes the basic edition plus all supplements issued thereto. The TSUSA preparation and publication are currently being considered by the USITC as candidates for computerized-printing techniques. *Availability:* TSUSA is used worldwide by governments and public sectors. Some 26,000 copies are printed by the GPO, who is responsible for distribution to Government agencies; all other users must subscribe through the GPO.

Agency Contact: Office of Industries; 701 E St. NW, Washington, DC 20436; (202) 523-0171.

S06400-004

One-Percent Sample (Import Entries).
OMB Funding Title/Code: Salaries and Expenses / 34-0100-0-1-152.
Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on Ways and Means; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Finance.

Subject Terms: Customs Administration, Foreign Trade, Imports, Trade.

Purpose: Complete documentation for a random sample of one out of every 100 import entries is collected from all Customs posts. A file of these documents is maintained covering several years and may be accessed by Tariff Schedules of the United States Annotated (TSUSA) commodity or Customs district and port. It is used by the USITC and other Government agencies (with appropriate clearance) as a reference source for information needed in investigative, general analyses of U.S. imports, and special research projects and for evaluation of the adequacy and accuracy of official U.S. import statistics. *Input:* All U.S. Customs ports forward the original liquidated entry documents, as specified (those with an entry number with the terminal digits 85), directly to the USITC on a current, continuous basis. The sample program was implemented jointly by USITC, Customs Service, and Bureau of the Census. *Content:* The file contains detailed information on individual import entries for a cross-section of total U.S. imports. The sample was initiated in fiscal year 1970, and all documents received have so far been retained. Documents are received on a flow basis and are current within a few months. Separate annual files are maintained by Customs district and port. A locator file enables access by TSUSA commodity (primary) and country (secondary). Detailed information contained on the import documents includes TSUSA commodity number, quantity and value, country of origin, duty assessed, name and address of importer, description of merchandise on commercial invoice, and currency used in the transaction. Selected information from the file may be transferred to magnetic tape for computer processing as the need arises. *Output:* No regular standard output is produced. *Availability:* Documents in the file are official documents of the U.S. Customs Service containing confidential information and are available to other agencies by authorization of the U.S. Customs Service. Direct access is limited to other Government agencies although the information may be used by ITC staff in work related to public requests.

Agency Contact: Office of Data Systems; 701 E St. NW, Washington, DC 20436; (202) 523-0150.

VETERANS ADMINISTRATION

S06500-001

Pending Cases and Decisions Files (PECADS).

OMB Funding Title/Code: General Operating Expenses / 36-0151-0-1-705.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Appellate Procedure; Caseloads; Decisions; Lawyers; Veterans Appeals.

Purpose: PECADS is used for work measurement and productivity determination of individual attorneys and Board sections; for keeping statistical data on appeals, and for making appellate workload projections in support of the Board of Veterans' Appeal (BVA) budget. It contains statistical profiles of decisions entered by BVA on appeals against adverse actions taken on claims for benefits under laws administered by the VA. There are two main segments–pending cases in process and decisions entered. The system provides automated assistance in controlling and accounting for cases on the Board's docket and for compiling statistics on completed appellate decisions. ***Input:*** Data are derived from information contained in veterans' claims folders. ***Content:*** The pending case file is a compilation of records of appeals on the BVA docket. Each record contains the name and file number of the appellant, filed station of original jurisdiction, and dates of key steps in appellant process. The decision file later supplants the pending file, and the record is expanded to include data about issues on appeal, disposition by issue, date of decision, service of veteran, and control items (Board section, attorney, and clerk handling case). All data items, except the appellant's name, are numeric. A two-digit code identifies one of 58 field stations of original jurisdiction. Code sheets, both for pending cases and decisions, are processed daily, and PECADS is updated weekly. ***Output:*** PECADS provides automated hardcopy output monthly, quarterly, and annually. Monthly tables include production by attorney and section, pending cases, and disposition of appealed cases. Quarterly printouts list dispositions by field station and average appeals processing time by station, while annual tables show representation in appealed cases and dispositions by period of service. Computer output provides statistical data for a number of derivative manual reports including: BVA portions of Annual Report, Administrator of Veterans Affairs; quarterly and annual production of attorneys; and management information tables containing condensations of monthly and quarterly automated data. PECADS has no query capability. ***Availability:*** The Annual Report, Administrator of Veterans Affairs, is sold by GPO. Other system reports are not publicly available as they are used primarily for management information in the administration of the Veterans Administration appellate program.

Agency Contact: Board of Veterans Appeals; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-3393.

S06500-002

Construction Management Information System.

OMB Funding Title/Code: Construction Major Projects / 36-0110-0-1-703; Construction Minor Projects / 36-0111-0-1-703.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Building Construction; Cemeteries; Health Facilities; Hospitals; Military Cemeteries; Veterans Hospitals.

Purpose: This system and its related subsystem data files are used to develop the annual VA hospital and cemetery construction program obligation plan, monitor and control the status of individual projects making up the plan, and process payments on selected projects costing more than $1 million. ***Input:*** Input is received from numerous agency sources during the project life cycle including field stations architect/engineer firms and construction contractors. Source data forms include monthly project progress reports from stations, cost estimates from Estimating Service, project submissions from Health Care Facility Service, and assignments of minor projects to DM and S from project supervisors. ***Content:*** The system tracks a project from its inception, at budget formulation through final financial payment. More than 1,400 projects updated monthly are monitored through a critical path of 15 major milestones. Projects range in size from $50,000 to more than $1 million. Milestone progress monitored includes project submission, award of design contract, completion of design, issue of bids, construction contract award, and completion. ***Output:*** Monthly reports are generated in several formats displaying individual project status in terms of schedule and costs. Individual project status is reported by major and minor program, by VA region and by Office of Construction region. Separate reports on cemetery projects status are generated. Also available from the system is a comprehensive prediction of project and program performance for the current fiscal year. ***Availability:*** System reports are produced monthly and ad hoc, primarily for internal use, with selective dissemination made to several congressional committees.

Agency Contact: Program Control and Analysis Staff; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-3804.

S06500-003

Civilian Health and Medical Program of the Uniformed Services (CHAMPUS).

OMB Funding Title/Code: Medical Care / 36-0160-0-1-703.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Civilian Personnel; Health Care Costs; Medical Care; Medical Records; Veterans Benefits.

Purpose: The system provides data on the number of beneficiaries enrolled in the program; the cost of providing health care (hospital, physician, dental, and prescription); number of bed days; physician visits; and number of prescriptions for the purpose of detailing current activity levels, as well as forecasting costs and activity levels. ***Input:*** Input is provided by patient medical records, hospital, and physician bills. This system is operated for the VA by DOD CHAMPUS located at Denver, CO. ***Content:*** The report is for the total United States on a monthly cumulative basis by year of service, and by year and month of payment by CHAMPUS to the billing party. ***Output:*** This system generates the following reports. Number of beneficiaries on rolls, monthly cumulative (hardcopy); report on year of service and month, and year bill is paid by CHAMPUS. This system also includes reports on hospital cost, physician and dental cost, number of visits, and cost of prescriptions. ***Availability:*** It is publicly available.

Agency Contact: Medical Statistics Service; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-3774.

S06500-004

Postgraduate and Inservice Training Program (PIT).

OMB Funding Title/Code: Medical Administration and Miscellaneous Operating Expenses / 36-0152-0-1-703.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Medical Education; Medical Personnel; Professional Education; Training; Veterans.

Purpose: This system is to obtain necessary basic budgetary and program data required by the central office and to provide an opportunity for local management and education committees of VA facilities to examine the distribution of funds and individual educational opportunities within the PIT program. ***Input:*** The primary source of data is each health care facility; data are usually developed by the Personnel and Fiscal Divisions. ***Content:*** Major categories of input include: 1) number of individuals (by discipline) who receive support of tuition, 2) number of individuals by discipline who receive support of travel, 3) number of individuals who receive both travel and tuition support, and 4) number of courses, workshops, lectures, seminars presented by the facility using PIT funds. Also included are: 1) cost data relative to each discipline such as physicians, dentists, nurses, allied health and administrative personnel; 2) average cost by discipline of both tuition and travel; and 3) the percentage of use of available funds by each discipline. ***Output:*** The principal output is a system-wide summary displaying: 1) total number of individuals who received tuition support; 2) total number of individuals who received travel support; 3) total number of individuals who received both travel and tuition; and 4) the total number of courses, workshops, lectures, seminars presented by VA facilities using PIT funds. The report is on a fiscal year basis, manually compiled and tabulated. ***Availability:*** The report is internal. Elements of the report appear in Agency budget documents.

Agency Contact: Office of Academic Affairs; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-5175.

S06500-005

Department of Medicine and Surgery Health Service Training.

OMB Funding Title/Code: Medical Care / 36-0160-0-1-703.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Education; Medical Education; Medical Personnel; Training; Veterans.

Purpose: The system is to secure the latest retrospective information for numbers of all types of health trainees; names of cooperating institution, if applicable; and certain trainee attributes noted below. It is intended to cover centrally stipended and unstipended trainees who receive all or part of their clinical experience in VA health care facilities. Users of processed data include departmental training managers and program officials, other concerned VA personnel, and facilities. Users of extrapolated information include other agencies on a "need to know" basis, and all external requests from official sources such as OMB, GAO, Congress, National Academy of Sciences, etc. ***Input:*** The primary source of data is each health facility engaged in education and training activities, with coordination of input usually by the local Personnel Officer, Associate Chief of Staff for Education, or comparable responsible official. Major categories of input include identification of the training program, number and level of trainees, and related cooperating institutions (as applicable). ***Content:*** Information encompasses identification of numbers of trainees for each fiscal year, from all health facilities involved, their affiliated institutions, and the following attributes regarding both programs and trainees: 1) identification of each training program and (as applicable) its status with each related academic institution, 2) number of and academic/occupational level of trainees (grouped) per institution, and 3) pay and veteran status of trainees (grouped). ***Output:*** Principal annual output (machine-readable listing) includes: 1) numbers and types of trainees (and attributes) by reporting facility; 2) numbers and types of trainees (and attributes) by training programs; 3) numbers of allied health trainees and academic affiliations within each program by reporting facility, and 4) detailed identification of each program with respect to reporting facility, numbers of trainees, program status, and cooperating institution. Query capability beyond above requires development of system specifications and additional programming effort. ***Availability:*** The output is internal. Elements appear in Agency budget document and annual report.

Agency Contact: Office of Academic Affairs; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-3010.

S06500-006

Patient Treatment File (PTF).

OMB Funding Title/Code: Medical Care / 36-0160-0-1-703.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Health Facilities; Hospital Patients; Medical Records; Patient Care; Veterans.

Purpose: PTF is a system for inputting, maintaining, and presenting personal, demographic, and clinical data related to care and treatment episodes of individuals who are patients or members in VA hospitals, domiciliaries, and nursing home care units or are provided care or treatment under VA auspices in a non-VA hospital or nursing home. It provides facility indexes required for JCAH accreditations, ad hoc reports for clinical research studies, source of patient load information, and demographic and planning purposes, length of stay information, and demographic and clinical information regarding care furnished to veterans by the VA. The users include health care facility directors, individual or team clinical researchers, and central office services responsible for planning facilities and directing professional service programs. ***Input:*** The primary source of the data is the individual's medical record maintained for each episode of care in a health care facility. ***Content:*** The major categories of input data are personal identification, demographic information, admission and disposition information, and diagnostic and surgical information coded according to the International Classification of Diseases-Adapted (eighth edition). The system contains the following information on hospital, domiciliary, and nursing home care of an individual: personal identification, demographic, and diagnostic and therapeutic treatment furnished. The system is updated weekly by the input of information regarding individuals recently discharged from a health care facility. The residence of each individual receiving care is entered in the system in coded form for State and county of residence; zip code is also entered. ***Output:*** The output from this system may be a record printout for a specific episode of care; a report in machine-readable form, either punched cards or tape, hardcopy, or microfiche. The medium is selected in accord with the needs of the user. Periodic reports are prepared monthly, quarterly, semiannually, or annually as required by the user. There is no real-time query capability in this system. ***Availability:*** Output is primarily for internal department use, but aggregated data or information stripped of any personal identification are made available to bona fide health planning and research organizations. Agency distribution is the primary source for output, although GPO makes available the Administrator's Annual Report which contains reports produced from this system.

Agency Contact: Department of Medicine and Surgery; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-2961.

S06500-007

Exchange of Medical Information Program (EMI).

OMB Funding Title/Code: Medical Administration and Miscellaneous Operating Expenses / 36-0152-0-1-703.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Experimental Programs; Health Facilities; Hospitals; Information Exchange; Medical Information Systems; Veterans Hospitals.

Purpose: Public Law 89-785 (38 U.S.C. 5054-5055) and succeeding continuing legislation charges the VA with the responsibility for developing and supporting unique, innovative pilot projects in biomedical communications which have as their objectives the strengthening of those VA hospitals located far from major medical centers and promoting consultation and cooperation among clinicians and other members of the medical and health related professions who are within or outside of the VA. ***Input:*** The primary sources of data/information are recipients of EMI funds, i.e., medical schools, hospitals, research centers, and VA hospitals. Major categories of input data include medical information such as brain scans, whole body scans, fluid and electrolytes, and electrocardiograms via computerized networks. In addition, annual narrative progress reports are submitted to the Agency by each project director. ***Content:*** Each EMI project varies in scope, concept, and content although each has as its objectives the investigation, development, and implementation of innovative pilot projects in biomedical communications for diagnostic, therapeutic, and educational purposes. Information includes background data, narrative regarding goals and objectives, status, problem areas, personnel involved as well as budget data and applicable statistical data such as numbers and categories of professionals utilizing the services made available through the project. One example of the types of source/system information content is a project consisting of a computer based network among three VA hospitals which transmits nuclear medicine data (i.e., scans) to the core hospital where it is reviewed and diagnosed by a nuclear medicine physician. A diagnostic report is transmitted back to the site. ***Output:*** Principal output is an Agency annual report to Congress in the form of a typed hardcopy narrative report. ***Availability:*** The annual report is available to the public and is distributed by the Agency as requested.

Agency Contact: Learning Resources Service; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-3811.

S06500-008

Central File for Assistance for Health Manpower Training Institutions.

OMB Funding Title/Code: Assistance for Health Manpower Training Institutions / 36-0182-0-1-703.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Federal Aid Programs; Grants; Medical Personnel; Professional Education; Project Proposals

Purpose: The central file is the prime tool which permits appropriate processing, review, management, funding, program evaluation, and reporting for grant requests made by health manpower training institutions. Users of file data are primarily Manpower Grants Service personnel and other information requestors such as OMB, GAO, the Congress, and DHEW. ***Input:*** Eligible applicants, as defined in Public Law 92-541, VA Rules and Regulations and Program Guidelines, provide the basic data by completing the grant application in accordance with applicable institutions. In applications for Grants to Affiliated Medical Schools and Grants to Other Health Manpower Training Institutions, categories include: applicant institution, VA affiliate, budget request for award period (usually 12 months), and budget request for program period (not to exceed seven years). In applications for Grants to New State Medical Schools, the major categories are much the same as above with the exception of the budget categories eligible for support. Support under this section is limited to Faculty and Facilities. ***Content:*** This system contains supporting materials, required as part of the application procedure, which describe programmatic details of the proposal (i.e., training discipline, number of individuals to be trained); budget justification, documentation of need; resources available and/or requested for grant support. The numbering system identifies type of application, type of support requested, State in which the applicant is located, and a 4-digit number unique to a particular application. ***Output:*** All data are retrieved, collated, and processed by hand into standard typewriter reporting format. Produced is an annual report to GSA and GAO on review committee operation, and beginning in fiscal year 1977, an annual report to Congress. ***Availability:*** The bulk of output is for internal use, but any information required either by other Government bodies or by the public is furnished. The Freedom of Information Act covers the use and availability of information from this system.

Agency Contact: Office of Academic Affairs; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-3072.

S06500-009

Compensation and Pension.

OMB Funding Title/Code: Compensation and Pension / 36-0102-0-1-701.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Disability Benefits; Survivors Benefits; Veterans Benefits.

Purpose: Under the provisions of Title 38, United States Code, benefits are payable to veterans and eligible survivors based on service connected disability and death and nonservice connected disability and death when need, as measured by annual income, is demonstrated. The system was established to provide benefits payments to veterans and surviving dependents eligible under 38 U.S.C., chapters 11, 13 and 15. The system creates and maintains individual payment records which include data for identification and control of each account and such statistical data as necessary for editing and auditing of award input (including creation of exceptions to invalid input data or inconsistency with an established master payment record) and for accounting controls and management information reports. ***Input:*** The data are from claimants, the service department, and other Federal agencies as required for determination of eligibility and entitlement. ***Content:*** The Compensation and Pension benefit master record includes the payee's name and unique file number identifier; codes for the benefit awarded; payment status; monthly benefit amount; income and net worth information when relevant to award of benefits; coded indication of disabilities as to live veterans or, in death cases, indication whether death was service connected; vital statistics; and data required for production of accounting and informational reports. ***Output:*** Output each calendar month results in update of affected master payment records, edit and audit messages, and production of Treasury payment tape and statistical reports. ***Availability:*** Output is not publicly available as it is primarily utilized for internal purposes, with limited and selected statutory exceptions.

Agency Contact: Compensation and Pension Service, 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-2264

S06500-010

Financial Benefits System--Education.

OMB Funding Title/Code: Readjustment Benefits / 36-0137-0-1-702.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Education; Veterans Benefits; Veterans Education.

Purpose: The system is for the payment of readjustment and rehabilitation benefits to or on behalf of veterans as authorized by law (38 U.S.C. chapters 31, 34, 35, and 36). ***Input:*** The primary source of information is benefits claims applications, veterans' service records, schools and training facilities, and data otherwise furnished by applicants and beneficiaries. Payment awards are processed against master record data by the regional office having jurisdiction. ***Con-***

tent: This system and its related data file contain identification of the beneficiary, his address, amount of payment, his children or dependency status, military service, age, type and location of education facility, course objective, delimiting date, his absentee record, education background, and counseling received. The file contains about three million tape records on participants in the program (active and inactive). Payment award transactions and other transactions updating the master record are processed against the education master file. Subsystem files such as the training facility file are updated as necessary. *Output:* Produced are payment tapes which are utilized by the Department for issuance of checks. Computer generated information letters are produced and mailed to beneficiaries. Extensive in-house reports are generated periodically or by special project (e.g., List of Active Institutions under Chapter 34 and/or 35, Title 38, U.S.C.). These are enumerated in Approved Recurring Reports Bulletin 12 AF, March ., 1976. Reports are computer printouts. *Availability:* System output, other than direct correspondence to beneficiaries, is not publicly available but is primarily utilized to meet internal information requirements along with selected external agencies such as the Treasury Department.

Agency Contact: Education and Rehabilitation Service; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-3138.

S06500-011

Veterans Assistance Discharge System (VADS).

OMB Funding Title/Code: Readjustment Benefits / 36-0137-0-1-702.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Veterans

Purpose: The system was established in 1968 to provide certain outreach services as required by Public Law 91-219. It provides each eligible veteran as soon after discharge as possible with a general letter concerning benefits, a Notice of Eligibility for Education benefits, a Certificate of Eligibility for Loan Guaranty benefits, and an application for Veterans Group Life Insurance. The names and addresses of educationally disadvantaged veterans are provided to VA regional offices so personal contact can be made. A record containing selected personal identifying data and service information is passed to the VA's automated index to facilitate claims processing. *Input:* The data in VADS are taken from DD Forms 214, Report of Separation from Active Duty, and DD Forms 215, Correction to Report of Separation from Activie Duty, from Department of Defense and Coast Guard separation centers; from PHS-1867, Statement of Service-Verification of Status of Commissioned Officers of the U.S. Public Health Service, from Public Health Service; and from ESSA Forms 56-16, Report of Separation/Discharge, from National Oceanic and Atmospheric Administration. *Content:* The master record contains sufficient data to determine eligibility for benefits in most cases. It includes: 1) Personal data: name, service number, social security number, VA file number, date of birth, sex, educational level, VA regional office, and address at time of discharge; and 2) service information: branch, pay grade, service dates, type and reason for discharge, total active service, number of nonpay days, military occupational specialty, servicemen's group life insurance, amount of lump sum readjustment or disability severance pay, and place of entry. Yes/No indicators provide the following service information: Active Duty Training, transfer to Reserves, disability, reenlisted, deceased, foreign service, Vietnam service, and certain medals. *Output:* Biweekly processing produces outreach mail to veterans and magnetic tape input transactions to the automated index file. Monthly processing produces the educationally disadvantaged listing, the hospital specialty discharge listing, selected name and address lists, production reports, and two magnetic tape copies of the monthly file. Individual records of the current processing year may be extracted if the name and social security number are provided. *Availability:* Nonprofit organizations conducting programs under Title 38 may receive name and address listings. The educationally disadvantaged listing is available at regional offices; other lists must be requested and approved by the VA Controller. The Hospital Specialty Discharge Listing is distributed to VA hospitals and State MEDIHC offices for internal use. A copy of the monthly file is provided to DOD (M&RA) for internal use.

Agency Contact: Department of Veterans Benefits; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-5103.

S06500-012

Cemeterial Information Network (CIN).

OMB Funding Title/Code: General Operating Expenses / 36-0151-0-1-705.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Cemeteries; Military Cemeteries; Military Personnel

Purpose: The network is used to periodically provide statistics and other information for historical, budgetary, and other management purposes. The network's major function is to compile and produce various statistics reports and records. *Input:* The data are derived from three basic source documents: Record of Interment (VA Form 40-4956) prepared at National Cemetery level, Record of Gravesite Reservation, and application for headstone or marker. *Content:* The files contain a complete record of all pertinent data pertaining to those deceased veterans, active duty personnel and their dependents interred in VA national cemeteries and those buried in a national or private cemetery for whom a Government headstone was furnished to mark their graves. *Output:* This system generates the following monthly reports: Interments Made, Headstone and Marker Applications Received, and Orders Placed for Headstones and Markers. *Availability:* Data are not generated for the public, but they can be made available to those interested. The primary use is for historical purposes and to provide statistical data to the Office of Management and Budget and the Congress.

Agency Contact: National Cemetery System, 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-5215.

S06500-013

Automated Management Information System (AMIS).

OMB Funding Title/Code: Compensation and Pension / 36-0102-0-1-701; Readjustment Benefits / 36-0137-0-1-702; Veterans Insurance and Indemnities / 36-0120-0-1-701; Medical Care / 36-0160-0-1-703; Medical and Prosthetic Research / 36-0161-0-1-703; Medical Administration and Miscellaneous Operating Expenses / 36-0152-0-1-703; General Operating Expenses / 36-0151-0-1-705; Construction of Hospital and Domiciliary Facilities / 36-0108-0-1-703; Construction--Major Projects / 36-0110-0-1-703; Construction--Minor Projects / 36-0111-0-1-703; Grants for Construction of State Extended Care Facilities / 36-0181-0-1-703; Grants to the Republic of the Philippines / 36-0144-0-1-703; Assistance for Health Manpower Training Institutions / 36-0182-0-1-703.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans Affairs

Subject Terms: Management Information Systems; Resource Allocation; Veterans Benefits

Purpose: AMIS is the Agency's management information system. The primary mission is to provide reports for central office management. As a bypr duct of the primary function, some reports are produced for field station management. *Input:* The primary sources of input are all VA field stations (hospitals, regional offices, clinics,

domiciliary, record processing center, and subelements of these stations) and direct linkages from VA's other computer systems. *Content:* This system contains data that cover a broad range of Agency operations. Some significant areas are: 1) Quantitative data (patient care, radiology, pharmacy, dental, surgical, mental health, prosthetics, nursing, social work, dietetics, audio and speech pathology) for each VA hospital and outpatient clinic; 2) productivity data for veterans benefits programs (compensation, pension, education, insurance, loan guaranty and supporting functions); 3) summary personnel statistics and pay category data for all field stations; and 4) financial information by appropriation and account for all VA appropriations. *Output:* Reports are for use throughout the Agency. Frequencies vary by individual output report. Printed reports and graphs, teletype, and magnetic tapes for use by other computer systems are produced. *Availability:* Availability varies by individual report produced.

Agency Contact: Reports and Statistics Service; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-2748.

S06500-014

Centralized Accounting for Local Management (CALM).

OMB Funding Title/Code: Medical Care / 36-0160-0-1-703; Medical and Prosthetic Research / 36-0161-0-1-703; Medical Administration and Miscellaneous Operating Expenses / 36-0152-0-1-703; General Operating Expenses / 36-0151-0-1-703; Grants for Construction of State Extended Care Facilities / 36-0181-0-1-703; Grants to the Republic of the Philippines / 36-0144-0-1-703; Assistance for Health Manpower Training Institutions / 36-0182-0-1-703; Supply Fund / 36-4537-0-4-705; Consolidated Working Fund / 36-3901-0-4-705; General Post Fund, National Homes / 36-8180-0-7-705.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Accounting; Government Procurement; Procurement.

Purpose: The CALM system was established in 1971 to accomplish administrative accounting, voucher audit, and payment activity for the Veterans Administration. The accounting records and the payment activity for all VA facilities served by CALM are centralized at the Veterans Administration Data Processing Center (VA DPC), Austin, TX. Voucher audit is also centralized for selected facilities which are identified as FULL CALM. The remainder are designated MOD CALM (modified CALM). *Input:* CALM input is received from 1) VA facilities (code sheets transmitted via GSA Advanced Record System); 2) VA DPC Austin, TX finance activity (code sheets key-entered on magnetic tape); 3) VA payroll system, (magnetic tape linkage); and 4) VA fee basis payments (magnetic tape linkage). *Content:* CALM is a VA-wide system which maintains files of 1) vendor addresses and payment history, 2) pending accounting transactions, 3) general ledger data, 4) cost data, and 5) funding data. CALM is processed daily for report production and file updates. *Output:* The principal output is: processed input, rejected input, control points, status of funds, and journal reports. The frequency of these reports is daily, monthly, and annual. The output media are teletype, print, punched cards, and microfiche. *Availability:* The output is used within the VA with linkage data passed to an automated management information system (monthly) and a cost accounting system. Payment data are also supplied to the Treasury Department.

Agency Contact: Controller, Finance Service; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-5135.

S04300-015

Centralized Accounting System for Construction Appropriations (CASCA).

OMB Funding Title/Code: Construction--Major Projects / 36-0110-0-1-703; Construction--Minor Projects / 36-0111-0-1-703.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Accounting; Appropriations; Building Construction.

Purpose: CASCA was established in 1972 to accomplish administrative accounting, voucher audit, and payment activity for the Construction Program in the Veterans Administration. The accounting records, voucher audit, and payment activity for VA facilities served by CASCA are centralized at the Veterans Administration Data Processing Center (VA DPC) Austin TX. *Input:* CASCA input is received from (1) VA facilities (code sheets are transmitted via GSA Advanced Record System); (2) VA Central Office of Construction (code sheets are transmitted via GSA Advanced Record System); and (3) VA DPC Austin, TX (code sheets are key-entered in magnetic tape). *Content:* CASCA is a VA-wide system which maintains files of (1) general ledger data, (2) subsidiary data, and (3) project miscellaneous descriptive Data. CASCA is processed daily for report production and file updates. *Output:* Reports produced (on teletape, hardcopy or microfiche) include: 1) Daily-Input, Rejects, Statistics on Input, Journal, Cash Disbursements, Account Balances; 2) Weekly-Status of Funds; 3) Monthly-General Ledger (Reconciliation, Update, Trial Balance), Status of Funds Obligations, Reimbursements to Supply Funds, Project Reserves, Tranfer History, Accrued Expenditures, Subaccount and Payroll Analysis, Status of Appropriations, Project Status, Cash Disbursements, Capitalized Overhead; and 4) Annual-Trial Balance, fiscal year closing entries, cumulative obligations and accrued expenditures and projects financially complete. *Availability:* Output is used within the VA, and payment data are manually passed to the Treasury Department for internal use.

Agency Contact: Controller, Finance Service; 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-5135.

S06500-016

GI Loan ADP Reporting System (GIL).

OMB Funding Title/Code: Loan Guaranty Revolving Fund / 36-4025-0-3-704.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Federally Guaranteed Loans; Loans, Mortgage Loans; Veterans Benefits; Veterans Loans.

Purpose: The system was established to provide an automatic data processing facility to monitor the origination of GI loans in the 49 field stations authorized to guarantee loans. The major functions of this system are to validate all input data, add new loans to the master record file, change the status of the previously established master records when the loan is paid in full or a claim is paid on the loan, and produce various statistical reports. *Input:* The data are derived from a veteran's application for loan benefits and the lender's certification of loan disbursement. *Content:* The master record is updated monthly and consists of a State and county code, purpose of the loan, date of the loan, credit information, an assigned loan number, the origination procedure, the type of lender making the loan, the amount of the loan guaranteed, the amount of the loan, the term of the loan, the office originating the loan, year of birth of the veteran, the purchase price of the loan, the relationship of the purchase price to the value established by the appraisal, type of neighborhood where the property is located, race of the veteran, the monthly shel-

ter expense, the military status of the veteran, and the interest rate of the loan. *Output:* The following hardcopy reports are produced: 1) Monthly cumulative G/I loan operations by regional office (home and mobile home loans), lender distribution (home and mobile home loans), class of veterans and servicemen (home and mobile home loans), maturity and downpayment characteristics, (home and mobile home loans); 2) Quarterly financial characteristics (home and mobile home loans) County Analysis (home and mobile home loans); and 3) Semiannually contingent liability report (home and mobile home loans). *Availability:* While all information is publicly available, hardcopy output is restricted to internal use because of space and time restrictions.

Agency Contact: Loan Guaranty Service (26A1); 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-2425.

S06500-017

Portfolio Loan Accounting Control and Evaluation (PLACE).

OMB Funding Title/Code: Loan Guaranty Revolving Fund / 36-4025-0-3-704; Direct Loan Revolving Fund / 36-4024-0-3-704.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Federally Guaranteed Loans; Loans; Veterans Benefits, Veterans Loans.

Purpose: The system provides an automated integration of input and output for statistical workload and accounting data regarding the Veterans Administration portfolio of direct loans, vendee loans (loans established through the sale of property), and acquired loans. The system maintains the payment records, tax and insurance transactions, and necessary servicing information for each account in the VA portfolio, as well as statistical and workload information regarding the portfolio as a whole. *Input:* The data are derived from direct loan applications and the closing documents of direct, vendee, and acquired loans. *Content:* The master record contains property location codes, name and address, social security number, age, military status and entitlement of the borrower, and purchase price loan amount, term, type of security instrument, purpose, date of closing, type of loan and identification data for the original loan transaction; current principal, and tax and insurance balances; amount of principal, interest, and tax and insurance payments due monthly; annual and daily interest rate of the loan, taxing authority, special assessment and insurance identification and amounts; and deliquency or default information. *Output:* The principal output includes suspended credit lists, cumulative history list, automatic transfer of trusts, loans in trust totals report, accrued interest report, default list, direct loans sold, direct loan activity, direct loans by entitlement, and direct loans by county analysis. These reports are generated in hardcopy on a monthly and annual basis. *Availability:* While all information (with the exception of information regarding individual borrowers) is publicly available, hardcopy output is restricted to internal use because of space and time limitations.

Agency Contact: Loan Guaranty Service (26A1); 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-2425.

S06500-018

Liquidation and Claims System (LCS).

OMB Funding Title/Code: Loan Guaranty Revolving Fund / 36-4025-0-3-704.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Federally Guaranteed Loans, Foreclosures; Home Loan Defaults, Liquidations, Loan Defaults; Loans, Veterans Benefits, Veterans Loans.

Purpose: LCS is for the operational control servicing, and reporting of defaults, liquidations, and claims on outstanding G/I loans and VAR 4600 loans. The system monitors the progress of servicing efforts from the time VA receives notification that the loan is in default until the default is cured or the loan is liquidated. *Input:* Sources of data include notice of default, notice of intent to foreclose, report of supplemental servicing, summary of basis for liquidation procedure, deed-in-lieu, notice of cure, and claim analysis. *Content:* The master record, which is updated daily, contains the following information for each loan in default: Codes identifying the loan, the station of jurisdiction, property location, the mortgagee; dates concerning the notice of default, notice of intention to foreclose, cure, foreclosure sale; dollar amounts for cost of foreclosure debt, upset price, appraised value at foreclosure, original reasonable value, original loan amount, holders computation of total indebtedness, liquidation expenses, balance on tax and insurance account, proceeds of liquidation, advances made, interest to cut off date, balance of unpaid principal as of cut off date, total indebtedness at date of sale, gross claim, net claim; information regarding the nature of the station's servicing attempts; type of foreclosure; type of acquisition; and the mailing address of the mortgagor. *Output:* Reports produced include alpha numeric index of active LCS records, indebtedness on GI loan defaults classified insoluble, indebtedness on GI loans pending, number of liquidated GI loans by original loan, term vs. life of loan, and average life of loan by original loan term. These reports are generated in hardcopy and tape monthly and annually. *Availability:* Statistical information is publicly available. Information on individual records is subject to the Privacy Act.

Agency Contact: Loan Guaranty Service (26A1); 810 Vermont Ave. NW, Washington, DC 20420; (202) 389-2425.

S06500-019

Insurance Folder Files.

OMB Funding Title/Code: Service-Disabled Veterans Insurance Fund / 36-4012-0-3-701; Veterans Reopened Insurance Fund / 36-4010-0-3-701; National Service Life Insurance Fund / 36-8132-0-7-701; United States Government Life Insurance Fund / 36-8150-0-7-701; Veterans Special Life Insurance Fund / 36-8455-0-8-701.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Government Life Insurance, Insurance; Life Insurance, Veterans Disability Insurance, Veterans Insurance; War Risk Insurance.

Purpose: The files were established in 1917 with the beginning of the War Risk Term Insurance Program. The major function of this file is to house, in systematic order, applications, correspondence, and evidence of various actions taken on these accounts. *Input:* New folders are established as applications are approved in the Service-Disabled Veterans Insurance Program. This is the only Government life insurance program still issuing new policies. Other material being added to previously established folders under all of the insurance programs includes correspondence, documentation of various policy actions and applications for loans, cash surrenders, reinstatements, disability benefits, Total Disability Income Provisions, and beneficiary changes. *Content:* Each folder contains the veteran's original application for insurance along with all correspondence and documentation of policy actions considered to be of record value. Also, any applications for reinstatement, loans, cash surrenders, disability benefits, beneficiary changes and Total Disability Income Provisions are filed in the insurance folder. *Output:* Individual files are pulled and reviewed where necessary to respond to correspondence or to accomplish necessary policy actions. *Availability:* An individual's folder is available for his inspection under the Freedom of Information Act. Primarily, however, the information in the file is used internally to service the insurance accounts.

Agency Contact: Insurance Program Management Division; VA Center, Wissahickon Ave. and Manheim St., Philadelphia, PA 19101; (215) 951-5733.

S06500-020

Insurance Master Record.

OMB Funding Title/Code: Service-Disabled Veterans Insurance Fund / 36-4012-0-3-701; Veterans Reopened Insurance Fund / 36-4010-0-3-701; National Service Life Insurance Fund / 36-8132-0-7-701; United States Government Life Insurance Fund / 36-8150-0-7-701; Veterans Special Life Insurance Fund / 36-8455-0-8-701.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Veterans' Affairs; *Senate* Committee on Appropriations. HUD-Independent Agencies Subcommittee; *Senate* Committee on Veterans' Affairs.

Subject Terms: Government Life Insurance; Life Insurance; Veterans Insurance.

Purpose: The system was established in 1959 to provide an electronic data processing facility to maintain records of Government life insurance accounts. ***Input:*** New records are established on the system only as policies are issued under the Service-Disabled Veterans Insurance Program or lapsed accounts are reinstated. Records currently in the system under all of the insurance programs are updated daily to reflect premium and loan payments, lapse conditions, dividend payments, billing, address changes, and other policy actions. ***Content:*** The master record contains data on each active Government life insurance account. Individual records contain information such as insured's name and address, insurance file number, policy number, plan and amount of insurance, effective date, premium rate and payment information, dividend information, loan and lien information, the date of the latest beneficiary change, and Total Disability Income Provision rider data. ***Output:*** The system generates a variety of statistical reports monthly, semiannually, and annually. Used internally for managerial and actuarial purposes these reports contain information such as number of policies and amount of insurance in force by program and plan, number of lapses, loans, dividend information, policies on waiver of premiums, death claims, and policies issued. In addition, certain types of correspondence to insured veterans are automatically generated such as lapse and status notices, cancellation notices loan payment receipts and bills for loan and premium payments. Record printouts are also generated to obtain complete status on individual accounts. ***Availability:*** The output, except for computer-generated correspondence, is not publicly available. It is used to aid in the maintenance of individual accounts and in the management of the programs.

Agency Contact: Insurance Program Management Division, VA Center, Wissahickon Ave. and Manheim St., Philadelphia, PA 19101; (215) 951-5733.

ADVISORY COMMISSION ON INTERGOVERNMENTAL RELATIONS

S06600-001

ACIR Financial Accounts.

OMB Funding Title/Code: Salaries and Expenses / 55-0100-0-1-806.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Accounting; Financial Management.

Purpose: The objective of the system is to provide ACIR with current records of financial transactions. Each file in the system contains all records pertaining to a given account, fund, and type of transaction for the current fiscal year. A new file is established for each transaction involving a new entity or type of transaction. ***Input:*** The system is made of the processed financial documents used by suppliers, etc., as well as Federal financial standard forms. ***Content:*** Information includes allotments, obligations, unobligated balance accrued expenditures, and disbursements. These categories are accumulated and reported by major object class and subobject class. ***Output:*** The output consists of monthly fiscal reports, SF 132, SF 133; all forms and reports required under OMB Circulars A-11 and A-34; as well as additional fiscal reports required or requested by Congress and other Government agencies. All are hardcopy. ***Availability:*** The output is generally for internal use only or for use of other Federal agencies. Public access is available under the constraints of the Privacy Act.

Agency Contact: Advisory Commission on Intergovernmental Relations; 726 Jackson Pl. NW, Washington, DC 20575; (202) 382-1464.

S06600-002

ACIR Mailing List.

OMB Funding Title/Code: Salaries and Expenses / 55-0100-0-1-806.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Federal Officials; Foreign Officials; Government Officials; Mailing Lists.

Purpose: This system is to provide ACIR with current addresses of those people who are defined as the prime audience of ACIR reports, activities, and programs. The system was established to provide accurate targeting of ACIR policy implementation and reports as determined by the recipients' functional area and interests and by the contents of the report or policy effort. The audience includes Federal, State, county, city, regional, and special district executive and legislative officials as well as important professional staff. The records may be pulled by functional code, interest code, publication code, alphabetical listing, ZIP code, or a combination of these fields. The system is updated monthly. This is believed to be the most complete and up-to-date mailing list on State, county, and city officials available. ***Input:*** The data for this system are derived from Federal publications, the Secretaries of State of the various States, national public interest groups of Government officials, newspapers, and rosters of officials. In addition, correspondence can provide input into the system. ***Content:*** The list is broken out into 999 functional codes, 99 interest codes, and 9 publication codes. The listings are in a name, title, organization, address format. The system covers the entire nation, and a foreign subsystem is incorporated. Currently undergoing a Privacy Act compliance review, the list is normally updated monthly. ***Output:*** Mailing labels in cheshire (4-up), or pressure sensitive mode, or roster format are the main output. Query capability is through OCR 1043 optical scanning. ***Availability:*** Monthly output involves a complete alpha and ZIP roster, status report of number of entries under each code and type of code, and a State listing. Utilization of this list is not normally open to the public, but if the Commission determines that the dissemination of the information is in the interest of the Government and ACIR, the list is available.

Agency Contact: Advisory Commission on Intergovernmental Relations; 726 Jackson Pl. NW, Washington, DC 20575; (202) 382-1464.

DELAWARE RIVER BASIN COMMISSION

S06700-001

Delaware River Basin Commission (DRBC) Library.

OMB Funding Title/Code: Salaries and Expenses / 46-0100-0-1-301.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on the Judiciary.

Subject Terms: Conservation; Energy Demand; Fishes; Information Services; Libraries; Needs Assessment; Pollution, Water Resources Development; Watersheds; Wildlife.

Purpose: The primary function is to provide for technical staff source material and bibliographies related to the functions and responsibilities of the Delaware River Basin Commission as outlined in the DRBC Compact. ***Input:*** Sources consist of internal studies as well as outside sources relating to the functions and responsibilities of the Delaware River Basin Commission. These studies include inventory and evaluation of water supply; analysis of population and demands for land and water; analysis of recreation and fish and wildlife demands; analysis of power potentials and demands; analysis, investigation, and research of water quality and pollution; comprehensive plan and water resources program; flood loss reduction program; basin operations, regional and watershed planning; and environmental analysis. ***Content:*** The library contains laws, bills, legislative reports and adjudications, books, technical reports, economic statistics, program statistics and data. Reference questions are answered. ***Output:*** Staff studies, DRBC publications and bibliographies are the principal system output. ***Availability:*** Publications are available (free or at cost).

Agency Contact: Delaware River Basin Commission; P.O. Box 7360, West Trenton, NJ 08628; (609) 883-9500.

S06700-002

Fiscal and Budgetary Reports System.

OMB Funding Title/Code: Salaries and Expenses / 46-0100-0-1-301.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on the Judiciary.

Subject Terms: Accounting; Budget Information Systems, Resource Allocation.

Purpose: This system is designed to facilitate the efficient monitoring of the status and utilization of appropriated funds to accomplish the Agency mission. ***Input:*** Allotments, obligating documents, invoices, schedules of payments, payroll, and travel vouchers comprise the system input. ***Content:*** Information includes allotments, obligations, and unobligated balances. Accrued expenditures and disbursements are accumulated by major object class under the major budget activities of the Agency. ***Output:*** The principal system output is the annual budget in hardcopy. ***Availability:*** Information is publicly available.

Agency Contact: Delaware River Basin Commission; P.O. Box 7360, West Trenton, NJ 08628; (609) 883-9500.

NATIONAL CAPITAL PLANNING COMMISSION

S07000-001

Budget/Fiscal System.

OMB Funding Title/Code: Salaries and Expenses / 95-0700-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on District of Columbia; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Accounting; Budget Information Systems.

Purpose: The accounting and budgetary control system is operating under detailed procedures established by GAO. It is primarily designed as a control system and not as an information system. However, due to the very modest size of this Agency, the raw data from the control system fully meet the Agency's information needs as well. ***Input:*** All data are maintained internally by the Administrative Office for purposes of accountability and control and are in the form of budgetary and fiscal information. ***Content:*** Data consist of such items as fund availability, obligations, delivered and undelivered orders, accounts payable, and disbursements. Scope of coverage is Agencywide. ***Output:*** Output is financial and budget data in the form of reports and tables, all in hardcopy. The majority of the output is for external reports sent to OMB, Treasury, and the Congress (e.g., SF-224, SF-133). ***Availability:*** Reports are publicly available.

Agency Contact: Asst. Executive Director for Administration; 1325 G St. NW, Washington, DC 20576; (202) 382-1123.

NATIONAL CENTER FOR PRODUCTIVITY AND QUALITY OF WORKING LIFE

S07100-001

Budget/Fiscal System.

OMB Funding Title/Code: Salaries and Expenses / 95-0700-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Accounting, Budget Information Systems, Resource Allocation.

Purpose: The GSA, under a reimbursable agreement, maintains all official financial files and data and submits required fiscal reports to the congress, OMB, GAO, and treasury. ***Input:*** The center provides GSA with allotment advice at the beginning of each fiscal year to establish an annual and quarterly ceiling on obligations. Salary vouchers, contracts, purchase orders, reimbursements, vouchers, and all other documents reflecting expenditures under the traditional object classification are assigned activity symbols and entered into the system. ***Content:*** This system contains allotments, obligations, unobligated balances. Accrued expenditures and disbursements are accumulated by cost center, major object class, and subobject class under the major budget activities of the Agency. ***Output:*** Principal output is the monthley allotment status report and the monthly budget status report. ***Availability:*** Reports are for internal use.

Agency Contact: Office of Administration; 2000 M St. NW, Washington DC 20036; (202) 254 9890.

S07100-002

Clearinghouse (Productivity and Quality of Working Life).

OMB Funding Title/Code: Salaries and Expenses / 95-0700-0-1-403.

Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on Banking, Finance and Urban Affairs; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee, *Senate* Committee on Governmental Affairs.

Subject Terms: Labor Conditions; Labor Productivity; Productivity; Research and Development.

Purpose. Under Public Law 94-136, section 204, the Center collects and disseminates relevant information obtained by the Center or other public agencies, institutions of higher education, or private organizations engaged in projects under this act. ***Input:*** Principal

system input is from Productivity and Quality of Working Life Centers; Federal Government publications, documents, reports, State and local government publications, documents, reports; private sector publications and reports; and National Center for Productivity and Quality of Working Life publications. *Content:* This system includes information related to new or improved methods, systems, technological developments, equipment, and devices to improve and stimulate productivity growth and to develop and implement a public information program designed to inform the public of the meaning and importance of productivity and productivity growth. *Output:* Output includes referral services, publications inquiry responses, and consultation services. *Availability:* Reports and information are publicly available.

Agency Contact: National Center for Productivity and Quality of Working Life; 2000 M St. NW, Suite 3002, Washington, DC 20036; (202) 254-9890.

PRESIDENT'S COMMITTEE ON EMPLOYMENT OF THE HANDICAPPED

S07300-001

The President's Committee on Employment of the Handicapped (PCEH).

OMB Funding Title/Code: Salaries and Expenses / 95-2000-0-1-505.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Employment of the Handicapped, Handicapped, Information Services, Mentally Handicapped, Physically Handicapped, Rehabilitation, Vocational Rehabilitation.

Purpose: The system's purpose is to collect and distribute materials regarding employment, training, education, and rehabilitation of the physically and mentally handicapped. These materials cover aspects such as transportation, rehabilitation, recreation, and housing. All promotional materials are aimed at creating a climate of acceptance in the labor market for all handicapped citizens. *Input:* The Committee receives input from a number of organizations inside and outside of the United States (public and private) working with and for the handicapped. Examples are The Epilepsy Foundation of America, Goodwill Industries of America, National Association of Manufacturers, Easter Seal Society, Rehabilitation International, Rehabilitation Services Administration, Veterans Administration, and the Department of Labor. *Content:* The library and publications center contains statistical data, studies and profiles of the employment of disabled adults, research papers, and publications of a general nature. Materials are updated periodically. National and international coverage is provided. *Output:* The principal system output is Performance, which is the Committee's monthly magazine. Minutes of the annual meeting held each spring and many other reports and publications are published periodically. *Availability:* All materials are available from the Committee upon request and at no cost to the public.

Agency Contact: Office of Communications, 1111 20th St. NW, Washington, DC 20236; (202) 653-5010.

WATER RESOURCES COUNCIL

S07400-001

Centralized Accounting System (DAC).

OMB Funding Title/Code: Water Resources Planning / 85-0100-0-1-301.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Accounting; Financial Management.

Purpose: This system is composed of many subsystems which capture, control, and generate reports and consolidate them for the Council. Reporting is to meet the financial and management information needs of the Council. External reports are produced either automatically or from feeder reports generated in the system. *Input:* All sources of information are internal. The major categories of input are allotments, undelivered orders, accruals, payments, and billings. *Content:* The principal subject matter area is the accountability of funds for the Council. The data information coverage includes purchase orders, travel, transportation payments, certified invoices, accounts receivables, billings, and utility payments. The major master files maintained at various levels include Allotment Ledger Master, General Ledger Master, Subsidiary Ledger Masters, Payment History Master, Accounts Receivable Master, External Reporting Masters, and Management and Statistical Masters. Data are processed daily, semimonthly, monthly, quarterly, semiannually, and semiannually. *Output:* Principal output consists of: Treasury Payment Tape (magnetic tape, daily); Disbursement Listing (hardcopy, daily); Status of Allotments (hardcopy, daily); General Ledgers (hardcopy, monthly); Management Reports (hardcopy, monthly or by request); Vendor Payment History (microfilm, monthly); SIBAC and non-SIBAC Documentation (hardcopy, tapes, and cards, semimonthly); SF-224 Cash Report (hardcopy, monthly); and other reconciliation reports (various output media, monthly). *Availability:* Reports are not publicly available. They are mainly for internal use, except for those which are required under GAO, Treasury, or OMB regulations.

Agency Contact: Office of Program Coordination and Management; 2120 L St. NW, Suite 800, Washington, DC 20037; (202) 254-6455.

S07400-002

National Assessment Data Analysis System (1975) (NADAS 75).

OMB Funding Title/Code: Water Resources Planning / 85-0100-0-1-301.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Data Analysis; Forecasting; Needs Assessment; Water Supply.

Purpose: The NADAS 75 system was developed to support the 1975 Assessment of Water and Related Land Resources, a 3 1/2 year, $6.5 million effort designed to identify and describe the Nation's severe water problems from both national and State-regional viewpoints. The 1975 assessment was initiated in early 1974 and is scheduled for completion by September 1977. The 1975 assessment is being conducted by the U.S. Water Resources Council as a function assigned to it by the Congress in the Water Resources Planning Act of 1964 (Public Law 89-80). *Input:* Information was supplied by numerous Federal departments and agencies as well as by States and regional representatives. *Content:* Information was supplied for actual and projected socioeconomic factors, water usage requirements, and associated parameters for the years 1975, 1985, and 2000. Data were supplied both from federally derived information and from information accumulated by river basins commissions and other regional sponsors in conjunction with the States to better reflect projected future conditions. All data are entered geographically. The geographic unit utilized is an aggregated subarea (ASA), which is a

political boundary chosen to closely approximate a natural hydrologic boundary. The 106 ASA's are subsets of the 21 Water Resources Council regions, and, where applicable, data are accumulated to regional and national values. *Output:* Results of the 1975 assessment are scheduled for publication in late 1977. Results of the NADAS system volumetric analysis and tabular display of other data will be included in that report. The data file and program library for the NADAS system will reside at the Water Resources Council. *Availability:* Announcement of available reports will be available from the U.S. Water Resources Council in late 1977. The data file is for internal use only.

Agency Contact: Planning Division; 2120 L St. NW Suite 800, Washington, DC 20037; (202) 254-6442.

507400-003

Policy Options Study Data Analysis System (POSDOS) for Section 80(c) Study (Public Law 93-251).

OMB Funding Title/Code: Water Resources Planning / 85-0100-0-1-301.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on Interior and Insular Affairs; *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Costs; Federal Aid Programs; Federal Programs; Water Resources Development.

Purpose: The POSDAS system was developed for use in a Presidential study–*Planning and Cost Sharing Policy Options for Water and Related Land Programs*. The study was required by section 80(c) of the Water Resources Development Act of 1974 (Public Law 93-251). In September 1974, President Ford assigned responsibility for the study to the U.S. Water Resources Council, stating that the "study of major water resources policies...represents a unique opportunity to move further towards principles and standards and cost sharing arrangements for Federal water and related land programs that can be fully supported by both the executive branch and the Congress.". *Input:* Information was supplied by 7 departments, 18 agencies within those departments, and by 7 independent agencies. Information was supplied for virtually every Federal and federally assisted program or project authorized by Congress that involved the planning, implementing, or operating and maintaining of water related activities. The information was based on fiscal year 1974 as a base and included 70 different appropriation accounts. *Content:* Primary data elements include ultimate expected total costs of each project, fiscal year 1974 costs of each project and program, non-Federal cost sharing information, and all legal authorizations relating to each project or program. Information on the applicable discount rate, cost-sharing provisions, and reimbursement provisions are also included for each project and program. The most significant feature of the data file is that all costs were further identified as to their end-product function. Thirty-two water resources related purposes were defined, and all costs were allocated to these specific purposes at the program and project level. *Output:* The technical report of the section 80(c) study was published in 20 volumes and is available from GPO. Full documentation of the POSDAS system is available as Part 8K, Volumes I, II, and III of Study Program and Data System Documentation. *Availability:* The technical report is available from GPO.

Agency Contact: Planning Division; 2120 L St. NW, Suite 800, Washington, DC 20037; (202) 254-6442.

COMMODITY FUTURES TRADING COMMISSION

507800-001

Budget/Fiscal System.

OMB Funding Title/Code: Commodity Futures Trading Commission / 95-1400-0-1-403

Congressional Relevance: *House* Committee on Agriculture; *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *Senate* Committee on Agriculture, Nutrition, and Forestry; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee.

Subject Terms: Accounting; Budget Information Systems; Financial Management.

Purpose: The system maintains the status of CFTC resources. It provides for tracking and recording of changes in assets and liabilities accounting for obligations, expenditures, changes in source of funds, and other accounting transactions. Also included is a systematic reporting of resource consumption of various CFTC programs, financial management reports, and personnel reports. *Input:* All sources of data/information to the system are internal to the Agency. The major or primary providers of data/information are the divisional and regional offices. Specific input includes such things as obligation documents, time and attendance sheets, personnel action documents, and program activity data. *Content:* The budget/fiscal system encompasses all CFTC offices and activities. The major subfunctions are payroll processing, miscellaneous payments processing, personnel processing and reporting, finance and accounting reports, and program activity reporting. The system provides accounting, control, and monitoring of uses of funds at both the headquarters and the region (New York, Chicago, Kansas City, Los Angeles) levels. In addition, the system provides monthly reporting of current expenditures by object class for the various CFTC program activities. *Output:* All reports are hardcopy and are as follows: Accounting Station Posting Media (biweekly), Statement of Transactions (monthly), Report on Obligations (monthly), and Status of Work Plan (monthly). *Availability:* These are for internal use only.

Agency Contact: Office of Management and Finance, 2033 K St NW, Washington, DC 20581, (202) 254-9520.

FEDERAL ELECTION COMMISSION

508100-001

Federal Election Report File System.

OMB Funding Title/Code: Salaries and Expenses / 95-1600-0-1-806

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on House Administration; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Campaign Funds; Financial Disclosure; Political Candidates; Political Contributions.

Purpose: The system provides a facility for inspection of financial disclosure reports submitted by candidates for federal office and the committees that support them. The system consists of photocopies of financial reports filed by State, office sought, and alphabetical order. Multicandidate committees are filed alphabetically by name. *Input:* The system consists of financial reports submitted by candidates for Federal office and the committees that support them. Correspondence between the Federal Election Commission and the candidates and committees is also on file. *Content:* The system includes reports submitted by all candidates and committees who participate in Federal elections. Reports include the candidates and committees a committee supports, the amounts of money contributed to candidates and committees, the names of contributors and their contributions, a list of candidate and committee expenditures, and a summary of all receipts and expenditures. *Output:* Principal reports are: 1) Statement of Organization–the initial registration of a committee, containing the name of the committee,

treasurer, address, officers, candidates it supports and party; 2) Statement of a Candidate–the initial registration of a candidate, containing the name of a candidate, address, officers, committee authorization; and 3) Financial Disclosure Statement–a periodic report containing the name of the candidate and committee, contribution to and expenditures of the committee or candidate, summary tables of receipts and expenditures, and aggregates to date. *Availability:* All reports and microfilm are available to the public in the Commission Office of Public Records.

Agency Contact: Office of Disclosure; 1325 K St. NW, Washington, DC 20463; (202) 382-3484.

S08100-002

Clearinghouse on Election Administration.

OMB Funding Title/Code. Salaries and Expenses / 95-1600-0-1-806.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on *House* Administration; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Absentee Voting; Campaign Funds; Election Administration; Election Laws; Information Services; Voting; Voting Machines.

Purpose: The Clearinghouse serves as a facility for carrying out contract research and publishing appropriate reports concerning election administration. The Clearinghouse is concerned with election systems, registration systems, campaign finance, automation of election systems, and Federal and State election law. *Input:* The Clearinghouse selects research organizations by competitive bid to carry out research projects on election administration and uses the results of the projects as input for its information system. *Content:* The Clearinghouse sponsors studies on election administration at the Federal, State, and local levels. Studies are available on automated election systems, Federal and State election law, campaign finance, absentee voting, available voting equipment, and costs of administering elections. *Output:* Principal hardcopy reports are Federal, State Election Law Survey (quarterly), Campaign Finance Law Survey (semiannually), Absentee Registration and Voting, Voting Equipment Report, Experimental Voting Equipment, Survey of Election Boards, Computers in Elections, and State and Local Government Expenditures for Election Administration. *Availability:* All reports are available from NTIS.

Agency Contact: Clearinghouse on Election Administration; 1325 K St. NW, Washington, DC 20463; (202) 382-7306.

S08100-003

Federal Election Reports Disclosure System.

OMB Funding Title/Code: Salaries and Expenses / 95-1600-0-1-806.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on *House* Administration; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Campaign Funds; Elections; Financial Disclosure; Political Candidates.

Purpose: The system was established to provide a data processing facility for tracing source records and maintaining financial data on Federal candidates and their committees. The major functions of this system are to direct the user to the microfilm location of the reports, provide summary information on candidates and committees on receipts and expenditures, create a cross index of candidates and the committees that support them, provide a list of contributors to political candidates and committees, and provide a microfilm record of each source document. *Input:* The information is derived from reports submitted by candidates for Federal office and the committees that support them. *Content:* The candidate and committee master record contains the name and address of the candidate or committee, its treasurer, a log of the reports it has filed, the reports' microfilm location, the total receipts and expenditures for each report, and a cross index of committee/candidate support. The system is updated daily. *Output:* Five major reports are generated: A Report–lists all candidates, their ID numbers, address, filing frequency, type; B Report–lists all committees, their ID numbers, address, filing frequency, type; C Report–lists all committees, their ID numbers, the reports they file, microfilm location of reports, summary totals for receipts and expenditures, filing frequency, type of committee; D Report–lists all committees, the candidates they support, microfilm location of support documents, contribution made to the candidate; and E Report–lists all candidates, the reports they submit, microfilm location, principle and authorized committees, summary of receipts and expenditures. *Availability:* All reports and microfilm are available to the public in the Commission's Office of Public Records.

Agency Contact: Office of Data Development; 1325 K St. NW, Washington, DC 20463; (202) 382-1384.

S08100-004

Certification for Primary Matching Funds and General Election Campaign Funds.

OMB Funding Title/Code: Salaries and Expenses / 95-1600-0-1-806.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee, *House* Committee on *House* Administration; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Campaign Funds; Elections; Presidential Candidates; Primaries.

Purpose: The system was established in order to certify the eligibility for funds by presidential candidates. *Input:* The information is derived from certification forms and supporting data requesting matching funds or election funds. *Content:* The system is indexed by candidate name and includes those candidates for nomination or election to the office of the President of the United States who have requested matching funds and/or general election campaign funds. *Output:* There are no major reports. *Availability:* Files are available for public inspection.

Agency Contact: Assistant Staff Director for Disclosure and Compliance; Federal Election Commission; 1325 K St. NW, Washington, DC 20463; (202) 382-5162.

S08100-005

FEC Audits and Investigations.

OMB Funding Title/Code: Salaries and Expenses / 95-1600-0-1-806.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on *House* Administration; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Auditing; Financial Statements; Investigations; Political Candidates.

Purpose: The General Counsel, Assistant Staff Director, Commissioners, and their staff may use audit and investigation data for informal hearings, administrative compliance, civil litigation, voluntary compliance, or to refer matters to appropriate law enforcement authorities. *Input:* The records consist of audit and investigation data. *Content:* The system accesses the financial reports submitted by all candidates and committees who participate in Federal elections. Other reports include bank records, receipted bills, vouchers, invoices, debts and obligations, and contractual agreements. *Output:* No reports are issued. *Availability:* Access to audit and investigation data is limited to FEC staff on a restricted basis and to appropriate law enforcement agencies as directed by the Commission.

Agency Contact: Federal Election Commission; 1325 K St. NW, Washington, DC 20463; (202) 382-5162.

NATIONAL TRANSPORTATION SAFETY BOARD

S08300-001

Automated Aircraft Accident and Incident Information System.
OMB Funding Title/Code: Salaries and Expenses / 95-0310-0-1-407.
Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Accidents; Air Safety; Aviation Accidents.

Purpose: The system was established in 1964. It contains comprehensive data for each U.S. civil aviation accident or incident occurring during the calendar year. The major functions of this system are to provide an ability to maintain, retrieve, analyze, print, and disseminate accident data. ***Input:*** The data are derived from NTSB Form 6120.12-Aircraft-Accident Analysis Sheet. This source document is completed by NTSB air safety investigators subsequent to an investigation of an aircraft accident or incident. ***Content:*** The automated aircraft accident, incident record(s) are 1600 unpacked bytes in length and unblocked. The records consist of 285 data fields. Thirty-five percent are direct entry, and the remainder are coded. The records store date, location, aircraft, damage, injuries, kind of flying, pilot qualifications and experience, type of accident, phase of operation, causal factors, and other related data pertinent to the accident/incident. ***Output:*** Major system output is: Aircraft Accident Reports, Brief Format, U. S. Civil Aviation (hardcopy, five per year approximately 900 accidents); Annual Review of Aircraft Accident Data, U. S. Air Carrier Operations (hardcopy, annually); Annual Review of Aircraft Accident Data, U. S. General Aviation Operations (hardcopy, annually); Briefs of Accidents, Selected Categories/Kinds of Flying (hardcopy, annually); and Special Safety Studies, Selected Subject(s) (hardcopy, annually). ***Availability:*** Reports are publicly available.

Agency Contact: Information Systems Division; 800 Independence Ave. SW, Washington, DC 20594; (202) 426-3976.

S08300-002

Financial Management System.
OMB Funding Title/Code: Salaries and Expenses / 95-0310-0-1-407.
Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Accounting; Financial Management.

Purpose: This system is designed to comply with the procedures of the various laws and regulations pertaining to budget and accounting, insure control of the Safety Board's appropriation, provide for the internal management of funds for all organizational elements, meet external reporting requirements of the Office of Management and Budget and Treasury, and aid in the development and analysis of the Safety Board's budget. ***Input:*** The primary system data are generated internally and consist of appropriation, allotments, operating budgets, fiscal programs, obligations, disbursements, accruals, undelivered orders, receivables, payables, collections, miscellaneous receipts, advances, payroll, travel, property, accident investigation costs, and appropriation transfers. ***Content:*** The system consists of monthly and year-to-date information for obligations distributed by program, organizational element, and object/subobject class, and includes four fiscal years of data. The complete history of a particular transaction is available from initial obligation to disbursement. The system contains a quarterly update of the costs of each major accident investigation conducted by the Safety Board. ***Output:*** Output is generated monthly in a machine-readable format and includes budget and accounting report, operating budget report, cumulative summary of detail transactions, reconciliation of outstanding obligations, and obligations within Federal Government. ***Availability:*** Output is not publicly available; it is primarily utilized to meet internal financial management requirements and reporting requirements of the Treasury Department and the Office of Management and Budget.

Agency Contact: Comptroller Division; 800 Independence Ave. SW, AD-10, Washington, DC 20594; (202) 426-8935.

S08300-003

Safety Recommendations Branch.
OMB Funding Title/Code: Salaries and Expenses / 95-0310-0-1-407.
Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Safety; Transportation Safety.

Purpose: This system functions as project administration for the development of safety recommendations in any of the modes of transportation. ***Input:*** Recommendations are proposed from the public, hearing parties, NTSB investigators, NTSB liaison staff, and NTSB recommendation followup. They are the means used by the Board to prevent accidents and to promote transportation safety. Recommendation proposals are originated primarily by the modal divisions of the Bureaus in relation to statutory requirements. ***Content:*** The system contains safety recommendations. ***Output:*** Safety recommendations (average 260 per year) and Safety proposals (average 650 per year) are issued as hardcopy. There is a manual system for query. ***Availability:*** Reports are for public distribution.

Agency Contact: Recommendations Branch; 800 Independence Ave. SW, Washington, DC 20594; (202) 426-8688.

S08300-004

Transportation Safety Records.
OMB Funding Title/Code: Salaries and Expenses / 95-0310-0-1-407.
Congressional Relevance: *House* Committee on Appropriations: Transportation Subcommittee; *House* Committee on Public Works and Transportation; *Senate* Committee on Appropriations: Transportation Subcommittee; *Senate* Committee on Commerce, Science, and Transportation.

Subject Terms: Accidents; Investigations; Transportation Safety.

Purpose: This system is designed to collect accident data in all modes of transportation and determine probable cause and initiate recommendations to prevent future similar accidents. Investigation of all civil aviation accidents and selected major catastrophic accidents in other transportation modes are included in the system. ***Input:*** Primary sources of information are NTSB investigators, FAA investigators, and investigations conducted by other DOT modal administrations, i.e., Federal Railroad Administration, Federal Highway Administration, and U.S. Coast Guard. Input data consist of findings of investigators. ***Content:*** Specific information consists of facts, circumstances, and probable cause of accidents. Investigations are conducted in all of the United States. Investigators are dispatched immediately following accident notification. Geocoding is State, date, type of vehicle (aircraft, truck, etc.), operator, and registration number. ***Output:*** Output is the investigators' factual report of accident investigation, charts, and photographs. Query capability is by State, date, and place of accident. ***Availability:*** Information is available to the public from NTIS (narrative format reports only) and internal agency distribution.

Agency Contact: Operations and Facilities Division; 800 Independence Ave. SW, AD-40, Washington, DC 20594; (202) 426-3807.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

S08800-001

Accounting System.

OMB Funding Title/Code: Salaries and Expenses / 95-2300-0-1-303.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Interior and Insular Affairs; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Accounting Systems; Financial Management.

Purpose: The system provides for the preparation and processing of financial and accounting data. The major functions of this system are to edit transactions, classify transaction input, and provide various accounting and management reports. The accounting system is maintained by the Department of the Interior. (See SO0700-001, Department of the Interior Accounting System.). ***Input:*** Input is from source documents initiated by or for Agency program managers pertaining to financial and accounting records. ***Content:*** The master records consist of detailed transaction records and balance forward summary records which are matched once a month to provide required reports on general ledger control account balances, reimbursements, disbursements, collections, travel advances, accounts receivable, undelivered orders, accounts payable, and obligations by location and object class, and budget, accounting, and financial management information. ***Output:*** Daily input is central listings (hardcopy); monthly operating reports (hardcopy); and monthly fund central reports (hardcopy). The system is basically a unit record system with no meaningful query capability. ***Availability:*** The output is for Agency use only.

Agency Contact: Budget and Finance Officer; 1522 K St. NW, Washington, DC 20005; (202) 254-3974.

BOARD FOR INTERNATIONAL BROADCASTING

S08100-001

Budget/Fiscal System.

OMB Funding Title/Code: Grants and Expenses / 95-1145-0-1-153.

Congressional Relevance: *House* Committee on Appropriations: State, Justice, Commerce and Judiciary Subcommittee; *House* Committee on International Relations; *Senate* Committee on Appropriations: State, Justice, Commerce, The Judiciary Subcommittee; *Senate* Committee on Foreign Relations.

Subject Terms: Accounting, Financial Management.

Purpose: The system is designed to provide the Board with information on status of finances during the fiscal year. ***Input:*** Data are derived from payment of all invoices and interagency transfers, payroll costs, certified invoices, travel vouchers, interagency transfers-either billings or 1081's, timecards, and purchase orders. ***Content:*** The system contains amount, agency reference number, Treasury schedule, object class, fiscal year, type of transaction (payments, accruals, and journal entries), general ledger account number, and vendor identification number. It is updated on a transaction basis. New reports are issued monthly. ***Output:*** Monthly reports are machine-readable and hardcopy. There is query capability by vendor, object class, general ledger, and month. ***Availability:*** Output is used internally only.

Agency Contact: Budget and Administration; 1030 15th St. NW, Suite 430, Washington, DC 20005; (202) 254-8040.

COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

S09700-001

Budget System.

OMB Funding Title/Code: Salaries and Expenses / 95-2000-0-1-505.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Accounting; Budget Information Systems; Financial Management.

Purpose: The purpose is to control and document funds appropriated for administration of the program authorized by Public Law 92-28, as amended. ***Input:*** The input is vouchers, purchase orders, contracts, and documents reflecting expenditures. ***Content:*** Information includes allotments, obligations, unobligated balances, accrued expenditures, and disbursements. Data are accumulated by cost center and major object class. ***Output:*** Hardcopy output includes the annual OMB Budget Submission and a monthly record of expenses which is also available on magnetic tape from GSA. Other miscellaneous summary reports are produced at varying frequencies. ***Availability:*** The output is used for internal planning purposes and is available to the public on request.

Agency Contact: Committee for Purchase from the Blind and Other Severely Handicapped; 2009 14th St. N, Suite 610, Arlington, VA 22201; (703) 557-1145.

S09700-002

Procurement List Actions.

OMB Funding Title/Code: Salaries and Expenses / 95-2000-0-1-505.

Congressional Relevance: *House* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: HUD-Independent Agencies Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Blind; Government Procurement; Handicapped; Organizations, Physically Handicapped, Procurement.

Purpose: The purpose is to determine which commodities and services are suitable for Government procurement from qualified nonprofit agencies serving the blind and other severely handicapped, to publish a procurement list of such commodities and services, and to determine the fair market price for commodities and services on the Procurement List. ***Input:*** The input is applications from the National Industries for the Blind and the National Industries for the Severely Handicapped, exercise or waiver of priority from the Federal Prison Industries and National Industries for the Blind, and Comments on proposed actions. ***Content:*** The system contains a history of action taken, filed by commodity or service, to justify addition to or deletion from the Committee's Procurement List. Proposed and approved additions or deletions are published in the Federal Register. ***Output:*** The principal output is a Procurement List published annually with periodic updates on paper, a list of workshops on paper updated quarterly, and an Annual Report to Congress published on paper. ***Availability:*** All output is available from: Committee for Purchase from the Blind and Other Severely Handicapped, 2009 14th St. N, Suite 610, Arlington, VA 22201.

Agency Contact: Committee for Purchase from the Blind and Other Severely Handicapped; 2009 14th St. N, Suite 610, Arlington, VA 22201; (703) 557-1145.

NATIONAL COMMISSION ON LIBRARIES AND INFORMATION SCIENCE

S13400-001

Budget/Fiscal System.

OMB Funding Title/Code: Salaries and Expenses / 77-0100-0-1-503.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Budgets; Financial Management.

Purpose: The system provides various records and data for comparing approved budget and work plan authorizations against actual workload and assessing the need for management actions. ***Input:*** Source documents are prepared internally from financial transaction documents. ***Content:*** The files contain current period (month or 4-week period) and year-to-date data on Agency obligations and disbursements. ***Output:*** Output is monthly and annual reports on budget execution and financial status of the Agency based on 13 4-week periods. Output is by hardcopy. Capability currently exists for on-line query of the system. ***Availability:*** Copies of the output reports are restricted to internal use only. Copies of the annual report are available through GPO. Single copies are available by request directly to the Agency.

Agency Contact: National Commission on Libraries and Information Science; 1717 K St. NW, Suite 601, Washington, DC 20036; (202) 653-6252.

SUSQUEHANNA RIVER BASIN COMMISSION

S14900-001

Accounting System.

OMB Funding Title/Code: Salaries and Expenses / 46-0500-0-1-301; Contributions to Commission / 46-0501-0-1-301.

Congressional Relevance: *House* Committee on Appropriations: Public Works Subcommittee; *House* Committee on the Judiciary: *Senate* Committee on Appropriations: Public Works Subcommittee; *Senate* Committee on the Judiciary.

Subject Terms: Accounting Systems; Financial Management.

Purpose: The system provides for the preparation and processing of financial and accounting data. The major functions of this system are to edit transactions, classify transaction input, and provide various accounting and management reports. The accounting system is maintained by the Department of the Interior. (See S00700-001, Department of the Interior Accounting System.). ***Input:*** Input is from source documents initiated by or for Agency program managers pertaining to financial and accounting records. ***Content:*** The master records consist of detailed transaction records and balance forward summary records which are matched once a month to provide required reports on general ledger control account balances, reimbursements, disbursements, collections, travel advances, accounts receivable, undelivered orders, accounts payable, and obligations by location and object class, and budget, accounting, and financial management information. ***Output:*** Daily input is central listings (hardcopy); monthly operating reports (hardcopy); and monthly fund central reports (hardcopy). The system is basically a unit record system with no meaningful query capability. ***Availability:*** Reports are for Agency use only.

Agency Contact: Office of the Executive Director; 5012 Lenker St., Mechanicsburg, PA 17055; (717) 737-0501.

PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION

S15800-001

Pennsylvania Avenue Development Corporation Information System.

OMB Funding Title/Code: Salaries and Expenses / 42-0130-0-1-451.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on Interior and Insular Affairs; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on Energy and Natural Resources.

Subject Terms: Accounting; Financial Management; Historic Preservation; Land Acquisition; Public Improvement; Relocation.

Purpose: The purpose of the system is to keep current and available cost and activity data for planning and budgeting by the Corporation. ***Input:*** The system is developed and updated by staff specialists with external input from consultants hired by the Corporation. ***Content:*** Data on budget/fiscal system, historic preservation program, public improvements program, and property acquisition program, including activities and costs, comprise system content. ***Output:*** The only report generated on a recurring basis is the Corporation's Annual Report. All other data are available for use on an as-needed basis. ***Availability:*** Subject to the Freedom of Information Act, information described herein is available publicly.

Agency Contact: Pennsylvania Avenue Development Corporation; 425 13th St. NW, Washington, DC 20004; (202) 343-4314.

COMMUNITY SERVICES ADMINISTRATION

S15900-001

Accounting and Financial Control System.

OMB Funding Title/Code: Community Services Program / 81-0500-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Accounting; Financial Management.

Purpose: This system is designed to provide management with financial data to assist in the planning, control, measurement, and evaluation required for efficient, economical, and effective operations. ***Input:*** Information is derived from grantee, contractor, and other reports; CSA and other Federal forms; travel vouchers; invoices; contracts; purchase orders; employee time and attendance reports; vendor invoices; government invoices, advances and reports; and payment vouchers. ***Content:*** This system provides information on allotments obligations, unobligated balances, accrued expenditures, and disbursements. These categories are accumulated and reported by major object class and subobject class. ***Output:*** Principal output pertains to statement of transactions, unexpended balances of appropriations, obligations, budget status, payroll data; employee retirement data, budget, cash disbursements, unobligated funds, and personnel. ***Availability:*** Output is used for reporting to controlling Government agencies and for internal use only. Reports are not published for public use. They are not classified.

Agency Contact: Office of Administration; 1200 19th St. NW, Washington, DC 20506; (202) 254-5330.

S15900-002

Federal Information Exchange System (FIXS).

OMB Funding Title/Code: Salaries and Expenses / 81-0500-0-1-999.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropria-

tions: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Federal Aid Programs; Federal Budget; Government Spending; Intergovernmental Fiscal Relations.

Purpose: The system is to collect and disseminate information on Federal outlays by geographic location in the 50 States, Territories, and other areas administered by the United States. ***Input:*** Information is provided by Federal departments and agencies. ***Content:*** This system contains obligations of all Government administered funds, except those transactions which are not to the public, by agency, program, and type of assistance on a fiscal year basis for States, counties, and incorporated cities over 25,000 in population. Additionally, the data are summarized at State and national levels by agency, program, Federal influence activities, and budget function. Highlights of the summaries are given in tables which provide State handlings in terms of Federal outlays received by organizational unit, demographic characteristics, and major functional classification. ***Output:*** Federal outlays reports are generated. ***Availability:*** Reports are available from NTIS.

Agency Contact: Office of Administration; 1200 19th St. NW, Washington, DC 20506; (202) 254-5330.

PENSION BENEFIT GUARANTY CORPORATION

S16000-001

Case Data System.

OMB Funding Title/Code: Pension Benefit Guaranty Corporation / 16-4204-0-3-601.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Employee Benefit Plans; Income Maintenance Programs; Pensions; Retirement Income.

Purpose: This automated data system is being designed to capture certain characteristics on plan termination cases. Data on these cases are used for tracking, management information reports, budget formulation, and policy and program research. ***Input:*** Data are derived from information submitted by plan administrators of defined benefit pension plans which terminate on or after September 2, 1974, and information generated by the PBGC in processing the termination case. ***Content:*** Plan administrators of pension plans covered by Title IV of the Employee Retirement Security Act are required to file a "Notice of Intent to Terminate" at least 10 days before a proposed termination. Initial information is entered as a Notice of Intent to Terminate is received; the data base is updated as additional information is received. The Case Data System includes case number assigned by PBGC, plan sponsor's name an address, plan name, and name and address of person fling. Under development are portions of the system which will include plan characteristics such as date of establishment, participant data, asset and liability data, date of termination, and method of funding. ***Output:*** Reports are computer printouts listing plan terminations in case-number (date-sequential) order and others as required by corporate officers. Time sharing machine available query capability with access by several data elements is available. ***Availability:*** All output is for use only within the Pension Benefit Guaranty Corporation.

Agency Contact: Office of Program Operations; 2020 K Street NW, Washington, DC 20006; (202) 254-4700.

S16000-002

Premium Processing System.

OMB Funding Title/Code: Pension Benefit Guaranty Corporation / 16-4204-0-3-601.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Employee Benefit Plans; Income Maintenance Programs; Pensions; Premium Payments; Retirement Income.

Purpose: This on-line automated system was developed to maintain the defined benefit plan Premium Payment and Annual Report filings submitted to the Pension Benefit Guaranty Corporation as required under Title IV insurance provisions of the Employee Retirement Security Act of 1974. ***Input:*** The data contained in the system are derived from the form PBGC-1 "Premium Payment and Annual Report Form" which is filed by the plan administrator responsible for paying premium payments for defined benefit plans to the Pension Benefit Guaranty Corporation. ***Content:*** Plan administrators are required to submit on an annual basis a Premium Payment PBGC-1 Form; the information contained on these forms is updated to the premium payment file on a daily basis. PBGC receives, annually, approximately 100,000 forms from plan administrators throughout the United States. The system contains the data elements submitted on the PBGC-1 Form "Premium Payment and Annual Report Form," e.g., plan sponsor name and address, plan administrator name and address, plan name, filing entity, premium payments, and so on. ***Output:*** Output includes microfilm directories in employer identification number and sponsor name sequence, management statistical hardcopy reports, and on-line query capability. All reports and/or directories are produced as required by corporate officers. ***Availability:*** Publicly available are microfilm directories in employer identification number and in sponsor name sequences

Agency Contact: Division Information Systems; 2020 K Street NW, Washington, DC 20006; (202) 254-4789.

S16000-003

Benefit Payment System.

OMB Funding Title/Code: Pension Benefit Guaranty Corporation / 16-4204-0-3-601.

Congressional Relevance: *House* Committee on Appropriations: Labor-Health, Education and Welfare Subcommittee; *House* Committee on Education and Labor; *Senate* Committee on Appropriations: Labor, Health, Education and Welfare Subcommittee; *Senate* Committee on Human Resources.

Subject Terms: Employee Benefit Plans; Income Maintenance Programs; Pensions; Retirement Income.

Purpose: This automated system was developed to process benefit payments resulting from both sufficient and insufficient terminated defined benefit pension plans which are under the trusteeship of the Pension Benefit Guaranty Corporation. These payments are made pursuant to Title IV of the Employee Retirement Income Security Act of 1974. ***Input:*** The data are derived from information supplied by the plan administrator of each terminated plan, from an Application for Guaranteed Benefits submitted by each participant entitled to a benefit, and from the original plan and employment records maintained by the company which sponsored the terminated plan. ***Content:*** Benefit payments are made by the Pension Benefit Guaranty Corporation on a monthly basis. The system is updated monthly to include additions, deletions, and adjustments in the benefit payments made. The plans covered include all terminated plans under the trusteeship of the Pension Benefit Guaranty Corporation and come from all geographic areas of the United States. The system contains the data elements needed to administer the benefit payments made by the Pension Benefit Guaranty Corporation, e.g., participant's name, address, date of birth, social security number, dates of employment and termination, and benefit entitlement. ***Output:*** A monthly report is issued on the number and

amount of benefits paid for each plan in pay status. All reports and/or directories are produced as required by the corporation officers. *Availability:* All output is for internal use only within the Pension Benefit Guaranty Corporation.

Agency Contact: Office of Program Operations; 2020 K Street NW, Washington, DC 20006; (202) 254-4700.

AMERICAN REVOLUTION BICENTENNIAL ADMINISTRATION

S16100-001

Bicentennial Information Network (BINET).

OMB Funding Title/Code: Commemorative Activities Fund / 76-5077-0-2-806.

Congressional Relevance: *House* Committee on Appropriations: Interior Subcommittee; *House* Committee on the Judiciary; *Senate* Committee on Appropriations: Interior Subcommittee; *Senate* Committee on the Judiciary.

Subject Terms: Bicentennial; Information Services.

Purpose: Preparation of a master calendar of Bicentennial events and a master register of programs and projects of local, State, national and international significance was a primary function of the American Revolution Bicentennial Administration (ARBA), according to the law which created ARBA (Public Law 93-179). Within ARBA's Office of Communications and Public Affairs, the Master Calendar Services Division had the responsibility for supporting this function. Operations are based on the automated Bicentennial Information Network, BINET, a system for gathering, cataloging, and disseminating information on Bicentennial activities. *Input:* Data on Bicentennial projects and events were collected directly from program sponsors in Federal, State, and local governments and the private sector and from State, community, and other Federal Bicentennial planning and coordinative groups. Internal sources included ARBA program staff responsible for certain facilitation projects such as Official Recognition, Bicentennial Alliances, and Media Recognition Program. *Content:* BINET cataloged projects and events–the distinction being made according to whether the activity happened at a specific place and time, with an audience and participants. From July 1973 through December 1976, BINET processed and cataloged over 67,000 projects and events. Data included title, description, location (city, state, or foreign country, congressional district), geographic scope, subject, method of presentation, group emphasis, and sponsor organization name, address and phone number. In addition, event records included date(s), time, days open/closed, facility location, and details on reservations/accommodations/press-media/tour arrangements/admission price–as applicable. The data base included activities from over 13,000 communities and 100 foreign countries. Weekly updates were performed, with confirmation copies of the new or updated records being sent to the sponsor of record for verification and possible later updating. In addition, ARBA regional offices and State Bicentennial commissions were asked to review lists of new or updated activities in their respective areas of responsibility. A wide variety of subsystems were employed to provide interactive data retrieval capability, batch reports, statistical summaries, and comprehensive or selected data for input to a computer photo-typesetting process used to produce publications. Within the Master Calendar Services Division, the Information and Research Branch was responsible for input and was the single largest user of BINET's interactive data entry and information retrieval capabilities. *Output:* An on-line data base was available for interactive search and retrieval through a nationwide network of computer terminals. An existing GSA-contracted timesharing vendor was used (Computer Sciences Corporation). Complementing the on-line service and the publications program, tailor-made hardcopy reports were produced on a one-time or recurring basis. Automated photo-typesetting techniques were used to produce a series of master project register and event calendar publications, distributed to the Congress and to Federal, State, and local Bicentennial organizations and media outlets nationwide. *Availability:* All publications were available for public purchase through GPO. None of the BINET data were classified or confidential.

Agency Contact: Master Calendar Services Division; 2401 E St. NW, Washington, DC 20276; (202) 634-1723.

CONGRESSIONAL BUDGET OFFICE

S30300-001

Congressional Scorekeeping System.

OMB Funding Title/Code: Salaries and Expenses / 08-0100-0-1-801

Congressional Relevance: *House* Committee on Appropriations: Legislative Subcommittee; *House* Committee on Budget; *Senate* Committee on Appropriations: Legislative Subcommittee; *Senate* Committee on Budget.

Subject Terms: Budgets; Federal Budgets; Legislation.

Purpose: The Congressional Budget Office is required by section 308(b) of the Congressional Budget Act of 1974 (Public Law 93-344) to issue periodic reports on the status of congressional budget action. The CBO reports budget scorekeeping data each week to the House and Senate Committees on the Budget, who transmit it to members of Congress. This report, intended primarily for staff use, presents the basic scorekeeping tables used by CBO to tabulate congressional action affecting the fiscal year budget. *Input:* Concurrent resolutions, congressional initiatives, appropriation bills, Budget Committee actions, Appropriation Committee actions, President's Budget, including amendments and revisions, and CBO reestimates and estimates are the source data. *Content:* Content includes Federal budget information by account and budget authority and outlays by fiscal year. Information is updated daily to reflect executive and congressional budget actions. *Output:* Output includes CBO hardcopy reports (approximately six times per year), backup to Senate Weekly Scorekeeping Report, backup to Daily Parliamentarian Reports, and backup to House Budget Committee Weekly Status to Members Report. *Availability:* The CBO scorekeeping reports and Senate scorekeeping reports are available to the public.

Agency Contact: Budget Analysis Division; 2nd and D Streets SW, Washington, DC 20515; (202) 225-3811.

GENERAL ACCOUNTING OFFICE

S30400-001

Programming, Scheduling, and Reporting System (PSR System).

OMB Funding Title/Code: Salaries and Expenses / 05-0107-0-1-801.

Congressional Relevance: *House* Committee on Appropriations: Legislative Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Legislative Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Manpower Utilization; Resource Allocation.

Purpose: The PSR System is designed to provide GAO managers staff time information on ongoing and past audit assignments. This information is used to monitor ongoing assignments and help plan future assignments. Its three major components are for short range programming and planning, assignment authorization, and staff time reporting. *Input:* Assignments are authorized and changed with formal documents detailing certain classified information, assignment justification, and staff days required. These documents originate with the programming group, usually a GAO division or a division's subelement. Staff time is reported through the payroll system, with hours worked charged to specific assignment or administrative codes. *Content:* The system is updated and report production is done about every four weeks. All active assignments, current fiscal year terminated assignments, and a series of administrative codes are

reported on each report production cycle. These data are classified by programming organization, performing organization, program category, source of requirement, issue area and line of effort, type of work product, or assignment area. A PSR User's Manual provides the mechanics of using the system and gives more detailed information about information content. *Output:* Programming, Scheduling, and Reporting System Reports are produced about every four weeks. *Availability:* Reports are for internal use only.

Agency Contact: Office of Controller; 441 G St. NW, Washington, DC 20548; (202) 275-5418.

S30400-002

Legislative History System.

OMB Funding Title/Code: Salaries and Expenses / 05-0107-0-1-801.

Congressional Relevance: *House* Committee on Appropriations: Legislative Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Legislative Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Legislation; Legislative Reference Services.

Purpose: The system is to support the information needs of the Office of the General Counsel and other divisions of the General Accounting Office with respect to legislative interpretation and research. *Input:* The Government Printing Office, congressional committees, GAO index and files, and other GAO Divisions are the input sources. *Content:* The Legislative Digest Section maintains, for reference and research purposes, legislative histories on every bill introduced and law enacted by the United States Congress. The compilations contain all versions of the bill, committee reports, documents, hearings and Congressional Record extracts not only on the bill that became law but related bills from the same and prior Congresses as well. This material is assembled in the order the action occurred, starting with the introduced bill and is referenced to the earlier laws being amended. The compilations, which date from 1921, also contain GAO letters, decisions, and memoranda. The bills and laws are indexed by a hierarchical method covering subject matter and law citations. *Output:* Hardcopy output consists of Congressional Record Digest Sheet, Accession Report, Index to Public Laws Enacted, Congressional Committee Book, and Status of Requests to Report on Bills. *Availability:* Reports are for internal use only.

Agency Contact: Legal Information and Reference Service; 441 G St. NW, Washington, DC 20548; (202) 275-5560.

S30400-003

Index-Digest System.

OMB Funding Title/Code: Salaries and Expenses / 05-0107-0-1-801.

Congressional Relevance: *House* Committee on Appropriations: Legislative Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Legislative Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Administrative Procedures; Civilian Personnel; Decisions; Laws; Military Personnel; Procurement; Transportation.

Purpose: The purpose is to support decisionmaking activities of the Comptroller General and staff (Office of General Counsel) and to provide access to decisions to General Accounting Office, other Government agencies, and the public. *Input:* Comptroller General Decisions, intra-office memoranda, and nondecision letters issued by Office of the General Counsel, serve as input. *Content:* The system contains subject indices of digests covering Comptroller General Decisions, intra-office memoranda, and nondecision letters issued by Office of the General Counsel which deal with civilian personnel, general Government matters, military personnel, procurement law, special studies and analyses, and transportation categories. The system also includes the annual publication, in bound volumes, of selected decisions (with 5-year indices of digests), the issuance of publications covering remaining materials in the above categories, as well as maintenance of citator files based upon the above material, including legal citations. *Output:* Publications include: Index Digest Decisions of the Comptroller General of the United States (bound volume published every five years); Decisions of the Comptroller General of the United States; Pamphlets of Decisions of the Comptroller General of the United States (monthly); Pamphlets of Digest of Unpublished Decisions of the Comptroller General of the United States (quarterly covering general Government matters, civilian personal law, military personnel law, procurement law, and transportation); Synopsis of Office Memoranda (monthly covering general government matters, civilian personnel law, military personnel law, procurement law, special studies and analyses, and transportation); and subject and citator cards. *Availability:* Portions of the system are for internal use only.

Agency Contact: Legal Information and Reference Service; 441 G St. NW, Washington, DC 20548; (202) 275-5560.

S30400-004

Legislative Authorization Program Information System (LAPIS).

OMB Funding Title/Code: Salaries and Expenses / 05-0107-0-1-801.

Congressional Relevance: *House* Committee on Appropriations: Legislative Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Legislative Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Budget Information Systems; Executive Agencies; Federal Programs; Government Spending; Information Services; Legislation.

Purpose: The Congressional Budget Act of 1974 requires that the Comptroller General conduct a continuing program to identify and specify the needs of the committees and Members of Congress for fiscal, budgetary, and program-related information. It also requires that the Comptroller General develop, establish, and maintain a central file or files of the data and information required to meet recurring requirements of the Congress for fiscal, budgetary, and program-related data. The files are to be maintained to facilitate use of the files by the committees of both Houses, joint committees, and other congressional agencies through modern data processing and communications techniques. *Input:* Input is from the Federal agencies reflected in the Budget of the United States Government and selected off-budget Federal agencies. The agencies' input includes budgetary, program, and legislation information. In-house analysis is utilized to refine and standardize the information. Selected information from the Office of Management and Budget data tapes is integrated into the system. *Content:* The system is continually being updated during the year. The major budgetary information update occurs between January and March. Between November and May, the entire data base is reviewed, refined, and updated. Information includes legislation, (popular name, public law number, title, section, etc.), program name, budget authority, outlays, obligations, agency, bureau, appropriation account title and number, function and subfunction names and number, authorizing committee jurisdiction (House and Senate), authorization amounts, and authorization termination date. Selected programs include current year budget authority, outlays from current year budget authority, outlays for State and local governments, first quarter apportionments, loan levels, limitations, and contract authority. *Output:* Current reports are formatted and produced in response to particular committee or member requests and contain the specific information requested. The output medium is usually hardcopy computer printouts. In some instances the final product is a typed report developed by GAO analysts utilizing the information from the system as a baseline. *Availability:* Reports are available upon request to members or committee staff. Requests from the public would be satisfied as time allowed.

Agency Contact: Program Analysis Division; 441 G St. NW, Washington, DC 20548; (202) 275-1811.

S30400-005

Intergovernmental Fiscal Relations Information Systems (IFRIS).
OMB Funding Title/Code: Salaries and Expenses / 05-0107-0-1-801.
Congressional Relevance: *House* Committee on Appropriations: Legislative Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Legislative Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Federal Aid to States; Federal State Relations; Fiscal Policy; Government Employee Retirement; Intergovernmental Fiscal Relations; Local Governments; Public Finance; State Governments.

Purpose: The system supports GAO analyses of intergovernmental fiscal relations. *Input:* Data are derived from reports issued by various Federal agencies. *Content:* The system content includes: Federal Aid to States, by State, 1959-1975; Industry Employment, by State, One-Digit SIC's 1967-1975; State and Local Government Finances, by State, 1959-1975; Personal Income by State, 1959-1975; Finances of State and Local Public Employee Public Retirement Systems, 1960, 1965, 1969-1975; and State Population, by State, 1959-1975. All data are updated annually. *Output:* IFRIS supports GAO analyses of intergovernmental fiscal relations essential to the preparation of reports to Congress and others. No machine-readable output is produced. Lists of data and a wide variety of graphs and charts can be produced. All data are directly accessible. *Availability:* Some data relating to finances of State and local public employee pension systems are restricted to internal use. All other data are publicly available.

Agency Contact: Program Analysis Division; 441 G St. NW, Room 5023, Washington, DC 20548; (202) 275-3597.

S30400-006

Congressional Information Directories.
OMB Funding Title/Code: Salaries and Expenses / 05-35-0107-0-1-801.
Congressional Relevance: *House* Committee on Appropriations: Legislative Subcommittee; *House* Committee on Government Operations; *Senate* Committee on Appropriations: Legislative Subcommittee; *Senate* Committee on Governmental Affairs.

Subject Terms: Directories; Government Paperwork; Information Storage and Retrieval; Program Evaluation.

Purpose: Title VIII of the Congressional Budget and Impoundment Control Act of 1974 (Public Law 93-344) amended the Legislative Reorganization Act of 1970 and assigned to the Comptroller General certain responsibilities for helping the Congress obtain and use information. As part of its program for carrying out those responsibilities, the U.S. General Accounting Office (GAO) is publishing the 1977 Congressional Sourcebooks–a series of directories reflecting an inventory of program-related information. This system has been established to meet the requirement of the law identified above. *Input:* Input is from submissions required under law by the executive branch agencies. *Content:* The current Congressional Sourcebook data base encompasses three separate files. Each is a directory and guide addressing a different area of program-related information. Information in the system consists of: 1) Requirements for Recurring Reports to the Congress–describes nearly 2,000 reports required of 254 agencies by the Congress on a recurring basis; 2) Federal Program Evaluations–contains an inventory of approximately 2,000 evaluation reports produced by and for selected Federal agencies, including GAO, which relate to the programs of those agencies; 3) Federal Information Sources and Systems–describes approximately 1,400 Federal sources and information systems maintained by 91 executive agencies which contain fiscal, budgetary, and program-related data and information. The GAO has established a continuing program to maintain a current inventory of recurring reports, evaluation studies, and fiscal, budgetary, and program-related information sources and systems. The inventory is maintained on central computer files in such a manner as to render data transferable to the Library of Congress for inclusion in the Congressional Research Service's SCORPIO information retrieval system, thus facilitating their use by the committees of both Houses of the Congress. *Output:* A series of directories tailored to meet the needs of Congress is published annually. Magnetic tape copies of the data bases used to produce these products are also available. *Availability:* All hardcopy items are available through GPO. Contact GAO for machine-readable material.

Agency Contact: Program Analysis Division; 441 G St. NW, Washington, DC 20548; (202) 275-1837.

GOVERNMENT PRINTING OFFICE

S30500-001

Monthly Catalog of United States Government Publications.
OMB Funding Title/Code: Salaries and Expenses / 04-0201-0-1-806.
Congressional Relevance: *House* Committee on Appropriations: Treasury-Postal Service-General Government Subcommittee; *House* Committee on *House* Administration; *Senate* Committee on Appropriations: Treasury, Postal Service, General Government Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Catalogs; Government Publications; Information Services.

Purpose: This system provides tape for printing the Montaly Catalog of United States Government publications in accordance with section 1711, Title 44, United States Code. *Input:* Catalog entries are prepared in a standard cataloging format from publications received in the Library Division. The entries are then entered into an on-line computer at the Ohio College Library Center (OCLC), where a tape of input and catalog cards is prepared and mailed. *Content:* Each new entry is added to the data base where the information is available to all members subscribing to the OCLC system. Various networks covering hundreds of libraries across the country are members. While the data base is continually being updated by the member libraries, the monthly catalog prepared from the tapes cover only the material input by GPO during the previous month. The data base includes non-Government as well as Government publications. The cataloging follows the Anglo-American Cataloging Rules and Library of Congress main entries. Subjects are derived from Library of Congress Subject Headings. *Output:* A monthly catalog is issued in hardcopy only. *Availability:* The monthly catalog is sold by GPO to the public as well as distributed free to the depository libraries. The catalog tape records in MARC II format will be available from the Cataloging Distribution Service of the Library of Congress in April 1977.

Agency Contact: Library Division; 5236 Eisenhower Ave., Alexandria, VA 22304; (703) 557-2145.

S30500-002

Publications Reference File (PRF).
OMB Funding Title/Code: Salaries and Expenses / 04-0201-0-1-806.
Congressional Relevance: *House* Committee on Appropriations: Legislative Subcommittee; *House* Committee on *House* Administration; *Senate* Committee on Appropriations: Legislative Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Bibliographies; Cataloging; Government Publications.

Purpose: The file is to provide an accurate up-to-date sales catalog, listing all items sold by the Superintendent of Documents and to assist in the compilation and production of computer-generated subject price lists and related projects. Further, PRF supports both research and other requirements of the order processing system to aid in prompt handling of orders and inquiries. PRF provides current catalog material to more than 400 depository libraries; these libraries do not have to recatalog Government publications they receive as standard cataloging techniques have been adopted. *Input:* External sources of data/information include all Government agencies offering publications for sale by the Superintendent of Documents. The internal sources of data/information are the Documents Control Branch, Sales Management Division, in the Documents Sales Service

which provides information pertaining to receipts, new on-orders, reprints, subscription notifications, exhausted lists, cancellation notices, balance to 0 report, and changes of status and the Library Division, LSDS, which provides library cards used as an aid in cataloging books. From this information, additions, deletions, and changes can be made to the system. *Content:* Records are updated daily. Data items such as stock and catalog numbers, location, title, price, author, and description for all Government publications sold by the Superintendent of Documents are contained in the system *Output:* Principal output is a daily utility listing of update transactions, as entered through system; daily edit listing of transactions entered through system; weekly fiche index generation and COM device formatting-film rolls for generation of Microfiche Reference File; weekly explosion of activity or master file by index keys; case cards for customer order fulfillment; periodic listings of stock numbers, titles, and catalog numbers; daily record processing statistics listing; and daily PRF Statistical Summary Control Listing. *Availability:* Data are primarily for internal use in servicing the public's demand for sales publications/information.

Agency Contact: Records Branch; North Capitol and H Streets NW, Washington, DC 20401; (202) 275-3299.

LIBRARY OF CONGRESS

S30600-001

Major Issues System (ISSU).

OMB Funding Title/Code: Salaries and Expenses / 03-0127-0-1-801.

Congressional Relevance: *House* Committee on Appropriations: Legislative Subcommittee; *House* Committee on *House* Administration; *Senate* Committee on Appropriations: Legislative Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Congressional Hearings; Congressional Information Resources; Legislation; Public Policy.

Purpose: The System was established in 1974 by the Congressional Research Service at the request of the Senate Committee on Rules and Administration. The system is to maintain a series of specially-prepared reports on key public policy issues for use by congressional offices. Reports are to be kept up-to-date in an on-line computerized information retrieval system supplemented by the availability of printed copies of these reports on request. Approximately 200 to 250 current reports are to be maintained in the system. *Input:* All reports are prepared by subject specialists among the staff of the Congressional Research Service. *Content:* Records are structured reports containing definitions of each public policy issue, background and policy analysis, legislative information, information on hearings and congressional reports, chronologies of significant events, and additional references to information in the professional literature. *Output:* Reports are available on-line in the Library of Congress' SCORPIO information retrieval system. Supplementary copies of each report are available in photocopy of printouts. *Availability:* Reports are available to congressional offices and agencies of the legislative branch only. They are not available to other Government agencies or to the general public.

Agency Contact: Congressional Research Service; 1st St. NE, Washington, DC 20540; (202) 426-5920.

S30600-002

Legislative Information File for the 95th Congress (CG95).

OMB Funding Title/Code: Salaries and Expenses / 03-0127-0-1-801.

Congressional Relevance: *House* Committee on Appropriations: Legislative Subcommittee; *House* Committee on *House* Administration; *Senate* Committee on Appropriations: Legislative Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Congress; Congressional Information Resources; Legislation; Public Bills; Resolutions.

Purpose: The system is to maintain an up-to-date, on-line, computerized information file containing analytical, descriptive, and status information about all public general bills and resolutions of the 95th Congress. The system supports the legislative function of the Senate and the House of Representatives. *Input:* All public bills and resolutions introduced in the 95th Congress are abstracted, digested, and tracked throughout the legislative process by a staff of legislative experts within the Congressional Research Service. *Content:* Each record contains detailed information about bill sponsorship, co-sponsorship, content, and status. *Output:* The file is updated daily, with each record kept up-to-date as changes in its status occur. Cumulative printed volumes are produced three times per year, with supplements approximately every six weeks. All records are available in an on-line computer file. *Availability:* The on-line computer file is available to all having access to the Library of Congress' SCORPIO information retrieval system, including a limited number of terminals for use by the public in the Library of Congress main reading room. Printed versions of the file are for sale by GPO.

Agency Contact: Congressional Research Service; 1st St. NE, Washington, DC 20540; (202) 426-5920.

S30600-003

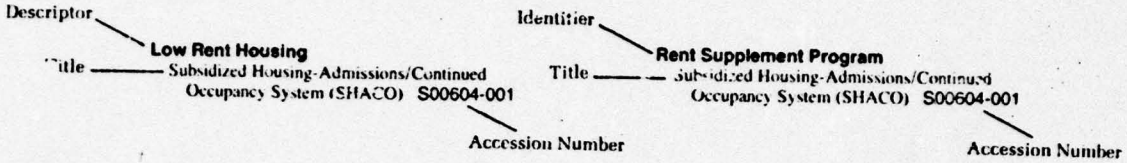
Bibliographic Citation File (CITN).

OMB Funding Title/Code: Salaries and Expenses / 03-0127-0-1-801.

Congressional Relevance: *House* Committee on Appropriations: Legislative Subcommittee; *House* Committee on *House* Administration; *Senate* Committee on Appropriations: Legislative Subcommittee; *Senate* Committee on Rules and Administration.

Subject Terms: Bibliographies; Government Publications.

Purpose: The system is to maintain a current awareness file of information in Government publications, publications of Congress, international organizations, and legal and professional journals to support the research program of the Congressional Research Service and to provide current awareness information directly to congressional offices. *Input:* Some 6,000 publications are regularly scanned and bibliographic citations are prepared and entered into an on-line computer file. *Content:* Each record cites the author (personal or corporate), publisher, date, and other standard bibliographic reference data. Each record also contains a brief annotation as to the nature of the content of the article cited and an indication as to the availability of the source document. *Output:* All records are available in an on-line computer file. In addition, all new accessions each week are screened and computer-matched against interest profiles submitted by CRS and certain congressional staff. The resulting matches are printed and sent to each subscriber maintaining an interest profile in the system. *Availability:* The records on-line are available to congressional offices and legislative branch agencies having access to the SCORPIO information retrieval system. Records are available to the public via a limited number of computer terminals located in the Main Reading Room of the Library of Congress.



Agency Contact: Congressional Research Service; 1st St. NE, Washington, DC 20540; (202) 426-5920.

INDEX SECTION

SUBJECT INDEX

Includes entries under both Descriptors (representing subject matter) and Identifiers (representing proper names) dealt with by the information source/system, in one alphabetic sequence.

Sample entry:

Natural Gas Industry Evaluation Systems $03300-013

Gasoline
Automobile Classification Data Base $02900-006
Cost and Pricing System $02900-042
OECD Energy Demand Model $02900-054
Refinery Cost Passthrough $02900-009
Regional Econometric Demand Model and Auto Simulation Model (RD4) $02900-053
Subpart L $02900-037

Gas Pipelines
Certification 5(a) and Agreement 5(b) $01109-007
Pipeline Carrier Accident Report System $01109-003
Pipeline Leak and Test Failure Reporting System $01109-004
Pipeline Safety Grant-in-Aid Program $01109-005

Gas Production
Oil and Gas Reserves System $02900-040
Project Independence Evaluation System (PIES) $02900-049

Gas Reserves
Oil and Gas Reserves System $02900-040

Gas Resources
Oil and Gas Reserves System $02900-040

GATT Tariff Study
Special Trade Representative's Centralized Data Base (STRCDB) $00113-001

Gazetteers
U.S. Board on Geographic Names (BGN) $00413-002

Geochemistry
Rare-Earth Information Center (RIC) $06000-048

Geodesy
Environmental Data Index (ENDEX) $00306-003
Environmental Science Information Center (ESIC) $00306-004

Geodetic Diagrams
National Geodetic Survey Information Center (NGSIC) $00306-011

Geodetic Research
National Geodetic Survey Information Center (NGSIC) $00306-011

Geodetic Surveys
National Cartographic Information Center (NCIC) $00712-007
National Mapping Program System $00712-008

Geographical Research
Geography Program $00712-015

Geographic Codes
File Identification and County (FI/CO) Maintenance System $00603-011
HUD Master Locality File System $00600-020

Geographic Data
Data User Services Division $00309-005

Geographic Distribution
Census Bureau Geographic Reference File $00309-016
Foreign Demographic Analysis Data System $00316-012
Heroin Signature Program $00810-017

Geographic Location
Corps of Engineers Real and Personal Property and Selected Financial Assets Reporting System $00403-015

Geographic Names
SMSA Identification System $00602-013
U.S. Board on Geographic Names (BGN) $00413-002

Geography
Geography Program $00712-015

Geology
Environmental Data Index (ENDEX) $00306-003
Geologic Surveys, Investigations, and Research Program $00712-010
The Smithsonian Institution $05600-001
Smithsonian Institution Libraries (SIL) $05600-004

Geophysical Research
Geologic Surveys, Investigations, and Research Program $00712-010

Geophysics
National Geophysical and Solar-Terrestrial Data Center (NGSDC) $00306-007

Geothermal Energy
Energy Resource Data Systems $00712-012
International Energy Evaluation System (IEES) $02900-052
National Geothermal Information Resource (GRID) $06000-039

Glaser Follow-Up Study
Research Follow-up Study Projects Data Bases $00808-005

Glossaries
Common Carrier Interconnection Glossary (CIG) $02700-003
FEA Data Dictionary $02900-031
Standard Terminology and Data Systems $00300-023

Government and Business
Government-Industry Data Exchange Program (GIDEP) $00404-001

Government Checks
Treasury Check Claims Processing $01204-002
Treasury Check Payment and Reconciliation System $01204-004

Government Contracts
Central Registry System (CRS) $00500-003
Departmental Federal Assistance Financing System (DFAFS) $00503-004

Government Employee Retirement
Intergovernmental Fiscal Relations Information Systems (IFRIS) $30400-005

Government Employees
Census Bureau Governments Statistics $00309-009
Complaint Statistical Reporting System (CSRS) $02400-017
Employment and Wages System, ES-202 $00906-021
Equal Employment Opportunity Statistics on State and Local Governments Employees System $05917-002
Merit System Review of State and Local Agencies $05917-001
State and Local Government Information EEO-4 $02400-010

Government Investigations
Case History Files and Investigational Records Compiled for Law Enforcement Purposes $03500-004
Geo-Drug Enforcement Program (G-DEP) $00810-010
Intelligence Case Management and Time Reporting System $01206-015
Investigative Reporting and Filing System $00810-016
Litigation Support System $03500-010

Government Lending
Accounting System $01017-001
The Budget of the United States Government, Appendix $00110-009
Catalog of Federal Domestic Assistance (Tape File), 1976 $00110-010
Catalog of Federal Domestic Assistance, 1976 $00110-016
EDA Loan Accounting System (LNACCT) $00302-004
FCA Financial and Statistical Reports $02600-002
Loan Accounting System $05500-003
Loan/Guarantee Master File $02500-001
Management Assistance Control Record (SBA Form 1062) $05500-004
Management Information System $05500-006
Office of Business Development Management Information System (OBDMIS) $05500-001
Portfolio Financing Report Information System (SBA Form 1031) $05500-002
Program Evaluation System (SBA Form 684) $05500-008
SBIC Industry Review $05500-009

Government Life Insurance
Insurance Folder Files $06500-019
Insurance Master Record $06500-020

Government Litigation
Case Tracking System $04700-002
Central Civil Rights Division Index File and Associated Records $00802-001
Litigation Case Information System (LCIS) $02400-018
Litigation Support System $03500-010
Overall Case Inventory and Control System (Central Status) $04000-004
Performance Management System (PMS) $02400-015
Prosecutors' Management Information System (PROMIS) $00814-001
U.S. Attorney's Docket and Reporting System $00814-002

Government Officials
ACIR Mailing List $06600-002

Government Paperwork
Congressional Information Directories $30400-006

Government Procurement
ACDA Contract and Reimbursable Agreement Retrieval System $05800-003
Active and Inactive Contract Program $01107-001
Automated Delivery Order System (ADO) $03700-018
Automated Quality Control Management System (AQCMS) $03700-015
Centralized Accounting for Local Management (CALM) $06500-014
Contract Information System (CIS) $01100-006
Contract Online Reporting System (COORS) $01017-002
Contracts Information System (CIS) $02300-001
Contracts Information System (CIS) $06000-010
Contracts Status Reports $02900-003
Direct Delivery Order Control System-2790-A-II $03700-017
Federal Reserve Bank Reimbursable Cost Analysis System $01205-002
Federal Supply Service (FSS) Supply System $03700-020
Highway Register System (HWY) $06300-007
Identical Bidding in Public Procurement $00800-004
Master Reference and Management Data System (MRMDS) $03700-025
Postal Service-wide Contract Data System $06300-002
Procurement Information $01102-016
Procurement List Actions $09700-002
Procurement Management Information System $00712-004
Procurement Management Information System (PMIS) $01103-006
Procurement Source Program $05500-005
Procurement Transaction Reporting System (PTR) $03700-019
Program Management Information System $01100-022
Purchase Order Information System $02900-002
Remote Terminal Contracts System (RTCS) $00711-002
Storehouse Inventory System $04900-003
Transportation Management Information System (TRANSMIS) $03700-021

Government Property
Exhibit Property Inventory System $06100-005
Geographic Location File (FEAMS) $00500-013
HEW-Owned Detail File (FEAMS) $00500-012
Real and Personal Property Information $01102-017

Government Publications
Bibliographic Citation File (CITN) $30600-003
Monthly Catalog of United States Government Publications $30500-001
Publications Reference File (PRF) $30500-002

Government Receipts
Census Bureau Governments Statistics $00309-009

Government Regulation
Annual Trust Department Assets and Common Trust Fund Survey $01201-002
Case History Files and Investigational Records Compiled for Law Enforcement Purposes $03500-004
Case History Files (Public Records) $03500-003
Case/Project Tracking and Status (CPTS) $03500-002
Commission Minutes $03500-011
Corporate Patterns Report (CPR) $03500-006
Corps of Engineers-Inventory of Dams System $00403-018
Natural Gas Regulations System (Producer Rate) $03300-015
Natural Gas Regulation System (Pipeline Rate) $03300-017
Natural Gas Regulation System (Producer Certificate) $03300-016
Natural Gas Regulation Systems (Pipeline Certificate) $03300-018
Operation Report System $01210-004
Quarterly Statements of Financial Condition or Consolidated Reports of Condition (Call Reports) $01201-001

Statistical Report on Mergers and Acquisitions $03500-005

Government Securities
Federal Reserve Bank Reimbursable Cost Analysis System $01205-002
Public Debt Accounting System $01205-001

Government Spending
Administrative Accounting System $01205-003
Advance Financing System $01204-005
The Budget of the United States Government $00110-008
Cash Management System $01204-008
Census Bureau Governments Statistics $00309-009
Current Services Estimates $00110-001
Estimated Federal Expenditures on Domestic Transportation Capital Improvement and Operating Programs $01100-001
Federal Information Exchange System (FIXS) $15900-002
Government Estimates of National Income and Product System $00316-009
Legislative Authorization Program Information System (LAPIS) $30400-004
Mid-Session Review of the Budget $00110-002
Payments in Lieu of Taxes (PILOT) $00714-016
Special Analyses, Budget of the United States Government $00110-007
Treasury Central Accounting and Reporting System $01204-003
Treasury Check Payment and Reconciliation System $01204-004
The United States Budget in Brief $00110-014

Grade Crossings
Grade Crossing Inventory System (GCIS) $01104-002

Graduates
Higher Education General Information Survey System (HEGIS) $00500-024
National Longitudinal Study of the High School Class of 1972 $00500-018

Grain Inspection
Grain Licensed Inspector Supervision System or Grain Monitoring System $00223-001

Grains
ASCS Prairie Village Commodity Office $00209-001
Small Grains Rust Nurseries $00213-008
World Small Grains Collection $00213-007

Grant Administration
National Cancer Program/Management Information System (NCP/MIS) $00508-001
NHLBI Information System $00508-003

Grantees
Debarment System $00600-002
Grant Information System (ARTS) $04300-002
Grants Data System (GDS) $00522-002
Grants Information System (Humanities) $04300-003
Grants Management Information System $00523-001
PHS Grants Reporting System $00522-003

Grants
Advance Financing System $01204-005
Audit Report Control System $00522-004
Basic Education Opportunity Grant System (BEOG)–Student Application Processing $00501-007
BEOG-PIMS (Basic Education Opportunity Grant System) $00501-008
Budgetary Information System $01100-013
Bureau for Technical Assistance (TAB) Technical Information Resource $01017-008
Catalog of Federal Domestic Assistance (Tape File), 1976 $00110-010
Catalog of Federal Domestic Assistance, 1976 $00110-016
Central File for Assistance for Health Manpower Training Institutions $06500-008
Central Registry System (CRS) $00500-003
Community Development Block Grant (CDBG) Discretionary Grants System $00602-011
Community Development Block Grant (CDBG) Entitlement Determination System $00602-010
Community Development Block Grant (CDBG) Funding Survey System $00602-009
Community Development Block Grant (CDBG) Housing Assistance Plan System (HAPS-1975) $00602-008
Community Development Block Grant (CDBG) Management System $00602-006
Community Development Block Grant (CDBG) Program Evaluation System $00602-007
Community Service and Continuing Education Program $00501-011
Comprehensive Planning Assistance Data System (CPADS) $00602-005
Comprehensive Planning Fund Allocation System $00602-004
Contract Online Reporting System (COORS) $01017-002
Cooperative Education Program (CEP) $00501-010
CU Grantee Information System $01006-001
Dahlgren Data System $04600-003
Departmental Federal Assistance Financing System (DFAFS) $00500-004
EDA's Management Information System (MIS) $00302-002
Educational PROFILE $00811-003
FACS-Contractual Status $04100-010
Federal Airports Program $01102-011
Federal Information Exchange System (FIX) $00600-016

Oceanographic Data Acquisition and Monitoring System S00000-044

Oceanography
Corps of Engineers–Coastal Engineering Research Center (CERC) S00403-013
Environmental Data Index (ENDEX) S00306-003
Environmental Science Information Center (ESIC) S00306-004
National Oceanographic Data Center (NODC) S00306-006
Oceanic and Atmospheric Scientific Information Center (OASIS) S00306-002
Office of Marine Surveys and Maps S00306-009

Officer Personnel
Reserve Officers Information Bank (ROIB) S05400-002
Soldier Cost Information System (SCIS) S00403-007

Oil
FEA Oil Import System S02900-017
Major Fuel Burning Installations (MFBI) S02900-019
Propane/Butane Allocation System S02900-010

Oil Production
International Oil Supply Model S02900-056

Oil Shale Bentonite Title Clearance System
Land Base System S00714-011
Oil Shale/Bentonite Title Clearance S00714-007

Oil Shales
Land Base System S00714-011
Oil Shale/Bentonite Title Clearance S00714-007

Oil Spills
Spill Prevention Control and Countermeasure System (SPCCS) S02300-024
Technical Assistance Data System (TADS) S02300-017

Oil Storage
Spill Prevention Control and Countermeasure System (SPCCS) S02300-024

Oil Well Drilling
Drilling Equipment Production Survey S02900-022

Old Age Assistance
Grants Management Information System S00523-001

Old Age, Survivors, and Disability Insurance
BHA Case Control System Phase II (OLD) S00510-001

Older Adults
Grants Management Information System S00523-001

Open Housing
Library Division S00600-003

Open Space Lands
Open Space System S00602-002

Open Space Projects
Open Space System S00602-002

Operating Costs
Census Bureau Retail Trade, Wholesale Trade, and Selected Service Industries Data S00309-008
U.S. International Investment Accounts System S00316-011

Operation CUE
Computerized Automated Reporting System (CARS) S01210-001

Operator Permits
Restricted and Commercial Operators Permits (FRC) S02700-010

Organic Chemicals
Synthetic Organic Chemical Reports S06400-002

Organization for Economic Cooperation and Development
OECD Energy Demand Model S02900-054

Organizations
International Organizations (IO) Reference and Documents Section S01010-001
Procurement List Actions S01700-002
Standard Industrial Classification System S00110-006

Outdoor Recreation
State Data Book System S00715-004

Over-the-Counter Securities
Over-the-Counter Notification System (XST) S05300-023
Third Market Notification System (TMN) S05300-034

Over-the-Counter Stocks
Over-the-Counter Market Surveillance System (OTC) S05300-022

Overtime
ESA-33 Wage Hour Investigation Reports System S00904-005

Pacific Northwest
Corps of Engineers–Columbia River Operational Hydromet and Management System (CROHMS) S00403-021

Packaging
Poison Prevention Packaging Data Base (PPP) S02100-010

Panama Canal
Ship Data Bank System S04900-001

Parcel Post
National Bulk Mail System (NBMS) S06300-022

Parochial Schools
Survey of Nonpublic Elementary and Secondary Schools S00510-016

Parole
Research Follow-up Study Projects Data Bases S00808-005

Particle Physics
Berkeley Particle Data Group S06000-025

Particles
Controlled Fusion Atomic Data Center S06000-029

TITLE INDEX

Lists titles of information sources/systems in one alphabetic sequence. System acronyms, when available, are included in parentheses at the end of the title.

Sample entry:

Title - — ———— Subsidized Housing-Admissions/Continued Occupancy System (SHACO) S00604-001 ———— Accession Number

A

ABMC Annual Budget Request S01500-003

Accident, Incident, Violation Information S01102-001

Accounting and Financial Control System S15900-001

Accounting and Fund Control System S00310-001

Accounting/Contracts S00114-002

Accounting, Financial Management, and Unified Planning Systems S05914-001

Accounting System S00316-001

Accounting System S00700-001

Accounting System S00715-002

Accounting System S01017-001

Accounting System S01104-001

Accounting System S02910-001

Accounting System S03900-002

Accounting System S04300-001

Accounting System S06800-001

Accounting System S14900-001

Accounting System for REA Loans, Rural Telephone Bank Loans, Federal Financing Bank Loans Guaranteed by REA, and Administrative Expenses S00203-002

Accounts Current System S00600-005

ACDA Contracts and Reimbursable Agreement Retrieval System S05800-003

ACIR Financial Accounts S06603-001

ACIR Mailing List S06601-002

Acquired Home Property Disposition Summary System S00914-001

Acquired Home Property Phase I System S00600-007

Acquired Home Property Phase II System S00900-008

Acquisition Tracking System S02900-032

ACTION Library S01300-012

Active and Inactive Contract Program S01107-001

Activity Expense and Revenue Tracking System S01104-001

Activity Report System (DAR) S02700-011

Administrative Accounting System S01205-003

Administrative Operating Fund Allotment Ledgers S00600-009

Administrative Proceeding Caseload System (ADM) S05300-001

Administrative Services Division Leased Wire System S00204-001

ADP Handbook - Summary of Automatic Data Processing (ADP) Program in USIA S06100-002

ADP Management Information System (ADP/MIS) S03700-001

Adult Education Surveys S00500-020

Advance Financing System S01204-005

Aeromedical Research Information S01102-002

Aeronautical Information Branch S00306-012

Liquidation and Claims System (LCS) $06500-018
Patient Treatment File (PTF) $06500-006
Pending Cases and Decisions Files (PECADS) $06500-001
Portfolio Loan Accounting Control and Evaluation (PLACE) $06500-017
Postgraduate and Inservice Training Program (PIT) $06500-004
Register of World War II and Korean War Dead $01500-001
Supply and Service Compliance Reporting System (Order 14) $00904-003
Veterans Assistance Discharge System (VADS) $06500-011
World War I Combined Directory of List of the Missing and Burials in American Military Cemeteries in Europe $01500-002

PROGRAM INDEX

Lists programs served by information sources/systems. Program names do not appear in the citations; the relationship of programs to information sources/systems may be traced through the OMB funding titles. (See OMB Funding Title/Program Table.)

Sample entry:

Program Name ——— **Assistance Contracts for Rent Supplement Payments**

Title ——— Subsidized Housing-Admissions/Continued Occupancy System (SHACO)

S00604-001 ——— Accession Number

Academic Programs
- Office of the Secretary, Direct Access Accounting System S00500-002

Adjudication of International Claims
- Budget/Fiscal System S03600-001

Adjudication of Micronesian Claims
- Budget/Fiscal System S03600-003

Administration
- Accounting System S02000-001
- BHA Case Control System Phase II (ODD) S00510-001
- Case Data System S16000-001
- Case History Files and Investigational Records Compiled for Law Enforcement Purposes S03530-004
- Chronic Renal Disease (CRD) History File S00510-008
- Congressional District Report System S00709-005
- Consumer Volunteer Participants Data Base (CVOL) S02100-009
- Contractor Administrative Cost Information System (CACIS) S00510-005
- Extended Care Facilities (ECF) Reimbursement Cost Statement Statistics S00510-003
- Federal Information Center Statistical Reporting System S03700-009
- Home Health Agency (HHA) Reimbursement Cost Statement Statistics S00510-004
- Medicare/Medicaid Auto Certification System (MMACS) S00510-006
- Motor Carrier Accident Reports System S01103-002
- Motor Carrier and Shipper Census/Identification S01103-001
- Premium Processing System S16000-002
- Produce Physician Payment Tables S00510-007
- Program Management Information System (PMIS) S00301-016
- Program Management System S30709-007
- Reimbursement Cost Statement Statistics S00510-002
- RSI Management Information System (RSI/MIS) S00510-011
- SSA Accounting System S00510-009

Administration and Coordination
- Centralized Accounting System (DAC) S07400-001
- Policy Options Study Data Analysis System (POSDOS) for Section 80(c) Study (Public Law 93-251) S07400-003

Administration and Enforcement
- Range Management Automated System S00714-012

Administration and Management
- Case History Files (Public Records) S03500-003
- Case/Project Tracking and Status (CPTS) S03500-002
- Commission Minutes S03500-011
- Financial Management System S03500-001
- Litigation Support System S03500-010

Administration and Regional Operations
- Budget and Reporting System S06300-019
- Concentration Bank Analysis Program (CBA) S06300-017
- Depot Supply Management System S06300-024
- Energy Reporting System (ERG) S06300-006
- Postal Service-wide Contract Data System S06300-002
- Project Authorization Control System (PACS) S06300-011
- Report of Serviceable Property Not Installed or Not in Use System S06300-025
- Second-Class and Controlled Circulation Publications Program S06300-023
- USPS Banking System (BKS) S06300-001
- USPS Financial Reporting System (POF) S06300-018

Administration and Research
- Budgetary Information System S01100-013
- Highway Research Information System (HRIS) S01103-004
- Highway Statistics System S01103-003
- National Highway Needs S01103-005
- Procurement Management Information System (PMIS) S01103-006
- PR-37 Project Status Record S01103-007

Administration of Airports Program
- Federal Airports Program S01102-011

Administration of Commodity Exchange Act
- Budget/Fiscal System S07800-001

Administration of Flight Standards Program
- Accident, Incident, Violation Information S01102-001
- Air Agency Information S01102-003
- Aircraft Information S01102-004
- Airman (Non-Medical) Information S01102-005
- FAA Aircraft Management Information S01102-012

Administration of Grant Programs
- Budgetary Information System S01100-013

Administration of Insurance Program
- Federal Credit Union Management Information System S04200-001

Administrative and Operating Expenses
- Bank Structure Information System S02800-001
- Report of Condition and Income System S02000-002

Summary of Accounts and Deposits System S02800-003
Trust Assets Survey Tape File S07300-004

Administrative Expenses
Accounting System S00715-002
Activity Expense and Revenue Tracking System S01106-001
Budget Formulation and Reporting System S01105-001
FCA Financial and Statistical Reports S02600-002
Financial Management System (FMS) S00715-001
Grants or GIA (Grants-In-Aid) S00715-003
Interstate Land Sales Registration System S00607-001
Management Accounting and Control System (MACS) S01105-002
Securities Accounting Subsystem S02600-001

Administrative Services
Office of the Secretary, Direct Access Accounting System S00500-002

Administrative Support
Equal Employment Opportunity Commission Library S02410-001

Administrative Support for Rural Electrification and Telephone Program
Accounting System for REA Loans, Rural Telephone Bank Loans, Federal Financing Bank Loans Guaranteed by REA, and Administrative Expenses S00203-002

Advance Acquisition of Property—Revolving Fund
Accounting System S01017-001
AID Reference Center S01017-015
Contract Online Reporting System (COORS) S01017-002
Economic and Program Data Center S01017-016
Ocean Transportation System S01017-006
Office of Contract Management Contract/Grant/Participating Agency Service Agreement (PASA) Performance and Status Report S01017-004
Participant Training Information System (PTIS) S01017-005
Program Evaluation S01017-013

Advance Planning and Construction
Financial Accounting System Via Transmission (FAST) S00716-010
Financial Statistical System S00716-012
Programming and Budgeting System S00716-011

Aeronautical Research and Technology
AIAA Technical Information Service S04100-013
NASA Library Network (NALNET) S04100-016
NASA Scientific and Technical Information System S04100-012
Research and Technology Objectives and Plans Summary S04100-002

Agricultural Conservation
ASCS Data Systems Field Office S00209-002

Aids to Navigation
Standardized Aids to Navigation Data System (SANDS) S01101-011

Aid to Tribal Government
Alaska Native Enrollment System (ANE) S00713-002

Aircraft and Related Equipment
FAA Aircraft Management Information S01102-012

Aircraft Procurement, Modification, Spare and Repair Parts, and Support Equipment and Facilities
Special Accounting and Reporting, at Processing, Accounting, and Reporting Center S00404-004

Air Traffic Control
Air Industry Data Base System S01100-015
Engineering and Development Project Management Information S01102-010
FAA Aircraft Management Information S01102-012

Alaska Native Fund
Alaska Native Enrollment System (ANE) S00713-002

Alaska Operations
Payments to Air Carriers (PAC) S01800-011
Subsidy for United States Certificated Air Carriers S01800-017

Alcoholism Management and Information
Alcoholism Treatment Program Monitoring System S00503-003
National Clearinghouse for Alcohol Information (NCALI) S00503-001

Alcohol, Tobacco, and Wagering Regulation and Enforcement
Industry Statistical Report S01210-003
Management Information System (MIS) S01210-002
Operation Report System S01210-004

All Agricultural Marketing Service Programs
ASCS Prairie Village Commodity Office S00209-001

All Agricultural Research Programs
Current Awareness Literature Service (CALS) S00213-010

All Agricultural Stabilization and Marketing Service Programs
ASCS Data Systems Field Office S00209-002

All Child Nutrition Programs
Food and Nutrition Information and Educational Materials Center (FNIC) S00217-003
School Feeding Programs Operations System S00207-006

All Commodity Credit Corporation Programs
ASCS Data Systems Field Office S00209-002
ASCS Prairie Village Commodity Office S00209-001

All Cooperative State Research Programs
Current Research Information System (CRIS) S00214-001

All Departmental Programs
Central Accounting System S00200-002
Departmental Budget System S00200-001
Planning Staff S00200-004
Program Evaluation System S00200-003

All Department Programs
Agricultural and Rural Economic and Social Information S00219-001

All Extension Service Programs
Extension Management Information System (EMIS) S00215-001

All FMCS Programs
Agency's Budget System S03200-001

All Foreign Agricultural Service Programs
Foreign Agricultural Commodity Information System S00212-001
Large Area Crop Inventory Experiment (LACIE) S00212-002

All Fund Programs
Management Information Systems S00201-001

All Grant Programs
Management Information Systems S00201-001

All Great Plains Conservation Programs
Great Plains Conservation Program (GPCP) Cost-Share Reporting S00218-002

All Operations
Corps of Engineers–Columbia River Operational Hydromet and Management System (CROHMS) S00403-021
Corps of Engineers–Inland Navigation System Analysis (INSA) S00403-019
Corps of Engineers–Inventory of Dams System S00403-018

All Projects
Corps of Engineers–Inland Navigation System Analysis (INSA) S[illegible]-019
Corps of Engineers–Inventory of Dams System S00603-018

Alterations and Major Repairs
Federal Buildings Fund Accounting System (FBF/AS) S03700-033
Public Buildings Service Information System (PBS/IS) Repair and Alteration Computer Oriented System (RACOS) Module S03700-013
Public Buildings Service Information System (PBS/IS) Status Reporting Module S03700-012

American Schools and Hospitals Abroad
Accounting System S01017-001
AID Reference Center S01017-013
Economic and Program Data Center S01017-016
Participant Training Information System (PTIS) S01017-005
Planning and Budgeting S01017-014

Analysis of Business Trends
Business Outlook Forecasting System S00316-006
Current Business Analysis Data System S00316-008
Economic Accounts of the United States S00316-001
Statistical Indicators Data System S00316-007

Animal Disease and Pest Control
Brucellosis Indemnity Claims System (FICS) S00205-001

Annual Contribution Contracts for Assisted Housing
Annual Contributions System S00600-011
HUD Master Locality File System S00600-020
Lower Income Assistance Program System (LIAPS) S00603-009
LRH Commitment Ledger System S00600-026
LRH General and Subsidiary Ledger System S00600-027
LRH Occupancy System S00604-014
LRH Security Ledger System S00600-028
Multifamily Default System S00604-011
Multifamily Early Warning System (MEWS) S00604-012
Multifamily Housing Occupancy System S00604-013
Multifamily Housing Program Management System S00603-006
Office of Loan Management System (OLMS) S00604-008
PHA Directory System S00604-009
PHA Operating Statement System S00604-010
Section 8 Management Information System S00604-004
Subsidized Housing-Admissions/Continued Occupancy System (SHACO) S00604-001
Target Project Program System (TPPS) S00604-002
Tenant Application Profile System (TAPS) S00604-003

Annuities, Refunds–Death Claims, Insurance Claims and Indemnities, Refunds
Retiree Annuitant System S[illegible]-001

Appalachian Regional Commission Administrative Expenses
ARC Project File S01600-001
Status of Funds S01600-002

Applicable services
Apprenticeship (SNAPS) S00902-003
Dictionary of Occupational Titles (DOT) S00902-008

Arbitration Services
Arbitration Case Tracking System (ARBIT) S03200-002

Archives and Related Services
Federal Register Privacy Act Index System S03700-035
Master Catalog System S03700-031
National Archives Reference Service S03700-029
Utilization System S03700-030

Arms Control and Disarmament Activities
ACDA Contract and Reimbursable Agreement Retrieval System S05800-003
Budget and Fiscal System S05800-001
Documents on Disarmament S05800-004
World Military Expenditures and Arms Transfers (WMEAT) S05800-002

Assistance Contracts for Payments
Annual Contributions System S00600-011
HUD Master Locality File System S00600-020
Lower Income Assistance Program System (LIAPS) S00603-009
LRH Commitment Ledger System S00600-026
LRH General and Subsidiary Ledger System S00600-027
LRH Occupancy System S00604-014
LRH Security Ledger System S00600-028
Multifamily Default System S00604-011
Multifamily Early Warning System (MEWS) S00604-012
Multifamily Housing Occupancy System S00604-013
Multifamily Housing Program Management System S00603-006
Office of Loan Management System (OLMS) S00604-008
PHA Directory System S00604-009
PHA Operating Statement System S00604-010
Section 8 Management Information System S00604-004
Subsidized Housing-Admissions Continued Occupancy System (SHACO) S00604-001
Target Project Program System (TPPS) S00604-002
Tenant Application Profile System (TAPS) S00604-003

Assistance Contracts for Rent Supplement Payments
Annual Contributions System S00600-011
HUD Master Locality File System S00600-020
Lower Income Assistance Program System (LIAPS) S00603-009
LRH Commitment Ledger System S00600-026
LRH General and Subsidiary Ledger System S00600-027
LRH Occupancy System S00604-014
LRH Security Ledger System S00600-028
Multifamily Default System S00604-011
Multifamily Early Warning System (MEWS) S00604-012
Multifamily Housing Occupancy System S00604-013
Multifamily Housing Program Management System S00603-006
Office of Loan Management System (OLMS) S00604-008
PHA Directory System S00604-009
PHA Operating Statement System S00604-010
Section 8 Management Information System S00604-004

Subsidized Housing-Admissions/Continued Occupancy System (SHACO) S00604-001
Target Project Program System (TPPS) S00604-002
Tenant Application Profile System (TAPS) S00604-003

Assistance to State and Local Governments
Equal Employment Opportunity Statistics on State and Local Governments Employees System S05917-002
Merit System Review of State and Local Agencies S05917-001

Assistance to States
Accounting System S00715-002
Financial Management System (FMS) S00715-001
Grants or GIA (Grants-In-Aid) S00715-003

Assistant Comptroller General for Special Programs
Congressional Information Directories S30400-006
Intergovernmental Fiscal Relations Information Systems (IFRIS) S30400-005
Legislative Authorization Program Information System (LAPIS) S30400-004

Assuring a Merit Work Force
Agency Equal Employment Evaluation System S05911-003
Automated Personnel Registers S05908-001
Central Personnel Data File (CPDF) S05915-002
Clearinghouse on Productivity and Organizational Effectiveness S05911-001
Federal Automated Career System (FACS) S05915-003
Federal Executive Assignment System (FEIS) S05915-004
Federal Personnel Management Information System (FPMIS) S05915-001
Labor Agreement Information Retrieval System (LAIRS) S05904-001
System for Evaluation of Agency Statistics S05911-002

Astronomical, Atmospheric, Earth, and Ocean Sciences
Management Information System (MIS) S04600-001

Auditing Services
Fiscal/Budget System S00722-001

Audit of Tax Returns
Audit Management Information Reporting System (AMIR) and Audit Information Management System (AIMS) S01206-011
Audit Technical Time Reporting System (ATTR) S01206-012
Taxpayer Compliance Measurement Program (TCMP) S01206-021

Automated Data Management Services
ADP Management Information System (ADP/MIS) S03701-001

Aviation Accident and Safety Investigation
Automated Aircraft Accident and Incident Information System S08300-001
Financial Management System S08300-002
Safety Recommendations Branch S08300-003
Transportation Safety Records S08300-004

Aviation Medicine
Aeromedical Research Information S01102-002
Engineering and Development Project Management Information S01102-010

Aviation Weather
Engineering and Development Project Management Information S01102-010

Awards of Operating Authority
Charter Statistics S01800-003
Commuter Air Carrier Traffic Statistics S01800-022
Commuter/Air Taxi Statistics S01800-003
Fuel Consumption and Cost Statistics S01800-002
Local Service Air Carriers' Unit Costs S01800-021
Local Service Carrier Passenger Enplanements S01800-023
Map Book S01800-015
Origin-Destination Survey of Airline Passenger Traffic S01800-024
Passengers Denied Confirmed Space S01800-019
Record of Current and Historical Data of Air Carriers S01800-016
Service Segment Statistics S01800-005
Trunkline Carrier Domestic Passenger Enplanements S01800-020

Banking and Cash Management
Advance Financing System S01204-005
Cash Management System S01204-008
The Depository System of the United States Government S01204-006
Mutilated Currency Operations S01204-007

Basic Energy Sciences
Research Materials Information Center (RMIC) S06000-049

Basic Environmental Services
National Meteorological Center (NMC) S02306-008

Benefit Payments
Beneficiary Utilization and Master File Maintenance S00510-014
BHA Case Control System Phase II (ODD) S00510-001
Black Lung Payments System S00510-016
Current Medicare Survey S00510-012
Longitudinal Retirement History Study S00510-013
Railroad Unemployment and Sickness Insurance Benefit Payment System S05100-002
Regional Rail Reorganization Act Reimbursement System S05100-004

Benefits Payments
Benefit Payment System S16000-003

Bikini Ex-gratia Payments
Fiscal/Budget System S00722-001

Biological, Behavioral, and Social Sciences
Management Information System (MIS) S04600-001

Broadcast
AM Channel Studies (BDC) S02700-026
AM Data Base Update (BAM) S02700-025
Broadcast Applications Processing System (BAPS, B-AP) S02700-027
Broadcast Ownership (BOR) S02700-030
Broadcast Station Financial Reporting (BFI) S02700-024
Equal Employment Opportunity (BEE) S02700-023
FM Data Base Update System (BFM) S02700-029
Master Log-in System (BLG) S02700-022
TV Annual Programming Data File (BPG) S02700-021
TV Data Base Update System (BTM) S02700-028

Broadcasting Services
Management Accounts Structure (MAS) S06100-001

Budget Review
The Budget of the United States Government S00110-008
The Budget of the United States Government, Appendix S00110-009
Catalog of Federal Domestic Assistance (Tape File), 1976 S00110-010
Catalog of Federal Domestic Assistance, 1976 S00110-016
Current Services Estimates S00110-001
Issues '78 S00110-012
Mid-Session Review of the Budget S00110-005
Special Analyses, Budget of the United States Government S00110-007
The United States Budget in Brief S00110-014

Building Occupancy
Depot Supply Management System S06300-024
Postal Service-wide Contract Data System S06300-002
Report of Serviceable Property Not Installed or Not in Use System S06300-025

Buildings, Utilities, and Other Facilities
General Management Plans S00710-001
Program Formulation System for Operations (PFSO) S00710-003
Program Formulation System for Planning and Development (PFSD) S00710-005
Programming and Financial Management System (PFMS) S00710-002

Burial
Compensation and Pension S06500-009

Business and Industrial Development Grants
Management Information Systems S00201-001

Business Statistics
Pension Fund Monthly System (PFM) S05301-025

Cable Television
Cable Bureau Data Management System (ADM) S02700-031

Cadastral Survey
Cadastral Survey Inventory System S00714-002

Capital Facility Grants
Budgetary Information System S01100-013

Capital Investment
Depot Supply Management System S06300-024
Postal Service-wide Contract Data System S06300-002
Project Authorization Control System (PACS) S06300-011
Report of Serviceable Property Not Installed or Not in Use System S06300-025

Cataloging and Indexing
Monthly Catalog of United States Government Publications S30500-001

Cemetery
Construction Management Information System S06500-002

Central Funding for Special Activities
Office of the Secretary, Direct Access Accounting System S00500-002

Central Supply and Maintenance, Defense Logistics Agency
Central Accounts Office Data Bank S70410-001
Defense Documentation Center (DDC) S00410-003
DLA Management Information System (MIS) S00410-002

Certificate or License Appeal
Financial Management System S00700-002

Chartering Program
Federal Credit Union Management Information System S04200-001

Check Forgery Insurance Fund
Treasury Check Claims Processing S01204-002

Child Care Food Program
Special Feeding Operation Systems S00207-005

Child Development
Grants Management Information System S00523-001

Child Welfare Services
AFDC State Plan Characteristics S00509-005
Flash Estimating System S00509-006
Microsimulation Model Development S00509-002
Senate Reporting System S00509-007
Time Series Analysis S00509-004
Update of Demographic Projections S00509-003

Civil Functions
Storehouse Inventory System S04900-003

Civilian Health and Medical Program of the Veterans Administration
Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) S06500-003

Civil Rights
Equal Employment Opportunity Information System (EEOIS) S03700-032

Civil Rights Matters
Central Civil Rights Division Index File and Associated Records S00802-001

Coal Mine Health and Safety Inspections
Civil Penalty Program (Assessments) S00717-004
Coal Mine Health and Safety Management Information System (CMHS MIS) S00717-006
Coal Mine Noise Monitoring System S00717-008
Coal Mine Respirable Dust Program System S00717-003

Collection
Collection Activity Analysis (CAA) S01206-004
Collection Time Utilization Report S01206-005
Delinquent Returns Activity Report S01206-006
Recap of Accounts Currently Not Collectible S01206-007
Taxpayer Compliance Measurement Program (TCMP) S01206-021

Collection, Assembly, and Dissemination of Technical and Legal Patent and Trademark Information
Accounting System S00308-001
Assignment Search Files S00308-013
Attorneys and Agents Registered to Practice before the U.S. Patent and Trademark Office S00308-007
Family of Foreign Patents System S00308-016

BUDGET FUNCTION INDEX

Entries are arranged by official OMB Budget Function/Subfunction codes by which Federal funds are classified. Information for this index is obtained from the last three digits of the OMB Funding codes.

Sample entry:

Budget Function ——— 600 Income Security
604 Public Assistance and Other Income Supplements

Title ——— Subsidized Housing-Admissions/ Continued Occupancy System (SHACO)

S00604-001 ——— Accession Number

050 National Defense

051 Department of Defense - Military

Automated Budget System (ABS) S00403-005
Budget Execution Plan (BEP) S00407-002

OMB FUNDING TITLE/PROGRAM TABLE

This Table identifies programs served by information sources/systems under OMB funding titles. Entries are arranged by OMB funding codes. See Program Index to locate information sources/systems serving a given program. (Program names are not included in citations describing information sources/systems.)

Sample entry:

OMB Code — 86-0129-0-1-604 — Funding Title: Rent Supplement Programs — Program Name: Assistance Contracts for Rent Supplement Payments

OMB ID Code	OMB Funding Title	Program Name
03-0127-0-1-801	Salaries and Expenses	Documentation and Status of Legislation Information and Reference Services
04-0201-0-1-806	Salaries and Expenses	Cataloging and Indexing General Sales of Publications Special Sales of Publications
05-0107-0-1-801	Salaries and Expenses	Assistant Comptroller General for Special Programs Office of the Comptroller General Office of the General Counsel
08-0100-0-1-801	Salaries and Expenses	Scorekeeping
11-0000-0-0-052	Foreign Military Assistance	All Programs
11-0039-0-1-453	Disaster Relief	All Programs
11-0300-0-1-802	Salaries and Expenses	Budget Review Management and Operations
11-0400-0-1-802	Salaries and Expenses	International Trade Negotiations Trade Policy Coordination
11-0401-0-1-802	Salaries and Expenses	All Programs
11-1005-0-1-151	International Organizations and Programs	Indus Basin Development Grants Indus Basin Development Loans Organization of American States United Nations Environment Fund United Nations Technical Assistance and Other Programs
11-1006-0-1-151	Security Supporting Assistance	Country and Regional Programs UN Forces in Cyprus
11-1013-0-1-151	American Schools and Hospitals Abroad	American Schools and Hospitals Abroad
11-1021-0-1-151	Functional Development Assistance Program	Education and Human Resources Food and Nutrition Other Development Assistance Activities Population Planning and Health Selected Countries and Organizations Selected Development Problems
11-1022-0-1-151	International Narcotics Control	Country and Interregional Programs Country Programs Country Programs International International Organization Programs Interregional Programs
11-1030-0-1-151	Indochina Postwar Reconstruction Assistance	Indochina Postwar Reconstruction Assistance

OMB ID Code	OMB Funding Title	Program Name
11-1035-0-1-151	International Disaster Assistance	International Disaster Assistance
11-1078-0-7-151	President's Foreign Assistance Contingency Fund	President's Foreign Assistance Contingency Fund
11-1079-0-1-151	Middle East Special Requirements Fund	Middle East Special Requirements Fund

GLOSSARY OF TERMS

Part I-Budgetary Terms

This part of the glossary has been prepared from the GAO Report PAD 77-9 "Terms Used in the Budgetary Process" and from instructions used in implementing the information sources and systems inventory.

The terms and definitions used in the inventory process and in the glossary have been developed in cooperation with the Department of the Treasury, the Office of Management and Budget, and the Congressional Budget Office.

These terms are published under the authority of section 202(a)(1) of the Legislative Reorganization Act of 1970 (31 U.S.C., Chapter 22), as amended by Title VIII of the Congressional Budget Act of 1974 (P.L. 93-344). The terms as defined in the Glossary shall be used by all Federal agencies in submitting fiscal, budgetary, and program-related data and information to Congress.

ACTIVITY

Any project, task, or process required to carry out a program. A combination of several activities, such as research and development, training of personnel, and distribution of information, may be elements in a particular program. Activities constituting a program vary with the nature and purpose of the program.

AGENCY

Any department, office, commission, authority, administration, board, Government-owned corporation, or other independent establishment of any branch of the Government of the United States.

AGENCY COMPONENT

A major organizational subdivision of an executive agency. For example, the Army, Navy, Air Force, and Defense Supply Agency are agency components of DOD; the Federal Aviation Administration, the Urban Mass Transportation Administration, and the Federal Highway Administration are agency components of DOT.

AGENCY MISSIONS

Those responsibilities for meeting national needs assigned to a specific agency. Agency missions are expressed in terms of the purpose to be served by the programs authorized to carry out functions or subfunctions which, by law, are the responsibility of that agency and its component organizations. (See section 201 of the Budget and Accounting Act, 1921, as amended. See also Activity and National Needs.)

APPROPRIATION

An authorization by an act of the Congress that permits Federal agencies to incur obligations and to make payments out of the Treasury for specified purposes. An appropriation usually follows enactment of authorizing legislation. An appropriation act is the most common means of providing budget authority (see Budget Authority), but in some cases the authorizing legislation itself provides the budget authority. (See Backdoor Authority.) Appropriations do not represent cash actually set aside in the Treasury for purposes specified in the appropriation act: they represent limitations of amounts which agencies may obligate during the time period specified in the respective appropriations acts. There are several types of appropriations that are not counted as budget authority, since they do not provide authority to incur additional obligations:

- Appropriation to liquid contract authority—congressional action to provide funds to pay obligations incurred against contract authority.
- Appropriation to reduce outstanding debt—congressional action to provide funds for debt retirement.
- Appropriation for refund of receipts.

APPROPRIATION ACT

An act under the jurisdiction of the Committees on Appropriations which provides funds for Federal programs. At the time these definitions were published, there were 13 regular appropriation acts. There are also enacted from time to time supplemental appropriations acts.

AUTHORIZATION (Authorizing Legislation)

Basic substantive legislation enacted by Congress which sets up or continues the legal operation of a Federal program or agency either indefinitely or for a specific period of time or sanctions a particular type of obligation or expenditure within a program. Such legislation is normally a prerequisite for subsequent appropriations or other kinds of budget authority to be contained in appropriation acts. It may limit the amount of budget authority to be provided subsequently or may authorize the appropriation of "such sums as may be necessary." In some instances budget authority may be provided in the authorization (see Backdoor Authority), which obviates the need for subsequent appropriations or requires only an appropriation to liquidate contract authority or reduce outstanding debt.

AUTHORIZING COMMITTEE

A standing committee of the House or Senate with jurisdiction over the subject matter of those laws, or parts of laws, that set up or continue the legal operations of Federal programs, agencies or particular types of obligations within programs. The authorizing committee also has spending responsibility in those instances where the budget authority ("backdoor authority") is also provided in the basic substantive legislation.

BACKDOOR AUTHORITY

Budget authority provided in legislation outside the normal (appropriations committees) appropriations process. The most common forms of backdoor authority are borrowing authority and contract authority. In other cases (e g., interest on the public debt), a permanent appropriation is provided that becomes available without any current action by the Congress. Section 401 of the Congressional Budget Act of 1974 specifies certain limits on the use of backdoor authority. Examples of accounts that have backdoor authority are the Federal-aid highways trust fund, the Environmental Protection Agency's construction grants, and the social security trust funds.

BORROWING AUTHORITY

Statutory authority (substantive or appropriation) that permits a Federal agency to incur obligations and to make payments for specified purposes out of borrowed moneys. Section 401 of the Congressional Budget Act of 1974 limits new borrowing authority (except for certain instances) to such extent or in such amounts as are provided in appropriation acts. Borrowing authority, also called "authority to borrow from the Treasury and the Public," may be one of the following types:

Authority to Borrow from the Treasury
The legislative authority to borrow funds from the Treasury that are realized from the sale of public debt securities.

Authority to Borrow from the Public
The legislative authority to sell agency debt securities.

Authority to Borrow from the Treasury and the Public
This represents a combination of the legislative authorities noted above.

BUDGET ACTIVITY

Categories included in the budget appendix for each appropriation and fund account which identify the services to be performed under the appropriation or fund for which the budget estimate (or request) is being made.

BUDGET AUTHORITY

Authority provided by law to enter into obligations which will result in immediate or future outlays involving Government funds, except that such term does not include authority to insure or guarantee the repayment of indebtedness incurred by another person or government. The basic forms of budget authority are appropriations, contract authority, and borrowing authority. Budget authority may be classified by the period of availability (1-year, multiple-year, no-year), by the timing of congressional action (current or permanent), or by the manner of determining the amount available (definite or indefinite).

CONGRESSIONAL BUDGET

The budget as set forth by Congress in a concurrent resolution of the budget. These resolutions shall include:

(1) the appropriate level of total budget outlays and of total new budget authority;

(2) an estimate of budget outlays and new budget authority for each major functional category, for contingencies and for undistributed offsetting receipts based on allocations of the appropriate level of total budget outlays and of total new budget authority;

(3) the amount, if any, of the surplus or deficit in the budget;

(4) the recommended level of Federal revenues; and

(5) the appropriate level of the public debt.

CONTRACT AUTHORITY

A form of budget authority under which contracts or other obligations may be entered into in advance of an appropriation or in excess of amounts otherwise available in a revolving fund. Contract authority must be funded by a subsequent appropriation or the use of revolving fund collections to liquidate the obligations. Appropriations to liquidate contract authority are not classified as budget authority since they are not available for obligation. Section 401 of the Congressional Budget Act of 1974 limits new contract authority, with few exceptions, to such extent or in such amounts as are provided in appropriation acts.

CROSSWALK

The expression of the relationship between one set of classifications and another, such as between appropriation accounts and authorizing legislation or between the budget functional structure and the congressional committee spending jurisdictions.

DOCUMENTATION CENTER

A repository where both hardcopy and/or microfilm and microfiche on a given subject, or subjects, are stored and distributed to users.

ENTITLEMENT AUTHORITY

Legislation that requires the payment of benefits to any person or government meeting the requirements established by such law, e.g., social security benefits and veterans' pensions. Section 401 of the Congressional Budget Act of 1974 places certain restrictions on the enactment of new entitlement authority.

FISCAL POLICY

Federal Government policies with respect to taxes, spending, and debt management, intended to promote the Nation's economic goals, particularly with respect to employment, gross national product, price level stability, and equilibrium in balance of payments. The budget process is a major vehicle for determining and implementing Federal fiscal policy.

FISCAL YEAR

Any yearly accounting period, without regard to its relationship to a calendar year. The fiscal year for the Federal Government begins on October 1 and ends on September 30. The fiscal year is designated by the calendar year in which it ends: e.g., fiscal year 1977 is the fiscal year ending September 30, 1977. (Prior to fiscal year 1977 the fiscal year began on July 1 and ended on June 30.)

Budget Year
The fiscal year for which the budget is being considered; the fiscal year following the current year.

Current Year
The fiscal year in progress.

Past Year
The fiscal year immediately preceding the current year; the last completed fiscal year.

FUNCTION (Functional Classification)

The Congressional Budget Act of 1974 requires the Congress to estimate outlays, budget authority, and tax expenditures for each function. The functional classification is a means of presenting budget authority, outlay, and tax expenditure data in terms of the principal purposes that Federal programs are intended to serve. Each account is generally placed in the single function (e.g., national defense, health) that best represents its major purpose, regardless of the agency administering the program. Functions are generally subdivided into narrower categories called subfunctions.

GOVERNMENT-SPONSORED ENTERPRISES

Enterprises with completely private ownership, such as Federal land banks and Federal home loan banks, established and chartered by the Federal Government to perform specialized functions. These enterprises are not included in the budget totals, but financial information on the operations is published in a separate part of the appendix to the President's budget.

GRANTS-IN-AID

For purposes of the budget, grants-in-aid consist of budget outlays by the Federal Government to support State or local programs of governmental service to the public. Grants do not include purchases from State or local governments (i.e., payments for research or support of Federal prisoners).

HARDCOPY

A copy that is readable without the use of a special device; can be printed computer output, reports, documents, etc.

IDENTIFICATION CODE

An 11-digit number assigned to each appropriation or fund account included in the budget. The identification code identifies the agency, the appropriation or fund account symbol, the timing of the transmittal (regular, supplemental), the type of fund (general, special), and the functional classification of each account (see Function).

INFORMATION

As used in the inventory process, refers to organized data collections (see Information Source and Information System) containing fiscal, budgetary, and program-related data.

INFORMATION NETWORK

A cooperative of libraries and/or documentation centers interconnected by mail, telephone, telecommunication, messenger, etc., for the purpose of disseminating information among and between members of the network.

INFORMATION SOURCE

For the purposes of this inventory, an information source is a major information collection and/or information dissemination facility, such as documentation centers, information analysis centers, research centers, data use and access centers, clearinghouses, regional information activities, field installations and centers, libraries, special reference collections and information networks, operated by or for the agency in support of its program(s) and mission responsibilities identified in the *Budget of the United States Government*.

INFORMATION SYSTEM

For the purpose of this inventory, an information system is an organized collection of data processed in accordance with defined procedures (automated and/or manual) that generate recurring outputs containing budgetary, fiscal, social, economic, scientific-technical and/or program-related data and information operated in support of agency programs and management responsibilities identified in the *Budget of the United States Government*.

MAJOR SYSTEMS

Major systems are those that (1) are directed at and critical to fulfilling an agency mission, (2) entail the allocation of large dollar resources, and (3) warrant special management attention. Further, in classifying a system as major, consideration should be given to the relative importance of its output to (1) supporting agency heads in their policy decisionmaking process and (2) assisting agency or agency component heads in responding to external requirements *for information*, such as the President, Congress, GAO, CBO, OMB, and Treasury.

Examples are as follows:

- Management information systems which are used in support of agency activities (mission support).
- Program and/or project management systems concerned with the management of agency resources and functions.
- Administrative management systems used for budgeting, accounting, procurement, contracts and grants management, and agency or bureauwide administration.
- Agency and/or bureauwide analytical, planning, and forecasting systems.
- Bibliographic data systems.
- Data bases, models (forecasting, simulation, and decisionmaking), and data files generated through agency programs.

MICROFILM

A film bearing a photographic record of printed or other graphic matter on a reduced scale.

MICROFICHE

A sheet of microfilm containing rows of microimages of pages of printed or other graphic matter.

NATIONAL NEEDS

Those Federal functions which describe the end purposes being served by budget authority, outlays, and tax expenditures, without regard to the means that may be chosen to meet those purposes. National needs, in current budgetary usage, may be assumed to be synonymous with "function."

OBJECT CLASSIFICATION

A uniform classification identifying the transactions of the Federal Government by the nature of the goods or services purchased (such as personnel compensation, supplies and materials, or equipment) without regard to the agency involved or the purpose of the programs for which they are used. (General instructions are provided in OMB Circular No. A-12.)

OBLIGATIONS

Amounts of orders placed, contracts awarded, services rendered, or other commitments made by Federal agencies during a given period, which will require outlays during the same or some future period. (See 31 USC 200.)

OFF-BUDGET FEDERAL ENTITIES

Entities, federally owned in whole or in part, whose transactions have been excluded from the budget totals under provisions of law, e.g., the Federal Financing Bank. The fiscal activities of these entities are not included in either budget authority or outlay totals, but are presented in a separate part of the budget appendix and as memorandum items in various tables in the budget.

OUTLAYS

The amount of checks issued, interest accrued on most of the public debt, or other payments by the Government less refunds and reimbursements due the Government. Total budget outlays consist of the sum of the outlays from appropriations and funds included in the unified budget, less offsetting receipts. The outlays of off-budget Federal entities are excluded from the unified budget under provisions of law, even though these outlays are part of total Government spending. Federal outlays are recorded on the "cash basis of accounting"—with the exception of most interest on the public debt, for which the "accrual basis of accounting" is used.

OVERSIGHT COMMITTEE

The congressional committee charged with general oversight of the operation of an agency or program. In some, but not all, cases the oversight committee for an agency also is the authorizing committee for that agency's programs.

PRESIDENT'S BUDGET

The budget for a particular fiscal year transmitted to the Congress by the President in accordance with the Budget and Accounting Act of 1921, as amended. Some elements of the budget, such as the estimates for the legislative branch and the judiciary, are required to be included without review by the Office of Management and Budget or approval by the President.

PROGRAM

Generally defined as an organized set of activities directed toward a common purpose, objective, or goal undertaken or proposed by an agency in order to carry out responsibilities assigned to it. In practice, however, the term "program" has many usages and thus does not have a well-defined standardized meaning in the legislative process. "Program" has been used as a description for agency missions, activities, services, projects, and processes.

PROJECTIONS

Estimates of budget authority, outlays, receipts, or other budget amounts that extend several years into the future. Projections generally are intended to indicate the budgetary implications of continuing current or currently proposed programs and legislation for an indefinite period of time. These include alternative program and policy strategies and ranges of possible budget amounts. They generally should not be regarded as firm estimates of what actually will occur in future years nor as recommendations regarding future budget decisions.

SCOREKEEPING

A procedure used by the Congressional Budget Office for up-to-date tabulations and reports of congressional budget actions on bills and resolutions providing new budget authority and outlays and changing revenues and the public debt limit for a fiscal year. Such reports shall include, but not be limited to, status reports on the effects of these congressional actions to date and of potential congressional actions, and comparisons of these actions to targets and ceilings set by Congress in the budget resolutions. Periodic scorekeeping reports are required by section 308(b) of the Congressional Budget Act of 1974.

SCORPIO (Subject-Content Oriented Retriever for Processing Information On-Line)

An automated information retrieval language allowing users a variety of options in framing queries for terminal insertion and receiving displayed or printed responses. (A wide variety of legislative files are available on this system through the Congressional Research Service of the Library of Congress.)

SPENDING AUTHORITY

As defined by the Congressional Budget Act of 1974, a collective designation for borrowing authority, contract authority, and entitlement authority, for which the budget authority is not provided in advance by appropriation acts. These are also commonly referred to as backdoor authority. (See Backdoor Authority.)

SPENDING COMMITTEES (Spending Responsibility)

The standing committees of the House and Senate with jurisdiction over legislation that permits the obligation of funds. For most programs, the Appropriations Committees are the spending committees. For other programs the authorizing legislation itself permits the obligation of funds (backdoor authority), in which case the authority committees are then the committees with spending responsibility.

SPENDING LEGISLATION (Spending Bill)

A term used in budget scorekeeping to indicate legislation that directly provides budget authority or outlays. The term includes (1) appropriations legislation; (2) legislation that provides budget authority directly without the need for subsequent appropriations action; and (3) entitlement legislation which, while requiring subsequent appropriations action, essentially "locks in" budget authority at the time of authorization (except legislation which establishes conditional entitlements, where recipients are entitled to payments only to the extent that funds are made available in subsequent appropriations legislation).

Part II—Systems Terms

This part of the glossary is designed to provide a basis of definition for selected terms in the areas of information sources, systems, and automatic data processing. These definitions were originally contained in a Federal Information Processing Standards Publication (FIPS PUB 11), published by the American National Standards Institute, Inc., 1970 and adopted by the National Bureau of Standards. The selection of terms has been limited to those utilized most frequently in the inventory process.

AUTOMATIC DATA PROCESSING (ADP)

(1) Data processing largely performed by automatic means.

(2) By extension, the discipline which deals with methods and techniques related to data processing performed by automatic means.

(3) Pertaining to data processing equipment such as electrical accounting machines and electronic data processing equipment.

COMPUTER

A data processor that can perform substantial computation, including numerous arithmetic or logic operations, without intervention by a human operator during the run.

DATA

(1) A representation of facts, concepts, or instructions in a formalized manner for communication, interpretation, or processing by humans or automatic means.

(2) Any representations such as characters or analog quantities to which meaning is or might be assigned.

DATA BANK

A comprehensive collection of libraries of data. For example, one line of an invoice may form an item, a complete invoice may form a record, a complete set of such records may form a file, the collection of inventory control files may form a library, and the libraries used by an organization are known as its data bank.

FILE

A collection of related records treated as a unit. For example, one line of an invoice may form an item, a complete invoice may form a record, the complete set of such records may form a file, the collection of inventory control files may form a library, and the libraries used by an organization are known as its data bank.

FILE MAINTENANCE

The activity of keeping a file up to date by adding, changing, or deleting data.

INDEX

(1) An ordered reference list of the contents of a file or document together with keys or reference notations for identification or location of those contents.

(2) To prepare a list as in (1).

(3) A symbol or a numeral used to identify a particular quantity in an array of similar quantities. For example, the terms of an array represented by $X_1, X_2, \ldots, X_{100}$ have the indexes $1, 2, \ldots, 100$ respectively.

INFORMATION RETRIEVAL

The methods and procedures for recovering specific information from stored data.

INPUT

(1) Pertaining to a device, process, or channel involved in the insertion of data or states, or to the data or states involved.

(2) One, or a sequence of, input states.

(3) Same as input device, input channel, input process, or input data.

INPUT/OUTPUT

Pertaining to either input or output, or both.

MAGNETIC TAPE

(1) A tape with a magnetic surface on which data can be stored by selective polarization of portions of the surface.

(2) A tape of magnetic material used as the constituent in some forms of magnetic cores.

OUTPUT

(1) Pertaining to a device, process, or channel involved in an output process, or to the data or states involved.

(2) One, or a sequence of, output states.

(3) Same as output device, output channel, output process, or output data.

SOFTWARE

A set of computer programs, procedures, and possibly associated documentation concerned with the operation of a data processing system, e.g., compilers, library routines, manuals, circuit diagrams.

STORAGE

(1) Pertaining to a device into which data can be entered, in which they can be held, and from which they can be retrieved at a later time.

(2) Loosely, any device that can store data.

(3) Synonymous with memory.

TERMINAL

A point in a system or communication network at which data can either enter or leave.

TIME SHARING

Pertaining to the interleaved use of the time of a device.

☆ U.S. GOVERNMENT PRINTING OFFICE: 1977—261-663/7
